HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Calcutta, the 27th March, 1899.

No. 691.—Under the provisions of section 9 of the Statute 24 and 25 Victoria, Cap. 67, the Governor General in Council is pleased to direct that His Excellency's Council shall assemble at Simla in the jurisdiction of the Lieutenant-Governor of the Punjab.

MEDICAL.

The 28th March, 1899.

No. 5[illegible].—The services of Captain C. G. Spencer, M.B., F.R.C.S., R.A.M.C., are re-placed at the disposal of the Military Department, with effect from the 26th March 1899.

Simla, the 30th March, 1899.

No. 542.—The services of Captain R. C. MacWatt, M B., I.M.S., 7th Bengal Cavalry, are placed temporarily at the disposal of the Government of the North-Western Provinces and Oudh for employment on plague duty.

SANITARY.

Plague.

Calcutta, the 27th March, 1899.

No. 1233.—The following letter from the Consul for the Netherlands, Calcutta, is published for general information :

No. 397, dated Calcutta, the 15th March, 1899.

From—The Consul for the Netherlands,

To—The Secretary to the Government of India, Foreign Department.

I have the honour to inform you that the Netherland Indian Government have declared Calcutta infected with plague from the 8th February last.

For vessels arriving from or having touched at Calcutta, quarantine is prescribed until 10 days have passed since their departure from that port, or the end of the last plague case on board.

The importation in Netherlands India of the following articles coming from or having been transhipped at Calcutta, is temporarily prohibited, *viz.*, carpets and used embroidery, unless transported as luggage or in consequence of a change of habitation, rags, raw wool, and hair, hides, fresh offall, claws, hoofs and manes.

The 28th March, 1899.

No. 1244.—Whereas the Governor General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Uchchangidurgam in the Harpanahalli Taluk of the Bellary District of the Madras Presidency, if pilgrims or other persons from the Bombay Presidency and the Mysore State are permitted to assemble at that place on the occasion of the ensuing Uchchangamma festival:

In exercise of the powers conferred by section 2, sub-section (*1*), of the Epidemic Diseases Act (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Ranibennur, Chalgeri, Harihar, Davangere and Tolahunse on the Southern Mahratta Railway, shall be sold from the 4th to the 15th April 1899 (both days inclusive) within the Bombay Presidency and the Mysore State to any pilgrim or other person intending or believed to be intending to proceed on pilgrimage to the Uchchangamma festival at Uchchangidurgam.

Simla, the 29th March, 1899.

No. 1282.—Whereas the Governor General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Benares in the Benares Division of the North-Western Provinces and Oudh, if pilgrims or other persons from the Bombay Presidency, excluding Sind, with the exception of Karachi, the Province of Bengal, and certain portions of the Jullundur District in the Punjab are permitted to assemble at that place on the occasion of the ensuing *Barne* fair :

In exercise of the powers conferred by section 2, sub-section (*1*), of the Epidemic Diseases Act (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Benares Cantonment, Kashi and Moghal Serai, on the Oudh and Rohilkund and East Indian Railways, shall be sold from the 2nd to the 10th April 1899 (both days inclusive) within the Bombay Presidency, excluding Sind, with the exception of Karachi, the Province of Bengal, and the Punjab at any railway station between Bias and Ludhiana, both inclusive, or other stations at which special punch-marked tickets are now being issued, to any pilgrim or other person intending or believed to be intending to proceed on pilgrimage to the *Barne* fair at Benares.

The 30th March, 1899.

No. 1289.—Whereas the Governor General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Spiperumthusur Conjeeveram in the Chingleput District of the Madras Presidency, if pilgrims or other persons from the Bombay Presidency and the Hyderabad and Mysore States are permitted to assemble at that place on the occasion of the ensuing Brahmotsvan festival of Sribhashyakara-Swami:

In exercise of the powers conferred by section 2, sub-section (*1*), of the Epidemic Diseases Act (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Arkonam Junction, Mosur, Chinnammapet, Manur, Kadambattur, Tiruvallur, Sevvapet Road, Tinnanur, Avadi, Palur, Conjeeveram, Walajabad, Villiyampakkam, Chingleput, Singaperumalkoyil, Guduvancheri, Vandalur, Pallavaram and St. Thomas' Mount, on the Madras and South Indian Railways, shall be sold from the 1st to the 16th April 1899 (both days inclusive) within the Bombay Presidency and the Hyderabad and Mysore States to any pilgrim or other person intending or believed to be intending to proceed on pilgrimage to the Brahmotsvan festival of Sribhashyakara-Swami.

JUDICIAL.

The 30th March, 1899.

No. 497.—The Honourable Mr. C. A. Wilkins, Superintendent and Remembrancer of Legal Affairs, Bengal, took his seat as an officiating Judge of the High Court of Judicature at Fort William in Bengal on the 24th March 1899.

A. H. L. FRASER,

Offg. Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Fort William, the 27th March, 1899.

No. 484-*G*.—The following notification, which appeared in the *London Gazette*, dated the 21st February, 1899, is republished for general information :

India Office, January 6, 1899.

THE QUEEN has been graciously pleased to confer the decoration of the Imperial Order of the Crown of India on—

Mary Victoria, Lady Curzon of Kedleston, wife of the Right Honourable George Nathaniel, Lord Curzon of Kedleston, Viceroy and Governor-General of India.

The 28th March, 1899.

No. 486-*G*.—During the absence of the Governor-General in Council from Calcutta, the Under Secretary to the Government of Bengal in the Judicial, Political, and Appointment Departments, will hold charge of that portion of the Foreign Department which is left in Calcutta.

Simla, the 30th March, 1899.

No. 492-*G*.—Major W. H. M. Stewart, Indian Staff Corps, a Political Agent of the 3rd (officiating 2nd) class, is appointed to officiate, temporarily, as an additional Political Agent of the 1st class and Political Agent in Kotah, with effect from the 17th March 1899, and during the absence on privilege leave of Captain W. C. R. Stratton, or until further orders.

The 31st March, 1899.

No. 494-*G.*—The following changes are made in the graded list of the Political Department:

Consequent on the grant of furlough to Major H. A. Deane, C.S.I., Indian Staff Corps, an Additional Resident of the 2nd class, and with effect from the 1st March 1899—

Mr. C. H. A. Hill, of the Indian Civil Service, a Political Agent of the 2nd class, to officiate as a Political Agent of the 1st class.

Major G. F. Chenevix Trench, Indian Staff Corps, a Political Agent of the 3rd class, to officiate as a Political Agent of the 2nd class.

Mr. H. Jowers, of the Indian Civil Service, an officiating Political Assistant of the 1st class, to officiate as a Political Agent of the 3rd class.

Captain R. B. Berkeley, Indian Staff Corps, an officiating Political Assistant of the 2nd class, to officiate as a Political Assistant of the 1st class.

Lieutenant A. B. Dew, Indian Staff Corps, a Political Assistant of the 3rd class, to officiate as a Political Assistant of the 2nd class.

Consequent on the services of Captain A. LeMesurier, Indian Staff Corps, a Political Assistant of the 3rd (officiating 2nd) class, being placed temporarily at the disposal of the Bengal Government, and with effect from the 7th March 1899—

Lieutenant C. B. Winter, Indian Staff Corps, a Political Assistant of the 3rd class, to officiate as a Political Assistant of the 2nd class.

Consequent on the appointment of Captain C. Archer, Indian Staff Corps, a Political Agent of the 3rd class, to officiate as a Political Agent of the 2nd class, and with effect from the 15th March 1899—

Major G. F. Chenevix Trench, Indian Staff Corps, an officiating Political Agent of the 2nd class, reverts to his substantive grade of Political Agent of the 3rd class.

Mr. H. Jowers, of the Indian Civil Service, an officiating Political Agent of the 3rd class, reverts to officiating Political Assistant of the 1st class.

Captain R. B. Berkeley, Indian Staff Corps, an officiating Political Assistant of the 1st class, reverts to officiating Political Assistant of the 2nd class.

Lieutenant C. B. Winter, Indian Staff Corps, an officiating Political Assistant of the 2nd class, reverts to his substantive grade of Political Assistant of the 3rd class.

Consequent on the seconding of Captain J. R. C. Colvin, Indian Staff Corps, a Political Agent of the 3rd (officiating 2nd) class, and with effect from the 26th March 1899—

Major G. F. Chenevix Trench, Indian Staff Corps, a Political Agent of the 3rd class, to officiate as a Political Agent of the 2nd class.

No. 495-*G.*—The following substantive promotions and appointment are made in and to the graded list of the Political Department consequent on the seconding of Captain J. R. C. Colvin, Indian Staff Corps, a Political Agent of the 3rd class, and with effect from the 26th March 1899—

Captain F. W. P. Macdonald, Indian Staff Corps, a Political Assistant of the 1st class, to be a Political Agent of the 3rd class.

Captain S. F. Bayley, Indian Staff Corps, a Political Assistant of the 2nd class, to be a Political Assistant of the 1st class.

Mr. R. B. Hughes, of the Indian Civil Service, to be a Political Assistant of the 2nd class.

These arrangements are made without prejudice to superior acting appointments held by any of the above-mentioned officers on the date specified.

No. 496-*G.*—With effect from the 1st April 1899 the graded list of the Political Department will be re-organised as indicated below:

(i) The appointment of Agent to the Governor-General of India in Khorassan and Seistan, which has hitherto been an Additional Residency of the 2nd class, will be classed as an ordinary Residency of the 2nd class.

(ii) The number of appointments of Resident of the 2nd class will, for the present, be fifteen; but ultimately thirteen, when Colonel H. A. Vincent and Major H. A. Deane, C.S.I., who were appointed Additional Residents of the 2nd class, have been absorbed into the regular establishment. Eight appointments of Resident of the 2nd class will be localised, and the pay will be as marginally indicated. The remaining appointments, in which the pay will be Rs. 2,000 a month, will not be localised.

	Monthly pay. Rs.
Resident in Kashmir	2,750
" at Baroda	2,500
Political Resident in the Persian Gulf	2,500
" " Turkish Arabia	2,500
Resident in Nepal	2,250
General Superintendent of Operations for the Suppression of Thagi and Dakaiti	2,250
Revenue and Judicial Commissioner in Baluchistan ...	2,250
Resident at Gwalior	2,250

(iii) A new grade of Political Agents on pay of Rs. 1,800 a month will be created. There will be four appointments in this grade.

(iv) The existing grades of Political Agent of the 1st class on pay of Rs. 1,500, of the 2nd class on pay of Rs. 1,200, and of the 3rd class on pay of Rs. 1,000 a month will be retained; but will be re-numbered as the 2nd, 3rd and 4th class of Political Agents, respectively. The appointments in the (new) 2nd class will be six until Colonel Vincent and Major Deane have been absorbed into the establishment of 2nd class Residents, and thereafter eight. In the (new) 3rd class there will be eight appointments, and in the (new) 4th class ten. The appointments of additional Political Agent of the 1st class will be abolished; but the Political Agent posted to the Eastern Rajputana States will, until further orders, receive a net pay of Rs. 2,000. Officers posted to other appointments hitherto classed as additional Agencies will receive pay or salary according to their grading in the Department.

(v) The existing grades of Political Assistant of the 1st class on Rs. 800, of the 2nd class on Rs. 600, and of the 3rd class on Rs. 500 a month will be maintained. The establishment will be eight Assistants of the 1st class, nine Assistants of the 2nd class, and twenty-four (temporarily twenty-seven) Assistants of the 3rd class.

2. Subject to re-numbering of the grades of Political Agent and to the abolition of the appointments of Additional Political Agent of the 1st class, all officers retain their present substantive positions, unless or until otherwise ordered.

3. The re-organisation is intended to improve prospects in the department as a whole, and to assimilate generally the salaries of covenanted civilians to those obtaining in the different provinces; it is not possible, however, to ensure that the salary of each individual covenanted civilian in the Political Department shall be equal to the salaries of his contemporaries in his own province.

4. The standard aimed at is a Department including at least twenty covenanted civilians, of whom twelve should be in appointments carrying substantive pay of Rs. 1,200 a month or upwards, and the remainder in less highly paid posts. The intention is that, as a matter of practice, promotion, both substantive and officiating, should, when a fair distribution of civilian and military members of the department has been secured, go to civilians in the line of a civilian and to military men in the line of a military man. The Government of India, however, reserve to themselves absolute discretion as to the actual grant of promotion, whether substantive or officiating. The Government of India also reserve full discretion to fill vacancies by introducing men from any branch of the public service.

No. 497-*G.*—With reference to the immediately preceding notification, the following substantive promotions and appointments are made, with effect from the 1st April 1899:

Lieutenant-Colonel H. M. Temple, Indian Staff Corps, an Additional Resident of the 2nd class and Agent to the Governor-General of India for Khorassan and Seistan, to be a Resident of the 2nd class.

Lieutenant-Colonel Sir G. S. Robertson, K.C.S.I., Indian Medical Service (*Bengal*), Major H. L. Ramsay, Indian Staff Corps, Lieutenant-Colonel C. W. Ravenshaw, Indian Staff Corps, and Mr. E. G. Colvin, of the Indian Civil Service, to be Political Agents of the 1st class.

Captain A. H. McMahon, C.S.I., C.I.E., Indian Staff Corps, Major C. Herbert, Indian Staff Corps, Mr. A. L. P. Tucker, of the Indian Civil Service, and Mr. A. Williams, of the Indian Civil Service, to be Political Agents of the 2nd class.

Mr. H. V. Cobb, of the Indian Civil Service, and Captain A. F. Pinhey, Indian Staff Corps, to be Political Agents of the 3rd class.

Mr. O. V. Bosanquet, of the Indian Civil Service, to be Under-Secretary to the Government of India in the Foreign Department.

Captain L. Impey, Indian Staff Corps, to be a Political Agent of the 4th class.

No. 498-*G.*—The following officiating promotions and appointments are ordered, with effect from the 1st April 1899:

Lieutenant-Colonel A. M. Muir, Indian Staff Corps, and Messrs. H. V. Cobb, of the Indian Civil Service, and C. H. A. Hill, of the Indian Civil Service, to officiate as Political Agents of the 1st class.

Mr. O. V. Bosanquet, of the Indian Civil Service, and Captains W. C. R. Stratton, Indian Staff Corps (on privilege leave), and A. F. Pinhey, Indian Staff Corps, to officiate as Political Agents of the 2nd class.

Captain C. H. Pritchard, Indian Staff Corps, and Mr. W. E. Jardine, of the Indian Civil Service, to officiate as Political Agents of the 3rd class.

Messrs. H. Jowers, of the Indian Civil Service, and R. B. Hughes, of the Indian Civil Service, to officiate as Political Agents of the 4th class.

Captain A. McConaghey, Indian Staff Corps, to officiate as a Political Assistant of the 1st class.

All other officiating appointments remain as already notified, subject to the re-numbering of the classes of Political Agents as explained in Notification No. 496-G. of this date.

W. J. CUNINGHAM,
Secretary to the Government of India.

PUBLIC WORKS DEPARTMENT.

NOTIFICATIONS.

Simla, the 23rd March, 1899.

No. 120.—In exercise of the powers conferred by section 135 of the Indian Railways Act, IX of 1890, the Governor General in Council is pleased to declare that the Madras Railway Company, as the working agency of the Washermenpet-Ennur Section of the Bezwada-Madras Railway, shall be liable to pay, in aid of the funds of the Tiruvottiyur Union, under the Saidapet Taluk Board, in the Chingleput District, a house tax, under the provisions of the Madras Local Boards Act, V of 1884, in respect of the Permanent Railway Buildings situated within the limits of the said Union.

The 24th March, 1899.

No. 124.—Mr. C. V. Lloyd, Executive Engineer, 3rd Grade, State Railways, whose services were lent to the Burma Railways Company, Limited, is, on return from leave, posted to the Establishment under the Director of Railway Construction for employment on the North Western Railway.

No. 125.—Colonel M. C. Brackenbury, C.S.I., R.E., Manager, North Western Railway, is granted furlough under Article 340 of the Civil Service Regulations, with effect from the 22nd April 1899, or such subsequent date as he may avail himself of it, up to the afternoon of the 19th September 1899.

The 28th March, 1899.

No. 127.—In exercise of the powers conferred by section 135 of the Indian Railways Act, IX of 1890, the Governor General in Council is pleased, under clause 1 of that section to declare that the Administration of the East Coast Railway shall be liable to pay in aid

of the funds of the Unions of Samalkot, Pithapuram and Tuni under the Cocanada Taluk Board in the Godavari district, and Ichchhapuram and Chatrapur under the Berhampore Taluk Board, in the Ganjam district, a house tax under the provisions of the Madras Local Boards Act, V of 1884, in respect of the railway buildings situated within the limits of the said Unions.

The 29th March, 1899.

No. 129.—Mr. J. Woodside, Executive Engineer, 3rd Grade, State Railways, has been granted, by Her Majesty's Secretary of State for India, extraordinary leave on Medical Certificate without pay, for six months, in further extension of that published in Public Works Department Notification No. 447, dated the 5th October 1898.

No. 133.—The Governor General in Council is pleased to sanction under section 16 (1) of the Indian Railways Act (IX) of 1890, the use of locomotive engines and of rolling stock to be drawn or propelled thereby on the Ranaghat-Krishnagar Steam Tramway.

The 30th March, 1899.

No. 134.—Mr. E. Lund, Examiner, Public Works Accounts, Assam, officiated as Government Examiner of Accounts, Assam-Bengal Railway, in addition to his own duties, from the 15th February to the 21st March 1899, inclusive.

The 29th March, 1899.

No. 130.—The following is published for general information:

No. 238 R.T., dated Simla, the 23rd March, 1899.

RESOLUTION—By the Government of India, Public Works Department.

General Rules of 1895 for working railways open for traffic.

Read—

Section 47 of the Indian Railways Act, 1890.

Government of India, Public Works Department, notification No. 118, dated the 21st March 1895, publishing—in Part I of the *Gazette of India* of the 23rd March 1895—the Government of India circular No. 6 Railway, dated the 12th March 1895, and the General Rules therewith promulgated for all open lines of railway in British India administered by the Government.

Government of India, Public Works Department, notification No. 257, dated the 28th May 1896, publishing—in Part I of the *Gazette of India* of the 30th May 1896—the Government of India circular No. 3 Railway, dated the 22nd May 1896, and the amended rules therewith promulgated.

Government of India, Public Works Department, notification No. 55, dated the 5th February 1897, publishing—in Part I of the *Gazette of India* of the 6th February 1897—the Government of India circular No. 3 Railway, dated the 3rd February 1897, and the addenda and corrigenda therewith promulgated.

Government of India, Public Works Department, notification No. 3, dated the 5th January 1898, publishing—in Part I of the *Gazette of India* of the 8th January 1898—the Government of India circular No. 12 Railway, dated the 9th December 1897, and the addenda and corrigenda to Appendix B to Part II of the General Rules therewith promulgated.

Government of India, Public Works Department, notification No. 4, dated the 6th January 1898—published in Part I of the *Gazette of India* of the 8th January 1898—appointing the Director of Railway Traffic and Deputy Secretary to the Government of India, Public Works Department, Railway Branch, as the officer who, in the case of a railway administered by Government, is to make general rules.

Government of India, Public Works Department, notification No. 32, dated the 28th January 1898, publishing—in Part I of the *Gazette of India* of the 29th January 1898—the Government of India resolution No. 84 R.T., dated the 25th January 1898, sanctioning the adoption on the railways worked by the Bengal and North-Western and Oudh and Rohilkhand railway administrations of an amended rule No. 110 of Part I of the General Rules referred to.

Government of India, Public Works Department, notification No. 104, dated the 10th March 1898, publishing—in Part I of the *Gazette of India* of the 12th March 1898—the Government of India circular No. 1 Railway, dated the 3rd March 1898, and the modification therewith promulgated of rule III, Appendix A to Part II of the General Rules.

Government of India, Public Works Department, notification No. 134, dated the 23rd March 1898, publishing—in Part I of the *Gazette of India* of the 26th March 1898—the Government of India circular No. III Railway, dated the 15th March 1898, and the amended rules 231 and 232 of Part I therewith promulgated.

Government of India, Public Works Department, notification No. 418, dated the 13th September 1898, publishing—in Part I of the *Gazette of India* of the 17th September 1898—the Government of India resolution No. 961 R. T., dated the 5th September 1898, sanctioning the adoption on such portions of the North Western railway and of the railways worked by it as are situate in British territory of the amended rule No. 110 of Part I of the open line General Rules read above.

Letter from the Director of Railway Traffic, No. 187 R. T., dated the 7th March 1899.

OBSERVATIONS.—The Director of Railway Traffic has applied that the General Rules for working open lines of railway in British India, which have been published under the Government of India, Public Works Department, notification No. 118, dated the 21st March 1895 (*vide* the *Gazette of India* of the 23rd March 1895), as modified by the Government of India circulars Nos. 3 Railway, dated the 22nd May 1896, 3 Railway, dated the 3rd February 1897, 12 Railway, dated the 9th December 1897, 1 Railway, dated the 3rd March 1898, and III Railway, dated the 15th March 1898, and resolution No. 84 R. T., dated the 25th January 1898, which were published under Public Works Department notifications Nos. 257, dated the 28th May 1896, 55, dated the 5th February 1897, 3, dated the 5th January 1898, 104, dated the 10th March 1898, 134, dated the 23rd March 1898, and 32, dated the 28th January 1898 (*vide* the *Gazette of India* of the 30th May 1896, 6th February 1897, 8th January 1898, 12th March 1898, 26th March 1898, and 29th January 1898), may be made applicable to the Narwana-Kaithal branch of the Southern Punjab railway.

RESOLUTION.—The Governor General in Council is pleased to sanction the application of the General Rules which may, for the time being and hereafter from time to time, be in force on the North Western (State) railway, to such portions of the Narwana-Kaithal branch of the Southern Punjab railway as are situate in British territory, with effect from the date of opening of the said branch for the public carriage of passengers, animals or goods.

ORDER.—Ordered that this resolution be published under a notification in Part I of the *Gazette of India* as required by section 47, sub-section (3), of the Indian Railways Act, 1890; also that the General Rules cited in the foregoing observations be kept at railway stations as directed by sub-section (6) of the same section.

Ordered, also, that this resolution be communicated to the Manager, North Western (State) railway, for information and guidance.

No. 132.—The following is published for general information:

No. 263 R. T, dated Simla, the 28th March, 1899.

RESOLUTION—By the Government of India, Public Works Department.

General Rules of 1895 for working open lines of railway in British India.

Read—

Section 47 of the Indian Railways Act, 1890.

Government of India, Public Works Department, notification No. 118, dated the 21st March 1895, publishing—in Part I of the *Gazette of India* of the 23rd March 1895—the Government of India circular No. 6 Railway, dated the 12th March 1895, and the General Rules therewith promulgated for all open lines of railway in British India administered by the Government.

Government of India, Public Works Department, notification No. 257, dated the 28th May 1896, publishing—in Part I of the *Gazette of India* of the 30th May 1896—the Government of India circular No. 3 Railway, dated the 22nd May 1896, and the amended rules therewith promulgated.

Government of India, Public Works Department, notification No. 55, dated the 5th February 1897, publishing—in Part I of the *Gazette of India* of the 6th February 1897—the Government of India circular No. 3 Railway, dated the 3rd February 1897, and the addenda and corrigenda therewith promulgated.

Government of India, Public Works Department, notification No. 3, dated the 5th January 1898, publishing—in Part I of the *Gazette of India* of the 8th January 1898—the Government of India circular No. 12 Railway, dated the 9th December 1897, and the addenda and corrigenda to Appendix B, Part II, of the rules therewith promulgated.

Government of India, Public Works Department, notification No. 32, dated the 28th January 1898, publishing—in Part I of the *Gazette of India* of the 29th January 1898—the Government of India resolution No. 84 R. T., dated the 25th January 1898, sanctioning the adoption on the railways worked by the Bengal and North-Western and Oudh and Rohilkhand railway administrations of an amended rule No. 110 of Part I of the General Rules referred to.

Government of India, Public Works Department, notification No. 104, dated the 10th March 1898, publishing—in Part I of the *Gazette of India* of the 12th March 1898—the Government of India circular No. 1 Railway, dated the 3rd March 1898, and the modification therewith promulgated of rule III, Appendix A of the rules.

Government of India, Public Works Department, notification No. 134, dated the 23rd March 1898, publishing—in Part I of the *Gazette of India* of the 26th March 1898—the Government of India circular No. III Railway, dated the 15th March 1898, and the amended rules 231 and 232 of Part I, therewith promulgated.

Letter No. 500, dated the 15th March 1899, from the Managing Agents of the Ranaghat-Krishnagar Tramways Company, Limited.

OBSERVATIONS.—The Managing Agents of the Ranaghat-Krishnagar Tramways Company, Limited, have applied that the General Rules for working open lines of railway in British India, which have been published under the Government of India, Public Works Department, notification No. 118, dated the 21st March 1895 (*vide* the *Gazette of India* of the 23rd March 1895), as modified by the Government of India circulars Nos. 3 Railway, dated the 22nd May 1896, 3 Railway, dated the 3rd February 1897, 12 Railway, dated the 9th December 1897, 1 Railway, dated the 3rd March 1898, and III Railway, dated the 15th March 1898, and resolution No. 84 R. T., dated the 25th January 1898, which were published under Public Works Department notifications Nos. 257, dated the 28th May 1896, 55, dated the 5th February 1897, 3, dated the 5th January 1898, 104, dated the 10th March 1898, 134, dated the 23rd March 1898, and 32, dated the 28th January 1898 (*vide* the *Gazette of India* of the 30th May 1896, 6th February 1897, 8th January 1898, 12th March 1898, 26th March 1898, and 29th January 1898), may be made applicable to the Ranaghat-Krishnagar Steam Tramway.

RESOLUTION.—The Governor General in Council is pleased to sanction the application of the General Rules cited in the foregoing observations to the Ranaghat-Krishnagar Steam Tramway.

ORDER.—Ordered that this resolution be published under a notification in Part I of the *Gazette of India* as required by section 47, sub-section (3), of the Indian Railways Act, 1890; also that the General Rules cited in the foregoing observations be kept at railway stations as directed by sub-section (6) of the same section.

Ordered, also, that this resolution be communicated to the Government of Bengal, the Senior Government Inspector of Railways, Calcutta, and the Managing Agents of the Ranaghat-Krishnagar Tramways Company, Limited, for information and guidance.

The 30th March, 1899.

No. 135.—The following is published for general information:

No. 271 R. T., dated Simla, the 29th March, 1899.

RESOLUTION—By the Government of India, Public Works Department.

General Rules of 1895 for working railways open for traffic.

Read—

Section 47 of the Indian Railways Act, 1890.

Government of India, Public Works Department, notification No. 118, dated the 21st March 1895, publishing—in Part I of the *Gazette of India* of the 23rd March 1895—the Government of India circular No. 6 Railway, dated the 12th March 1895, and the General Rules therewith promulgated for all open lines of railway in British India administered by the Government.

Government of India, Public Works Department, notification No. 257, dated the 28th May 1896, publishing—in Part I of the *Gazette of India* of the 30th May 1896—the Government of India circular No. 3 Railway, dated the 22nd May 1896, and the amended rules therewith promulgated.

Government of India, Public Works Department, notification No. 55, dated the 5th February 1897, publishing—in Part I of the *Gazette of India* of the 6th February 1897—the Government of India circular No. 3 Railway, dated the 3rd February 1897, and the addenda and corrigenda therewith promulgated.

Government of India, Public Works Department, notification No. 3, dated the 5th January 1898, publishing—in Part I of the *Gazette of India* of the 8th January 1898—the Government of India circular No. 12 Railway, dated the 9th December 1897, and the addenda and corrigenda to Appendix B, Part II of the General Rules therewith promulgated.

Government of India, Public Works Department, notification No. 4, dated the 6th January 1898—published in Part I of the *Gazette of India* of the 8th January 1898—appointing the Director of Railway Traffic and Deputy Secretary to the Government of India, Public Works Department, Railway Branch, as the officer who, in the case of a railway administered by Government, is to make general rules.

Government of India, Public Works Department, notification No. 32, dated the 28th January 1898, publishing—in Part I of the *Gazette of India* of the 29th January 1898—the Government of India resolution No. 84 R. T., dated the 25th January 1898, sanctioning the adoption on the railways worked by the Bengal and North-Western and Oudh and Rohilkhand railway administrations of an amended rule No. 110 of Part I of the General Rules referred to.

Government of India, Public Works Department, notification No. 104, dated the 10th March 1898, publishing—in Part I of the *Gazette of India* of the 12th March 1898—the Government of India circular No. 1 Railway, dated the 3rd March 1898, and the modification therewith promulgated of rule III, Appendix A to Part II of the General Rules.

Government of India, Public Works Department, notification No. 134, dated the 23rd March 1898, publishing—in Part I of the *Gazette of India* of the 26th March 1898—the Government of India circular No. III Railway, dated the 15th March 1898, and the amended rules 231 and 232 of Part I therewith promulgated.

Government of India, Public Works Department, notification No. 423, dated the 14th September 1898, publishing—in Part I of the *Gazette of India* of the 17th September 1898—the Government of India resolution No. 967 R. T., dated the 6th September 1898, sanctioning the adoption on such portions of the

Eastern Bengal State railway and of the railways worked by it as are situate in British territory of the amended rule No. 110 of Part I of the open line General Rules read above.

Letter from the Director of Railway Traffic, No. 195 R. T., dated the 9th March 1899.

OBSERVATIONS.—The Director of Railway Traffic has applied that the General Rules for working open lines of railway in British India, which have been published under the Government of India, Public Works Department, notification No. 118, dated the 21st March 1895 (*vide* the *Gazette of India* of the 23rd March 1895), as modified by the Government of India circulars Nos. 3 Railway, dated the 22nd May 1896, 3 Railway, dated the 3rd February 1897, 12 Railway, dated the 9th December 1897, 1 Railway, dated the 3rd March 1898, and III Railway, dated the 15th March 1898, and resolution No. 84 R. T., dated the 25th January 1898, which were published under Public Works Department notifications Nos. 257, dated the 28th May 1896, 55, dated the 5th February 1897, 3, dated the 5th January 1898, 104, dated the 10th March 1898, 134, dated the 23rd March 1898, and 32, dated the 28th January 1898 (*vide* the *Gazette of India* of the 30th May 1896, 6th February 1897, 8th January 1898, 12th March 1898, 26th March 1898, and 29th January 1898), may be made applicable to the Brahmaputra-Sultanpur branch railway.

RESOLUTION.—The Governor General in Council is pleased to sanction the application of the General Rules which may, for the time being and hereafter from time to time, be in force on the Eastern Bengal State railway to the Brahmaputra-Sultanpur branch railway, with effect from the date or dates on which the said branch may be opened for the public carriage of passengers, animals or goods.

ORDER.—Ordered that this resolution be published under a notification in Part I of the *Gazette of India* as required by section 47, sub-section (3), of the Indian Railways Act, 1890; also that the General Rules cited in the foregoing observations be kept at railway stations as directed by sub-section (6) of the same section.

Ordered, also, that this resolution be communicated to the Manager, Eastern Bengal State railway, for information and guidance.

F. R. UPCOTT,

Secretary to the Government of India.

The 24th March, 1899.

No. 121.—*Corrigendum.*—In Public Works Department Notification No. 3, dated 4th January 1899, regarding the retirement of Mr. J. W. L. Toozs, Executive Engineer, Central Provinces, *for* 21st December 1897, *read* 22nd December 1897.

No. 122.—Mr. W. C. Wright, Superintending Engineer, 1st Class, North-Western Provinces and Oudh, is permitted to retire from the service, with effect from the 1st October 1898, under Article 509, Civil Service Regulations.

No. 123.—Mr. R. P. Atkinson, Superintending Engineer, 3rd Class, *temporary rank*, reverted to his substantive rank of Executive Engineer, with effect from the afternoon of the 19th October 1898, and not from the 7th November 1898, as published in Public Works Department Notification No. 33 of 25th January 1899.

The 29th March, 1899.

No. 128.—Mr. W. Slane, Examiner of Accounts, attached to the office of the Examiner, Public Works Accounts, Punjab, is appointed Examiner, Public Works and Railway Accounts, Baluchistan.

TELEGRAPHS.

The 27th March, 1899.

No. 126.—The following officiating and temporary promotions are made in the Superior Establishment of the Indian Telegraph Department, with effect from the dates specified, and until further orders:

Names.	From	To	Date.
Mr. S. H. C. Hutchinson	Superintendent, Class V, 1st Grade.	Chief Superintendent, Class IV, temporary rank.	27th February 1899.
Mr. R. Meredith . .	Assistant Superintendent, Class VI, 2nd Grade.	Superintendent, Class V, 2nd Grade, officiating.	18th February 1899.
Mr. R. Meredith . .	Superintendent, Class V, 2nd Grade, officiating.	Superintendent, Class V, 2nd Grade, temporary rank.	27th February 1899.

The 29th March, 1899.

No. 131.—The following is published for general information:

No. 264 I., dated Simla, the 28th March, 1899.

RESOLUTION—By the Government of India, Public Works Department.

Review of the Revenue Report of Irrigation Works in the Punjab for 1897-98

Read—

Letter No. 206 A. I., dated 27th January 1899, from the Government of the Punjab, Public Works Department, forwarding the Revenue Report of Irrigation Works in the Punjab for 1897-98 and the Resolution by that Government reviewing the Report.

CAPITAL OUTLAY.

OBSERVATIONS.—Including indirect charges the capital expenditure on Productive Works amounted to Rs. 29,90,339, of which over 22½ lakhs were expended on the new Chenab Canal which is now approaching completion. On the one Protective Work in the Province the expenditure was only Rs. 25,567 as compared with over two lakhs last year. On Minor Works the Capital Outlay was Rs. 1,58,854, of which Rs. 1,16,888 was expended in nearly completing the original project of the Ghaggar Canals. The total capital expenditure on all Imperial Works was nearly 10 lakhs less than in 1896-97. The total capital outlay, direct and indirect, to the end of the year amounted to Rs. 8,93,53,348.

These figures do not include the capital outlay incurred on Contribution Works which amounted to Rs. 1,61,198 in 1897-98, of which Rs. 1,56,912 was on account of the share of the outlay on the Ghaggar Canals chargeable to the Bikanir State. The total capital invested by Native States in the canals amounted to Rs. 1,52,26,356 at the end of the year.

MILEAGE OF CHANNELS.

2. The total length of completed main and branch canals is now 4,518 miles, of which 309 miles are in Native States. The additions made during the year, amounting to 107 miles, consist of a new branch of the Chenab Canal and the new Ghaggar Canals.

The aggregate length of completed distributaries was increased by 384 miles during the year, the total length now amounting to 10,554 miles. The length of drainage channels amounts to 786 miles, the additions made during the year aggregating 17 miles.

AREA IRRIGATED.

3. The total area irrigated from all canals was 5,214,258 acres, exceeding the striking record of 1896-97 by 590,022 acres.

The following statement compares the average and maximum areas under irrigation in successive five year periods since 1867-68:

Five years ending	Average area irrigated annually.	Maximum area irrigated annually.	QUINQUENNIAL INCREASE	
			In average annual area.	In maximum annual area.
	Acres.	Acres.	Acres.	Acres.
1867-68 ...	873,279 (a)	1,006,453	...	...
1872-73 ...	1,183,872	1,251,664	310,593	245,211
1877-78 ...	1,136,951	1,318,026	—46,921	66,362
1882-83 ...	1,484,502	1,683,272	347,551	365,246
1887-88 ...	1,881,369	2,341,103	396,867	657,831
1892-93 ...	2,948,629	3,193,546	1,067,260	852,443
1897-98 ...	3,878,823	5,214,258	930,194	2,020,712

(a) This average is for the four years ending 1867-68, the total for 1863-64 not having been recorded.

The irrigating capacity of the canals has thus during the last five years been increased by over 2,000,000 acres, or by 66 per cent. The increase is slightly less marked when average areas actually irrigated during five year periods are considered, as owing to general rainfall the areas irrigated in the years 1893-94 and 1894-95 were abnormally low.

4. The Major Works irrigated 4,055,898 acres, the principal contributors being the Sirhind Canal with a total of 1,206,248, rather less than its area of last year; the Bari Doab with 849,074 acres exceeding its last year's record by 117,132 acres; the Chenab with a total of 810,000 showing an increase over last year's figures of 289,721 acres; and the Western Jumna with 706,307 acres. The Swat River Canal again did excellently, exceeding its area of last year by 15,470 acres.

The Minor Works irrigated 1,134,255 acres, an area larger than that irrigated in 1896-97 by 190,177 acres, the two largest contributors being the Lower Sutlej and Chenab and the Muzaffargarh Canals. The Ghaggar Canals commenced irrigating for the first time and supplied water to 19,436 acres. The conditions of the year are reported to have been favourable to the Inundation canals, and this accounts for the large area irrigated by them.

The table in paragraph 9 of the Local Government's Resolution shows that while there was an increase in the area of each of the six principal crops irrigated, it was most marked in the case of rice, maize and wheat, the area of the last named crop amounting to the large total of 1,723,140 acres, or almost exactly one-third of the total area irrigated.

5. The estimated value of the crops irrigated is just under 15 crores of rupees, the value per acre being nearly Rs. 27. The average rate levied for the use of the water, including owner's rate and indirect revenue, was Rs. 3, or one-ninth of the value of the crop. The lower estimated value of the crops, compared with the figures of 1896-97, is due to the fall in prices from those which prevailed during the famine.

* The areas given above include the irrigation in Native States, the area of which was 345,431 acres in 1897-98 as compared with 394,291 acres in the previous year.

WORKING EXPENSES.

6. The statement in paragraph 6 of the Local Government's Resolution, which gives the working expenses for the last five years, shows that though for Major Works (Imperial) the working expenses have steadily increased from Rs. 24,45,060 in 1893-94 to Rs. 31,86,227 in 1897-98, the rate per acre has as steadily declined in the same period from Rs. 1·39 per acre to Rs. 0·87 per acre, while the percentage on gross revenue, which was Rs. 45·69 in 1893-94, was only Rs. 26·14 in 1897-98. These results are very satisfactory. The increase in the maintenance charges of the Minor Works is said to be due chiefly to the inclusion of the Ghaggar Canals for the first time and to heavy but necessary expenditure on the Muzaffargarh Canals. The rate per acre irrigated was Re. 1 and the percentage on gross revenue Rs. 62·42.

FINANCIAL RESULTS.

7. The financial results of the Punjab Canals in operation during the year may be summarised as follows :

	Capital outlay to end of year.	Net revenue.	Return on Capital outlay.
IMPERIAL WORKS—	Rs.	Rs.	Per cent.
Major Works	8,70,19,865	90,02,192	10·35
Minor Works	21,29,213	5,12,438	24·07
WORKS IN NATIVE STATES—			
Contribution Works	1,52,26,356	10,33,492	6·78

The gross revenue yielded by the Major Works amounted to the large sum of Rs. 1,21,88,419, exceeding by Rs. 12,43,971 the gross receipts collected in the previous year, which were more than 38 lakhs in excess of any previous record.

The net revenue was over 90 lakhs as compared with 78½ lakhs last year, which was nearly double the net revenue of 1895-96.

8. In the Review on the Revenue Report of 1896-97 the Government of India dwelt on the extremely satisfactory returns of that year. But they have been again surpassed by the returns of 1897-98, the Major Works having paid a return of 10·35 per cent. as compared with 9·34 per cent. in the previous year, and the Minor Works a return of 24·07 per cent. as compared with 14·57 per cent.

The Swat River Canal, the only Protective work in the Province, paid a return of 7·38 per cent. on Capital outlay with a net revenue of Rs. 1,53,732.

The Productive works collectively paid 10⅛ per cent. on their capital with a net revenue of 87 lakhs of rupees. The largest contributors to this unprecedented success were the Sirhind which with a net revenue of Rs. 26,15,798 paid a dividend of 10·83 per cent.; the Bari Doab which paid a return of 13·66 per cent. with a net revenue of nearly 24¾ lakhs; the Western Jumna with a net revenue of 16¾ lakhs equivalent to 10·34 per cent. on its capital, and the Chenab which yielded a net revenue of Rs. 16,65,628, or 7·34 per cent. on its Capital outlay.

9. The returns on the Native States Branches of the Sirhind Canal exceeded 4 per cent. on the capital outlay for the first time in 1896-97. It is satisfactory to note a further improvement in the financial results attained on these branches during the year under review, the returns for the last four years being as below :

State.	1894-95.	1895-96.	1896-97.	1897-98.
	Per cent.	Per cent.	Per cent.	Per cent.
Patiala ...	1·38	1·56	6·05	6·52
Nabha ...	0·10	0·68	4·66	5·34
Jind ...	1·26	0·09	4·92	5·75

The Patiala share in these branches is nearly five-sixths, the other two States holding each about one-twelfth.

The high returns of 1897-98 were realized in spite of a charge of Rs. 84,316 for seigniorage which was recovered from these States for the first time during the year, under the terms of the Canal Agreement.

The Patiala section of the Sirsa Branch, Western Jumna Canal, yielded a return of 13·72 per cent. as compared with 15·91 per cent. in the previous year.

10. The interest charges on the borrowed capital out of which the Productive works have been constructed amounted to Rs. 31,37,215 for the year under review, and the net revenue being Rs. 87,07,276, these works have contributed the substantial sum of Rs. 55,70,061 to the general revenues of the country. The accumulated surplus revenue at the close of the year amounted to no less than 373 lakhs of rupees.

GENERAL REMARKS.

11. The Government of India in reviewing the Revenue Report for 1896-97 referred to the extraordinarily rapid development of irrigation on the unfinished Chenab Canal, which was first opened as a perennial canal in 1892-93 when 157,197 acres were irrigated from the new channels. During the last five years the area under command has been extended by the construction of new branches and distributaries, and land has been brought under irrigation as soon as water could be conveyed to it. The following figures shew the rate of development, which is more marked than ever during the year under review :

Year.	Capital outlay to end of year.	Area irrigated during the year.	Net Revenue during the year.	Return on Capital outlay.
	Rs.	Acres.	Rs.	Per cent.
1892-93 ...	1,08,18,500	157,197	*—61,272*	*—0·57*
1893-94 ...	1,31,70,513	270,405	53,283	0·40
1894-95 ...	1,49,25,489	269,357	1,42,676	0·96
1895-96 ...	1,76,21,724	369,935	7,74,486	4·40
1896-97 ...	2,04,31,137	520,279	13,79,442	6·75
1897-98 ...	2,26,93,743	810,000	16,65,628	7·34

The accumulated interest charges exceeded the total net revenue at the end of 1897-98 by Rs. 7,47,556 only, and this small balance will undoubtedly be cleared during 1898-99 or before the construction estimate is closed.

12. This rapid development of irrigation has occurred in a tract the greater part of which was absolutely unpopulated in 1892. It is unnecessary to consider in this review the highly successful operations by which colonies of settlers have been established in these crown wastes *pari passu* with the construction of the Canal, but the growth of irrigation would have been remarkable even if it had occurred in a thickly populated district. It is mainly attributable to the fact that the alignment and construction of the entire system of water-courses within each village has been undertaken by the Canal Officers, the cost of construction being ultimately recovered from the occupiers. The water-courses are laid out with great care so as to gain the most effective command, and water is thus brought into every man's field as soon as it is available. This system had previously been adopted, though on a smaller scale and with less thoroughness, on the Sidhnai and Lower Sohag Canals, and also on the Sirsa Branch of the Western Jumna Canal. It has been justified in every case by the rapid development of irrigation on each distributary system as completed, apart from the greater economy of water that may be due to a properly aligned system of water-courses. It has sometimes been objected to large irrigation works that many years must elapse after completion before they can become directly remunerative, but the results attained on all the more recently constructed works in the Punjab indicate, as observed in the Resolution by the Local Government, that the very heavy arrears of interest charges, which in the past used to accumulate before the canals began to pay, are no longer a necessity.

13. The great increase in the area irrigated by Major Works during the last two years is not however entirely due to the new irrigation on the Chenab Canal and on the Sirsa Branch of the Western Jumna Canal. The construction estimates for the remaining Major Works were formally closed between 1890 and 1893, but considerable additional capital expenditure has been since incurred on all of them under the rules for open capital accounts. This expenditure has been mainly incurred in extending and improving the distributary system, in increasing the capacity of the main canals and branches, so as to enable them to carry greater supplies during the monsoon, and generally in improving the control and distribution of the supply, and securing a great economy of water. The following table indicates the amount of this expenditure and the results that may be fairly attributed to it:

Canal.	Date of closing construction estimate.	Maximum area irrigated in a year up to end of second year after closing construction estimate.	Maximum area irrigated in 1896-97 or 1897-98.	Capital outlay incurred after closing of construction estimate.
		Acres.	Acres.	Rs.
Swat River	31st March 1893	110,819	138,557	3,84,616
Western Jumna, excluding Sirsa Branch.	31st March 1890	507,974	564,552	21,77,224
Bari Doab	31st March 1890	592,785	849,074	16,82,426
Sirhind-Imperial ...	31st March 1891	685,610	943,789	8,72,544
Do. Contributions...	31st March 1891	224,446	394,291	1,41,304
Lower Sohag and Para	31st March 1891	70,129	102,014	24,693
Sidhnai	31st March 1892	151,427	185,709	1,99,862
GRAND TOTAL ...		2,343,190	3,177,986	54,82,669

All these canals had been virtually completed many years before the construction estimates were formally closed. The areas entered in the third column are the maxima recorded to the end of the second year after closing the construction estimate, as it may be assumed that any increase of area directly due to expenditure against the open capital account would not appear until after this year.

The area of 507,974 acres on the old Western Jumna Canal was recorded in the great famine year 1877-78, but except in years of excessive drought the area on this canal seldom exceeded 400,000 acres before the construction estimate was closed. The area irrigated by the old canal in 1897-98 amounted to 564,552 acres, but in addition to this 199,744 acres were irrigated from the Sirsa Branch, making the total area 764,296 acres. This great increase in area is due to the combined effect of the capital outlay incurred on the Sirsa Branch to end of 1897-98 (Rs. 41,68,560) and of the Rs. 21,77,224 expended on the open capital account of the old canal.

The figures for the other canals require no explanation. The increase in area may be regarded in every case as mainly attributable to the increased capital expenditure, and is specially remarkable in the case of the Bari Doab Canal.

The total expenditure against the open capital account of these completed canals has thus amounted to the large sum of Rs. 54,82,669, but this has been accompanied by an increase in the irrigating capacity of the canals of over 800,000 acres. There is therefore every reason to suppose that this liberal expenditure has been highly remunerative.

14. Great as has been the development of irrigation on these older canals during recent years it is doubtful whether it has yet reached its maximum, and whether further improvement may not be expected in the irrigating duty which will result in a further extension of the area irrigated. The question of this duty is, as remarked in the Local Government's Resolution, intimately connected with that of the correct measurement and record of canal and distributary discharges, and the Government of India note with much satisfaction the steps which have been taken by the Chief Engineer, as explained in paragraph 259 of his report, to train the native revenue establishment in the systematic measurement of the supplies for the distribution of which they are responsible, and in the habit of comparing these for different periods with the areas to which the water is applied. The more effectively the subordinate agency are trained in these duties the more reliable will be the records of duty attained, and the easier will be the detection of all preventible loss or waste of water. The figures in the statement in paragraph 10 of the Local Government's Resolution indicate that the efforts already made in this direction have been attended with success, the duties obtained during the year under review on every canal system having been higher than the averages of the previous five years, the improvement being most marked in the Swat, Sirhind and Bari Doab Canals.

15. The results recorded in the Punjab Revenue Report for 1897-98 are unparalleled in the history of irrigation in that Province, and the Government of India desire to express their gratification at the success which has been attained on nearly every canal, and to cordially acknowledge the efficiency of the canal administration and the excellent services rendered by the staff of Irrigation Engineers, to whose exertions and skill these results are largely attributable.

The report was received by the Government of India on the 27th January 1899. It has as usual been admirably compiled and is full of interest from beginning to end.

ORDER.—Ordered that copies of this Review and of the Report and the Resolution by the Punjab Government be forwarded to the Revenue and Agricultural Department for information.

Ordered, also, that copies of the Review be forwarded to the Government of the Punjab for information and guidance and that copies of the Review and of the Report and Resolution by the Punjab Government be forwarded to the Local Governments and Administrations in the Public Works Department, noted on the margin, for information.

The Governments of Madras, Bombay, Bengal, North-Western Provinces and Oudh and Burma.
The Chief Commissioners of the Central Provinces and Coorg.
The Residents at Hyderabad and Mysore.
The Agents to the Governor General in Central India, Rajputana and Baluchistan.

Ordered, further, that the Review be published in the *Gazette of India*, and that copies of the Review and of the Report and Resolution by the Punjab Government be forwarded to Her Majesty's Secretary of State for India.

T. HIGHAM,

Joint Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on Saturday, March 18th, 1899.

Last week, it will be remembered, the weather was unsettled over Northern India, and a series of slight storms passed across that part of the country from the westward to the eastward. These unsettled conditions continued during the greater part of the week under review. The first of the storms was shown over the Western desert on Sunday, 12th March, occasioning snow and rain in Kashmir and rain in Baluchistan, Sind and the West and North Punjab. By the morning of the 13th the storm had practically disappeared, but showers continued to be received over the extreme north-west of India. On the morning of the 14th the weather was nearly clear and appeared quite quiet, but on the 15th pressure was giving way rapidly in the extreme north-west and rain had commenced in Baluchistan. On the following day a diffused depression was shown over the Kashmir Himalayas and the north and centre of the Punjab, and the weather was again rainy over Baluchistan, Lower Sind, the West and North Punjab and the Kashmir Himalayas. The storm disappeared or was transferred with great rapidity to the eastward. During the day a large high pressure area was developed over North-West India; the weather cleared and became everywhere fine, while strong westerly and west-north-westerly winds, such as prevail over Northern India during the hot weather, were established over the Gangetic Plain. Rain is unusual at this season in Sind, and, as a result of the rainfall noticed above, the mean temperature of Sind has been considerably—and of Gujarat slightly—below the normal average. In nearly all other places the heat during the week has been excessive, but in South India, owing to local causes, the first-half of the week was cooler than usual.

Daily Summary.—*Sunday, March 12th.*—Pressure had given way briskly to rapidly over the Punjab, and a storm, at the centre of which the barometer read slightly below the normal, was traversing that province. The winds were irregular over the greater part of the country, but were gusty and squally in the north-west. The weather was very unsettled and showery in the north-west and in Baluchistan, and snow and rain had fallen on the hills and rain on the plains around the north-west frontier of India. Peshawar, Cherat and Hyderabad had received over 1 inch in twenty-four hours. The mean temperature was low over the Indus Valley, Gujarat and the south of the Peninsula, about normal in Burma and Assam and high elsewhere. In Eastern Rajputana the excess was more than 9·0°, while at Jacobabad and Salem the deficiency was over 5°.

Monday, March 13th.—The barometer had risen in the north-west, but had fallen in all other parts of the Indian region. The storm noticed over the Punjab had almost disappeared, and a well-marked high pressure area was shown over North Bombay, Central India and Rajputana where the barometer was considerably to largely higher than usual. The winds varied considerably in direction, but were gusty and unsteady in force, and gales had been experienced at several north-west stations. The sky was practically clear of cloud at 8 A.M., but the weather had been unsettled, with snow and rain on the hills, and rain over Baluchistan and parts of the Punjab and of the North-West Provinces. The mean temperature remained low over the Indus Valley and that neighbourhood, as well as over the south of the Peninsula, normal over the Central Punjab, and much above the average elsewhere. The principal variations from the normal were + 12·3° at Cawnpore, —8·8° at Hyderabad (Sind) and —5·3° at Salem.

Tuesday, March 14th.—The barometer had risen briskly in the West Punjab, fallen briskly to rapidly over the North Gangetic Plain and North-East India and changed slightly elsewhere. A well-marked high pressure area overlay North-West and Central India and a low pressure area Bengal, Assam and

Upper Burma, so that gradients were steepish over the Gangetic Valley. A fresh north-westerly to westerly wind prevailed down the Gangetic Valley and across Bengal and a light north-east wind over the Central Provinces. In the Peninsula pressure was uniform and the winds light and variable. The weather was cloudy on the hills, and there had again been snow in Kashmir and rain at Sialkot, Rawalpindi, Srinagar and Murree. The mean temperature had increased over the Indus Valley, so that the depression of temperature in that region was less than on the 13th, but the general conditions of temperature were unchanged, the following being the principal variations from the normal: Cawnpore + 9·8°, Rawalpindi — 4·0° and Salem — 4·5°.

Wednesday, March 15th.—Pressure was high over North-West and Central India, low over Bihar and uniform over the Peninsula. Steepish gradients continued to be reported down the Gangetic Valley, and the westerly and west-north-westerly wind over that region was strong. Elsewhere the winds were generally variable, but in the Indus Valley and Baluchistan the direction was between south and east, and a fresh depression was approaching the north-west frontier where the barometer was falling rapidly. The weather was cloudy on and near the hills in the extreme north-west and north-east, and showers were reported from Sibsagar, Quetta and Chaman. The mean temperature was low over a large part of North-West India, about normal in the south of the Peninsula and was excessive elsewhere.

Thursday, March 16th.—The barometer was falling over the Punjab, and the depression which had been advancing towards the north-west frontier on the previous day was shown over that province. It was giving squally unsettled weather to a large part of North-West India and had occasioned snow and rain in Kashmir and rain over Baluchistan, Lower Sind and the West and North Punjab. The mean temperature was again much lower than usual in the Indus Valley, about normal over the Peninsula and higher than usual elsewhere.

Friday, March 17th.—The depression had either disappeared or had been transferred rapidly eastward to Bengal, and a large anti-cyclone, with pressure largely above the normal average, had been established over North-West India. North-westerly winds were blowing in Northern India, north-easterly winds in the centre and variable winds elsewhere. Calms were reported in the north-east. The weather was fine throughout almost the whole country, but snow had been received in Kashmir and thundershowers over the North-West Himalayas and some submontane stations. The mean temperature was slightly to very largely below the normal over the extreme north-west of India and slightly below over the east of the Peninsula, while elsewhere the heat was excessive. The following variations from the normal explain the distribution of the mean temperature relatively to the average: Jacobabad — 10·3°, Jhansi + 5·7°, False Point — 1·2°; Toungoo + 5·0°.

Saturday, March 18th.—The barometer was falling everywhere, but there had been no important change in the pressure conditions. Strong westerly and west-north-westerly winds continued down the Gangetic Valley, moderate northerly and north-easterly winds over the central parts of the country and variable winds elsewhere. The weather was very fine with clear skies and very dry air, and the only rainfall reported was a few drops at Sibsagar. The temperature distribution was the same as on the preceding day. The weather was cooler than usual over North-West India and over the east of the Peninsula and was hotter than usual elsewhere. The principal variations were: — 8·1° at Jacobabad, — 2·6° at Vizagapatam and + 7·1° at Sibsagar.

Temperature.—The weather has been hotter than usual over the greater part of the country during the week under review. Owing, however, to some local influence the heat was steadily and considerably below the normal in the south of the Peninsula for the first four days of the week. A cool wave in the Indus Valley impinged on the high temperature area over Northern India on the 12th and became strongly marked on the following day, but thereafter it gradually broke up without advancing. On the 16th another cool wave appeared over the Indus Valley, and this had more vitality as it advanced eastward as far as the north of

the Central Provinces and the west of the North-West Provinces. Notwithstanding these two cold waves and the low temperature area in the south, the heat generally was excessive and for the whole country for the whole week averaged 1½° above the normal.

The following table gives the temperature variation data for the week:

PROVINCE.	MARCH 1899.							Mean variation of week.

Mean for whole of India .	+2·5	+2·1	+2·0	+1·6	+1·4	+0·4	+0·5	+1·5

The heat was excessive on all days of the week, though on the last two days the excess was small and unimportant. The provincial variations exhibit a considerable depression of temperature in Sind and a slight depression in South India, while in the Punjab, Gujarat, the West Coast, Mysore and the Madras Deccan the mean temperature was normal and in the remaining provinces excessive. The hottest area relatively to the normal was Chota Nagpur with a mean excess of 4°.

The following were the highest maximum temperatures recorded on each day:

Sunday	March	12th—Cuttack	103·4°
Monday	,,	13th—Do.	103·4°
Tuesday	,,	14th—Chanda	105·2°
Wednesday	,,	15th—Cuddapah	104·2°
Thursday	,,	16th—Do.	105·2°
Friday	,,	17th—Do.	104·2°
Saturday	,,	18th—Kurnool	104·8°

Rain.—Practically the whole of the rainfall of the past week has been due to the storms which appeared on the north-west frontier, and hence rain has been practically confined to North-West India. There has been light rainfall in Assam and North Bengal due to local showers, but this rainfall, though important and useful, has been light and scattered and attributable to purely local causes.

The rainfall in the north-east occurred in three divisions, *viz.*, the Surma division of Assam, the Brahmaputra division of Assam and the north' division of Bengal. In the first division the rain fell on the 14th only; in the second it fell on the 12th, between the 14th and 16th and again on the 18th; and in the last apparently on the 18th. The amount of rain was very small in North Bengal; it was small in the Surma division and was moderate in the Brahmaputra division, the amount apparently increasing on ascending the valley. Turning to the north-west the rainfall occurred under the influence of two storms and fell as follows: in the west of the North-West Provinces on the 13th and 17th; in the Punjab on the 12th, 13th and 14th and again on the 16th and 17th; in Sind on the 12th and 16th; and in Baluchistan on the 12th and 13th and the 15th and 16th. The table at the close of the summary shows that rain fell during the week, in effective amount, only in six divisions, *viz.*, Assam (Surma), Assam (Brahmaputra), the Central Punjab, the North Punjab, Sind and Baluchistan. Of these six divisions four received more than the normal fall of rain, *viz.*, the Central Punjab + 0·19 inch, the North Punjab + 1·19 inches, Sind + 0·51 inch and Baluchistan + 1·11 inches. In all other parts of the country, even where rain has fallen, the amount has been less than usual, and in most places there has been no rain whatever. The deficiency has been considerable and important in parts of Assam and the North-West Himalayas where moderate showers are anticipated at this time, but elsewhere the normal fall is small and of little consequence.

The three concluding columns of the rainfall table show that the rainfall during the past three weeks has been unusually light, and that over a very large part of the Peninsula, of Burma, of the central districts and of the Gangetic Plain there has been no rain whatever. In these districts, however, the normal rainfall at this season is very light. In Assam and parts of Bengal and the Punjab, on the contrary, moderate rain is anticipated during the three weeks under review, and though in some cases this moderate rainfall has been received, in others it has been considerably short of the average. Thus, while East Bengal received more than, and Cachar and the Assam Valley about, the normal, Central and North Bengal have received only half the average and West Bengal practically no rain.

PROVINCE.	DIVISION.	Rainfall data for week ending March 18th, 1899. Average actual rainfall of division.	Average normal rainfall of division.	Excess or defect in inches.	Rainfall data from February 26th to March 18th, 1899. Average actual rainfall of season to date.	Average normal rainfall, February 26th to March 18th. Asst. Meteorological Reporter to the Government of India.

SIMLA, *23rd March, 1899.*

T. W. HOLDERNESS,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on Saturday, March 25th, 1899.

Throughout the greater part of the week under review the weather has been controlled by anti-cyclonic conditions of pressure. On the first day of the week a large high pressure area was shown in the north-west and low pressure areas over Bengal on the one hand and the south of the Peninsula on the other. The high pressure area in the north-west by the next morning had moved to Rajputana and Central India and there remained until the 23rd. During this period westerly winds blew down the Gangetic Plain, north-easterly winds in the Central Provinces and variable winds elsewhere with fine dry and on the whole cool weather. On the 24th a change set in. Pressure gave way rapidly over Northern India, the anti-cyclonic movement of the winds ceased and on the 25th a slight but well-marked storm appeared in Upper Sind. Practically no rain fell over India, and the weather changed during the week from the conditions which ordinarily accompany fine weather in the cold season to ordinary hot weather, the change being accompanied with a very remarkable rise of temperature.

Daily Summary.—*Sunday, March 19th.*—Pressure was high and read considerably above the normal over North-West and Central India, while it was low and below the normal over Bengal and the south of the Peninsula. Fresh west-north-westerly and westerly winds prevailed down the Gangetic Plain, moderate north-easterly winds over the Central Provinces and variable local winds elsewhere. The weather was fine and the only rainfall reported was a shower at Sibsagar. The air was very dry in parts of West Bengal, Bombay, Rajputana and the Central districts. The heat was somewhat greater than usual over North-East India and the north and west of the Peninsula, but elsewhere the weather was cooler than the average.

Monday, March 20th.—Pressure had given way briskly in the extreme north-west, so that the high pressure area had been transferred eastward and lay over Rajputana and Central India. Pressure was more uniform generally than on the preceding day. The wind directions were unchanged, but the force had fallen. The sky was nearly clear of cloud and the air was daily becoming drier. A shower had been received in Tenasserim, but no rain had fallen over India. The weather was cooler than usual except over Burma, Assam and part of the west of the Peninsula.

Tuesday, March 21st.—There had been no important change in pressure or winds, though the north-east winds over the central parts of the country showed signs of dying down. The barometer was high for the time of year almost everywhere. The sky remained almost cloudless and the air very dry, while the only rainfall reported was a shower or two in Tenasserim. The heat remained somewhat greater than usual over Burma and at some west coast stations, while elsewhere the weather was unusually cool.

Wednesday, March 22nd.—The barometric changes continued generally slight. Pressure remained higher over Rajputana and Central India than elsewhere, but the differences were small. The winds were light. They blew from the westward in the north and from the eastward in the centre of the country, while elsewhere the directions were variable. The weather remained fine and dry, and no rain whatever was reported. Temperature had begun to rise and had risen above the average in the north-west, while it still remained high in Burma. Elsewhere the weather continued cool.

Thursday, March 23rd.—The barometer had fallen almost everywhere—particularly in the north. Pressure remained very uniform, though slightly higher in Rajputana than elsewhere. The winds varied a good deal and were generally light, but at the head of the Bay the usual strong southerly winds were reported. There was hardly any cloud, and there had been no rain over India. Temperature

had continued to rise—more particularly in the north-west. The heat was slightly excessive over Burma and very excessive over North-West India, while over the intervening region the weather was cooler than usual.

Friday, March 24th.—The barometric fall which had commenced on the preceding day had continued and had changed the whole pressure conditions. The fall had been rapid in the north, and a low pressure area had appeared over the Gangetic Plain with moderate gradients. The barometer read below the normal everywhere. The winds varied between north-west and south-west over Northern India and were variable over the Peninsula. The force at the head of the Bay was increasing. The change in the pressure conditions had been accompanied with some change in the general weather, the air having become somewhat damper and the sky slightly clouded. A thunderstorm had given some rain to the south of the Peninsula. The mean temperature remained high for the time of year over Burma and North-West India and lower than usual in the intervening region.

Saturday, March 25th.—The sudden barometric fall had ceased, but there had been no change in the general barometric conditions except that a small shallow storm had appeared in Upper Sind. The winds were also unaltered. The force was strong to a gale at Saugor Island. The sky had become still more cloudy—more particularly in the north-west, and a light shower had occurred at Cherat. Slight cloud was also reported from the south of the Peninsula and light rain from Trivandrum and Cochin. The weather was hotter than usual except in the south of the Peninsula. The excess was very large in the north-west.

Temperature.—There has been a remarkable change in the temperature conditions during the week under review. At the commencement of the week the mean temperature was low and the pressure high over North-Western and Central India, cold weather conditions in fact prevailing over the country. As the week advanced, however, there occurred a marked change. A wave of heat entered North-West India from the westward, and by the close of the week the weather was hotter than usual almost everywhere, but particularly so in the north-west.

The following table gives mean temperature variation data for the week:

Province.	March 1899.							Mean variation of week.
	19th	20th	21st	22nd	23rd	24th	25th	
	°	°	°	°	°	°	°	°

Mean for whole of India	—0·3	—1·3	—0·9	—0·3	+1·4	+1·3	+2·8	+0·2

The mean temperature of the first four days of the week for the whole country was less than usual, that for the last three days more than usual, so that the general average of the whole week for the whole country was just about the normal. The coolest day relatively to the normal was the 20th, the hottest the 25th. The provincial variations were not on the whole large, as the excess at the close of the week was largely balanced by the deficiency at the commencement, but there was a slight to moderate excess shown in Burma, the Punjab, Sind, Rajputana, Gujarat and Berar, and a slight deficiency in Mysore, Madras Coast, Madras Deccan and South India.

The following were the highest maxima recorded on each day:

March 19th	104·2°	at	Chanda.
" 20th	103·2°	"	Do.
" 21st	104·5°	"	Yamethin.
" 22nd	105·5°	"	Do.
" 23rd	106·3°	"	Ahmedabad.
" 24th	108·9°	"	Jacobabad.
" 25th	109·3°	"	Do.

Rain.—As mentioned above, there has been practically no rain throughout the Indian region during the week under review, and the rainfall table at the close of the summary shows that the Assam Valley and the Malabar coast district were the only divisions which received any rain during the week. In most places the average normal rainfall is small for the week under review, but in Assam and also in parts of the North-West Himalayas fair to moderate showers are anticipated, and in these regions the absence of rain is important. For the four weeks from the 26th of February to the 25th of March the total rainfall has been almost everywhere deficient. In East Bengal, the Assam Valley and Baluchistan the total fall has been about normal and in Sind it has been greater than usual, but in all other places it has been short, and over a considerable part of the country no rain whatever has been received throughout the entire period.

PROVINCE.	DIVISION.	Rainfall data for week ending March 25th, 1899.			Rainfall data from February 26th to March 25th, 1899.		
		Average actual rainfall of division.	Average normal rainfall of division.	Excess or defect in inches.	Average actual rainfall of season to date.	Average normal rainfall, February 26th to March 25th.	Excess or defect of (seasonal) rainfall expressed as a percentage.

W. L. DALLAS,
Asst. Meteorological Reporter to the Government of India.

SIMLA, *30th March, 1899.*

T. W. HOLDERNESS,
Secretary to the Government of In[illegible]

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 25th March.*—Slight showers of rain fell in parts of Tinnevelly, Travancore, and Cochin. The water-supply is sufficient. Some small sowings are being made under irrigation. The standing crops are generally in good condition. The harvest continues to yield an almost normal outturn and the yield of cotton is also about the average. Pasturage is scanty, but fodder is sufficient and the condition of cattle generally good. Prices are almost stationary in the Deccan, staple-grains having returned almost to their normal rates; but elsewhere they are generally still above the average, except rice in the Deccan and the Carnatic, where the price is below the normal.

Bombay.—*For week ending 29th March.*—American cotton has been blighted in two talukas of Dharwar. Reaping of the late crops is progressing in fourteen and preparations for next season are being made in fifteen districts. Cotton-picking continues in parts of Gujarat and the Karnatak and extraction of opium in Baroda territory. Fodder is sufficient, except in parts of Karachi. Agricultural stock is healthy. Prices have risen in five and fallen in five districts; elsewhere they are stationary.

Bengal.—*For week ending 27th March.*—No rain fell during the week, except showers accompanied by hail at Muzaffarpur. Ploughing and in some parts early sowings are proceeding and the prospects of spring rice and other standing crops are good. Rain is wanted in some districts. The spring harvest continues and the collection of opium is nearly over. The planting of sugar-cane has begun in some parts. The fodder-supply is ample in every district, except in parts of Midnapore and the Sonthal Parganas. Prices are practically stationary.

North-Western Provinces and Oudh.—*For week ending 29th March.*—Seasonable weather prevailed during the week. Harvesting and threshing of the spring crops are progressing. Sowing and irrigation of the extra crops, extraction of opium, and planting of sugarcane continue. Prospects are favourable, markets well stocked, and fodder sufficient. Prices are stationary or falling.

Punjab.—*For week ending 29th March.*—Slight showers of rain fell in Peshawar. Sowings of the extra spring crops and also of sugarcane and cotton are proceeding, and reaping of the spring crops has commenced. The condition of the irrigated spring crops is generally reported to be average and of the unirrigated crops below the average and their yield is also expected to be below the average. Rain is still wanted. The poppy crop is poor in Lahore. Certain of the spring crops have been damaged by caterpillars in parts of Ferozepore and Lahore. Cattle are reported to be in fair condition in all districts, except Delhi. Fodder is scarce in Delhi, Umballa, Shahpur, and Dera Ismail Khan, and sufficient elsewhere. Prices, especially of wheat, the chief food-staple, are rising in Rawalpindi, falling in Delhi, Shahpur, Peshawar, and Dera Ismail Khan, and are

unchanged elsewhere. Wheat is selling from 16 to 20, gram 20 to 22, barley 28, bulrush-millet 18 to 22¼, maize 24 to 32, great-millet 23, and rice 13 to 14 seers per rupee.

Central Provinces.—*For week ending 28th March.*—The weather is clear and unusually warm. The reaping of the spring crops is approaching completion in most districts and threshing is in progress. The planting of sugarcane continues in Chanda, Bhandara, and Sambalpur. Signs of distress are appearing in the open part of Damoh owing to want of employment. Water is getting scarce in some villages of Saugor, Mandla, Betul, and the Warora tahsil of Chanda. Fodder is reported to be insufficient in parts of Seoni, the Warora tahsil of Chanda, and the Sambalpur district. The price of wheat, gram, rice, and *juar* has fallen in five, four, two, and two districts, respectively, and there is a slight rise in the price of wheat, rice, and *juar* in three, one, and one districts, respectively; but the general range of prices is low. The cheapest prices are—wheat 21, gram 32, rice 22, and *juar* 28 seers per rupee. The dearest prices are—wheat 11¼, gram 16, rice 11, and *juar* 21 seers per rupee.

Burma.—*For week ending 25th March.*—In Upper Burma harvesting of the miscellaneous crops continues. Most of the island crops, except tobacco, have been gathered in Pakòkku, and the reaping of pulses is nearing completion in other districts. Reaping of dry weather paddy has commenced in Kyaukse. The outturn of the miscellaneous crops is found to be less than last year in Mandalay. The price of paddy has fallen in Pegu, Tharrawaddy, and Pakôkku and risen very slightly in Rangoon. No changes in prices are reported from elsewhere.

Assam.—*For week ending 28th March.*—Rain fell in most districts during the week which has facilitated cultivation. Ploughing for and sowing of the early and late broadcast rice continue. Gathering of mustard and hoeing of tea are finished. The outturn of the mustard crop is below the average. Harvesting of pulses, plucking of tea, and pressing of sugarcane are in progress. Prospects of tea are good. Preparation of land for jute in Goalpara continues. Potatoes are being planted in the Khasi and Jaintia hills. Fodder is scarce in the Naga hills and water is insufficient in parts of Nowgong and Sylhet. Prices—common rice—Sylhet 21; Silchar, Dhubri, Gauhati, and Tezpur 16; Nowgong 15; Sibsagar 12; and Dibrugarh 14 seers per rupee.

Mysore and Coorg.—*For week ending 29th March.*—MYSORE: *Ragi* (*Eleusine coracana*) has been harvested in parts of Mysore and paddy in Chitaldroog. Prospects are good. Prices have risen slightly in Kolar and Shimoga.

COORG: Water and fodder for cattle are sufficient. Prices of food-grains are stationary.

Berar and Hyderabad.—*For week ending 29th March.*—BERAR: The weather is getting warmer. Preparation of land for the ensuing monsoon crop continues. A scarcity of fodder and water prevails in parts of the Province. Prices are almost stationary.

HYDERABAD: No rain fell during the week. The spring harvest is still proceeding. The standing winter rice crop is in fairly good condition. Prices

continue steady. Prices—wheat 9½, coarse rice 10⅝, and *jowari* 23½ seers per current sicca rupee.

Central India.—*For week ending 29th March.*—No rain fell during the week. Agricultural operations are in progress throughout Central India. The standing crops in some parts of Bundelkhand are in poor condition, but are good in other portions of the Agency. Agricultural stock and pasturage are in good condition. Prices continue above normal in Bundelkhand, but are normal elsewhere. The condition of opium is fair in Malwa and good in Gwalior and Bhopal.

Rajputana.—*For week ending 29th March.*—Agricultural operations are satisfactory, except in Merwara and the hilly tracts of Kherwara. The condition of the crops is generally good, except in Ajmere-Merwara. Harvesting of crops continues: the average estimated spring outturn in Ajmere is 11½ annas and in Merwara 6½ annas. Cattle are for the most part in good condition. Fodder is scarce in nine States. Prices are falling in three States and are steady elsewhere. 1,950 square miles with a population of 41,000 are affected by scarcity in Marwar. Emigration from the distressed Ajmere villages continues: 19 persons emigrated during the week. The total emigration from Merwara up to date numbers 4,329 persons. The numbers employed on relief works were—372 in Ajmere, 4,278 in Merwara, and 969 in Marwar. Prices—Ajmere 19¾, Beawar 22, and Marwar 15 seers per rupee.

Kashmir.—*For week ending 28th March.*—The weather is fine. Prices continue below normal. The price of rice is 27 seers per rupee.

JAMMU PROVINCE: *For week ending 29th March.*—No rain fell during the week. The condition of the standing crops is fair. Fodder is sufficient. Prices are generally stationary, wheat selling at 18 and maize at 24 seers per rupee.

Nepal.—*For week ending 25th March*—No rain fell during the week. A shower or two would benefit the standing wheat crop. The price of rice is 9 seers per rupee.

T. W. HOLDERNESS,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

CIVIL WORKS.
MISCELLANEOUS.

Purchase in India of certain iron and steel work of local manufacture.

Circular No. 2 Public Works, dated Simla, the 24th March, 1899.

RESOLUTION—By the Government of India, Public Works Department.

Read—

Letter No. 3018 W., dated the 24th November 1898, from the Government of Madras, Public Works Department, requesting the inclusion of certain firms in the list given in Appendix B of Finance and Commerce Department Resolution No. 2587 S. R., dated 9th June 1898, of firms eligible to supply articles of iron and steel for the Public Service, with the right to tender only so far as the supply of safes and treasure chests is concerned.

RESOLUTION.—The Governor General in Council is hereby pleased to direct that bridge floor or roof work and other iron and steel work to which it is necessary to apply the tests prescribed in Appendix C of Government of India, Finance and Commerce Department, Resolution No. 2587 S. R., dated the 9th June 1898, may, when not obtained from Europe through the Secretary of State, be ordered only at the firms entered in Appendix B of that Resolution; but that other articles entered in Appendix A of the Resolution may be obtained from any firms who may be approved by Local Governments and Administrations.

The Secretary to the Government of Madras, Public Works Department.
The Joint Secretary to the Government of Madras, Public Works Department, Railway Branch.
The Secretaries to the Government of Bombay, Public Works Department, General and Railway Branches.
The Secretaries to the Governments of Bengal, the North-Western Provinces and Oudh, and the Punjab, Public Works Department.
The Secretaries to the Government of Burma, Public Works Department, General and Railway Branches.
The Chief Commissioners of the Central Provinces, Assam, and Coorg.
The Resident at Hyderabad.
The Agents to the Governor General for Central India, Rajputana, and Baluchistan.
The Accountant General, Public Works Department.
The Director General of Military Works.
The Consulting Engineers to the Government of India for Railways, Calcutta, Lucknow, and Assam.
The Director General of Telegraphs.
The Managers, North Western, Oudh and Rohilkhand, East Coast, and Eastern Bengal State Railways.
The Engineers-in-Chief, Mari-Attock Railway, Indus Bridge, and Godavery Bridge Works.
The Engineers-in-Chief, Gaziabad-Moradabad, Bezvada-Madras, and Hurdwar-Dehra Railways.
The Engineers-in-Chief, Kohat-Bannoo, Bara-Ajmere and Marwar, and Ranaghat Ganges and Katihar Railway Surveys.
The Port Storekeeper, State Railway Department, Calcutta.

ORDER.—Ordered that this Resolution be communicated to the Local Governments and Administrations and officers noted on the margin for information and guidance; that it be published in the Supplement to the *Gazette of India,* and that copies be forwarded to the Finance and Commerce and Military Departments for information.

O. C. LEES,

Under Secretary to the Government of India.

D

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 30th March 1899.

NOTIFICATIONS.

No. 1102 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, during the week ending 25th March 1899:—

No. 94 of 1899.—Gopal Mahadeo Vidwans, draftsman, sanitary engineer's office, Poona, Bombay Presidency. *A box latrine.*

No. 95 of 1899.—Laura Möller, wife of N. E. I. Möller, of 51 Bentinck street, Calcutta. *An air-tight lid or lock especially suitable and intended for municipal night-soil carts and buckets.*

No. 96 of 1899.—William Martin, retired indigo planter, residing at Agra, N.-W. P. *A double roller cotton gin suitable for India.*

No. 97 of 1899.—Gustaf Dillberg, electrician, of 77 Elizabeth street, Sydney, New South Wales. *An improved acetylene gas generator.*

No. 98 of 1899.—Gustaf Dillberg, electrician, of 77 Elizabeth street, Sydney, New South Wales. *Improvements in the treatment of calcium carbide, whereby the conversion of same into acetylene gas may be retarded without the aid of any mechanical devices.*

No. 99 of 1899.—Gustaf Dillberg, electrician, of 77 Elizabeth street, Sydney, New South Wales. *Improvements in means for using calcium carbide for the purpose of generating acetylene gas.*

No. 100 of 1899.—Samuel Cleland Davidson, merchant, of Sirocco engineering works, Belfast. *Improvements in the manufacture of black tea from the green tea leaf, and a new compound for use in such manufacture.*

No. 101 of 1899.—Samuel Cleland Davidson, merchant, of Sirocco engineering works, Belfast. *Improvements in apparatus for the manufacture of compressed pellets, tabloids, or blocks of dried vegetable or other substances.*

No. 102 of 1899.—Gustaf Dillberg, electrician, of 77 Elizabeth street, Sydney, New South Wales. *Improvements in protective coverings for compressed cakes composed of granulated calcium carbide, or an admixture of calcium carbide with other ingredients.*

No. 103 of 1899.—Cecil Gorman May, temporary engineer, Punjab Irrigation department, Chenab canal, Lyallpore, Punjab. *An improved slide rule for use by irrigation engineers.*

No. 104 of 1899.—Arthur Kitson, civil engineer, of Philadelphia, in the county and state of Pennsylvania, U. S. A. *Improvements in and relating to vapour burning apparatus.*

No. 105 of 1899.—John Coyne, engineer, of 1644 Colwell street, in the city of Pittsburg, county of Allegheny, state of Pennsylvania, U. S. A. *Improvements in the manufacture of gas*

No. 106 of 1899.—A. Simon and company, manufacturers of boots, shoes, etc., Quetta. *The manufacture of leather putti leggings.*

No. 107 of 1899.—Major H. B. Thornhill, cantonment magistrate, Bareilly. *A latrine to be called "Thornhill's automatic sanitary latrine."*

No. 1103 P.—THE undermentioned designs have been registered, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary

appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma. These and other designs are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 2 D of 1899.—Charles Kingston Welch, engineer, of Park House, Coventry, England. *Metallic wheel rims for use with pneumatic tires.*

No. 3 D of 1899.—Charles Kingston Welch, engineer, of Park House, Coventry, England. *Tread surfaces for tires.*

No. 4 D of 1899.—Charles Kingston Welch, engineer, of Park House, Coventry, England. *A tread surface for tires.*

No. 5 D of 1899.—W. B. Stokes, merchant, Bombay. *A brass carbide holder.*

No. 1104 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 140 of 1898.—John Clarke, clerk, of 30 Court street, in the city of Boston, county of Suffolk, and state of Massachusetts, U. S. A. *Improvements in warp-drawing machines.* (Specification filed 22 March 1899.)

No. 406 of 1898.—Josef Zehra, brewer's engineer, of Konstanz, Baden, in the empire of Germany. *An apparatus for the production of ice.* (Specification filed 22 March 1899.)

No. 407 of 1898.—Josef Zehra, brewer's engineer, of Konstanz, Baden, in the empire of Germany. *Improvements in freezing machines for domestic purposes or the like.* (Specification filed 22 March 1899.)

No. 435 of 1898.—Fakirji Edulji Bharucha, engineer, Rajnagar ginning and manufacturing company, limited, Ahmedabad. *Improvements in humidifiers.* (Specification filed 20 March 1899.)

No. 50 of 1899.—John Charles William Stanley, engineer, and the Fish Oil and Guano company, limited, manufacturers, both of 16 St. Helen's place, in the city of London. *Improvements in or relating to the extraction of oil from material containing it.* (Specification filed 22 March 1899.)

No. 1105 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 61 of 1889.—John Brown. *Improvements in tea-rolling machinery.* (From 10 September 1899 to 10 September 1900.)

No. 19 of 1890.—Clemens Baron Von Bechtolsheim. *Improvements in centrifugal creamers.* (From 24 March 1899 to 24 March 1900.)

No. 325 of 1892.—Roger Pye. *Improvements in appliances for moistening, heating, cooling and ventilating factories and other buildings.* (From 17 March 1899 to 17 March 1900.)

No. 324 of 1893.—The American Arithmometer company. *Improvements in calculating machines.* (From 23 May 1899 to 23 May 1900.)

No. 295 of 1894.—George Alexander Kennedy, William Senior, and Ira Wood. *An improved apparatus for securing card clothing to the flats of carding engines.* (From 25 March 1899 to 25 March 1900.)

No. 87 of 1895.—James Leyster Courtice and John Wood. *Improvements in pianofortes.* (From 2 April 1899 to 2 April 1900.)

No. 101 of 1895.—James Mylne. *A new and improved method in the design and construction of cylindrical rollers for sugarcane crushing mills.* (From 23 May 1899 to 23 May 1900.)

No. 125 of 1895.—The Deutsche Metallpatronenfabrik. *An apparatus or machinery for closing and securing metal tubes.* (From 22 August 1899 to 22 August 1900.)

No. 126 of 1895.—The Deutsche Metallpatronenfabrik. *A method of and apparatus for filling tubes with viscid or semi-fluid material.* (From 22 August 1899 to 22 August 1900.)

No. 1106 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling and using the said inventions in British India, and of authorising others so to do, has ceased:—

No. 45 of 1894.—Harold Boyd. *A new or improved soap, called "Indian mica soap."* (Specification filed 19 December 1894.)

No. 74 of 1894.—Harold Boyd. *A new or improved antiseptic powder, called "camphorated mica powder."* (Specification filed 19 December 1894.)

No. 118 of 1894.—Thomas Toussaint Watson. *An improved bullet, called "The Pegasus."* (Specification filed 22 December 1894.)

No. 253 of 1894.—George Walter Blanks. *Methods or means to be employed in elevating and storing the water of the sea for use as a motive power, and for other purposes.* (Specification filed 20 December 1894.)

No. 262 of 1894.—King Charles Edmunds. *A new high explosive, called "Bombrite."* (Specification filed 19 December 1894.)

No. 359 of 1894.—Alfred Francis Rout. *An improved mechanical gate for starting horse races.* (Specification filed 21 December 1894.)

Fee in respect of the continuance of an exclusive privilege—

4 (*a*) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of R50 for each of the above inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1883, will from this date (December 19th, 1895) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,

Offg. Secy under the Inventions and Designs Act, 1888.

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1898, the price of this Quinine will be as follows:—

1-pound tin,	R17,	or, post-free,	R17-12.
½ ,,	R8-8,	,,	R9-0.
¼ ,,	R4-4,	,,	R4-12.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৮৯৮ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন	১৭,	বা ডাকমাশুল বিনা	১৭৷৷৹
½ আধ ,, ,,	৮৷৷৹	,,	৯,
¼ পোয়া ,, ,,	৪।৹	,,	৪৷৷৹

পরিক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে, এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনাডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারে।

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT EMPLOYMENT ONLY.

It is advised that letters containing remittances be registered.

N.B.—The Revised Prices herein entered cover the cost of packing, postage, and other incidental charges (except commission for Value-payable supplies), and are for all purchasers other than resident College Students.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal Octavo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required:—

VOLUME I.*

Section	I.	Building Materials,	R2-6.
,,	II.	Masonry,	R1-4.
,,	III.	Carpentry, (1889),	R1-4.
,,	IV.	Earthwork (1892),	R1-4.
,,	V.	Tools and Plant (never published).	

VOLUME II.*

Section	VI.	Buildings. (In the Press.)	
,,	VII.	Bridges,	R4-4.
,,	VIII.	Roads,	R1-8.
,,	IX.	Railways (1891),	R1-4.
,,	X.	Irrigation Works. (Under revision.)	

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol. I. Direct and Transverse Strain, principally by Analytical Methods. R7

,, II. The Stability of Structures, mostly by Graphic Methods (in the Press).

MANUALS.

VII. **Surveying** (by Major Firebrace, R.E.) (6th edition, with Curve Table). R3.

XIII. **Drawing** (by Lieut. R. Pulford, R.E.). † R8.

XIIIa. **Drawing, First Principles of Geometrical** (by do.) (4th edition). R1-4.

XIV. **Simple Applied Mechanics**, Parts I and II in one (in the Press).

Simple Applied Mechanics, Part II (1st edition). 8a.

XV. **Examples of Estimating.** Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition). R3-12.

* Date of Edition on sale.

† Originally published at R15, reduced to R8.

XVI. Earthwork Estimating, with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. Say R1.

XVII. Specimens of Printing used in the College Drawing Course and Entrance Examinations. 6a.

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting Section X, is the course for the Upper Subordinate Class. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

Shelly's Workshop appliances. R1-8.

Curve Tables, complete, for laying any curve. 4a.

Scantlings of Timber for Roofs. Tables and investigation of formulæ for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trusses Roofs from 16 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. R1.

Notes on Chemistry of Building Materials. R2-0.

Tate's Mechanism. R1.

Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Rai Kunnya Lal. R2-8.

O'Callaghan's Earthwork Tables for India, in one large sheet, 12a.; mounted on cloth and bound. R1-12.

Tables for Computing Earthwork in Distributaries and small open Channels, in use in Irrigation Department, N.-W. Provinces. 12a.

Tyndall's Hand-Book of Specifications. R5.

The Indian Engineer's Pocket Book. (In the Press.)

Wooden Bridges and Designs. By Rai Kunnya Lal. (In the Press.)

Blasting under Water (2nd edition). 10a.

Waugh's Instructions for Topographical Surveying R1.

Analysis of Lime and Cement Stones. By Murray Thomson, Esq., M.D., F.R.S.E. 6a.

Chart, giving by a graphic method the discharges of earthen channels up to 40 feet bed width, very useful for Projects. R1-8.

SCIENCE BOOKS.

Wilson's Inorganic Chemistry. R2-0.

Banerman's Descriptive Mineralogy, R3.

MATHEMATICAL.

Boileau's Tables of Wages and Rent, and of the value of goods. Tables for converting Seers and Chittacks into decimals of a Maund, and Annas and Pies into decimals of a Rupee. With a few others of general utility (4th edition). R1-8.

Boileau's Tables of Log sin² ½ P (for computing time). 4a.

Cape's Logarithms, with Tables of Squares, Cubes, etc. R1-4.

Cape's Geometry. R1-4.

Cape's Mechanics. 8a.

Todhunter's Plane Trigonometry. R2-12.

Todhunter's Differential Calculus. R2-8.

Military Topography. 8a.

HINDUSTANI.

Elements of Hindustani Grammar. 8a.

Technical Dialogues—English and Urdu. R1.

A Vocabulary of Common and Technical Words in English-Urdu. R1.

History of India (*Ithas Timirnásak*), Hindi, Parts I and II. Each Part 3a.

Short Account of Ganges Canal (English and Urdu). 4a.

NOTE AND FIELD-BOOKS, etc.

Note-Books (Section paper), large. R1-4.

Surveying Field-Books (ruled). 14a.

Levelling Field-Books (English Pattern). R1-4.

" " (Canal "). R1-4

" " (College "). R2-0.

P. W. D. Note-Book. R1-4.

" **Measurement Book.** R1-4.

Circular Card-board Protractors, 12 inches. R2.

MISCELLANEOUS.

Distributary, Velocity and Discharge Table. By Capt. Allan Cunningham. 8a.

Description of Venomous Snakes. (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thanatophidia of India.") R1-8.

Ditto ditto in Urdu. R1-4.

Perspective (fully explained). By Col. A. M. Brandreth, R.E. R1-12.

Thomason College Calendars for 1892,* 1895,† 1896† and 1897. Each R2.

Ditto ditto for 1898, Pt. I. R3-6.

Forms of Accounts, P. W. D., for Sub-Divisional Officers, in English (very old). 4a.

Memo. of Instructions for Road Project. R1.

Project for College Mess (sample Project). R1.

Ferrotype Printing Processes. 8a.

Thomason College Library Catalogue. R2-4.

Ditto, Supplement, 1895 and 1896. Each 2a.

Ditto, ditto, 1897 and 1898. Each 2a.

Irrigation by Rajbahas,
Irrigation Tract, No. I.
" " " II.
" " " III.
} 4a. each.

Land Measuring Chain Statement, Area of kucha and pucka Bighas, sheet. 4a.

Report of the Ganges Canal Committee (Major Crofton's Project for remodelling the Ganges Canal according to the views of Major-General Sir Arthur Cotton, R.E., K.C.S.I.), 1866. 8a.

Report of the Ganges Canal. By Captain J. Crofton, R.E., with Estimates and Plan—

Vol. I, Report, 1865. 8a.

Shakesperian Readings, *viz.*:—

1. **Taming of the Shrew,**
2. **Othello,**
3. **Macbeth,**
4. **Comedy of Errors,**
5. **Merchant of Venice,**

} Each 4a.

Graphic Hydraulic Diagrams for channels in earth, giving Discharges and mean Velocities for varying bed widths, depths, and slopes. By R. G. Kennedy, Executive Engineer. R7-8.

PLANS OF STATIONS.

Lithographed Plans of the Cantonments and Regimental Lines in the different Military Stations of India. Drawn to a uniform scale, and prepared between 1864 and 1868 for the Government of India, P. W. Department. (Useful for Executive Engineers' and Superintending Engineers' Offices.)

Bengal, 51 Plans.
Madras, 99 Plans.
Bombay, 91 Plans.
N.-W. Provinces, 104 Plans.
Oudh, 21 Plans.
Rajputana, 4 Plans.
British Burma, 19 Plans.
Central Provinces.
} Each 5a.

PROFESSIONAL PAPERS ON INDIAN ENGINEERING.

(FIRST SERIES.)

Vol. I. (Quarterly, Nos. 1 to 5), bound R2.

Quarterly, Nos. 1, 2, 3, 4, and 5	8a. each, exclusive of packing and postage.
Vol. II, Quarterly, Nos. 6 and 7,	
" VI, " Nos. 24 and 25,	
" VII, " Nos. 26, 27, 28, and 29,	
Extra No., April 1870.	

(SECOND SERIES.)

Quarterly Numbers of Vols. I, II, VIII, IX, and XI. 8a. each, exclusive of packing and postage.

Quarterly Number 41A of Vol. X. 8a. each, exclusive of packing and postage.

Cloth covers for Volumes of 1st and 2nd Series, at 4a. each.

* Calendar for 1892 includes question papers for entrance to Engineer and Upper Subordinate Classes only.

† These include question papers for entrance to Engineer and Upper Subordinate Classes and Superior Accounts Branch, Public Works Department.

(THIRD SERIES.)

Quarterly Nos. 13 and 15, at 8a. each, exclusive of packing and postage.

Index to Professional Papers and loose Papers, 1st and 2nd Series, at 2a. each, and loose papers, 3rd Series, 3a. each, exclusive of packing and postage.

FERROTYPE PRINTING.

Chemicals and Lithographic Paper for this process can be purchased from Thomason College Book Depôt. Application to be made to the Curator.

Apparatus for Printing can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

CIRCULARS.

Circulars containing the Rules of admission to the different classes of the College will be forwarded to applicants

J. CLIBBORN, *Lieut.-Col., I. S. C.,*
Principal, Thomason Civil Engineering College, Roorkee.

NOTICE.

It is notified, for information of Military and Civil officers, that services of Shams-ul-Ulama, Shaikh Mahmud Gilani, Persian Instructor, and Mr. R. F. Azoo, Arabic Instructor, have been specially retained by Government for giving instruction to candidates intending to present themselves for examinations in Arabic and Persian before the Board of Examiners. Gentlemen requiring their tuition should communicate with them at the office of the Board of Examiners.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870:—

Terms of subscription payable annually in advance.

For the complete Series, *including postage* . . . R22-8

	Without postage. R a. p.	With postage. R a. p.
For the Calcutta Series	10 0 0	12 8 0
„ each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
„ a part of the Calcutta Series purchased separately, *inclusive of postage in India*	..	2 0 0
„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately, *inclusive of postage in India*	...	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town. R a. p.	For mofussil. R a. p.
For the Calcutta Series; per copy . .	0 8 9	0 10 0
„ each of the Madras, Bombay, and Allahabad Series; per copy	0 5 3	0 5 9
„ the Calcutta Series. For the year . .	7 2 6	8 6 3
„ each of the Madras, Bombay, and Allahabad Series. For the year . . .	4 4 6	4 11 0

Persons desiring to subscribe for, or purchase, the Report, should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay
The Curator of Government Books, North-Western Provinces and Oudh.
The Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper, of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	Half page.	Quarter page.
For one issue	R 20	R 14	R 9
„ three issues	„ 55	„ 36	„ 24
„ six „	„ 100	„ 68	„ 45
„ nine „	„ 145	„ 96	„ 64
„ twelve „	„ 180	„ 120	„ 80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage. R a. p.	With postage. R a. p.
Bengal Law Reports, for one year . .	20 0 0	22 8 0
Single copies, R2 per copy.		
Full Bench Rulings, Parts I and II . .	20 0 0	22 8 3

Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta. Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depôt.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

GEOLOGICAL SURVEY OF INDIA.

FOR SALE.

1. Records of the Geological Survey of India, Vols. I to XXX. Price R2 per volume or R1 per part.

2. Memoirs of the Geological Survey of India, Vols. I to XXVII. Price per Volume R5.

3. Palæontologia Indica, Series I to XVI. The price of these publications is 4a. per single plate.

4. A Manual of the Geology of India, 2nd Edition. By R. D. Oldham, A.R.S.M., F.G.S. Price R8.

5. A Manual of the Geology of India, Economic Geology, 2nd Edition, part 1, corundum. By T. H. Holland, A.R.C.S., F.G.S. Price per copy R1.

6. An Introduction to the Chemical and Physical Study of Indian Minerals. By T. H. Holland, A.R.C.S., F.G.S. Price 8*a*.

7. Report on the Geological Structure and Stability of the Hill Slopes around Naini Tal. By T. H. Holland, A.R.C.S., F.G.S. Price R3.

8. Bibliography of Indian Geology. By R. D. Oldham, A.R.S.M., F.G.S. Price R1-8.

9. Map of the Geology of India, scale 1"=96 miles. R1 per copy.

10. Map of the Geology of India, in 6 sheets, scale 1"=32 miles. R12 per copy.

11. Reports on the Inspection of Mines in India, by James Grundy :—

Report for the year ending 30th June, 1894. Price R1.

Do. do. 30th June, 1895. Price R2.

Do. do. 30th June, 1896. Price R1.

Do. do. 31st Dec., 1896. Price R1.

Apply to the Registrar, Geological Survey of India, Calcutta.

METEOROLOGICAL PUBLICATIONS FOR SALE.

At the Meteorological Office, No. 5, Russell Street, Calcutta, at the prices specified below :—

Hand-book of Cyclonic Storms in the Bay of Bengal for the use of Sailors, describing the phenomena of Cyclonic Storms and Cyclones in the Bay of Bengal, and giving a brief account of six typical Bay of Bengal Cyclonic Storms. It also gives practical hints to sailors respecting Cyclonic Storms in the Bay. Demy, 212 pages, 29 plates (showing diurnal oscillation of barometer at different Latitudes and Longitudes, mean monthly barometric height, tracks of different Cyclonic Storms, etc., etc.) R5.

Rainfall Map of India in two sheets, scale 64 miles to one inch, showing the annual distribution of rainfall in India (in colours). R3.

Instructions to Observers of the India Meteorological Department, in which are described in detail the various Meteorological instruments in use at the Meteorological observatories, with full instructions how to read them, etc. Demy, 103 pages. R3.

Tables for the Reduction of Meteorological Observations in India. This book contains tables for reducing barometric observations taken at different heights, and for calculating humidity and vapour tension, etc., etc. R2.

Barometer, Wind and Current Charts of the Bay of Bengal and adjacent sea, north of the equator. R5.

Charts of the Bay of Bengal and adjacent sea, north of the equator, showing the specific gravity, temperature, and currents of the sea surface. R1-8.

Barometer, Wind and Current Charts of the Arabian Sea and the adjacent portion of the North Indian Ocean. R5.

Monthly Weather Review of India, giving a summary of the chief features of the weather in India and containing discussions on atmospheric pressure, barometric depressions, temperature of the air, winds, rainfall, etc. It also contains all available information about snowfall in the mountain districts to the north and north-west of India, and an abstract of observations taken at about 200 observatories in India. Published *monthly*. R1 per month or R12 per annum. Postage 1*a*. 6*p*. for each copy outside Calcutta.

India Daily Weather Report and Chart, containing observations recorded at 8 A.M. at 147 observatories, with a Chart showing the distribution of atmospheric pressure and rainfall all over India, and a brief summary of the chief features of the weather of the day. Issued *daily* from the Simla Meteorological Office. Monthly subscription R2, and postage annas 8.

JOHN ELIOT,
Meteorological Reporter to the Govt. of India.

FOR SALE.

Reports on the Inspection of Mines in India during 1893-94 and 1894-95. By JAMES GRUNDY, Inspector of Mines in India (1894 and 1896). Price R1 and R2, respectively.

To be had on application to the Registrar, Geological Survey of India, Calcutta.

Cattle Disease in India. Manual of the more deadly forms of. Hindi version. Royal 8vo., stiff boards. 6a.
Ditto. Urdu version. Royal 8vo., stiff boards. 6a.

A Dictionary of the Economic Products of India.

BY DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

The first five volumes and Volume VI, Parts I, II, III, & IV of the Dictionary are ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, R6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross-references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal 8vo pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L; and Volume V contains the latter half of L to end of O; Vol. VI (which consists of four parts), Part I, contains letters P to R. The whole work completed in nine volumes (including Parts II to IV of Vol. VI), but a tenth volume has been issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index is practically a glossary of the vernacular and European names of the plants, animals, and minerals of India, and, as such, is a work of reference, which, it is hoped, will prove of considerable value.

Index to Do. do. 8vo. R2 (4a.)

Technical Art Series published up to 1896, together with their explanatory Text—

1886-87, 6 Plates with Text. R1-8 a set (4a.)

PART VI.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS, 1861 AND 1892 (24 & 25 VICT., CAP. 67, AND 55 & 56 VICT., CAP. 14).

The Council met at Government House, Calcutta, on Monday, the 27th March, 1899.

PRESENT:

His Excellency Baron Curzon of Kedleston, P.C., G.M.S.I., G.M.I.E., Viceroy and Governor General of India, *presiding*.
His Honour Sir John Woodburn, K.C.S.I., Lieutenant-Governor of Bengal.
The Hon'ble Sir J. Westland, K.C.S.I.
The Hon'ble Mr. M. D. Chalmers, C.S.I.
The Hon'ble Major-General Sir E. H. H. Collen, K.C.I.E., C.B.
The Hon'ble Sir A. C. Trevor, K.C.S.I.
The Hon'ble Mr. C. M. Rivaz, C.S.I.
The Hon'ble M. R. Ry. Panappakkam Ananda Charlu, Vidia Vinodha Avargal, Rai Bahadur, C.I.E.
The Hon'ble Sir G. H. P. Evans, K.C.I.E.
The Hon'ble Mr. J. J. D. LaTouche, C.S.I.
The Hon'ble Rai Bahadur Pandit Suraj Kaul, C.I.E.
The Hon'ble Mr. Gangadhar Rao Madhav Chitnavis, C.I.E.
The Hon'ble Mr. Allan Arthur.
The Hon'ble Mr. P. M. Mehta, C.I.E.
The Hon'ble Nawab Mumtaz-ud-daula Muhammad Faiyaz Ali Khan.
The Hon'ble Mr. J. K. Spence, C.S.I.
The Hon'ble Mr. G. Toynbee.
The Hon'ble Mr. D. M. Smeaton, C.S.I.
The Hon'ble Mr. J. D. Rees, C.I.E.
The Hon'ble Maharaja Rameshwara Singh Bahadur of Darbhanga.
The Hon'ble Nawab Bahadur Sir Khwaja Ahsanullah, K.C.I.E.

QUESTIONS AND ANSWERS.

The Hon'ble MR. GANGADHAR RAO MADHAV CHITNAVIS asked :—

"1. Will Government be pleased to say if they intend introducing in the Central Provinces a law of entail for the preservation of old estates, as they

intend doing with regard to estates of old and loyal proprietors in the North-Western Provinces and Oudh?

"2. Will Government be pleased to say if the main reason which actuates Government to assess sír lands in the North-Western Provinces and Oudh is the fact that sír lands cultivated by proprietors by means of servants do not generally yield the same profits as self-cultivated lands?

"3. Will Government be pleased to say if the inquiry promised by Sir Antony MacDonnell as Home Member to my question (*c*) on the 15th of February, 1894, has been instituted, and, if so, will it be pleased to state the result of that inquiry?"

The Hon'ble MR. RIVAZ replied:—

"1. The proposals for legislation to which the Hon'ble Member refers, relate exclusively to a particular class of estates in the province of Oudh, and any legislation that may be undertaken will be carried out in the provincial Legislative Council. The enactment of a similar measure for the Central Provinces has not yet been considered by the Government of India.

"2. The Hon'ble Member is in error in thinking that the main reason which actuates the North-Western Provinces and Oudh Government in allowing a reduction in the assumed rental value of proprietors' sír land is that proprietors who cultivate their sír through the agency of servants, make smaller net profits from such land than its rental value. The main reason is that given in the assessment rules, namely, that, when the number of proprietors is great and their circumstances poor, a reduction in assessment as an act of grace is allowable, and may be made by placing a low valuation on their sír lands. If the reason were as supposed by the Hon'ble Member, a low valuation would be allowed only in the case of sír lands cultivated by the proprietor by means of hired labour, and would not be allowed in the case of sír lands let by the proprietor to tenants. The Hon'ble Member is probably aware that sír lands are very frequently so let.

"3. The inquiry promised by the Hon'ble Sir Antony MacDonnell was as to the operation of the rule in force in the Central Provinces, which allows in certain cases an assessment up to 65 per cent. of the rental to be imposed by the Settlement-officer. The inquiry was duly made. It was ascertained that the only districts in which the permissive rule in question had been of any practical account were Nagpur and Wardha. In these the Settlement-officer had found a considerable number of villages in which at the last settlement the assessment had been made at a higher percentage than 65 per cent. of the assets, and had been paid without difficulty. In such cases he revised the assessment on the basis of from 60 to 65 per cent. of the assets. The inquiry also showed that the proprietors generally gained by the re-settlement proceedings, inasmuch as the Settlement-officer simultaneously enhanced the rents receivable by them from the protected tenants, and such enhancement exceeded the addition made to the proprietors' assessment."

DISCUSSION OF THE FINANCIAL STATEMENT FOR 1899-1900.

The Hon'ble SIR JAMES WESTLAND said:—"My Lord, in initiating the discussion on the Financial Statement there are one or two points on which I have to make a few observations. A couple of years ago I had to make an apology here for not being able to send the Financial Statement to the Presidency of Madras in the same way as advance copies of it had been sent to Bombay and other places. I regret that there was a failure this year also, and I would make an apology for it were it not for the fact that I have received a thorough scolding from a newspaper in Madras which I think has had the effect of enabling us to cry quits. But I think it is a little ungenerous for this newspaper to hint—if it has not positively said so—that it was partly intentional on my part that I neglected to send the Statement to Madras, and that it arises simply from the fact that I have never hesitated to sacrifice the interests of the Southern Presidency to those of Northern India. I wish to explain that it is really difficult for us to get the

Financial Statement ready in time to send it off three days before the day fixed for its presentation in this Council. I have formerly explained that we do not close the Financial Statement until we have an opportunity of considering the results of February's accounts. That puts off the possible completion of it till the 12th or 13th March at the very earliest. Having done this, we have to prepare ourselves for presenting it before the Council about the 20th March, as sundry inconveniences arise if it is not ready by that date. We have therefore only the 13th to the 20th at the very outside to prepare the final copy of the Statement and to pass it through the press, and if possible send it off to Bombay and Madras. I have done my best to let these Presidencies have copies of it, but I really cannot accept responsibility for Madras being one day further from Calcutta than Bombay, and of the consequent failure in respect of the arrival of the Budget Statement in Madras while it has been duly delivered in Bombay.

"One other remark I wish to make—a remark of a general character. On this day last year I was engaged in defending myself against charges of 'complacent optimism'—I think that was the expression used with regard to the preparation of last year's estimates. Well, I of course was unable to say anything more than that the estimates had been very carefully prepared upon the usual principles, and if Hon'ble Members would only choose to wait twelve months they would see whether I was guilty of 'complacent optimism' or not. Hon'ble Members can judge for themselves whether the results show that I systematically over-estimated the revenues. As a matter of fact, and as I pointed out last Monday, the returns of revenue exceed the estimates which I made last year. I see that I am accused this year from two directions: one leading newspaper of Northern India accuses me of pessimism because under Salt and some other heads we are quite certain of receiving larger sums than I have entered in the estimates. A leading Calcutta newspaper, on the other hand, accuses me of optimism because it is not quite sure that we shall receive the opium revenue which is entered in the estimates. If I am accused on the one hand of optimism and on the other hand of pessimism, the natural conclusion I come to is that I have been adopting a very fair and just mean. There is one thing I wish to repudiate, and that is this: I have not made the estimates, in any sense whatever, with reference to my leaving office and to the management of the finances going into other hands; every single figure in the estimates is exactly what it would have been if the financial management of the empire had remained in my hands. That, I say, I wish most positively to repudiate any such intent, because I have seen it asserted that I had in view the change of office, and that I have prepared the estimates which I have laid before the Council, with a view to that change. I think Hon'ble Members should bear in mind that these estimates are not meant as guesses of the future. The figures as I now state them may, when we come to make up the accounts, show under various heads higher or lower figures than I set out. It is not intended in these estimates merely to make a guess at the future; they are not merely a pleasing arithmetical exercise brought to the Council for criticism, but they are an answer to this question—what revenue can you fairly count with security upon receiving, and what expenditure can you in accordance therewith undertake to incur? If Hon'ble Members will bear in mind that that is the question which the estimates are intended to answer, I think they will see that on the one hand it is necessary for us to make, in a country which is liable to so many changes during the year as India—it is necessary for us to make what are ordinarily called safe estimates of revenue, and on the expenditure side we fully expect, notwithstanding our estimates, to finish the financial year with considerable savings upon the Budget expenditure."

The Hon'ble THE MAHARAJA OF DARBHANGA said:—"My Lord, I have listened with interest and pleasure to the exceedingly satisfactory Budget Statement with which the Hon'ble Member in charge of the Finance Department has presented us. It is, indeed, cheering to observe the revenues so steadily expanding. I shall not be guilty of the impertinence of congratulating the Hon'ble Member on the results of his last Budget; but I have a few observations to offer

in connection therewith which I hope will meet with the favourable consideration of the Government of India.

"I shall divide my remarks under several heads with Your Excellency's permission; and the first point upon which I propose to touch is that of the income-tax. I am sorry, my Lord, that the Hon'ble Member has not been able to announce or to recommend any reduction of taxation. With a realized surplus of 4 crores and with a further 3 crores and 90 lakhs estimated to accrue during the coming year, I must confess that the public might have expected some such boon at his hands. I can sympathize with the Hon'ble Member in the reasons he assigns for maintaining taxation upon its present scale: although perhaps I am not so much impressed with their gravity. But there are many directions in which concessions might be made, without seriously affecting the stability of the finances. The income-tax furnishes us with an excellent illustration. This is a tax the incidence of which is particularly felt by the lower middle classes in this country. Under the present taxable minimum of five hundred rupees per annum, all persons with a monthly income of fifty rupees are assessable. As has already been pointed out more than once in this Council in the discussion upon previous Budget Statements, the parties who pay tax under this class of the schedule are petty tradesmen and clerks in Government offices or in private employ. Notwithstanding the smallness of their salary, they are expected to appear in public in respectable clothing, and there is not one of them who has not to maintain and provide for a large family. I submit that they are a class who in every way deserve relief at the hands of the Government. Their necessities are such that, considering the general rise in the prices of articles of food and clothing during the past twenty years, it is impossible for them to make two ends meet on such a paltry income. The suggestion I would respectfully make to Your Excellency would be that the taxable minimum should be raised from Rs. 500 to Rs. 1,500, or the rupee equivalent to £100 per annum. The Hon'ble Member in charge of Finance may reply—although I sincerely hope he will not, with such a large cash balance at his disposal—that the Government requires the money contributed by these classes of people, and that it cannot therefore see its way towards granting the relief prayed for on their behalf. I venture to urge, on the contrary, that the existence of so prosperous a Budget-sheet as has been unfolded to us affords an excellent opportunity for exempting these persons from the operation of the tax. I do not intend to enter into a discussion on the subject of the suitablity or otherwise of a tax like the income-tax to this country, but I would represent that it causes great distress and inconvenience to individuals of the class I have named, with small incomes and pressing necessities. I am sure no greater boon could be conferred, nor one that would be received with greater gratitude, than the lightening of the burden of the income-tax upon the heavily-weighted shoulders of these poor people.

"There is another topic to which I would ask Your Lordship's sanction to allude. I am the more encouraged to do so, I confess, by the character and tenor of Your Excellency's various utterances since your assumption of your exalted office. I acknowledge with gratitude the grants-in-aid and the contributions made to provincial governments to meet earthquake, famine and plague expenditure. They have been bestowed with a liberal hand: for they amount in all, as I observe, to a crore and thirty-two lakhs of rupees. But I would ask—why not restore the working capital of each province to its statutory balance? To do so would be to enable them once more from their current resources to prosecute those public works which are so urgently called for. I speak, my Lord, with special reference to Bengal and Assam. In either province there is much to be done in this direction. I need only mention at random the lack of good roads in the Duars and the equally lamentable want of adequate means of communication in Assam. Then again I would beg for an energetic policy on the part of the Agricultural Department. There are many questions with which they might profitably deal, and in all of which the cultivator is vitally interested. Take, for instance, the introduction of new crops. In South Russia, I am told, the sun-flower is grown in large quantities and an excel-

lent oil distilled from it. Why should not an enquiry be instituted in this direction? Take again the serious nature of the disease that is attacking the betel-nut trees in Bengal and the sugarcane in Madras. This is another matter that merits the attention of the department. No one, I dare assume, will deny that the backbone of India lies in her agriculture. Were it not for her cultivating class, India would cut a sorry figure, from a financial point of view. I submit, my Lord, that it is the duty of the administration to assist the cultivator, and to foster and encourage his interests in every possible way. I am not asserting that much has not been done, and that much is not being done at the present moment, in this direction; and I hope I shall not be so unfortunate as to be misunderstood. I yield to no one in my appreciation of the sentiments expressed by Your Lordship in your speech on Monday last on the Sugar Duties Bill: and, unless I am much mistaken, it will prove to be the beginning of a new era in our history. But I will venture to remind Your Excellency of the public occasion upon which you gave expression to the hope that the five years of your Viceroyalty might see the completion of a quarter of a lakh of miles of the Indian railway system. Nothing, if I may say so, has given more satisfaction in India than this glimpse into the policy of internal development which Your Excellency has evidently set before you. If there is one thing more than another that the people of India need, it is increased facilities in the way of transport, for it will encourage agriculture, stimulate commerce, and help to open out the mineral and other resources of the country. And this leads me on to the offering of a few observations, which I do with all respect, on the administration of railways in India. Circumstances have brought it about that most of the large railway systems in this country are under the direct control and management of the State. I do not presume to quarrel with the arrangement. It finds its counterpart in more than one country on the Continent of Europe; and it certainly has many arguments to recommend it. One of the advantages it undoubtedly possesses, my Lord, is that it enables me to bring up the subject on the present occasion, and to call the attention of the Government of India to certain matters in connection with which it is the general feeling that some reform might be introduced.

"I would first deal with the question of third class accommodation. A large profit is derived from this source, and there is no doubt that without its receipts the Railway Administration would be seriously embarassed. That being so, may we not reasonably ask for better carriages? Is it not possible for some improvement to be made in the fittings and general arrangements of third class carriages? I would suggest the introduction of corridor trains of third class carriages, with conveniences at either end. The idea is no new one. In America such carriages have been in use almost since the introduction of railways into the United States. In England they are becoming daily more and more popular. There is no question of want of funds to stand in the way, for, as I have already said, there is a large profit derived from the conveyance of third class passengers. Again, the subject of suitable latrine accommodation for these passengers has been raised more than once in Your Excellency's Council. But, although attention has repeatedly been called to it, and questions asked of the Hon'ble Member in charge of the Department by my friends the Maharaja of Ajudhya and the late Prince Sir Jahan Kadr Mirza, I cannot find that any material improvement has resulted. The want of suitable latrine accommodation in the carriages themselves is further aggravated by the system under which third class passengers are locked up for long distances. There is, again, the question of conveniences for native ladies when travelling. This is a most important matter, and one of which I hope the mere mention may be sufficient to secure a much-needed improvement. I would also ask for a more frequent train-service. Until this reform is effected it will be impossible to prevent hustling and over-crowding at stations. The spectacle is a very unseemly one; but passengers are compelled to resort to it in order to secure seats. The fact is, however, that there is not accommodation for half of those who wish to avail themselves of it; and dozens of travellers are daily left behind at railway stations. In many cases they are detained for the whole day, and always for many hours, for there is

not that constant succession of trains to which an English traveller is accustomed. I would call the attention of Government to the great room for improvement in this direction. Further, I would suggest that separate accommodation should be provided in all trains of all classes (whether first, second, intermediate or third) for natives and Europeans. This will be no startling innovation, for separate third class carriages are already provided for Europeans upon most trains. The public benefit will be great. There would then be an end of the unhappy incidents which sometimes occur on railways, and which are nearly always traceable to a want of mutual understanding between the two communities, and a lack of proper appreciation of each other's peculiar habits and customs. At present, too, the intermediate carriages upon certain lines of railway are just as deficient in proper latrine accommodation as the third class carriages in all. I would plead for the adoption of a uniform system. There seems to be no reason why the East Indian Railway and the Eastern Bengal State Railway, which are both under State management, should decline to provide conveniences for their intermediate passengers. For, on the Bengal and North-Western Railway, such accommodation is provided. This again is a defect which, in my view, calls for urgent remedy.

"I now come to the question of fares. My Lord, I do not deny that the present rate per mile for third class fares is low, in comparison with those in other countries: but so are the working expenses, especially on railways in Bengal. I would urge on behalf of the community a still further reduction. As has been pointed out with all the authority of the Press, a journey of twenty miles by rail, at a cost of four annas two pies, or 2½ pies per mile, may appear at first sight a small charge, and from an European point of view, it undoubtedly is so. But it often amounts to fourteen per cent. of the monthly income earned by a large number of these third class travellers; and it is to them a serious consideration. I will put my case for cheaper fares, with Your Excellency's permission, in the words of Colonel Sedgwick, I take from a note, published by him in 1881, when Manager of one of the State lines, and quoted by Mr. Horace Bell in his book on *Railway Policy in India*. I venture to think his remarks are still most applicable. He says:

'If we look at what railways have done, in view of the conditions they have had to face, we shall find that they have adopted, in competition with carts and boats, comparatively low goods rates, but that they have never thought of lowering their passenger fares sufficiently to enable an ordinary coolie to travel more cheaply by rail than he can travel on foot, though this can undoubtedly be done . . It is not to be wondered at, therefore, that railways have altogether failed to attract the masses, and have only succeeded in getting the well-to-do classes . . . To attract the masses railways will have to lower their fares until a journey can be done as cheaply on the railway as on foot. To do this the fare must not exceed 1½ annas for twenty miles, or say one pie a mile, and perhaps in the poorer districts it may have to be reduced to three-quarters of a pie.'

"I will only add that, in issuing the pamphlet in which these excellent observations of Colonel Sedgwick occur, the Government not only pointed out that third class fares had been reduced to 2½ pies a mile on the East Indian Railway, but they added that the effects of the reduction would be watched 'with care and interest,' with the view of proceeding further in the direction of a further reduction of fares. This was seventeen years ago, and my submission to Your Lordship is that the time has now come for the putting into action of the words of sympathy then expressed.

'Up to 1890,' says Mr. Horace Bell, 'the minimum fare aimed at by the Government was 1¾ pies per mile, but this was not acted on, the lowest fare on State lines being 2 pies per mile. In June, 1891, however, this minimum was further reduced to 1½ pie a mile. . . As yet only one line, the Madras Railway, has had the sense to adopt this fare, and with results that are so far very encouraging; while another, the Bengal and North-Western Railway, closely follows with a station-to-station rate, which is equivalent to about 1¾ pies a mile, and with entirely satisfactory effect. What is needed is that the Government should have the courage of its opinions, and show the lead by giving this low rate a full and fair trial on some large State line. There is good reason for the hope that this course will be shortly taken: but, until this is done, it will continue to be held, by those well qualified to hold the opinion, that we have not yet reached, and that by a long way, the limits of our passenger traffic on India railways, and to this it will be impossible to offer any adequate refutation.

At the same time it is conceded that a rate of 1½ pie per mile is not properly applicable over the whole Empire, but is only suited for adoption over areas in which the population is at once dense and poor, and where low wages, and the general struggle for existence, renders them unable to contemplate journeys by rail on more onerous terms. The statistics of the railways which serve such districts point to the certainty that with large numbers, low speeds, and properly fitted vehicles, passengers of the lowest class could be carried at a fare of one pie per mile, and leave a profit of from 20 to 30 per cent; but the cost of carriage is a quantity varying with the volume of traffic, and it may be found that an even lower rate is possible. If, however, we can profitably carry at one pie per mile—a rate which implies that a man can travel 24 miles for the lowest daily wage now paid in India—we may rest satisfied that we have placed railway travel within the means of the poorest classes, and may be content to wait for the results.'

" There is nothing, my Lord, that I could wish to add to these remarks of Colonel Sedgwick and Mr. Bell, which express my own views in far better language than is at my command. But if I were to say a word, it would be this: why should it be an essential of Indian railway management that no reform can be undertaken, unless it will result in a profit? In other countries, so far as my knowledge serves me, such considerations are subordinated to the main question of the convenience of the public. Facilitate the means of transport, encourage the population to move about freely; and, although the result may not be a net gain to the railway administration, the advantage, I submit, is bound to be felt in other directions and in the other component parts of the machinery of the State. I assume that the greater traffic will more than compensate for the loss per unit occasioned by the reduction in fares.

" And, while I am on the subject of railways, there is one more topic to which I ask permission to advert. Are the Government of India, I venture to enquire, really satisfied that the solitary railway system, as represented by the East Indian Railway, adequately serves the requirements of the large population that lines its route, either in the matter of passenger or of goods traffic? As a member of the Bengal Chamber of Commerce, I will only say here that I thoroughly agree with the views of the Chamber on the point. But, if any proof were required of the soundness of their contentions, it is to be found in the slow transit of goods from the North-Western Provinces at the present time. I cannot help observing, my Lord, that, while the Railway Department have not grudged the increased rate of railway mileage which they have given of late years to the North-Western Provinces, Bengal itself has not been equally well-treated in this respect. It has been amply demonstrated during the late famine that increased facilities for transport are urgently necessary; and a glance at the map will suffice to convince the most incredulous. For there is a tremendous blank from Lakhiserai to Bilaspur. I am in favour of the filling up of this gap on more than one ground. The construction of a line running through Chota Nagpur, such as the merchants of Calcutta have so long advocated, would not only serve the interests of trade, but would enable large numbers of Hindus to visit the sacred shrines of Benares, Gaya and Pooree, without the vexations, inconveniences and dangers inseparable from a pilgrimage by road. And I would also point out that it would prevent large hordes of people passing through the great centres of population in their present leisurely fashion, a most serious matter in these days of plague. Intimately bound up with this question and equalling it in gravity and urgency, is the necessity that exists for the construction of light narrow gauge feeder lines of railway in rural districts. I venture to express a hope that Your Lordship will be able to see your way towards giving every encouragement to the development of such projects, not only in Assam, where they are imperatively demanded for the opening up of communications, but also in Bengal itself. We have already a few of these lines, thanks to private enterprise and energy: but we sadly require more. I submit it is most important to adopt every precaution against the spread of famine, and nothing is more calculated to defeat this object than the absence of adequate means of transport.

" My Lord, the consideration of the question of providing increased facilities of transport, and of the prevention of famine thereby, brings me to another topic with which I propose to concern myself. As a zamindar, the question of the colonization of the waste-lands of Assam has the deepest interest for me.

The subject was broached by my friend Sir Patrick Playfair during the Budget discussion in this Council in 1897. Sir Patrick then observed:

'Closely connected with the prevention of famine lies the question of the movement of the people and their distribution for employment...In this connection I would call attention to the advantages that might be gained by the movement of the people to the province of Assam and to the benefit that the Government of India would confer in bringing this about...........There is an enormous tract of land quite distinct from that suitable for tea, which is well adapted to the cultivation of cereals, jute, and other crops...It is remarkably free from drought, and should now be pouring supplies of grain into Bengal, like the neighbouring province of Burma. Feeling assured that Assam cannot be peopled without special effort, I should like to enquire if the Government of India will not undertake this as a protective measure against famine, as well as for the good of the province.'

"My Lord, in answer to Sir Patrick Playfair and to my late brother, who warmly supported what had fallen from the mercantile Member, His Honour the Lieutenant-Governor of Bengal, who was then in charge of the Home Department of Your Excellency's Government, undertook that the observations that had been made should be communicated to the Chief Commissioner of Assam. His Honour added that there was nobody who, from his energy and experience in these matters, was more likely to work out a practical scheme for the emigration of the people than Mr. Cotton, the present Chief Commissioner. No better proof of the truth of Sir John Woodburn's eulogiums could be found than the masterly note upon the subject that has since been compiled by Mr. Cotton. That note has been before the public since the 6th of February, together with the letters of the Revenue and Agricultural Department; and, in common with many others—for the topic has aroused widespread interest in Calcutta—I have perused the correspondence with attention. I observe, my Lord, that permission has been given to the Chief Commissioner to make grants to private capitalists over an experimental area, subject to the modified conditions sanctioned by the Government of India. I would not have dwelt upon this subject at all, but, as a zamindar and a capitalist, my interest in the question is somewhat of a personal nature. Your Excellency will, I trust, forgive me if I say that the conditions imposed by the Government of India are not such as to attract any zamindar or private capitalist. The addition of clearance conditions, and the reduction of the period of the lease to 33 years, are especially felt to be insuperable objections. If Your Excellency will permit me to offer a humble and respectful expression of opinion, it would be to urge that as few conditions as possible should be attached to the first grants of land made under Mr. Cotton's scheme. I am aware, my Lord, that I am hazarding a bold suggestion; but I do so on the following grounds. The problem is here the opening out of virgin tracts of country. The difficulty is to induce pioneers to come forward and perform their task. Now, the success of one or two of these experimental grants will be certain to lead to a number of applications. The Government would then be perfectly justified in imposing any conditions they thought fit: for the success of the scheme would be assured. But, as the proverb goes, it is the first step that requires inducement and encouragement. I would offer the early pioneers a free-hold grant. This is exactly the method that was adopted to introduce the cultivation of tea into Assam. Moreover, these pioneers will not succeed in the beginning in attracting any tenants to settle on their grants on any other terms, and there seems no reason why they should be placed on worse terms than their own tenants. The time for clearance conditions, and other conditions favourable to the interests of Government, will follow, as I have said, in due course. I will not deal further with this subject, my Lord, except to say that I am confident when once the ice is broken—and it will not be broken unless some such concession is accorded as I have ventured to indicate—further private capital will seek investment in the Province.

"My Lord, there is one more subject to which I desire to address myself before I conclude. It has relation to the profit derived from the administration of justice. Now, this is an item which I do not discover in the Budget Statement. The only attempt, as far as I can ascertain, to arrive at an estimate of the net cost of civil justice was in 1890: and it is published in the Gazette of India for January 11th of that year. This I understand to be the return to which Sir Henry Prinsep referred in 1897 and in 1898 from his place in Your Excellency's

Council. But we have had nothing furnished to us in the shape of a yearly statement or even a quinquennial statement since 1890. I would suggest that it would be greatly to the public convenience if the Financial Department would publish a quinquennial return of the receipts and expenditure under this head. Meanwhile, I avail myself of the only sources at my disposal. I will deal only with Bengal. In Bengal, I find a steady annual surplus of a lakh of rupees given in the report on the adminstration of criminal justice for the year 1897 as the net profit during the last four years under the head of receipts and charges on account of the service of processes in the Criminal Courts. In the corresponding report for 1897 on the administration of civil justice in Bengal, we are informed that, inclusive of the High Court and the Presidency Small Cause Courts, the receipts of the Civil Courts for the year under review amounted to Rs. 1,05,13,724, and the charges to Rs. 54,75,588, including the amount realized on account of duty on probates, etc. There was, therefore, a profit to Government from civil litigation of Rs. 50,38,136, and, exclusive of this important item of Rs. 5,30,548, the surplus amounted to Rs. 45,07,588, or more by Rs. 1,15,666 than the surplus of 1896. My Lord, these are very satisfactory figures. But, as Sir Henry Prinsep pointed out in 1897, the people of Bengal derive very little benefit from the very large tax which they pay.

'This is a matter,' continued the learned Judge, 'upon which we Judges of the High Court feel strongly, and we have always felt that, whereas the revenue in this Department was really supplied by Bengal, it was swallowed up by other Presidencies, and they had considerable difficulty in obtaining what they considered to be necessary for Bengal. It was, however, represented to us that it was an Imperial question, and that it was the aggregate that was to be looked to as representing the revenue and the expenditure.'

" Now, my Lord, without disputing the correctness of the contention of the Government of India or discussing it, I would respectfully ask that some portion of this surplus from the administration of justice may be expended on the High Court itself where the rates of salary and the pension rules pressingly call for attention. And I would beg in addition for the improvement of the prospects of the civil judicial officers in Bengal. It is well known that the duties discharged by Munsifs and Subordinate Judges are onerous and responsible; and it is equally well known that they discharge them with honesty and efficiency. But, if they do not complain, it is not because they have no grievances. I would represent that the question of house-accommodation for Munsifs calls for the urgent attention of the authorities. In many places the subordinate judicial officers of Government are compelled by the lack of suitable house-accommodation to live in a manner which is not only injurious to their health and prejudicial to their capacity for work, but which, I submit, is not in consonance with the official positions they have the honour to hold. Again, their salary is low in proportion to the mass of work they have to perform: and it is notorious that they are as overworked as they are under-paid. To improve the condition and the prospects of those most deserving servants of the State is a task that appeals to me with peculiar appropriateness in connection with the large balance derived from the administration of justice. The ministerial establishments are, moreover, very inadequate and greatly require strengthening both as regards pay and status. I would express the hope that some portion of that surplus may be devoted to the purposes I have indicated.

" My Lord, I have now come to the conclusion of the observations I felt it to be my duty to address to Your Excellency's Government. I have purposely dealt with matters of domestic and internal policy. These are matters which I am aware from the perusal of Your Excellency's utterances that you have deeply at heart. The people of the country have every expectation that Your Excellency s term of office will be identified with large and statesmanlike measures of internal development and expansion. The consideration of the domestic needs of India is urgently demanded. I do not exaggerate when I say that the promotion by Government of such a policy will be hailed with every manifestation of approval and of support. It is because I know that the public mind is much concerned at present with these topics, that I have tried, to the best of my ability, to represent their views, and to indicate some of the directions in which encouragement might be afforded and reform introduced; and I hope and trust my efforts may meet with favour and attention at the hands of the Government of India."

The Hon'ble MR. REES said:—"My Hon'ble friend Sir Griffith Evans lately had occasion in this Council Chamber to refer to the Presidency to which I have the honour to belong, and with his pleasant humour, he called it the blessed Arcadia. It is not a Member from Madras who will deny that such arcadian features as are common to prosperous and well-governed agricultural countries are exhibited in the Southern Presidency, and if my Hon'ble friend considers such characteristics are especially conspicuous in the South I shall not quarrel with him, though we have too many lawyers and too much litigation for the parallel to be complete. But I disclaim any responsibility for the faith that is in my Hon'ble friend Mr. Smeaton, who appears to think that Madras is a land so overflowing with milk and honey that any class of its inhabitants privileged, like the Christians of the Coast, in that behalf, should take almost a pleasure in the payment of an additional impost. I have said nothing by way of concurrence in such a creed.

"Admissions, however, partake of the nature of indiscretions, and it would be difficult for me, after what I have said, to enter on any adverse criticism of the Budget. I cheerfully, therefore, leave all that to my Hon'ble friend Mr. Ananda Charlu, who possesses, if I may say so in his presence, the rare gift of being able to treat controversial subjects in an equally forcible and genial manner. I am, however, glad to see that the Hon'ble Finance Minister, with his latest official breath, also makes some admissions regarding our Presidency that are pleasant reading to my Hon'ble friend and myself. It shows 'a very progressive revenue, rapidly increasing up to the famine year, which only temporarily interrupted the advance.' With Bengal, 'it shows the largest increase under assessed taxes due to progressive revision and general improvement in the administration.' Again, 'the revenue in Madras is improving in the manner characteristic of the Province.' To quote more might appear vain-glorious, and enough has been said to show that Sir James Westland shares that appreciation which in his heart every Finance Minister must have of the well-paying Presidency of Madras. In consideration, however, of the strain upon its resources resulting from plague and famine, and by way of free grant, upwards of 15 lakhs in all are contributed by Imperial to Provincial in 1898-99, and a grant of upwards of 6 lakhs is made for next year's direct famine and plague expenditure. Whether or not we are arcadian, we are certainly practical, and no part of the Budget interests Madras more than the Railway chapter.

"Now that the East Coast Railway is completed, and the Bezwada-Madras line is open, a suitable provision of twenty lakhs is made for the Godavari bridge, after the completion of which the railroad will be continuous from Cuttack to Madras.

"Of the large grant of Rs. 1,77,00,000 provided for the Bengal-Nagpur Railway, the lion's share will be expended on completing direct connection between Cuttack and Calcutta. When this is accomplished the question of the agency or agencies to be employed for working the whole length or sections, as the case may be, of the line, and the question of rates, will have to be decided, and the legitimate claims of Madras commerce will require careful consideration. In addition to the many and large interests already concerned, it is probable that in future fine salt, fit to compete with that of Cheshire, will be manufactured in large quantities on the Coromandel Coast.

"Ten lakhs are provided for Madura-Paumben, and seven lakhs for the Tinnevelly, or British portion of the Tinnevelly-Travancore Railway. The Durbar has accepted the proposals of the Government of India, preliminary work is in progress on the British section, and will, no doubt, be commenced on the Durbar's section in the financial year which begins next week.

"The Shoranore-Cochin Railway is entered in Appendix C, and the estimate at ninety lakhs. It has, however, moved up and its circumstances have altered, for the commencement of work has actually been sanctioned on the first thirty miles, and, as the line is to be constructed on the metre gauge, the cost will probably not largely exceed fifty lakhs. His Highness the Raja is prepared to find the funds and nothing is likely therefore to delay action.

"Not much longer will the rich and interesting States of Travancore and Cochin be cut off from the rest of India, and their present enlightened Rulers

will long be remembered for the encouragement they have given to great works of all kinds likely to increase the prosperity of their people.

"The Ammayanaikanur-Guruvanuth Tramway is not so long as its name would imply. Though short (75 miles), it is, however, by no means unimportant, as it will open out two important planting districts and a large tract of plain country. That the Government of India should have approved this line is satisfactory, and, as its construction by a private company is contemplated, there is nothing apparently to prevent its speedy completion if private enterprise proves, as there is every probability of its proving, equal to the occasion.

"For the Calicut-Cannanore extension twenty lakhs are provided. Orders have, it is understood, issued to commence work, and the line will be constructed as a light broad gauge line capable of conversion, if required, into metre gauge.

"All these railways, with the localities to be served with which I am well acquainted, will prove of the utmost advantage to the people, the Government, and to important interests concerned, and by expediting their construction the Government of India will contribute in no small degree to strengthening that conviction of the identity of its aims and interests with those of Local Governments, which should always obtain. When in addition the Nilgiri Railway is opened to traffic, and extended to Ootacamund, an extension already approved, and when the various protective light lines recommended by the Madras Government have been constructed, the people of the Presidency will be fairly well provided with railways, though there are others which would no doubt pay, and should, if possible, be constructed. The present Governor of Madras is the first who has travelled by rail from Calcutta to his capital, and I hope, and the inhabitants of Southern India hope, Your Excellency will be the first Viceroy to take the train to Travancore over the hills at the end of the Peninsula, to return by rail from Cochin to British India, and possibly even to travel on by the metre gauge all the way to Bombay.

"Among the more important decreases in revenue noticed in the Revised Estimates, Madras is responsible for one due to the fall in the sales of land benefited by the Peryar Irrigation Scheme. The Government of Madras has been, and is, busily engaged in investigating this matter, and it is earnestly hoped that the scheme will ultimately prove as remunerative as was expected. Careful revenue estimates were made before it was commenced, and it is altogether too early yet to say that they will not be realized. All that caution and circumspection in the extension of irrigation which the Hon'ble Sir Arthur Trevor and His Honour the Lieutenant-Governor declared to be so necessary on the occasion of the Budget debate of 1897 were exercised before this great work was undertaken.

"The completion of the Bangalore water-works is a matter for congratulation, not only to Bangalore and the Mysore State, but to all Southern India, which is interested in the well-being of that favoured city.

"To Madras proper it is most satisfactory that the Budget estimate of land-revenue charges includes an increase of Rs. 3,87,000, for the too long postponed improvement of the position of taluq and village establishments, a very important measure, and the extension of survey and settlement.

"Your Excellency has already stated how important you deem it that European capital should be attracted to this country. I venture to say that if the Government of India can see its way to allowing extradition, or making some arrangement of the like nature, between the Madras Government and the neighbouring Protected States, in regard to breach of contract, a useful step in that direction will have been taken. Since I endeavoured in vain to bring this about when the Extradition Act was under amendment in 1896, the planters have been proved by the publication of the report of the South India Planters' Enquiry Committee to be, as down South we all knew them to be, just and generous employers of labour, and they really suffer undeserved, and in some localities not inconsiderable, loss under the existing law. Whether or not the far greater loss they suffer from the appreciation of silver is merely temporary, this loss at least is constant and preventible. The planters are confident that they, like other

producers, will receive the sympathetic attention of Your Excellency's Government.

"In like manner any simplification of rules, delegation of authority, and relaxation of restrictions imposed in regard to mining applications, and any action tending to lessen the disheartening delays, which are under the present system unavoidable, would greatly assist Local Governments in encouraging the introduction of foreign capital.

"The remarks made last year by my Hon'ble friend and predecessor Mr. Nicholson, an eminent authority, regarding the development of rural banks, derive additional weight from those made just now on the same subject in the House of Lords by Lord James of Hereford, when introducing the Money Lenders Bill. The Duke of Argyll has also given the movement his support, and in this country, far more than in England, is the adoption of some system similar to the German loan banks, for developing co-operative rural credit, worthy of the attention of Government.

"Finally, I would add my congratulations to those of my Hon'ble friend the Maharaja. I have heard the Finance Minister described as an incurable optimist, but it does not now appear that he has in the past taken too favourable a view of India's finances, and in view of the Budget now presented for the last year of the century, critics of this class must stand confounded."

The Hon'ble MR. SMEATON said:—"My Lord, I am not going to take any excursion into the regions of Imperial finance. My remarks shall be brief and prosaic. But I cannot avoid noticing two salient and encouraging features of the Hon'ble Financial Member's lucid statement. The first is the steady relief being given to the Indian revenues from the burden of debt. The interest now charged against Indian revenues is not very much more than one-half of the amount charged twenty years ago, and this very satisfactory improvement is due to the progressive earnings of the railways and irrigation works which have been constructed from borrowed funds. The remarkable recovery of earnings made by these railways in the year just closing shows how the burden of debt continues to be lightened. The next feature is the satisfactory expansion of the salt-tax and the concurrent cheapening of salt to the people of India. The duty is now lower (except in Burma) than it was twenty years ago: the extension of railways has brought down prices to a figure which could hardly have been anticipated; the pressure of the salt-tax is now much lightened. I think, my Lord, that these two features of the situation disclosed in the Financial Statement are most encouraging. The Hon'ble Sir James Westland has announced that, notwithstanding the substantial surplus of the year now closing, Your Excellency's Government does not propose to make any remission of taxation at present. This announcement will probably prove unpalatable, but I cannot help thinking that the decision of Your Excellency's Government is sound and right. not only, although largely, because, as the Finance Minister says, it is necessary to maintain a strong financial position in view of pending currency reform, but also because, I think, it would hardly be safe for a prudent Government to relinquish any important sources of revenue on the faith of a surplus of one single year. The instructive analyses of comparative surpluses of two periods given by the Finance Minister in paragraphs 69 and 70 of the Statement, coupled with the anticipated surplus of 1899-1900 (even at the modest rate of exchange adopted at $15\frac{3}{4}d.$), indicate a hope that perhaps within a measurable period of time Your Excellency's Government may be able to consider favourably the question of abolition or reduction of certain forms of direct taxation.

"It has been a pleasure to me to notice that the Finance Minister has, in Sections II and III of the Statement, given as many as nine good conduct marks to Burma—more, in fact, than he has bestowed on any other province; and I hope that in consideration of this good behaviour of the province—certified by one so hard to please as Sir James Westland—Your Excellency will permit me to make a few observations in the interest of the trade of Burma.

"The majority of the Burmese are agriculturists, but every man and woman is a trader, and a keen trader, notwithstanding that (as the Financial Member

will now probably admit) he does not love and won't use currency notes. Agriculture in the province is satisfactory, cultivators' profits are good, sometimes handsome: the Government advances are taken with alacrity and have, I am glad to say, already caused a sensible reduction in the rates of interest charged by money-lenders. The programme of assessment of land in Upper Burma has been, partly at least, satisfactorily settled at last. Railway and road extensions are progressing fairly, but hardly perhaps so well as might be wished for. There are many remote land-locked tracts which need to be opened out: and one very costly line—the Mandalay-Kunlon—is not likely to be either commercially or financially a success at least for a long time to come. I am glad to learn that sufficient funds have at last been provided for an adequate construction programme during the coming year. The Provincial Contract with the Supreme Government is liberal, and I hope it may continue so. Now, my Lord, to come to the matter in regard to which I solicit a concession. It is not the rice export-duty that I suggest should be remitted—for the very good reason that it is paid, at present at least, by the consumer—that is to say, the foreign consumer: and I cannot conceive of any more legitimate asset than the tribute paid by foreign consumers of products of our own provinces. The Burma cultivator occupies a strong position and practically commands his own price within the usual limitations imposed by custom and trade: his rice has, I believe a special 'ticket' in the markets of the world; he is very independent, and long may he remain so. It is not he, therefore, who pays the duty; he makes the foreign consumer pay it. Germany is a large consumer: thousands of tons of Burma rice are imported into her ports—Bremen, Hamburg and others: and this rice emerges from these places in the form, I believe, of Lager beer, and I am told, good old Scotch whisky made in Germany. It seems to me that the Government of India may well congratulate itself on recovering the duty on the rice from these foreign distillers and other consumers. Of course the tables may be turned and serious competition may arise with the rice of Japan, Siam or French Cochin China, in which case the duty may be shifted on to the shoulders of the Burma producers. When this change takes place it will be justifiable to abolish the duty so as to place the Burmese producer on equal terms with his rivals. But that time is not yet. It is not, then, the rice export-duty in regard to which I have to ask indulgence. It is in regard to the management of the large rice trade. Difficulty is sometimes experienced in Rangoon in financing the enormous rice trade aggregating 10 to 12 crores of rupees. The Government balances in the beginning of the export season amount to about 2½ crores of rupees. These large funds are made over, by arrangement, to the local Presidency Bank—the Bank of Bengal—at a fixed rate of exchange; and I may say, parenthetically, that so far as I know this arrangement is confined to Rangoon. The Comptroller General refuses to sell transfers of funds on Rangoon to the commercial public, who are thus compelled to make their remittances through the Bank of Bengal at enhanced rates. The Comptroller General does sell transfers on Bombay, Madras, and even Karachi: and it seems a little hard that the Rangoon commercial public cannot have the same advantages and facilities as Bombay, Madras and Karachi—so long, that is to say, as funds are available in Rangoon. The result of the present (I think I may call it without impropriety a monopoly) arrangement and of the measures naturally taken by the Bank of Bengal to make profitable disposal of the Government balances—is to create sometimes an artificial stringency in the local money market to the detriment of trade. I would venture to suggest that either a share of the Secretary of State's Council Bills be issued for sale in Rangoon during the busy season when funds are available to meet them, or that the Government balances be thrown open to the commercial public in Rangoon just as they are in Bombay, Madras and Karachi, by sale of transfers. During the latter part of the year, when bankers, chetties and others are remitting their surpluses back to India, the Comptroller General sells transfers on Calcutta and Madras. The mercantile public naturally ask why, when the Comptroller General reverses the operation, they should alone be debarred from getting transfers on Rangoon when funds are available. The result of either of the alternatives which I have suggested would be greater ease and certainty in

financing the large rice trade at the most critical season. As I have already said, trade in Burma is universal, and the prosperity of the province is very much bound up with trade. Facilities and conveniences given at the ports will re-act favourably on trade in the interior. Burma occupies a unique position, geographical and political—the bridge between the near East and the far East, and the outpost of the British Empire abutting on the Chinese and Siamese frontiers and on the frontier of a French dependency. In certain eventualities Burma may be of great help and use to the British Government, and if she is to be in a position to be of use and of help she must be as prosperous and as strong as possible. There is no better way of achieving this end than by fostering the trade of the province; and I therefore hope that the suggestions which I have ventured to make will receive the favourable consideration of Your Excellency's Government."

The Hon'ble MR. SPENCE said:—" I did not intend to interpose in this debate, but on behalf of the unfortunate Presidency which I have the honour to represent I should like to make a very few remarks. Anybody who has read the Financial Statement will see that the Presidency of Bombay is in a most parlous condition as regards its finance. We start the year without any balance at all, and we are practically left on the charity of the Government of India. There may be difference of opinion as to the bountifulness of the charity which has been doled out to us, but on the whole perhaps there is no reason to complain. When you have no money to spend and everything has to be cut down as far as possible, no improvements can be carried out and all useful works are likely to deteriorate. I trust that before the Finance Minister leaves the country he will pass on to his successor a good word on our behalf that we shall be treated in the future as generously, or perhaps more so, than we have been in the past."

The Hon'ble NAWAB FAIYAZ ALI KHAN said:—" My Lord, it is naturally gratifying, both to the Government and to the people, to find that the calamities of war and famine, plague and earthquake, which, so to speak, had all conspired together to embarrass the finances of the Government during the two years preceding the year now coming to its close, have happily all taken wing, leaving behind the plague alone; and I must sincerely congratulate the Hon'ble the Finance Minister that, along with a deficit of Rx. 5,360,000 at the close of 1897-98, he has been enabled to declare a realized surplus of Rx. 4,060,000 only one year afterwards and to estimate a further anticipated surplus of Rx. 3,930,000 in the Budget for 1899-1900, which two items added together more than cover the heavy deficit incurred during the preceding year.

" My Lord, the most encouraging feature of the Financial Statement, the preparation of which is a task of very great difficulty, is that, the financial position of India being good, it will not be necessary for the Government to raise a loan to meet its necessary expenses.

" With so many cheering signs of returning prosperity now before our eyes, it is most discouraging, however, my Lord, to find that the dire epidemic is not only still continuing to make fearful ravages in the Bombay and the Madras Presidencies, but, to our dismay, has also made its appearance in this metropolis of India.

" With peace on the North-West Frontiers and the consequent little provision in the Budget for warlike operations, it would have been unmixed good had the Government had on this occasion the satisfaction of declaring that no provision was to be made for plague operations, as there existed no such thing in the country. Unfortunately, however, my Lord, such is not the case. But I feel sure, and this feeling is, I believe, shared by everyone present here to-day, that no one more sincerely regrets than Your Excellency that with plague still doing havoc in the country it should have been found necessary to provide the large sum of sixty-one lakhs of rupees to prevent its spread.

" In this connection, my Lord, I may be permitted to state that, as far as I have been able to judge, the measures adopted by the Government to prevent

the spread of plague to the uninfected parts are the only effective measures that could be adopted with any chance of success.

"My Lord, I feel that I should not conclude this theme here without expressing my gratitude to the Government of India and to our Lieutenant-Governor, Sir Antony MacDonnell, for organising vigorous measures to prevent this dire calamity. I find that more than one and-a-half crore of rupees will have been spent on these operations from the date of the arrival of the plague in India to the end of the next year; and I feel no doubt that the people of the North-Western Provinces and Oudh, who have so far remained almost safe, feel sincerely grateful to the Government not only for the large sum which the Government is spending on this head, but also for the modifications in the rules so wisely made to suit the state and condition of their society. That the people are gradually realizing the importance and value of these preventive and remedial measures and have begun to appreciate the benevolent intentions which induced the Government to adopt them, is sufficiently clear from the non-occurrence of the disastrous riots which unfortunately took place in some parts of the country during the early days of the outbreak.

"I pass on now to famine. That, my Lord, as observed by the Hon'ble Sir James Westland, 'is now little more than a memory, its effects being obliterated by the return of prosperous seasons.' But the Hon'ble the Finance Minister draws one lesson from the fact of the wonderful recovery of the country from the effects of the late famine, a lesson by which I have no doubt the Government have profited :

'I cannot however, pass on from this subject,' says the Hon'ble Sir James Westland, 'without deriving from it one lesson which it seems to me to afford, namely, that the margin between prosperity and adversity in India must be a very narrow one; for if we have learned that one bountiful harvest suffices to restore the country after a widespread and severe famine, we have learned also that the failure of the seasonal rains in a single month of the year is sufficient to set back a full tide of prosperity, and that this is a possibility which in the administration of India, and in its financial administration especially, we dare not leave out of account.'

"Now, my Lord, in my humble opinion, there are only two means of securing India from the effects of famine, namely, (*1*) extension of railways, and thus improving the means of import and export, and (*2*) extension of canals, and thus adding to the facilities of irrigating land which for want of rains might remain uncultivated.

"My Lord, opinions differ as to which of these two things is more useful and serves better purpose in time of need. But I am not inclined to enter into any elaborate discussion as to the merits of the arguments advanced by both sides in support of their respective theories. Speaking entirely for myself, I am free to say that, in my opinion, both are equally useful and both can add materially to the prosperity of this country.

"As regards railways, I note that on the 31st March, 1899, the total length of open lines of railway will be 22,650 miles; and there is no halt to the march of progress, Rx. 8,820,000 having been provided for the next year.

"The Famine Commission estimated in 1880 that in order to efficiently secure India from the effects of famine there should be 20,000 miles of railways instead of 10,000 which existed at that time. We have now more than 20,000 miles open; and the advantage of the railways has been fully proved in the recent famine. They enabled the Government to save many lives which would otherwise have been lost; and in no part of India was the mortality excessive.

"My Lord, the revenue account of railways and irrigation works is to me a most interesting part of the Budget. The net earnings of these productive works have risen within the last twenty years from Rx. 5 millions to Rx. 14 millions; and, apart from the influence of these works on the prosperity of the country and the incalculable benefit they have conferred on its external and internal trade, they have reduced the burden of debt in spite of large sums borrowed for construction.

"In the North-Western Provinces, the construction of the Fatehpur branch of the Lower Ganges Canal is now practically complete; and important gaps of railway communication have been or are being filled up. The Ganges-Gogra Doab system carried out under the auspices of the Bengal and North-Western Railway Company will open out the districts of Azamgarh, Ballia and Ghazipur; and we shall have also the Rae-Bareli-Benares line, the Moradabad-Ghaziabad Railway, the railway from Hardwar to Dehra and from Shikohabad to Fatehgarh—all important and useful lines.

"My Lord, before passing on to the consideration of the question of the remission of taxes, I may be allowed to express here the feelings of gratitude of the people of the North-Western Provinces and Oudh to our Lieutenant-Governor, Sir Antony MacDonnell, for the complete and successful organisation of his measures of relief during the late famine. Personally His Honour was indefatigable, and his own earnestness in the cause of the suffering and the high ideal of duty set by his own example infused a new spirit in others who worked under him. The success in combating the famine in the North-Western Provinces was due to his own organization, aided no doubt by the large sum of money which the Government of India placed at his disposal. And the people cannot easily forget his sympathy with them at such a hard time.

"My Lord, having made my observations in regard to the points that occurred to me, it should now have been my pleasant duty, in view of a fairly large surplus realized and another surplus likely to accrue in the coming year to urge respectfully, on behalf of the people whom I have the honour to represent, upon Your Excellency's Government the desirability of remitting some of the taxes, particularly the special rate of 2 per cent. on the revenue levied on account of famine insurance from the owners of land subject to periodical assessment. But I have refrained from urging any such request upon Your Lordship for the simple reason that it has already been decided—and I think wisely—not to propose to remit any taxes at the present time.

"The country, my Lord, it is true, has recovered from the effects of the late famine wonderfully well, but it is only just recovering and has not recovered completely; for who does not know that the threatened failure, partial though it may be, of the crops in some districts in the Central Provinces, may result in scarcity, if not in actual famine; and the Government may have to undertake measures of relief on an extensive scale.

"With measures of currency reform still expected, with plague still continuing to expand and develope, and with threatened scarcity—if not actual famine—still staring us in the face in some of the districts in the Central Provinces, it is obviously desirable to maintain as strong a financial position as possible; but I hope that when the anticipated surplus is realized, when plague and famine disappear altogether, and when the stability of the exchange value of the rupee has been secured, the Government will find themselves—I hope at no distant time—in a position to remit some of the taxes which press hardest on commercial and landed interests. Indeed, I have no doubt whatever in my mind that nobody would be more earnest than Your Excellency in acknowledging the desirability of proposing these remissions when the time of solid prosperity arrives.

"To sum up, any proposals of this kind should, I think, be entirely left to the Government; for we must know that they would not continue a pice of any of the undesirable and unnecessary taxes as soon as their financial position is placed on a firm and stable basis.

"My Lord, before I conclude, I beg Your Excellency's permission to say a few words which will refer to you personally.

"Your Excellency's assumption of the exalted office of Her Majesty's Representative in India under exceptionally favourable circumstances, is a happy augury of the welfare and progress which this portion of Her Majesty's Eastern dominions is likely to achieve during the five years of Your Excellency's *regime.* Your Excellency's personal experience of Indian thought and politics, and your thorough knowledge not only of the constitution of Eastern society but also of Eastern prejudices, will, we feel sure, help Your Lordship in the administration of this country; and guided as you will no doubt always be by your keen sympathy

for the people of this land—that sympathy of which we have had ample proof during the short period that has elapsed since Your Excellency took over the charge of the arduous duties of the Viceroy of India—we feel confident that India will continue the march of progress and will continue to enjoy the blessings of peace, prosperity and contentment."

The Hon'ble MR. MEHTA said:—"A surplus, my Lord, like charity, covers a multitude of sins, especially when coming on the top of years of great anxiety, distress and deficit. Any attempt to moralize on the uncertain and deceptive character of the present smiling appearance of Indian finance—like unto Dead Sea apples, goodly to look at but not quite sound at the core—would be drowned in the general chorus of congratulations. But to do my Hon'ble friend justice, he has himself sounded the right note of warning, lest we forget, and pointed out that while the present prosperous Statement sets out a very favourable condition of finance, some of the favourable elements are temporary only, and the extremely rapid recovery of the financial position is in itself a warning that the possibility of sudden reversal of the tide of prosperity (which the failure of a single month of seasonal rainfall has proved sufficient to effect) can never be left out of account in the financial administration of India. These are words of wise warning from one with whom it is possible to differ on many points, but whose ability and intimate knowledge and experience of Indian finance are beyond question. It is possible to emphasize this warning still further. If a *diabolus advocatus* were asked to pick holes in the character of this surplus, as it is said he is called upon to appear and pick holes in the character of a saint before his canonization, a verdict altogether in its favour might not be quite easily won. Of the improvements on the estimates for the year now expiring, amounting to Rx. 3,870,000, gain in exchange accounts for Rx. 1,070,200. Now, though I know that the idea that this gain is only a very indirect form of taxation is scouted as utterly unfounded and untenable, still it is very difficult to believe that it is a golden shower from the skies and that it does not ultimately come in some way from the pockets of the people, perhaps of the agricultural classes, or, at least, that they are not better off by that amount as they otherwise might have been. Another important item of increase is that of the collection of land-revenue. It is a remarkable fact that suspensions of land-revenue owing to famine have been realized very nearly to the full extent in the very next year after it ceased, with the advent of the first good season. This phenomenon has been read as testifying to the astonishing recuperative power of the agricultural population. But signs have not been wanting to show that a portion of this phenomenon at least is probably occasioned by the rigidity with which revenue assessments are collected under a rigid land-revenue code which has completely dône away with the interference of the Civil Courts even to the small extent to which it formerly existed. I know that my Hon'ble friend asserts that this rigidity, which was incautiously admitted by Sir Theodore Hope in this Council, was only a condition of things which existed eighteen years ago, and that the Government of India had since applied effectual remedies. I should like to know what those effectual remedies are, so far as the Bombay Presidency is concerned. Speaking in 1891—which is not eighteen years ago—the Commission appointed to enquire into the working of the Dekkhan Agriculturists' Relief Act reported that 'there could be no question that the rigidity of the revenue assessment system is one of the main causes which lead the raiyats of the Dekkhan into fresh debt.'

"When the amendment of the Dekkhan Agriculturists' Relief Act was undertaken in this Council in 1894-95, it was found that the Bombay Government, or rather the Revenue-officers, resented this part of the report as the ignorant meddlesomeness of strangers from other Provinces who were incompetent to appreciate the beauties of the Bombay revenue system. Though it is open to Revenue-officers to grant remissions and suspensions, and though the Government of Lord Ripon impressed upon the Local Government the propriety of active well-judged moderation in this behalf, the rigidity and inelasticity of the Bombay system continue unmodified. I do not think it right to abuse the latitude which the President of the Council allows on the occasion of the discussion of the Budget by enlarging further upon

an incidental topic. I have referred to it for the purpose of showing that, under these circumstances, it is not a matter of unalloyed congratulation that suspensions of land assessment have been so largely recovered within the very next year of the cessation of famine and scarcity, and have contributed to swell the surplus of the running year.

"Large as this surplus is, it is a matter of surprise that the Financial Member has not adverted to a circumstance in which it would probably have been much larger. It was so far back as May, 1895, that the Royal Commission on Indian Expenditure was appointed. It finished the work of taking evidence in July, 1897; and there has been a sanguine feeling throughout the country that a strong case for an adjustment of burdens favourable to the Indian Exchequer had been established. But, after weary waiting for close upon two years, the end seems to be as far off as ever, and nobody can say when the consideration of the report will be taken in hand. It is impossible not to deplore this extraordinary delay, fraught as it is with possibilities of mischief in stimulating imaginary suspicions and suggestions as to its real cause.

"The surplus would have again been larger if the action of the Government of India had not lost to the country a contribution from the British Exchequer on account of the late war on the Frontier. Such contribution was due to India, not as a matter of charity, but as a matter of just and equitable right in the distribution, to put it at the lowest, of joint Imperial burdens, exactly as they had been recognized on previous occasions. The financial independence of India does not require that it should not claim and receive its share of partnership burdens from the predominant partner, just as that partner, for example, claims and receives every farthing, and perhaps more, of the cost of the army while doing duty in India.

"It is too late, however, to cry over spilt milk; and, in dealing with the surplus such as it is, the proposal to devote a small portion of it to the necessities of the famished Provincial Exchequers cannot but meet with unanimous approval. But, my Lord, I trust I will not be charged with the meanness with which Oliver Twist was always asking for more, if I urge that the Presidency from which I come is not treated with that full justice which it deserves. I do not for a moment grudge the thick slice which Bengal has managed to obtain of the pudding, though I admit we are somewhat jealous of its opportunities to whisper in the ears of His Excellency the Viceroy in Council and his Finance Minister from one side and the other. I am sure I wish it joy of all that it has known to extract from the clutches of the jealous guardian of the Imperial Exchequer. But it cannot be denied that the Bombay Presidency has been far more sorely and grievously tried by plague and famine combined than the Presidency of Bengal. But while Bengal gets the same grant of 15 lakhs of rupees as Bombay, it is in addition to the assistance undertaken to be given towards the European General Hospital at Calcutta, which, I believe, means a further grant of 10 lakhs of rupees, and also in addition to a further sum of 2 lakhs as mentioned in paragraphs 51 and 60 of the Budget It therefore comes to this, that the more stricken and more distant province gets only 15 lakhs, while her more fortunate sister secures 27 lakhs. My Lord, the Bombay Presidency deserves better and more liberal treatment than this. I will very briefly and rapidly state a few facts which will show that this is not an unjustifiable claim. As the Council are aware, the system of Provincial contracts was instituted by the Government of Lord Mayo in 1870. The arrangement then made was a very tentative one and limited in its scope; but it achieved such a measure of success that in 1877 the present system of quinquennial contracts was designed and the limits of the arrangement were considerably enlarged. It so happened, however, that the commencement of the second Provincial contract (1877-1882) was conterminous with the great famine of 1877, which exhausted the resources of the Provincial Government at the very outset so completely as to compel the Government of India not only to bear the greater part of the burden of relief, but even to find money for the Provincial Government to go on with—a situation very similar to the one which the Province has had recently to pass through. I beg the attention of the Council to the way in which it was thought right, under such circumstances, to deal with the Presidency when the time came in 1882 to make

a fresh contract. Though by that time the Provincial Exchequer had recovered itself to a considerable extent, the Imperial Government thought that it was a proper and fitting occasion to grant it more than usually favourable terms. This liberal policy had its own reward. At the close of the third contract in 1887, the Presidency had built up a surplus balance of 32 lakhs of rupees beyond the irreducible minimum of 20 lakhs for working balance which it was required to maintain. This was a little too tempting for the Imperial Government, and when the fourth contract was revised in 1887-88, the shears were pretty closely applied, and it cut from the Provincial assignment a sum of 22 lakhs a year—a sum which, as the Hon'ble Mr. James pointed out the other day in the Local Council, represented one-third of the entire grant resumed from the whole country altogether. The result was that Bombay contributed 110 lakhs during the five years of that contract. This was followed in 1890-91 by the levy of a special benevolence of 17½ lakhs. When the contract was next revised in 1892, Bombay had to yield 13 lakhs a year out of 47 lakhs resumed from all the Provinces, or nearly one-third of all India's contributions, that is to say, 65 lakhs during the period of the fifth contract. As it is the most loyal and patriotic who are most expected to bleed for their country, I think it will be admitted that Bombay was made to bleed pretty freely to maintain its high reputation for those admirable qualities. The least that it could have expected under these circumstances was that, when it was overtaken by dire distress and misfortune, it should have something better than what Job got from his comforters. The close of the fifth contract found Bombay plunged in an unprecedented combination of calamities. Famine and plague joined their forces. No wonder that its treasury was soon depleted. The sixth or current contract has been now settled on the same terms as the last, though the Government of India delayed its settlement till the second year in the hope that they might be able to screw out, as on previous occasions, a further annual contribution of at least 10 lakhs. It is true that the bulk of the famine expenditure has come from the Imperial treasury, as it was bound to do on the exhaustion of the Provincial resources. But, even so, the new contract leaves the Presidency in a situation of great gravity. I will not trust myself to describe this situation, but will rely only on official sources. In presenting the Financial Statement last August, the Hon'ble the Revenue Member said:—

'For the first time since the famine of 1877, the year opens with a balance of *nil*. Negotiations have been in progress with the Imperial Government regarding the final assessment of plague and famine charges; and the present position is that the Imperial Government have undertaken the whole cost of the famine operations and have granted this Government special contributions of Rs. 9,91,000 in 1897-98 and Rs. 7,00 000 in the current year in recognition of plague expenditure; they have, however, refused to place at the credit of this Government any sum for the reconstitution of the Provincial balance, and have directed that, with the assistance of such recoveries as are due from local funds on account of famine charges borne by general revenues, this Government must build up its balance to the prescribed minimum of 20 lakhs by savings from current income—a laborious and thankless task not easy of accomplishment.

'The process of exacting recoveries from local funds is likely to be slow, and in the current year the sum expected to be derived from such recoveries amounts to Rs. 79,000 only. It has been necessary to enforce economy upon all departments with what cannot fail to be regarded as ruthless severity, and in particular to reduce the grant for Civil Works to a point which forbids the entertainment of new projects and barely suffices for the prosecution of works in hand. It is obvious that the Budget herewith presented to the Legislative Council can only be an object of melancholy contemplation.

'The Local Government is financially, to use a nautical phrase, on its beam ends. Its own resources are exhausted and it has to subsist for the present on the charity of the Government of India. The outlook is unpromising, and it is to be feared that for years to come attempts to improve the administration, to provide the additional staff and establishment so urgently needed in more departments than one, and to promote the progress—material, educational and other—of this Presidency will be most seriously crippled, if not rendered impossible, by the lack of the requisite funds.'

"In the debate that took place on this Financial Statement, the Hon'ble Mr. James, then temporary Member of Council, gave a humorous instance of the straits to which Government were reduced.

'I am not sure,' he said, 'that my Hon'ble friend the Legal Remembrancer would not hold that we have really laid ourselves open to the criminal misappropriation clauses of the Indian Penal Code. It is a fact that a subscription of Rs. 17,000, which Government promised to double, has been credited in our revenues and swallowed up, and if we were asked to produce it, much less the corresponding grants promised, we could not do so, at any rate at the present moment.'

"But it is more serious to contemplate that the Civil Works grants were reduced from by no means the high average of 36 lakhs to less than 27 lakhs (actuals) in 1897-98 and to 29 lakhs in the budget for 1898-99, but which was to be further reduced. The above forecast was made in August of last year, when there was some lingering hope that we had seen the last of plague. But unfortunately we have been visited with another outbreak as, if not more, severe than the last. In view of the whole situation, I do not think it can be said that, in the negotiations for the new contract, the Bombay Government were asking anything excessive when they asked the Government of India to increase their assignment by 13 lakhs a year, that is to say 65 lakhs for the period of the contract. But the Government of India were inexorable, and they thought they had done quite enough when they reluctantly refrained from shearing off the 10 lakhs a year they had set their hearts on. Now, while the Government of India were supposed to be in dire straits themselves, it was possible to extenuate their hard-heartedness to the Provincial sheep, though it made their refusal of a contribution from the British Exchequer less excusable. But with a surplus of 4 crores and 76 lakhs for the closing year and an estimated surplus of close upon 4 crores for the Budget year, I submit that the Presidency is entitled to be placed in a normal position throughout the whole of the contract period. Instead of that, what we find is that, as stated in paragraph 57 of the Budget, even after receiving a further grant-in-aid of about 22¾ lakhs, the Province will be left, on 1st April, 1899, with an opening balance of *nil*. The only further relief that is given is a grant of 15 lakhs in the accounts of the year 1898-99, that is to say, out of a surplus of close on 4¾ crores, and the same amount (less the excess expenditure already provided for in the Provincial estimates), an uncertain sum, in the Estimates of 1899-1900, out of a surplus of close upon four crores which is likely to be much more as the rate of exchange has been taken a farthing less than might be reasonably anticipated. I have pointed out above how this relief is considerably less than that granted to Bengal under less afflicting circumstances. But, independently of such a consideration, I venture to submit respectfully that wisdom and justice and liberality all require that the overflowing Imperial Exchequer should set up the Province on its legs again, firstly, by taking up all direct plague expenditure; secondly, by making grants sufficient to restore to their normal health the departments that have been starved so long and have grown so lean; and, thirdly, to start the Province with the minimum working balance of 20 lakhs. To treat plague expenditure as anything but Imperial would be both a hardship and an injustice. It has been regulated by Imperial considerations, has been incurred under Imperial directions, and has been disbursed under Imperial agency. In the case of the smaller municipalities living from hand to mouth, their income is absolutely inadequate to meet the burden, and they can discharge it, even gradually, only by sacrificing all sanitary progress for years to come. Even in the case of a city like Bombay, supposed to be wealthy, the large surplus balance it had carefully built up is swallowed up; it has had to undertake the liability of paying 5 lakhs a year in addition to large revenues from many valuable properties for the improved reconstruction of the city, and it is now levying the maximum rates which it is entitled by law to levy. I may add that Bombay is the only city in all India which is compelled to pay three-fourths of the cost of the city police, amounting to over 5 lakhs of rupees, which was first imposed on it on the understanding that a uniform system would be introduced over the whole country, under which every town would pay for its own police, but which was continued even when the introduction of a uniform system was abandoned. Neither Calcutta nor Madras bears a similar burden. The only just course under such circumstances is to treat the calamity as a visitation of Providence, for which no part of the country shou'd be made to suffer by itself, and to regard all plague expenditure as a joint liability on the general revenues. With regard to the restoration of Civil grants to their just requirements and

the provision of a minimum working balance, it has to be remembered that the mischief done in the last two years has to be repaired. To take one instance only, the expenditure on Civil Works had to be curtailed to 26 lakhs, when, as I have pointed out above, it should have been something like 36 lakhs. Such curtailment does not only mean multiplication of future liability, but it also involves the necessity of making good the deterioration caused by delay. It seems to me that, when the Bombay Government asked for an increased annual assignment of 13 lakhs, they were asking for nothing more than what was essential for the welfare and progress of the administration under their charge. If it was not possible to accede to their demand in a time of trouble and deficit, surely now that there is a large surplus it is but fair that the Presidency should be now placed in a position in which it would have been if the necessary increase had been allowed in the settlement of the current contract. Nothing is more ultimately paying to the Imperial Exchequer than investments in the growing welfare and progress of the different Provinces. I may assure my Hon'ble friend that no congratulations on the prosperity Budget which he has presented to the Council will be more fervent or sincere than those of a Province grateful for being called upon to share that prosperity and for being furnished with the means of recovering its lost health and vigour after having suffered so long and so grievously as the Bombay Presidency has done."

The Hon'ble MR. ALLAN ARTHUR said:—" My Lord, I would congratulate Your Excellency's Government and the Hon'ble Sir James Westland on the prosperous condition of the finances of India, as disclosed by the Budget. That he can hand over to his successor the portfolio of the finances of India in what may be termed a 'record' condition after the peculiarly troublous times of the last few years must be a matter of intense satisfaction to the Hon'ble Member, whose constant readiness and uniform courtesy in listening and agreeing to all reasonable demands, brought forward in the interests of commerce, I should like to take this opportunity of acknowledging on behalf of the mercantile community of Bengal.

" My Lord, when an individual becomes possessed of a large sum of money either by his own exertions, by the prosperity of his business or otherwise, the fact is generally brought home to him by the receipt of subscription books and requests to give off his wealth to others. In like manner the Government of India will probably have laid before them, sooner or later, schemes of various kinds having for their object the dissipation of part of the splendid surplus which the Budget reveals. The mercantile community of India are unanimous in pressing for a reform which has been too long delayed, and which might possibly trench to a small extent on the surplus. I am not going to ask the Hon'ble Member to abolish the income-tax. I do not forget that, when I suggested to him a few weeks ago that it was a hardship that holders of Indian securities in England should be charged with double income-tax, I received from him less satisfaction than I have had on many other questions, and I fear to touch on the subject again. But I agree with much that has fallen on this subject from the Hon'ble the Maharaja of Darbhanga, and would hope that during the next few years it will be found possible to remit this unpopular and unfair tax—unpopular, because it is entirely unsuited to the conditions of the country and of the people; and unfair, on account of the inequality of its incidence. The point I wish to press on Your Lordship's attention is a grievance of long duration. In these days of fierce competition, the prices of all commodities have very materially declined. Values of nearly all articles of consumption are very low, railway rates have been reduced, ocean freights are half of what they once were, letters are carried between Great Britain and India for a penny, and the profits of the merchant have very much decreased. Progress and competition are responsible to a great extent for these reductions. The one charge that remains constant and has been so for nearly quarter of a century is the cost of Indo-European telegrams. The Cable Companies are the enemies of progress in this matter. They block the way, and I think it is a reproach to them that foreign telegrams should remain almost as expensive luxuries as Champagne and Havana cigars. The cost of telegraphing between Europe and India is Rs. 3 or 4*s*. per word. The charge is

so exorbitant that, notwithstanding the increased trade now doing and the increase in the number of telegraphic negociations necessary to do that trade, traffic does not increase to any appreciable degree. The cause of this is not far to seek. In order to avoid being swamped altogether by telegraphic charges, the merchant at immense expense to himself has to go on improving his codes, which are becoming more nearly perfect and more ingenious every year, resulting in fewer words being used to express a great deal more than they formerly did. Private individuals, instead of telegraphing in ordinary words, have to take the trouble of preparing small private codes for the purpose of telegraphing to their friends abroad. Your Lordship will have observed how badly India is served by Press messages, how the high telegraph charges are strangling Press enterprise, with the result that this great Empire is most meagrely informed of what is going on in other countries of the world. Given a substantial reduction in the cost of telegrams, the necessity for perfecting codes will become less urgent and the traffic in mercantile cables will increase, private telegrams will become more frequent, and Press telegrams fuller and more intelligible. To induce an increase in the traffic a small reduction will be useless. The reduction in the first instance must be substantial, at least 50 per cent. This would make the cost of telegraphing Rs. 1-8 homewards and 2 shillings outwards per word It is estimated that a reduction of 6*d.* per word would involve a loss of revenue to the Cable Companies of £50,000 per annum, and it follows that a reduction of 2*s.* would mean a loss of revenue of £200,000. The Cable Companies, not being sufficiently enterprising to lower the rate themselves, would no doubt be willing to make the reduction provided they were given a guarantee that they will not be losers thereby. The Bombay Chamber of Commerce have pointed out that the principle of State aid to communication between parts of the Empire has received definite sanction from the institution of an Imperial penny postage. In the interests of this Empire and of the merchants who have helped to build it, it is surely not unreasonable to expect the Home Government to join the Government of India in giving the necessary guarantee to the Cable Companies. But let us suppose that the Home Government refuse and that the full £200,000 may have to be paid away under the guarantee, the question arises, can the public reasonably ask the Government of India to undertake the guarantee? I observe that the Hon'ble Member budgets for a net profit in the Telegraph Department of Rx. 2,71,200, which surplus at present goes to swell the general revenues of the country, and which would no doubt be reduced to some extent by a reduction in foreign telegram rates. The amount, however, is very nearly the amount of the guarantee required, and it can be very well argued that this net profit might for the present be set aside to carry out this much-needed reform. Again, a saving can be reckoned in the cost of foreign telegrams on Government account, which must be a heavy item, while the small balance required to make up the full guarantee might very well come out of the general revenues of the country, as I maintain that the traders of India, not only European but also Native, will benefit directly and indirectly from the introduction of cheap telegraphy. I do not think the most timid of men would suggest that a reduction in telegraph rates by 50 per cent. would not lead to a great increase in traffic, and it should be borne in mind that while there may be a little to pay in the first instance there is every probability that in a very few years the guarantee will become merely a paper guarantee.

"The Government have a precedent for giving such a guarantee in the action taken by the Australian colonies in 1891, when the Australian-English tariff was reduced from 9*s.* 4*d.* to 4*s.*, subsequently raised to 4*s.* 9*d.*, the Colonial Governments guaranteeing the Cable Companies against loss. It would be interesting to have a return showing the increase in traffic between Australia and England consequent upon the reduction in rates.

"Some of the Indian Chambers go so far as to advocate an all-British cable between Great Britain and India, with a charge of one shilling or even six pence per word; but such a proposal, though eminently desirable, would take time to accomplish, while the suggestion I advocate could be carried out by a stroke of the pen.

"I have to apologise to the Council for the length of my remarks on this subject, but my excuse is that I hold in my hand telegrams from every Chamber of Commerce in India pressing the Bengal Chamber to urge the importance of this question on the notice of Your Excellency. I have further to say that so far back as 1893 the Government of India declared that 'the reduction of the tariff to India is a measure of Imperial importance.' That was six years ago and nothing has since been done. The merchants of India now ask respectfully that this measure of Imperial importance be carried out, and I can assure Your Excellency that, in any action Your Excellency's Government may take to accomplish this desired reform, you will have the unanimous and ardent support of the entire mercantile community of India.

"My Lord, I take this opportunity of referring to the question of the insufficiency of rolling stock on Indian railways, not only in the interests of producers but also in the interests of the State. That the supply of rolling stock on Indian railways generally is wholly inadequate for the requirements of the rapidly increasing trade of the country admits of no discussion whatever. The coal trade of Bengal has suffered incalculable loss by the inadequacy of traffic facilities which has been the subject of constant representations from the Bengal Chamber of Commerce. It is not my intention to go into this point in detail, but I think it is sufficient to point out that the question should be made the subject of most searching enquiry, and an immediate remedy applied; otherwise the interests of individual producers, of the railways themselves, and of the country generally will be jeopardised.

"My Lord, I am not sure if it is permissible for a Member of Your Excellency's Council to make any remarks on the Exchange question, while the question is as it were *subjudice*; but I take it that the object of the publication of the Blue Book was to invite criticism, and I think, if I may be allowed to make a few remarks, they will be found to contain no impropriety. The announcement that the Hon'ble Member, departing from the usual custom of taking the average rate of the previous year, had taken the rupee at 1*s*. $3\frac{3}{4}$*d*. for the coming financial year had an unsettling effect on people's minds, and the result was a feeling of weakness in exchange. This, however, was caused very much by sentiment and has proved only temporary. There is no indication at the present time that the balance of indebtedness is going against India, and under the Barbour scheme the rupee cannot fail to creep up to gold point or nearly gold point, unless the balance of indebtedness goes permanently against India. While the Barbour scheme has been slowly but surely attaining the object which its author claimed that it would, the trade of India has been hampered by periods of excessive monetary stringency. The cause of this is to be found in the fact that, while the scheme provides for a maximum rate of exchange, there is no provision to ensure that the rupee will not decline to an indefinite point.

"All who are interested in fixity of sterling exchange will be pleased to see from the Financial Statement that the Secretary of State has not only succeeded in selling £3 millions more Council bills and transfers than anticipated in the Budget Estimate, but these bills and transfers have been placed at an exchange of 1*s*. 4*d*., the rate aimed at in the legislation of June, 1893. In addition to placing these Council bills, aggregating £19,000 000, the Government of India have succeeded in obtaining about £$1\frac{3}{4}$ millions of gold in exchange for rupees at a corresponding rate, and including that secured last year the gold in the Paper Currency Reserve must now amount to nearly £2,000,000. It is also satisfactory to observe that this improvement in exchange is attributable solely to a favourable balance of indebtedness, not to additional State borrowing in sterling; for, if I read the figures aright, the addition to India's sterling debt this year is £412,800 only (see paragraph 35). At the same time I would venture to point out that it would be a fatal mistake to think that the favourable balance of indebtedness now experienced is bound to continue and that the present prosperous condition of the export trade and curtailed import trade are factors on which to rely for fixity of exchange in the future. We are told in the Financial Statement (paragraph 11) that the rise in exchange in the early part of the year was due to unusually large exports of rice, wheat and seeds. The exports of wheat in

particular were exceptionally large owing to exceptional circumstances: and by way of explanation of the present improvement in the balance of indebtedness I may say that it is only natural after a widespread famine and at a time of plague that exports should greatly exceed imports. Impoverished producers must sell produce before they can buy clothing and other imports, and at a time of plague the holders of both exports and imports are inclined to keep their stocks at a minimum. Hitherto the balance of indebtedness has been as a rule favourable to India, helped occasionally by heavy borrowing in sterling: but it is probable that this favourable balance has been maintained to some extent by the constant decline in sterling exchange: and it would be highly imprudent in attempting to fix exchange to rely for fixity upon this uncertain factor. If we are to have confidence in exchange, we must have in operation that influence which fixes exchange and adjusts the balance of indebtedness in all great commercial countries, *viz.*, immediate and permanent convertibility of the currency into gold, the international standard of value. I think it is now generally admitted that, in order to fix exchange and secure a gold standard, conversion need only be applied to that portion of the currency which can be spared for export, or rather to that portion that is tendered for remittance at the fixed minimum rate of exchange: and I hold that the figures I submitted to this Council last year prove that a Government with heavy sterling liabilities as compared with the extent of their currency will find it less expensive to undertake convertibility in this restricted form than to allow exchange to drop. If this be the case,—and I hold that it is,—it is to be hoped that the contemplated reform of the currency will include measures for ensuring immediate and permanent convertibility in some form or other: and, in order that these measures may inspire complete confidence not only here but in Europe, it is desirable that convertibility be guaranteed by the Home Government. Confidence exerts a powerful influence both over exchange and demand for conversion, and the mere verbal guarantee of the British Government would be of great assistance to the Government of India. This guarantee might be given with perfect freedom from risk; because it has been proved that the Government of India will find it more profitable to undertake convertibility at 1*s.* 4*d.* than to allow sterling exchange to drop below that rate, so that all the Home Government are called on to do is to guarantee that India will adopt the course most profitable to her. It seems to me, then, that in the decision that will shortly have to be made the Government will have to choose between convertibility with profit and certainty on the one hand, and inconvertibility with loss and want of confidence on the other.

"My Lord, I have just one other remark to make. On the 12th February last in answer to a deputation Your Lordship stated that 'British capital is a *sine qua non* to the national advancement' and that it would be sound policy to attract such capital to the dependency. Further, Lord George Hamilton from his place in the House of Commons has repeatedly dwelt on the benefits that would accrue to India from an influx of British capital. If British capital is to be attracted to rupee investments, it seems to me the first step is to grant facilities so that investors can get shares transferred in England, and I would suggest that it is desirable to arrange that Indian companies with rupee capital should be able to have share registers in England, in much the same way as sterling companies, such as the Exchange Banks under the English Companies Act, have what I believe are called Colonial registers, to enable transfers in their shares to be effected in India."

The Hon'ble MR. GANGADHAR RAO MADHAV CHITNAVIS said:—"My Lord, I desire to make a few brief observations on the Budget which was submitted for our consideration last week. In the first place I am glad to be able to offer my felicitations to Your Excellency's Government and the Hon'ble the Finance Member for the very hopeful and encouraging report he has put before us. The year under review must, in comparison with its immediate predecessors, be said to have been a propitious one. Yet I am not quite sure that it has brought us anything of positive good. But, situated as we are, a diminution of evil is itself no small mercy. The Hon'ble the Finance Member has very clearly

shown that the surplus of the current and coming years will have more than covered the aggregate deficit of the two famine years 1896-97 and 1897-98, that is to say, over seven crores of rupees. Yet the Government do not see their way to reduce taxation. It is not for me to challenge the wisdom of this policy, but in view of the facts that prospects are what they are represented to be and the coffers of the State are being replenished every day, small taxes like the pandhri-tax in the Central Provinces might be done away with altogether without any sensible diminution of revenue. I submit this only as a humble suggestion, because I know that this pandhri-tax is felt by the people of my province as an inequitable and oppressive one, owing to the facts that no such tax exists in any other part of the country, and that the income assessable to the said tax is as low as R250 per annum. I have recently had occasion to draw Your Excellency's attention to high assessments in certain parts of my province, where malguzars are required to contribute as much as 70 or 75 per cent., sometimes so much as 80 or 85, of their receipts towards revenue and cesses. My Lord, these high cesses are pressing heavily upon malguzars in my province, and Your Excellency will have earned their lasting gratitude if, under Your Lordship's order after consultation with the Chief Commissioner, the cesses, together with revenue, were fixed by law at 60 per cent. of the collections, or, in other words, the Government revenue were limited to 50 per cent. of the collections, as it is in the North-West Provinces.

"My Lord, it is evident from a mere cursory glance at the Budget that the Central Provinces have been very slow to recover from the depression of the famine. Under the circumstances we cannot but feel grateful to Your Excellency's Government for the proposal of making a grant of five lakhs of rupees to the province from Imperial Revenue. I am aware, my Lord, that Imperial finances have of late years been subjected to great stress. Yet I think that, in view of the extreme calamity in the province, the grant might have been somewhat larger. It would not be out of place here if I draw Your Excellency's attention to the fact that there has been a recurrence of famine in some districts of the Jubbulpur Division, and the rabi crops, in other districts, have more or less failed. I trust Your Excellency's Government has already been informed of the fact by the Chief Commissioner of the province, and that due provision will be made to combat the evil. I earnestly hope that in this emergency the Imperial Government will, to the best of its power, help the Provincial Government to meet their administrative necessities. This claim of my province, I may add, does not arise from the very small balance it now possesses, but from special misfortunes pressing on it.

"The Hon'ble the Finance Minister has referred to the increase in the unit of weight for inland postage from one tola to one and half tola, and I congratulate the Government upon the reform. At the same time I beg to invite the attention of the Government to the necessity that there is for further reform in this direction. The masses would benefit far more greatly if the maximum weight for half anna postage were raised to one tola. When heavy letters can be sent all over the world for an anna postage, it is only reasonable that the maximum of weight for half an anna postage should be raised within the country in the near future when Government finds it convenient. The reform might prove prejudicial to the postal revenue for a time, but it is sure to bring in larger incomes in future than the Government derives at present from the Postal Department.

"I also beg leave to point out that the reduction of the rates of fees for inland telegrams has been delayed a considerable time. Sir James Mackay moved the Government of Lord Lansdowne so long ago as 1892 for the reform, but the Government was far too embarrassed at the time to attempt it. In view of the prosperous times upon which we have entered this subject will, I hope, receive early consideration.

"I note, my Lord, that the Government has been stocking large quantities of gold during the whole of the official year about to close. The imports of the metal on Government account have been valued at Rx. 2,616,400. I also note that, of the two reasons which have induced the Government to hold the large surplus budgeted as a reserve, 'the second and weighter reason is that the Government have in contemplation, as is well known, certain extremely important measures

of currency reform.' I conclude from these two facts that the Government intends to launch out upon some such expensive schemes of currency reform as the introduction of a gold standard or a gold currency. I feel it my bounden duty to inform Your Excellency's Government that the people of this country are likely to look with diffidence upon any such introduction of a gold currency, especially at a heavy initial outlay. Further, a gold currency is, in the opinion of many, unsuited to the economic conditions of a poor country like India, where the traditional cowrie still plays an important part in the commercial transactions of the people.

"I find, my Lord, that the Secretary of State suffered considerable loss upon the $2\frac{1}{2}$ per cent. Government loan of £6,000,000, the loan having been taken up at a heavy discount. This was indeed a heavy loss to incur, and in contemplating it I cannot ignore the fact that the results would probably have been otherwise and advantageous if the loan had the high recommendation of being guaranteed by the Home Government. India sterling stocks are first class stocks and would be eagerly sought for by British investors if they had the British guarantee. The Chinese loan has been raised on far more advantageous terms, and that because it was guaranteed by the British Government. My Lord, I do not see why we, the people of this country, which forms an integral part of the British Empire, should incur any loss upon our sterling loans, while countries with which Britain has only a diplomatic or commercial relation can raise money in London on the easiest possible terms. To my mind the only difference in the two cases is that, while our loans are not guaranteed by the British Government, loans of alien countries, like China, are. My Lord, this difference in the treatment might well strike an impartial observer.

"The next subject of importance I have to refer to is the Army charges. I observe with sincere pleasure that on the expenditure side there have been considerable savings. The result no doubt would have been still more satisfactory for India could the Government see its way, after due consideration, to still further reduce Army expenditure. I think some at least of the Hon'ble Members present here will agree with me when I say that the Army expenditure in India is a heavy drain on its finance, and is generally the principal item which upsets the Budget equilibrium. I therefore think that some considerable reduction is necessary in the military expenditure. It has been suggested that one way of bringing about this result would be to reduce the number of British soldiers in India. During the time of the East India Company one British soldier landed in India used to cost India £27. Now, with greater facilities of travelling, etc., he costs, if I mistake not, as much as four native soldiers of the same rank. It would thus be a great relief to our Exchequer if native soldiers could be largely employed in our army. It was the Indian troops of the East India Company who won the British Empire in the East, and I see no reason why, if we are to pursue a policy of confidence and trust, they, of course with British officers and a smaller number of European soldiers to guide them, should not be able to defend it against all attacks of the enemy. In this connection I beg to invite the attention of the Government to the observations made by the Hon'ble the Finance Member in paragraph 74 of the Budget:

"'In respect of their military charges the Government of India feel the same necessity which presses upon all other military Powers, and which has imposed upon even the most pacific nations increased burdens. Both our military system in its details and our general military and defensive policy are closely linked with those of England; and we cannot escape the necessity of increasing our defensive expenditure in the same way, though not perhaps to the same extent, that England does.'

"Such being the case, my Lord, justice requires that a portion of the expenditure should be borne by England. If Imperial policy demands the extension of defensive works, the expenditure should be met out of the British revenues, and not the Indian, specially when rich Britain can so much more easily bear the burden than poor India.

"The raising of the assessable limit as regards income-tax, and the reduction of the salt-tax, have been so often brought to the notice of the Government that I will not say anything with regard to them. This much I will say, that if

at some future time Government sees it convenient to grant this concession, it would give relief to many poor people.

"My Lord, I have nothing more to add to the able Statement made by the Hon'ble the Finance Member, which I think has been received with satisfaction by all who have heard it. I cannot, however, conclude these remarks without availing myself of the opportunity to express my sincere regret at the approaching departure of the Hon'ble Sir James Westland, who during the many years he has been connected with the Government of India, has not only manfully done his duties towards the Government, but has been a courteous and sincere friend to all Native and European gentlemen who have had the good fortune to meet him in this Council Hall."

The Hon'ble PANDIT SURAJ KAUL said:—"My Lord, the Budget under consideration prepared by the Hon'ble Sir James Westland, whose financial experience is well-known all over India, is, I venture to say, extremely satisfactory. It is gratifying to notice that instead of a deficit the Budget shows a considerable surplus. The Government is to be congratulated upon this result, and if unforeseen calamities, which are beyond human control, do not occur in any part of the country, the Government of India will be under no necessity of borrowing money. Indeed, there will be a large saving. In my remarks on the Budget laid before the Council last year I expressed a hope that there would be decreased expenditure under the heads of war and famine, and it is matter for rejoicing that by the effective measures and policy adopted by the Government both the calamities of frontier war and famine have been averted, resulting in a considerable saving in the expenditure provided for under these heads in the Budget.

"My Lord, I wish to take this opportunity of bringing to Your Excellency's notice the necessity of encouraging and furthering the cultivation of waste-lands in this country, in times of peace and prosperity. During the last Simla season Sir James Lyall, then President of the Famine Commission, asked me what methods would be effective in averting famine, and I stated in reply that the most effective method was the improvement of the means of irrigation. My Lord, it has been proved by the experience gained during the past famine that scarcity was not at all a feature of the tracts irrigated by canals. Indeed, the grain produced went a good way towards supplying the needs of the famine-stricken districts. In the Punjab, the construction of the Chenab Canal has done an immense amount of good. Extensive waste areas and lands where it was impossible even to grow grass are now, owing to canal irrigation, as fertile as any other land in the Province; cattle-thieves who had their abode in what was before a vast forest and were safe inside it have completely lost their rendezvous. It is hoped that the Jhelum Canal, which is about to be constructed, will prove similarly useful, and that when, later on, Government is able to devote its attention to the excavation of the Indus Canal, it will be possible to hold up the Punjab as an example in the matter of the development of sources of irrigation. My Lord, the outlay required on these works is no doubt very large, but it may confidently be expected that they will repay the original outlay, with interest, in the course of a few years. At the same time the extensive tracts of waste-land which are now lying unproductive will be brought under cultivation, and cultivators who have to move from place to place for want of land and are either by habit or in consequence of poverty induced to commit theft and similar crimes will settle down peacefully on getting canal-irrigated land to cultivate. And, above all, the abundant produce of canal-irrigated land will provide what is necessary both for consumption within India and for export to foreign countries.

"My Lord, I also consider it my duty to observe that the provision made in the Budget for expenses connected with the prevention, etc., of plague is necessary and prudent. This terrible epidemic has been the cause of deep anxiety to the Government and sore trouble to the people, but the excellent measures adopted by the Government in places where the scourge has prevailed and for preventing its taking hold of other parts of the country have been of much benefit. The excellent arrangements made by the Punjàb Government in the plague-stricken villages of the Jullundur and the Hoshiarpur Districts have been very successful.

People are now beginning to understand that the rules framed by Government are intended for the benefit of the people themselves and that the disease spreads by contagion. They are beginning to realize the wisdom of segregation of the plague-stricken individuals and of people who might possibly have caught the contagion. The order of Government that no patient shall be compelled to take medicine in the plague-hospital, that the relatives and friends of a patient can be permitted to look after him, and that if he dies they shall not be obstructed in the performance of the after-death ceremonies, has greatly relieved the minds of the people, and they are now becoming alive to their duty in carrying out the orders of Government and assisting it in its efforts. Hindus and Muhammadans, who according to their respective religions regard the ruler of the time as a representative of God, are thus in a better position now to fulfil the noble desires of their ruler. It may be thought that the measures adopted in places like Jullundur and Hoshiarpur may not prove so effective in large towns of the Punjab without the hearty co-operation of the people; but there is now, I think, no reason to fear that in the case of a visitation in any large towns—which God forbid—the assistance of the people may not be fully relied on."

The Hon'ble Mr. LATOUCHE said:—"I do not propose to add anything to the general remarks on the Financial Statement which have been made by the Hon'ble Members who have already spoken, especially by my Hon'ble friend Nawab Faiyaz Ali Khan, my colleague in the representation of the North-Western Provinces. Nor in my opinion is the time opportune for any effective discussion of principles of taxation. Your Excellency's Government has decided to keep the existing realized surplus in reserve, and not at present to undertake any measures for the reduction or re-adjustment of taxation.

"But as the question of the income-tax has been raised, I shall say this much, that while I cannot agree with the Hon'ble Mr. Arthur that the income-tax should be abolished, I yet would gladly see the lower limit of liability to the tax raised above Rs. 500, its present limit. I would gladly see the lowest grades of Rs. 10 and Rs. 15 removed from the schedule, and that not only on the grounds urged by the Hon'ble the Maharaja of Darbhanga, but also on official grounds. In these grades the tax is collected from a number of petty traders who as a rule keep no regular accounts, whose income is extremely difficult—almost impossible—to ascertain, regarding whom an assessing officer is hardly ever able to satisfy himself as to the justice and fairness of his assessment.

"There is only one other matter on which I desire to say a few words. It is the question of the future financial position of the Government of the North-Western Provinces and Oudh, and I refer particularly to paragraph 52 of the Financial Statement, where the Hon'ble the Finance Member says:

'In the coming year, 1899-1900, the Government of the North-Western Provinces propose to increase their scale of expenditure all round to a rate which they will not be able to maintain after the arrear collections (which add some lakhs to the present scale of revenue) are exhausted, and the revenue falls back to its ordinary amount.'

"I trust this does not mean that the scale of expenditure adopted in 1892 is now considered suitable and sufficient for the needs of the Provinces.

"It can be satisfactorily proved that the provision for the public services made in past contracts was inadequate; that the Provinces have suffered from an unduly restricted expenditure; and that in future, apart from the question of any temporary increase, a permanent increase in the scale of expenditure is necessary and essential to the welfare of the Provinces."

The Hon'ble SIR GRIFFITH EVANS said:—"My Lord, India may well be called a land of surprises: it has been visited with war, pestilence and famine all at once, but the marvellous recuperative power of the country when the harvest is good is well illustrated by the revised estimates for the present year. The estimated surplus, Rx. 890,000, which was thought by many to be too sanguine, has been converted into one of nearly Rx. 5,000,000, reduced to Rx. 4 000,000 by fresh grants to the Provincial Governments.

"Of this large surplus only Rx. 1,000,000 is due to the improvement in exchange. The rest is due to increased revenue, although the plague is still with

us. For the coming year a surplus of nearly Rx. 4,000,000 is estimated, and if the exchange keeps at its present level it should be Rx. 400,000 more. The first tendency of everyone on seeing these figures would be to ask for remission of taxation, which is no doubt very heavy, and some of it very harassing. The Government has, however, resolved not to take this course, having regard to the deficit of Rx. 7,000,000 in the last two years, and the probability of being put to extra expense in connection with any scheme that may be decided on for fixing the currency. The estimated surplus for the coming year of nearly Rx. 4,000,000, together with the surplus drawn by the Secretary of State beyond his requirements for the year, amounting to one million sterling, and Rx. 392,000 from the cash balances, goes to supply the sum of Rx. 6,000,000 to be spent for railway construction on capital account, thus rendering a loan unnecessary for the present year.

"There is much to be said for this course as a temporary measure—not only on the grounds stated in the Financial Statement, but because there are elements of uncertainty about the expected surplus of next year. The plague is still here, and is threatening Calcutta and its trade. No one can guarantee peace on the frontier, though we may reasonably hope for it. Opium, too is uncertain, though I am glad to see that the reduction of duty on Malwa opium has had the effect of increasing the production, and giving India a chance of maintaining its hold on the China market, which it was fast losing. Besides all this, I think it is but fair that Your Excellency should have time to consider the needs of the country, and consider the various claims that will be put forward for the remission of taxation on the one hand, and for increased expenditure on the other.

"A recently fractured rib forbids me making any long 'excursus' into that very wide field; but there are one or two observations I would wish to make.

"The salaries and furloughs of the Judges of the High Court and the Presidency Small Cause Court will have to be considered.

"The claims of Bengal to have the surplus income derived from the administration of civil justice in Bengal applied to much-needed improvements in the machinery of justice in the province will have to be considered. The Hon'ble the Maharaja of Darbhanga has dealt with this matter to a considerable extent. In the last Budget debate there will be found a passage-at-arms between the Hon'ble Sir Henry Prinsep and the Hon'ble Financial Member in which the latter had the last word. I regret that for the physical reason I have mentioned I am not able to go at length into this matter. But I am satisfied that the Judges of the High Court are right in saying that the Subordinate Judges and Munsifs are over-worked and underpaid, and that my Hon'ble friend is wrong in his denial of the fact. Again, the condition of the lower ministerial establishment is a scandal. They will continue to supplement their inadequate pay by illicit perquisites unless some change is made. The principle should be that enunciated by Warren Hastings when propounding his scheme for Civil Courts in Benares:

'I have endeavoured to proportion the salaries of the officers to their responsibilities, and have thus removed the necessity for, and I trust the temptation to, corruption.'

"As to the Hon'ble Financial Member's remarks in that debate, that cases which last months are proofs of the incapacity of the Judges who try them, the answer is plain. There is a class of cases, long cases, common in India, which have no parallel in England, except in very rare instances, such as the Tichborne case. They cannot be made into short cases except by a denial of justice. If my Hon'ble friend could only be placed on special duty to try one of these cases, he would need no argument to convince him of his error.

"In the note of the Hon'ble Member for the Military Department there is mention of the Cantonment Bill. I wish to draw the attention of the Government to a memorandum by the Judges of the Calcutta High Court upon that Bill. It is there pointed out that in the older cantonments legal rights have grown up which have been judicially recognised by the Courts and that those rights will be virtually confiscated by the Bill without compensation. This cannot be allowed according to English principles of justice. Some provision will have to be made by which persons claiming such rights should be able to prove them (if they can)

before a judicial tribunal. When so proved the State can only acquire them on terms of giving compensation.

"I am glad to see that steps are being taken for the improvement of transport although it will cause some expense; that an army is no use without adequate transport is as apparent to a civilian as to a soldier. I shall never forget the way money was uselessly squandered in the attempt to improvise transport at the time of the Penjdeh scare. Great as has been the improvement since that time, the Tirah expedition showed there was much to be done.

"There is another matter connected with the Army on which I am sorry to see nothing is said. It is the inadequate number of European officers attached to each native regiment. I have drawn attention to this in former years, and in doing so have, I believe, expressed the views of Lord Roberts and most of the many friends I have had in the Indian army. I will not go into the details now, but will only say that the soundness of these views and the necessity for a change were amply demonstrated in the recent expedition. I hope the military authorities will not wait till a great war exhibits our splendid native army paralysed for want of British officers whom they know and trust to lead them.

"One word more. Very recently, in the debate on the Court-fees Act, I explained the injustice which the Native Christians suffer under in the matter of administration and death duties and I pointed out a simple and easy remedy. I got something very like a point blank refusal from the Hon'ble Financial Member on that occasion. But I return to the charge. It will cost very little, probably not a lakh of rupees, to relieve them. I do not ask for any pledges. In small matters he is very stony-hearted. He reminds me of the character of Naaman the Syrian, as drawn by his servant—'Had the prophet bidden thee do some great thing would'st thou not have done it?' In any great emergency of war or famine he is cheerfully ready with his millions. But if you ask him in his financial capacity for sixpence, you will find it is very difficult to get it. Besides, he is leaving India. No one regrets his loss more than I do—as a friend as well as a financier. But I must place this modest claim upon the surplus on record in plain and brief terms.

"If a native becomes a Christian, his widow and children are, on his death (to use the quaint but expressive words of the old ecclesiastical canons), 'much distracted and diversely called and summoned to take administrations, and are thereby grieved with many causeless and unnecessary troubles, molestations, and expenses;' and besides, they are afflicted with a two per cent. duty on the whole estate.

"All these troubles for those he loves this native might have avoided by resisting the allurements of Christianity during his life, or by relapsing into what is called 'heathenism' before his death.

"I cannot doubt that this grievance will be redressed; for I have no reason to doubt the fairness and justice of the Government of India, or to suspect any of its members of any especially Pagan or anti-Christian proclivities. Nor do I anticipate that the Secretary of State for India will say from his place in Parliament 'The way of Muhammad is open; the way of Buddha is open, and the way of the ancient Rishis; but I will maintain a special duty on the lands and goods of those who seek the way of Christ.' What makes me so insistent is the fear that so small a matter may be overlooked amidst the larger concerns of this great Empire.

"To the Financier I would address one more observation on this point. Though sugar may be financially more important, Christianity is still regarded by the majority of Englishmen as having at least an equally good claim with sugar to be protected from unfair competition. Wherefore my counsel to the Financial Department is not to further harden their hearts but to let this people go."

The Hon'ble RAI BAHADUR P. ANANDA CHARLU said:—"Despite the very flattering terms in which my Hon'ble friend Mr. Rees has foretold and almost invited me to launch into a criticism of the Budget before us, a multiplicity of reasons make it inexpedient that any adverse criticism should find expression at

the present juncture. To begin with, this is Your Lordship's first year of office; and it is only fair that Your Lordship should command a wider and more intimate knowledge of the many problems which you are confronted with. It is indeed true that you are not a perfect stranger to the affairs of this country. Both by choice as a traveller and by office as an Under Secretary, Your Lordship had indeed made a vast amount of acquaintance with interests involved in the stewardship of this part of the British Empire. But it is no disparagement to say—and I say it in all humility and in all diffidence—that the extent of knowledge acquired as an outsider to actual responsibility or as the advocate holding a defence-brief on behalf of a past Government of India is not quite equal—in essence and degree—to what is necessary to enter upon a confident solution of the problems connected with the abiding interests of this country. That Your Lordship is already on the right track, and that you have displayed and declared your firm resolve to identify yourself with the interests of this country in preference to all other extraneous considerations, is proved to the public by your bold deviation from the policy of the past, as instanced by the Sugar Duties Act, which you have placed on record just the other day—a deviation of policy for which I am amply authorised to assure Your Lordship of the deep gratitude of my countrymen—a deviation, too, which to me, at the second sitting of this Council before I leave it, was of peculiar pleasure as in some way contrasting favourably with a tariff legislation which was brought in at the second sitting of this Council from the commencement of my taking my seat on it, and which I never shall cease to regard as free trade run mad.

"Having regard to the significance in the fact that you were called upon to defend the late Frontier war just before your acceptance of the Viceroyalty of India, when perhaps you yourself had not dreamt of taking up that office, the impression is irresistible—at least on my mind—that in taking up the reins of the Government of India your foremost idea was to solve, on the firm basis of permanence of peace, our trans-Himalayan problem. I regard this as having been uppermost in your thoughts these three brief months that have now elapsed between your arrival here and your forthcoming departure to almost the next door of the scene, with reference to which that particular problem has to be set at rest. In common with nearly all my countrymen who are capable of thought, I hold that our Frontier is the greediest cormorant of the Indian revenues. It is therefore meet that my first set of remarks should relate to this topic and should be addressed to Your Lordship at the earliest available opportunity, and—let me add—on the eve of your proceeding to enter upon the task in right earnest. If you will succeed in enchaining that fell monster, or at least making him permanently dyspeptic towards Indian blood or towards blood paid by Indian money, you will have achieved a work for which you will be eternally blessed. Besides resoluteness, Your Lordship must perhaps advise that some new order of honours might be forthwith instituted, open for competition for our military men alone, but capable of being won, not by martial victors but by heroes of peace, not for successfully conducting, but for effectually preventing, wars and battles on our Himalayan frontier. I fervently hope that, should it come to pass that I shall be Your Lordship's humble colleague this time next year, I might have it in my power to acknowledge your success in this respect and to convey to you my country's lasting sense of signal service done.

"A second consideration which disarms criticism is the delay in the publication of the reports of the Welby Commission and the Currency Commission. Some measure of relief is looked for from the former, if its conclusions should be of a nature to meet cherished expectations. As for the latter, it is generally regarded, not without just cause, as a veritable Pandora's box, and few can tell—when our astute financier himself professes not to—whether there is to be any hope at bottom and whether it would be one which would have any good shape and bulk. In the face of these discouragements, it will be hard lines to nourish other than the kindliest sentiments towards Sir James, of whose services this is his last year of office, but his year of overflowing surpluses, and the one, too, which has come after a year of his untiring effort to hold out an unstinting hand to our famished millions at a time when our exchequer seemed to afford but little scope. While these

circumstances must awaken an unruffled good-will, may they likewise sooth those feelings of irritation which he had often caused by both the manner and matter of his utterances. One ground, however, which tells the strongest in favour of Sir James Westland has yet to be mentioned. It is his recognition of the general indigence of the people of this country—perhaps for the first time in his official career, certainly the first time in my—not very retentive—memory. Fully conscious—let me add, painfully conscious too—that in noting the return of prosperous seasons on the very heels of a dire and widespread famine, he was but judging by the standard of paid up Government revenue, Sir James has placed on record, in black and white and in no faltering or uncertain tones, the important lesson, namely, that 'the margin between prosperity and adversity in India must be a very narrow one; for, if we have learned that one bountiful harvest suffices to restore the country after a widespread and severe famine, we have learned also that the failure of the seasonal rains in a single month of the year is sufficient to set back a full tide of prosperity; and that this is a possibility which, in the administration of India, and in its financial administration especially, we dare not leave out of account.' Though honestly meant to be an explicit statement, this extract has about it what may be called a diplomatic leaven. It therefore requires to be annotated here and there. When in the face of a flush of revenues Sir James speaks of the margin between prosperity and adversity in India to be a narrow one, it is quite clear that what is left in the pockets of the tax-payer, after he has paid his taxes, is not enough to feed him—much less to float him in a succeeding year of failure of monsoons. When, with the above admission, he talks of a bountiful harvest as sufficing to restore the country, he can mean little more than this, that so far as the Government dues are concerned, they could be fully extracted. I would lastly substitute for his word 'possibility' the words 'extreme probability.' Thus elucidated it is indeed a profound lesson, full of grave import, and it is well that it has been placed before Your Lordship so early and so impressively in the forefront. There can be no doubt that the problem suggested by this state of things will be the first cis-Himalayan problem which Your Lordship will attack, with the eminent talent and the active earnestness which distinguish you.

"As for the remission of taxation, few can deny the wisdom of the reservation stated in the Budget. While the grounds assigned are sound enough in the immediate juncture, one cannot but regret that the admitted onerousness of the salt-tax on the bulk of the people has to continue without some measure of relief. I sincerely wish that it may not be long before it is within Your Lordship's power to afford this already plighted but long delayed relief, which, I feel sure, will be gratefully remembered at every meal which the middle and the poorer classes in this country take.

"The income-tax is, again, one in which help is needed. But that help should take the shape of raising, by a good deal, the minimum for taxation. There are two reasons why I regard this species of succour urgent. In the first place, the tax now touches incomes far too low to afford the payment; for, as it has been neatly put, 'it makes indeed little difference to the life of a family whether its yearly income is £1,000 or £5,000. But it makes a very great difference whether the income is £30 or £150; for with £150 a family has, with £30 it has not, the material conditions of a complete life.' The words 'the material conditions of a complete life' in the above passage have, *mutatis mutandis*, an important bearing on the altered modes of life, almost forced *even* on the simple raiyat who—to deserve to be noticed—could once appear, but no longer can, in his semi-paradisiacal dress, in suing for remission, asking for takkavi or craving for water.

"My second reason for raising the taxable minimum is the preposterous system on which the tax is assessed. The well-to-do and those that have adopted or have found occasion to adopt the modern system of regular book-keeping are all safe, and they are men who, in the language of my Hon'ble friend Sir Griffith Evans, are strong enough and loud enough in their voice to compel relief if they have any complaint. But the classes of men and merchants I allude to are either such as adhere to their old ways of keeping accounts, or such as find no need to keep any, except to help their memory, being

the masters of their incomes and accountable to none. The way these now suffer is easily told. That honourable body of men who go by the name of secret informers, furnish the assessing officers with some information to go upon in the first instance. The assessee produces his loose sheets of account and swears to the items in them and to their accuracy. These are too often discredited as unsatisfactory, and no clue is given to the assessee of what data the informer, by some occult methods, has supplied. No onus of proof is laid upon him or is accepted by the assessing officer as regards such data, and they are acted upon as if they were gospel truths. The amount and extent of hardship and injustice which this system is calculated to inflict can well be imagined, and they are entitled to be taken into account in deciding the question as to how far and to what extent each source of income may be pronounced to be on a solid and not on a shifting basis.

"I have considered these remarks as relevant, as we have met to-day, not in our legislative capacity, but, as I take it, in order to express our views, so far as they bear on the financial aspects of the Administration. If I have erred in acting upon that faith, I beg most humbly to apologise."

The Hon'ble MR. RIVAZ said:—"My Lord, I will confine my remarks, which shall be of the briefest, to one or two points connected with the departments under my charge, which have been noticed by some of the Hon'ble Members to-day. The Maharaja of Darbhanga referred to certain proposals which have been submitted by the Chief Commissioner of Assam for the colonization of the vast tracts of waste-land in that Province. The correspondence which has taken place with the Chief Commissioner of Assam has been published for general information. That correspondence shows that, although the Government of India have not been in complete accord with Mr. Cotton's proposals, they have agreed to consider any scheme that he may submit on the general lines which he advocated for the colonization by capitalists of a considerable tract—I think, speaking from memory, of 100,000 acres. While the Government of India expressed their willingness to accept the Chief Commissioner's rates of assessment, which were exceedingly favourable, they demurred at the length of the term of lease which he had proposed, and they thought that clearance conditions ought to be attached in giving such leases. However, we shall be quite prepared to consider any representation which the Chief Commissioner in answering our letter may make on these points.

"The Hon'ble Mr. Rees touched on the question of prospecting concessions and mining leases. These questions, of course, are quite different from the subject-matter of the Mining Bill which I introduced into this Council last week, and which deals with quite another matter—the matter of regulation of labour in mines. However, the revision of the present rules which apply to prospecting concessions and mining licenses is at present under the consideration of the Government of India. I hope that the revised rules will shortly be published, and that they will be in the direction of extending the present powers of Local Governments in dealing with these matters.

"My Hon'ble friend Mr. Mehta made some remark about the surplus of the present year having been swelled by realizations of suspended land-revenue, and he criticised chiefly the land-revenue system of Bombay. I will not venture to make any remark as to whether the land-revenue system of Bombay may or may not be too rigid, as I am not personally acquainted with the Province. The Bombay Government will, no doubt, when it has the opportunity and if it is necessary, defend its own system. I will only remind my Hon'ble friend that if land-revenue is suspended in years of adversity it is only natural and reasonable that it should be collected in favourable years, and that in several Provinces large amounts of land-revenue have been altogether remitted in addition to what was suspended.

"The only other point which I need refer to is as to the remarks of the Hon'ble Sir Griffith Evans about the exemption of Native Christians from payment of probate-duty. When we lately dealt with the amendment of the Court-fees Act, I, as being in charge of that Bill, said that we had expressly excluded this question from consideration, as we were then only dealing with the

amendment of the procedure for the recovery of duties, but as regards the general question we could not take it up then. If, however, it is represented to the Government of India—for instance by the Madras Government, which I believe is the Government chiefly interested in the Native Christians—it will, I am sure, receive the fullest consideration. What may be the decision I am unable to say, but I can only say that it will receive the very fullest consideration."

The Hon'ble SIR ARTHUR TREVOR said :—" My Hon'ble friend the Maharaja of Darbhanga has lodged a somewhat sweeping indictment against the management of railways in India, and complains generally of overcrowding, unpunctuality, want of latrine accommodation in third-class carriages, want of separate accommodation for all classes of Europeans and Natives, insufficient number of trains, slow speed, third-class fares which, if not high as compared with other countries, are too high for the poorest classes in this country, and so on. I gather that he is disposed to attribute these defects in part to State management and control, and to make an exception, in some respects at any rate, in favour of the Bengal and North-Western line, which is our standing example of successful private enterprise. I find in this exception some encouragement. It is only very recently that we were vehemently called upon to enquire into a serious indictment brought by the local authorities against the Bengal and North-Western line, as compared with other lines in India resting on very similar grounds. The conclusion we arrived at was that things were not so very bad on that line after all, and I am glad to have the testimony of my Hon'ble friend in support of that conclusion. I am inclined to think that a similar enquiry into the working of other lines would justify a similar conclusion. We all, I am sure, must heartily sympathise in his desire for improvement. But it is impossible to do everything at once regardless of expense, and some of the matters he has referred to are, I am afraid, beyond the range of practical politics. There are obvious objections, for instance, to the provision of latrine accommodation in all third-class carriages. We are providing it in the carriages reserved for females, and we are doing what we can to make increased provision at stations. There are also, I think, obvious objections to the provision of separate accommodation for different castes and classes. It would at any rate be a reversal of the policy which has hitherto been adopted. For the rest, I think that unpunctuality (considering the long distances run) and overcrowding are the exceptions, not the rule. That they should take place occasionally (even on the best managed lines) is inevitable. I have even known such things in England! We are doing our best to lessen the number of such cases in India, and to improve the signalling arrangements to remedy unpunctuality. We are steadily improving the carriages. It is quite possible that it might pay to reduce third-class fares. But the point is one which I think must be left to the Management of individual lines. It does not follow that because it would pay in one locality or on one line, that it would answer generally. The Madras line is now trying the experiment, as my Hon'ble friend has observed. The third-class fares were reduced some 18 months ago from 3 to 2½ pies, but though the number of passengers has increased, the loss of revenue has not yet been recovered, and as long as trains are filled, and as many trains as possible are run, a reduction in fares must result in a loss of revenue which a commercially managed undertaking cannot be expected to accept with a light heart. Railways do not pay their cost on the direct account, and we must necessarily proceed with caution. With regard to the remarks which he has made as to the insufficiency of the East Indian Railway to cope with the traffic of Calcutta, I may observe that here again everything cannot be done at once. We are only allowed to spend a certain annual sum, and with the assistance of the Conference we do our best to apportion the amount as fairly and with as much consideration of the most pressing needs as possible, and I welcome the evidence given by the Hon'ble Mr. Rees and the Hon'ble Nawab Faiyaz Ali Khan that so far at least as the provinces they represent are affected our apportionment is regarded as fairly satisfactory. The complaints against the East Indian Railway are due mainly, I think, to the cause to which my Hon'ble friend Mr. Allan Arthur has also referred, namely,

the want of sufficient rolling stock. With reference to that point I may mention that both the Management of the line and Government are fully alive to the deficiency. About 1,120 open and 1,800 covered wagons are now under supply, and they would have probably been here some time ago but for difficulties in getting orders placed and executed with sufficient rapidity. Apart from this, we are making progress towards the attainment of the desired independ nt line to Calcutta. A line from Jerriah *viâ* Midnapur to Calcutta forming part of the Bengal-Nagpur Railway has been approved by the Government of India. When this and the line from Mogulsarai to Daltonganj now under construction have been completed, there will be but a short link to be filled in, and provision has already been made for the exercise by the Oudh and Rohilkhand and Bengal-Nagpur Railways of running power over any section of this line which may belong to the East Indian Railway. Meantime the approaching completion of the Bengal-Nagpur Railway connection with Calcutta *viâ* Midnapur will help to relieve the congestion between Asansol and Howrah, and other schemes for still further relieving it are under reconnaissance and survey."

The Hon'ble MAJOR-GENERAL SIR EDWIN COLLEN said:—"My Lord, before I deal with the army estimates I should wish, with Your Excellency's permission, to pay a tribute to the memory of a distinguished officer who sat with us in this Council this time last year. I know that my colleagues join with me in deeply deploring the untimely death of General Sir Charles Nairne just as he was selected to fill a responsible office in England.

"In the memorandum which I laid upon the table last Monday I have given the details of the estimates with which I am specially concerned. The chief point to be noticed is that, taking the four estimates for next year together—the Indian military estimates, the Home India military estimates, the Military Works and the Marine estimates—and translating the rupee into sterling at an exchange of 1*s*. 4*d*., they show a saving of £644,000.

"We have postponed certain expenditure that we did not consider very pressing, and in the course of the year have had to reject or postpone a good many proposals involving expenditure after a careful consideration of their merits. To take one example out of many, we felt obliged to postpone a proposal to have two additional companies of garrison artillery in India. On the other hand, we have added a mountain battery to the Indian establishment. We have provided in next year's estimates for improvements in the arrangements for the mobilisation of the field army and the defences of the North-West Frontier; we have provided for an increase in the reserve of the Native Army, for larger expenditure on camps of exercise, and for increased capitation to artillery volunteers. We provided in this year's estimate for an increased capitation to mounted volunteers. We also propose to increase the wound pensions of the Native Army. In the Medical Department we have provided for bettering the position of Assistant Surgeons, and have also dealt with the question of improving the condition of the Native hospital assistants. We have taken up the question of field medical equipment and ambulance transport. Improved army equipments have been provided for and an increase in ordnance manufactures in India. It may interest my Hon'ble colleagues to know that in 1897-98 the saving in ordnance manufacture alone, as compared with the cost of imported manufactures, was 30 lakhs of rupees or £200,000 at 1*s*. 4*d*.

"We are prepared to spend more money on the sanitary requirements of the army. We cannot, of course, provide for everything in the estimates of one year; you will see from the memorandum how enormously the demands exceed the possibility of complying with them all, but besides the actual works of water-supply, drainage, and the like, we have included in next year's military estimates a considerable sum for sanitary purposes, and in my memorandum I have detailed the principal items. The best energies of our sanitary and medical officers of the army are directed to search out the causes of enteric disease. We have often been reproached with the small results of these investigations. I do not say we have succeeded in absolute results, but I hope we may be on the right track in the investigations and in the precautions taken. The idea that the germs of the disease may be air-borne and conveyed in dust, as well as in

water or by food, seems to be increasing in strength, but there is some compensation; experiments in England appear to show that the typhoid bacillus quickly dies out in grass-covered areas, and we may hope therefore that the grass cultivation we desire to extend in Indian cantonments may be a helpful factor in our efforts to protect them. I specially mention this matter because of its enormous importance in connection with the health and efficiency of the army and because the losses in life and money exert a sinister influence on the estimates. The Commander-in-Chief has proposed, and the expense has been provided for, that at certain stations the troops shall be moved into camp at the proper season under field service conditions, so as to give these stations a period of non-occupation. We hope—and I have the full permission of His Excellency the Commander-in-Chief to say this—to increase the efficiency of the army by more extended training, by imparting increased flexibility to the plan of mobilisation, by the decentralisation of military business, and by the reduction of paper work and returns.

"It will be seen, therefore, that while—thanks mainly to the cessation of field operations and the improvement in exchange—we anticipate a saving of £644,000, we have provided for many essentials of efficiency. But we have a good deal of expenditure looming before us. The re-organisation of the transport service, to which allusion has been made by the Hon'ble Sir Griffith Evans, is a most pressing matter, and my Hon'ble colleagues will note the large increase to the transport at home. The re-armament of the Native army and volunteers must be dealt with before very long. The carriages of horse and field artillery in England are being altered to enable the gun to be fired more quickly, but this is a temporary measure until the best quick-firing gun is decided on. It costs, I believe, a considerable sum per gun, and I hope we shall not need to adopt this expedient, although eventually we shall have to follow the home army when a quick-firing gun is introduced.

"The Hon'ble Mr. Chitnavis makes a proposal for the reduction of Army expenditure. He proposes to reduce the expenditure by reducing the number of British soldiers in India. That is a matter which has before now been mentioned in this Council; but I would ask him, does he really think that with a great empire like that of India to guard, with its thousands of miles of frontier and its enormous area and vast population, the British Army is more than a very moderate garrison for this great country? I gather, too, that he is in favour of calling upon the Imperial Exchequer to bear a portion of our military burdens. That, too, is a subject which has more than once been discussed in this Council. If he will be at the pains to read those large volumes, which now have some of the flavour of antiquity on them, containing the evidence given before Lord Welby's Commission, he will find a great deal said on that subject, and if he refers to the Despatch from the Government of India of 1896 and to the reply of the Secretary of State, dated the 21st February, 1897, on the Suakin charges, he will find the views of the Government of India and of Her Majesty's Government fully set forth.

"My Lord, the Hon'ble Sir Griffith Evans has drawn attention to the inadequate number of British officers with Native regiments. That is a matter which has been before the Government of India for many years. In his last speech in this Council Sir Henry Brackenbury laid great stress on the wants of the Army in this respect, and it was one of the first subjects which I took up when I succeeded to my present office. Certain representations were made, but as to the later history of the subject, I can only refer my Hon'ble friend to the statement made by the Secretary of State in the House of Commons a few weeks ago. Sir Griffith Evans has also referred to the Cantonments (House-Accommodation) Bill. This question, my Lord, has been considered for at least a quarter of a century, and I confess I was in hopes that we were approaching to some conclusion in the matter. My Hon'ble friend will forgive me if I do not follow him into the legal aspects of the question. I can assure him that the representations of the Judges of the High Court of Calcutta will receive that respectful consideration which their position and authority demand.

"The question of military expenditure has been dealt with before in this Council by my predecessor Sir Henry Brackenbury and by myself. I do not

think defence of military expenditure is needed, but, if it is, the best defence will be found in the Financial Statement of my Hon'ble friend Sir James Westland, where he shows that the increase of military expenditure has been only 29 per cent. in India against 59 per cent. in the United Kingdom in a period of fifteen years. The cost of the Army in this country is, as I have shown on a previous occasion, but a small percentage of insurance on the great trade of the Indian Empire. We may practise the strictest economy, but there is no means of reducing expenditure in any extraordinary way. I have shown what we have done, and what is still before us. The efficiency of the Army in India is of Imperial importance; to maintain and improve that efficiency is our task, and I trust that we shall never shrink from it."

His Honour THE LIEUTENANT-GOVERNOR said:—"My Lord, I have two remarks to make, and they shall be short ones. The first one is naturally about the allotment to Bengal. When it was evident that there would be a large surplus, I suggested to my Hon'ble friend the Finance Minister that opportunity should now be taken to adjust our financial affairs on the principles that were laid down in 1881. It was settled in that year that in the event of famine a Local Government was to meet the cost from its own balances as far as possible, but that if these did not suffice, and the Imperial Government had to assist, then the contribution of the Local Government was to be two-thirds of the funds in excess of its minimum balance. When famine came in 1896, the balances at the credit of the Local Government in Bengal were 58 lakhs, the savings of several years, carefully husbanded for various important works of public utility, notably the supply of feeder roads to our railways. Its minimum balance is 20 lakhs. Under the rules of 1881 the Bengal Government should not have been required to pay more than two-thirds of the difference between 58 and 20 lakhs towards the cost of any necessary famine works within its area. The provincial contribution should have been 25½ lakhs. But the famine in 1896 was a famine which struck not Bengal alone but every province in India, and under this unparalled pressure all rules had to give way: every Government had to give up its all to meet this calamity, and it did so without a murmur, for it knew the exigencies of the Imperial Government. There was no alternative. The famine expenditure actually charged to the Bengal Government was 49 lakhs, 23½ lakhs more than it would have paid had it been possible at the moment to apply the rules of 1881. The actual balance at the credit of the Local Government sank to 10 lakhs, 10 lakhs below its normal minimum. Our actual balance now with every conceivable and practicable economy is 14 lakhs, and when it became certain that the Imperial coffers would be full to overflowing, I pressed upon my Hon'ble friend the restoration to Bengal of the 23½ lakhs, the excess of its actual over its proper contribution under the normal rules. The Hon'ble Member has given us 17. He will allege that grants-in-aid of the European General Hospital meet the difference. The hospital is one in which the Europeans of Assam and Upper India are quite as much interested as those of Bengal, and I regret that I cannot admit the sufficiency of the argument. But I regret even more that the Budget Statement contains no reference to a principle, which I consider of the highest importance, whether you look at it from the point of view of the Local or the Imperial Government. The idea of 1881 was to leave to the Local Government some of its savings even when it was overtaken by heavy and unforeseen calamity. Unless you do that, you leave it with no encouragement whatever to thrift and circumspection. Every Local Government will spend its balances every year in hot haste less the Imperial Government sweep all away in resistless rigidity. Money will be spent hurriedly on any local improvements that suggest themselves, and when famine does come the Imperial Government will find in the local treasury nothing but the prescribed minimum balance. In the interests, therefore, alike of the Local and the Imperial Governments, I think the rules of 1881 were eminently sound and wise, and should be most carefully maintained and reiterated.

"Then we have all heard from time to time of strained financial relations between the Imperial Government and its subordinates. These relations would be very much improved, I venture to think, if opportunity were taken to frankly

recognize and reciprocate local help. It is true that all the Local Governments, except Burma, have this year received gifts—sometimes very precious gifts. But it is not easy for the uninstructed layman to discern the principles which have guided the distribution; and it is obvious that the more clear these principles, the less will be the jealousies with which these provinces meanwhile regard each other and the Imperial Government.

"I trust therefore that my Hon'ble friend will be able to renew the adhesion of his Government to those principles of 1881, which I regard as of far-reaching importance to our financial administration.

"I have just one thing more to say, my Lord. When the famine of which I have spoken burst upon India, I was the Member in charge of the Revenue Department of the Government of India. In that capacity I knew more than any other man what was the share of the Hon'ble Sir James Westland in the duties of the time. From the moment the terrible calamity became certain, his purse-strings were at once unloosed. For seventeen years, he said, the Government of India had been preparing for and insuring against this very event, and every expenditure which the Local Government and myself considered necessary for the saving of life should be met without a moment's grudge or hesitation. And it was so met. It is not possible that a disaster of the kind can overtake a nation without grievous suffering and loss of life; but if, as I believe, the sufferings of the people were mitigated as they never were before, it is in the first instance due to the prompt and open generosity with which the Finance Minister placed the entire resources of his exchequer at the disposal of the Local Government. I know this as no other man can, and I should not have done my duty to the Hon'ble Sir James Westland, if I had not taken this opportunity, before he leaves us, of giving my public testimony to the debt all India owes him for his attitude and his conduct in her greatest famine."

The Hon'ble SIR JAMES WESTLAND said:—"It is not possible for me to hear these last remarks of my Hon'ble friend Sir John Woodburn without acknowledging my gratitude to him for his recognition of my work at the time of the famine. What I did then I did as a matter of duty, and since, as His Honour has explained, we had been preparing year after year for the calamity which came upon us in the year 1896, if at that time we had declared that we were unfit to meet that calamity after preparation of seventeen years, I should have said that the financial administration of India had something wrong in it. I thank him very heartily for the recognition which His Honour has thus given me in public of the events of that time, and it will be for a long time a great encouragement to me to think that when Sir John Woodburn and I took in hand two or three years ago the question of financing a famine we worked thoroughly together, and worked together for the good of the Empire. And now, my Lord, having acknowledged these too generous terms in which Sir John Woodburn has referred to one incident of my administration, I come back to the Financial Statement and the financial discussion. I was quite prepared to learn, as I have from the course of the debate to-day learned, that the principal subject of attack upon the Financial Statement would be this: that we have not provided for any remission of taxation. Personally I do not see any very great necessity for my defending the action of the Government in this respect. I hold that we are right, on the face of it, under present circumstances, in refraining from dissipating, by remitting the existing taxes, the surplus of our present position, and if anything were necessary to justify my opinion in that respect I would refer to the commendation which has been bestowed in more than one quarter upon those words of warning which I thought it advisable to enter in the Statement, that until our surplus is assured not merely for the present, but for the future, I do not think we can afford to take up the critical question of remission of taxation. When last year I had to announce a prospective deficit, and when that deficit during the course of the year was increased by our having to undertake military operations on the frontier, I did not bring forward then any proposals to adjust matters by adding to existing taxation, and it seems to me that if we adopt the policy of

putting off any proposals of taxation in a time of deficit, we are justified in so doing only because we intend to meet that deficit afterwards by the accumulation of a surplus. As I have pointed out in my Statement, if you take the whole of the four past years together—the two years of famine and war and pestilence, the one year which has just passed when pestilence still remained with us while famine and war had ceased, and the remaining year which is to come to us in the future, and whose events we know not yet—the whole of the four years would produce a very small surplus. You must, therefore, if you wish to judge of the general financial position in India, take the whole four years together, and it is only upon the establishment of a general position of surplus that you are entitled to take into consideration the question of remitting taxes. I have no intention of going into the question of what particular item of our taxation is the proper one to be first taken up for purposes of remission. Of course I have my ideas on the subject, and my opinions on the subject are on record, and are at the disposal of the Government of India when they come to consider the question; but under present circumstances I have no intention whatever of embarrassing the Government of His Excellency Lord Curzon by stating personal opinions on a matter in which they may possibly differ from me. The question must remain open, to be taken up and solved by those who will have the responsibility not only of solving it but of meeting the possible consequences of the remission. There are only two minor questions in connection with this subject on which I will offer some remarks to the Council: the one is with reference to the proposal made by the Hon'ble Mr. Chitnavis that part of our surplus should be dissipated by reducing the rates of postage; the other, the grievance which the Hon'ble Sir Griffith Evans has brought forward in respect of the Native Christians of the Madras Presidency. As regards the first of these, I would remind the Hon'ble Mr. Chitnavis that in India we have the cheapest postal service in the world. There is no other postal system which pretends to carry a letter outside extremely limited areas, for anything approaching to our half anna rate. The English postage is a penny, that is, an anna. We in this country have a half-anna rate, and that half-anna rate will carry a communication from one end of India to the other. There are two ways of cheapening postage, that is to say, two directions in which it is possible to administer a post office cheaply. You may carry a big weight at a small rate. That is what has been done in England latterly; they have increased, if I remember rightly, the penny rate so that it covers four ounces of a postal letter. That is extremely well adapted to a country where business is carried on on a very active scale, where large business documents have to be sent from one end of the country to the other; and in England these large documents have to be sent in thousands from place to place. The cheapening of postage in a place like England therefore is in the direction of carrying large weights for what is considered to be the unit of postage, *viz.*, a penny. In this country the direction of cheapening postage is different. We have a large and comparatively poor population whom we want to serve. We do not want to serve them at a loss. We only ask them to pay the actual carriage of their letters. We institute therefore a cheap rate of postage, that is, a specially cheap rate, lower than the ordinary unit rate, for light letters which are sufficient for their wants, but which, if charged at the penny, or unit, rate, would cause to them a considerable expense. It seems to me that the claim to the reduction of postage is founded upon a false analogy. The cost of carrying a letter consists of the maintenance of the office at the place of reception, the carriage, and the subsequent maintenance of the office of delivery. These three items are practically exactly the same whether the letter is a letter of a half tola or a letter of two tolas. Therefore, so far as the matter of calculation goes, the attempt to show that because we carry a package, a newspaper or a letter at so many tolas per anna we ought to be prepared to carry a letter at one tola per anna, is an argument which leaves out of consideration the fact that the actual cost of carrying a letter is very much the same, however big it is. I admit you can carry that argument further, and argue that if you can carry a letter of half a tola for half an anna, you ought to do the same with a letter of four or five tolas; but an arrangement of the kind would too much diminish the postal revenue; and therefore we regard the half anna rate as

a cheap postal rate existing outside the unit scale, and adapted in a special way to the correspondence of a poor but extensive population, but not required for what may be called business purposes. Taking the whole of the letters which are posted in India, about 85 per cent. of them are letters of the half anna rate, and that 85 per cent., as I have pointed out, we carry at the cheaper rate; so that practically the bulk of the correspondence in India is carried at the cheaper rate for the people than any other post office in the world attempts.

"As regards the Hon'ble Sir Griffith Evans' remarks regarding probate and administration affecting Native Christians, the only remark I have to make is that it is not a financial question at all—that is, the difficulties in the way are not financial ones. They come into the mesh of the probate and administration duties, like a great many other people do. They may be particularly unfortunate in being caught in the words of the law, whereas other people in similar circumstances, who do not profess the Christian religion, are not caught; but that is not a financial question. As the Hon'ble Mr. Rivaz, to whose department this particular subject naturally belongs, has said, if the Government of India receives representations—definite proposals from a responsible authority and not merely vague statements that something requires remedy—they will obtain favourable consideration in his Department and they will not meet with opposition in the Financial Department.

"The Hon'ble the Maharaja of Darbhanga has made various proposals for diminishing the surplus in the direction of admitting expenditure, and I have no doubt there are a very large number of objects which can be stated as extremely desirable objects of expenditure. I shall not enter upon the question of railways and the reduction of railway fares and the increase of railway conveniences. That is a matter for my Hon'ble colleague Sir Arthur Trevor. Railways in this country do not as a whole pay their way. We lose on the whole; I am talking of the financial results only and leaving collateral advantages out of account. The net earnings of the railways fall short ordinarily by about two crores of the interest we have to pay upon the capital which has been raised for their construction. If we run them at a loss, that loss must be borne in mind before we reduce rates or introduce new conveniences at a cost to the revenue. The Hon'ble Member is not quite right in saying that we ought to regard railways purely from the point of view of public convenience. If we launch out into extravagance in railway management and cease to make our railways pay, we shall be obliged to curtail construction. We cannot go on increasing a losing business.

"Then among the proposals for expenditure, one thing has been urged upon us both by the Hon'ble the Maharaja of Darbhanga and also by the Hon'ble Sir Griffith Evans, namely, the necessity of supplementing the salaries of the High Court Judges. I do not wish to say anything about this subject. With certain parts of the Hon'ble Member's statements I agree, with certain others I do not. But the question of the High Court Judges' salaries has got to be approached from the same point of view as that of the salaries of other high officials, that is to say, if you can get a good enough man for Rs. 5,000 a year, you need not pay him Rs. 6,000. I am not prepared to say whether to judge by this standard the High Court Judge is properly paid or not, but I apprehend that this is the kind of standard by which the question has to be judged. I would rather drop the question of High Court Judges, because it is a ticklish question; and, as the Hon'ble Sir Griffith Evans has said, it is a matter about which last year I had a passage-of-arms with Sir Henry Prinsep. But I certainly do not agree in the claims that are made on behalf of Sub-Judges and ministerial officers. I have often heard the expressions 'hard-worked and under-paid,' but, whatever may be said as to under-payment, I cannot possibly agree that any officer is over-worked who as a matter of fact works only between 220 and 230 days in a year. That is actually the reckoning of the Subordinate Courts in Bengal. That they work hard during that limited time I do not deny, but, as they work at an average of only four days out of the seven in each week, I do not think it can be called hard work. As regards ministerial officers, I know this question has been raised and has been long argued in Bengal. The ministerial officers can no doubt get all the

native newspapers in the place to represent their grievances, and they say it is very hard lines that they should be expected to do their work on Rs. 30 a month; but I would ask the Hon'ble Mr. Allan Arthur, who is one of the leading merchants in Calcutta, whether as a matter of fact he or other merchants pay their newly joined clerks Rs. 30 a month. One thing is extraordinarily irrelevant, and that is the argument put forward by the Hon'ble the Maharaja of Darbhanga, that we ought to pay these men more because they have big families. I think they ought to restrain their procreative proclivities. We want to get men to do our work, and it is notorious that a proffered salary of Rs. 30 a month in Government service would bring forward any number of candidates; and so long as we can get any number of men on Rs. 30 a month I cannot see that we are justified in paying out of the public purse Rs. 40 or Rs. 50, merely because the men who accept service have large families and because they would like to live in greater luxury or comfort. It is a serious business to give the whole of the Government servants an increase from Rs. 30 to Rs. 50 per mensem. I do not know how many thousand clerks there are in Bengal, but it appears to me it would make a big hole in the estimates of His Honour the Lieutenant-Governor if that general scale of pay were to be introduced into Bengal. There were lengthy investigations into the subject when the subject was brought before the Legislative Council of His Honour the Lieutenant-Governor. At that time the Hon'ble Mr. Risley gave a complete answer to the calculations which were made by the committee which recommended an increase. They went through the cost of living in a most extraordinary manner, and made up an estimate as follows: rice had increased by 10 per cent., something else—a principal article of consumption—had increased by 20 per cent., condiments had increased by 230 per cent., total 260 per cent.—average increase 83 per cent. That calculation is preposterous. Every person knows that condiments are only a small part of a man's food, and the fact of this charge having increased to a large extent does not prove that the general cost of living has largely risen. Then the Hon'ble the Maharaja of Darbhanga tells us that the cost of clothes has increased. It may have increased in one sense, that is to say, officers of that class are accustomed to appear now in more comfortable raiment and better clothes than they used to wear. So far as the actual price of clothing is concerned, there is no doubt that the cost of cotton clothing in this country has decreased. I mention these things merely to point out that these matters have really received very complete investigation, and that complete investigation has not fortified the claims which have been put forward by the Hon'ble Maharaja.

"In my estimates of revenue I observe that one or two objections have been made, partly by the Hon'ble Mr. Mehta and partly by the Hon'ble Mr. Chitnavis. They tell us that we are coming down upon the raiyat and malguzar with demands which they are not able to sustain. I am told by the Hon'ble Mr. Mehta that it is due to the extreme rigid system of revenue. I want to ask him one question. If this revenue system is rigid, how does it come that there are such things as arrears to collect at all? The Hon'ble Mr. Mehta admits that the revenue-officers have been allowed a discretion as to making remissions and suspensions, but he says the rigidity of the system lies in the fact that the revenue-officer does not exercise these powers. He could certainly allege that the system was rigid if the revenue-officer had no powers of the kind, but if the revenue-officers are allowed to exercise powers of suspension and remission and do not exercise them, then I think the argument is that they have not found occasion to do so, and that they have found in each case brought before them that the revenue can be paid, and ought to be paid. There have, as a matter of fact, been large remissions and suspensions of revenue made during the famine, and the Hon'ble Mr. Chitnavis is not correct in thinking that the whole amount of these suspensions have been called in at once. It has been called in in instalments, precisely because our main revenue system is not rigid, and has been adapted in each case to the ability of the revenue-payers.

"Now I come to the subject of Provincial Contracts, a very thorny subject, because it is a subject in which the Government of India has got to meet the claims of eight several bodies, each of whom considers that it has the first right

to attention in the matter. The Hon'ble Mr. Mehta has stated the case forcibly for the Government of Bombay. The Hon'ble Mr. LaTouche has told us that it is ridiculous to expect the North-Western Provinces to get on without a very considerable increase. His Honour the Lieutenant-Governor of Bengal has told us of the dreadful jealousies which spring up between various Governments because they are differently treated, and wants to have fully explained to them why one Government gets fifteen lakhs and another Government only gets ten lakhs. I could give some explanation of that. The Hon'ble Mr. Rees I am glad to say, admits that his Government has been very fairly treated, both in the matter of grants, and specially in the matter of railway construction; but I do not know whether Mr. Rees is acquainted with the complaints we have got from the Government of Madras on the same subject. They do not appear to be at all satisfied. They put forward exactly the same claims as the others, namely, that they are left behind in the race and that they do not get half enough money as compared with other Governments."

The Hon'ble MR. REES: "I regret, My Lord, to have to interpose, but I expressly abstain from any reference whatsoever to the Provincial assignment and the Provincial Balance. My remarks referred to railways, and I purposely left all controversial matters to my friend the Hon'ble Mr. Ananda Charlu to deal with."

The Hon'ble SIR JAMES WESTLAND: "I am glad the Hon'ble Mr. Rees did, for the subject of Provincial assignments is a thorny one. It is very hard lines upon a Finance Minister that he cannot concentrate all these Governments into one pen and tell them to fight it out, but has to explain to each of them that it ought to be satisfied with the funds it has got. I cannot help remarking that a good deal of this controversy, which I admit is very unsatisfactory, arises out of a departure which has recently taken place from the principles upon which the provincial system of contracts were originally established. I have here the Financial Statement of Sir John Strachey of 1877-78 in which he quotes from a minute written by himself at the time of the Provincial Contracts being instituted. It is well known that Sir John Strachey had a very ample share in the institution and revision of the system. I will read two sentences which will lead me to the precise points I now want to bring forward. He says:

'The Government of India had totally failed to check the constant demands for increased expenditure: there was only one remedy to prevent the demands being made, and this could only be done by imposing on the Local Governments a real and effectual responsibility for maintaining equilibrium in their local finances; there could be no standard of economy until apparent requirements were made absolutely dependent upon known available means. It was impossible for either the Supreme or Local Governments to say what portion of the Provincial revenues was properly applicable to local wants; the revenues of the whole of India went into a common Fund, and to determine how much one owed to another was impracticable.

'To Lord Mayo belongs the honour of applying the only effectual remedy for these serious evils; he resolved to give to the Local Governments the economical standard which they required; to make over to them a certain income by which they must regulate their local expenditure, and to leave to them, subject to certain general rules and conditions, the responsibility of managing their own local affairs.'

"But the Local Governments now claim to work on a principle exactly the reverse of this; namely, that when they have desirable expenditure, for which they do not possess adequate funds, it is obligatory on the Imperial Government to assign to them additional revenues, in order to enable them to meet the demands.

"Now let me go back a bit to theory. No Government can conduct its financial affairs if it permits its expenditure to increase at a faster ratio than its revenue. I take that as a fundamental principle. Well, it is necessary to separate off, as it were, various branches of expenditure and various branches of revenue in order to relieve the Government of India of the strain of applying this limitation to the whole revenue of India and the whole expenditure of India taken together. What it did was this, it assigned certain increasing revenues

on the one side and certain increasing expenditure on the other, and it laid upon Local Governments this obligation of limitation in respect of the portion of revenue and the portion of expenditure which was assigned to it. The argument was that you—the Provincial Government—must take care that the portion of the expenditure which is assigned to you does not increase at a greater ratio than the portion of the assignment of revenue. The revenue and expenditure assigned being on the whole equal, it was calculated that this limitation, if properly applied would, as it were, take that portion of the provincial expenditure on the one side and provincial revenue on the other side out of the general limitation, because, obviously, if every Provincial Government kept its provincial expenditure within an increase of its provincial revenue, it would have carried out the necessary general limitation so far as regarded the particular portion of provincial expenditure assigned to it. Take the case of Bombay. A grievance has been made by the Hon'ble Mr. Mehta. The revenues which were assigned to Bombay under the contract of 1892 were so exactly equal to the demands made upon them that for the first four years of the currency of that contract out of some crores of expenditure the total excess of expenditure came to only R6,000. The finances were then under the management of the Hon'ble Sir. Arthur Trevor. That was proof positive, if anything could be proof positive, that the expenditure if properly limited could be limited within the rate of the increase of the revenue. After that we came to settle the contract again in 1897. The Government of Bombay, as the Hon'ble Mr. Mehta tells us, wanted 13 lakhs extra per annum. It had managed to get on under its existing assignment, and, as I pointed out, the existing assignment was sufficient to meet for the first four years of the contract the whole of the expenditure. We said we could not possibly give the additional 13 lakhs asked for, because that would be going beyond the fundamental limitation in the finances of India taken as a whole; we would be allowing an increase of expenditure larger than the available increase of revenue. Therefore the 13 lakhs was refused, and we told the Government of Bombay that it must go on with the same assignment that it had before. The Hon'ble Mr. Mehta, in talking of the negotiations which went on there, referred to a delay which took place in those negotiations, and he considers that delay was made for the purpose of screwing 10 lakhs extra out of Bombay. He did not go on to tell you that we did not get that 10 lakhs, nor did we ask for it. Moreover, the delay was not made at our instance, but at the instance of the Government of Bombay entirely. I think it a little dangerous to depart from the usual rule of public criticism, that is, to refrain from attributing motives, and I make this remark not only with reference to the allegation made in this particular case, but also the further statement by the Hon'ble Mr. Mehta regarding the delay in the pronouncement of the Welby Commission. I think we must take it for granted that, although we cannot account for that delay, the delay at least is not attributable to any intention on the part of Lord Welby or any person in England to do something iniquitous. I do not think one is entitled to call in question the motives of public men who are not here to defend themselves. I have no doubt that the Provincial Governments found themselves straitened in means owing to the calamity of the famine. It is part of the provincial system in India that the savings which occur from year to year from good administration should be piled up in order to meet a possible calamity such as came two years ago. It is a necessary consequence that when that calamity occurs their balances should be dissipated, and the Provincial Governments should find themselves with an empty exchequer. There is a mistake also about this question of balance—a mistake which I tried to correct when Mr. Mehta was delivering his speech. He is quite right in quoting from the Financial Statement, that I said in one paragraph there that the Provincial Government would finish on 31st March, 1899, with a balance of *nil*; but that statement is made in working off a calculation, and, if the Hon'ble Member had read further on, he would have found that, starting from that point, we make a credit of 15 lakhs, so that we convert a balance of *nil* into a balance of 15 lakhs to the good. One thing I want to point out also—the Provincial Governments do not require a working balance. We undertake to meet the claims of the Provincial Governments upon our Treasuries so long as these claims are within the limit of the estimates which have been passed by us. The consequence is

that if a Provincial Government starts with a balance of *nil* it is nevertheless perfectly in a position to carry out the whole of its financial operations during the year. The Hon'ble Sir Edwin Collen, for example, spends, I suppose, 15 or 16 crores of rupees a year. He has not got a single rupee to his credit; all that he has to his credit are Budget grants. It is exactly the same with Provincial Governments. They do not require a working balance. His Honour the Lieutenant Governor has referred to a paper of 1881 which regulates the issues of these balances in meeting the demands of special calamities. He founds upon that a calculation that we ought to give him, in order to carry out our own principles of contribution, 23½ lakhs. I put against that demand first our contribution of 15 lakhs. I have given further a free grant of two lakhs for distribution at His Honour's discretion, 2½ lakhs which I gave and which are referred to in the third paragraph of the Financial Statement, and a further grant of 10 lakhs which was made last year to the General Hospital. That comes altogether to 29½ lakhs; so that if His Honour returns to me the six lakhs which I have given him extra, our accounts will, so far as this reckoning goes be exactly square. But I make no such demand: the truth is that that order of 1881 broke down in its operation. The order is that when a calamity comes we call upon Provincial Governments to spend upon it two-thirds of their balances; and the remaining one-third we say we will not touch. But the fact is that with the famine of 1896 came not only a demand for expenditure but a failure of revenue, and this failure in the case of most of the provinces ate up much of the balance which should have, according to the system prescribed by rule, been available for expenditure. However, I quite acknowledge one thing, namely, that the Bengal Government, when famine and plague came upon the land, spent very freely out of its balances. But then the other Governments have done the same so far as their balances were not eaten up by failure of revenue. To make good a great deal of plague expenditure we have had to make large grants to Bombay on account of this very heavy expenditure. We have made grants for the same purpose to Bengal, and we have also made grants to Madras. I am accused of being ungenerous to Madras, but these three lakhs which the Government of India gave to them the other day will show that we have some feelings of generosity even towards the Southern Presidency, although I quite admit the money is given in the ordinary way of business. The rule is that when a Provincial Government's resources are exhausted the Government of India steps in and takes over the expenditure, but we cannot undertake to take over the expenditure *ab initio* and place Local Governments in the same position as they would have been had there been no calamity. That is a claim which has been put forward by more than one of those Governments. But the principles adopted by the Government of India are based on the following views of the Famine Commissioners of 1881 :—

'The extent to which the Provincial revenues at the disposal of the Local Governments will enable them to meet famine expenditure is a subject on which we need not enter at length. In a time of exceptional financial pressure such as every period of famine must be, there can be no question that any outlay which is not obligatory should be postponed, and so far as the ordinary and necessary expenditure on public works can be directed to the relief of persons in distress, this also will be advisable. The extent to which aid from the resources of the Central Gvernment should be given will have to be determined as each case arises, and there can be no doubt that in all cases of severe drought this liability will occur.'

"We cannot therefore undertake to relieve Provincial Governments of all anxiety on the subject of famine and plague. When calamities of that sort are abroad we must restrict our expenditure in other directions. It is impossible for us to undertake the expenditure of plague and famine as an Imperial expenditure, and tell Provincial Governments that they can go on with their ordinary expenditure in exactly the same way as if they were not restricted by considerations of current calamity. No doubt figures and statistics can be produced, and are produced, by every Local Government to show that that particular Local Government is the one which requires more generous treatment and the received less generous treatment than any of the others at the hands of has

Government of India. I say it is very difficult for a Finance Minister to stand with his back to the wall and argue matters out for each Local Government separately. The only suggestion I can make is that these matters should be considered not by one Local Government disputing with the Supreme Government, but by the Local Governments combining and informing each other of their respective needs and trying to convince each other of their respective claims.

"The Hon'ble Mr. Smeaton made reference to the question of financing the rice-trade in Burma, and he makes a complaint that we give in this respect a monopoly to the Bank of Bengal. The Bank of Bengal maintains a monopoly, I admit, but it is a necessity of its position. Two or three years ago I was down at Rangoon and had a conference with several merchants of Rangoon upon this very subject. They told me that they objected to the monopoly of the Bank of Bengal, and they would be very glad if, instead of giving these transfers solely to the Bank of Bengal, I would give these transfers also to the Exchange Banks or to merchants direct. I told them I was perfectly willing to do so, but I was convinced they would not take advantage of the offer. The fact is that no merchant can afford to quarrel with this Bank or compete with it. The Exchange Banks in this country have not got spare funds. They will not lay down funds in Rangoon to finance trade, because they have not got spare funds with which to carry out the operation. They prefer therefore to make arrangements with the Bank of Bengal, by which the Bank of Bengal will hold money at their disposal whenever they want it. As a matter of fact, in consequence of my talking over the matter with the merchants in Rangoon, I published a notification in Calcutta at the usual time when we arrange for these transfers, saying that the Exchange Banks and others might tender in competition with the Bank of Bengal for the transfers we had to offer. Not one of them made a tender. It pays them to get their money from the Bank of Bengal in Burma better than to come to me for it in Calcutta.

"The Hon'ble Mr. Allan Arthur has referred to the cost of telegrams. I do not like to say anything more than this, that the matter has engaged the attention of the Secretary of State. How far he has gone is more than I can say, but the obstacle has been the claims of the Companies. Whether we will be able to get round these claims of the Company by giving a guarantee is more than I can say. I have no doubt that after the remarks of such an authority as the President of the Chamber of Commerce of Calcutta, the subject will be taken up again. I dare not follow him on the question of currency, although the remarks he has made will be useful and no doubt will have their weight; still it is not proper for me to deal with the matter otherwise than as one which is under the judgment of a committee sitting at home. I have long refrained from expressing opinions myself regarding currency. It is a difficult subject, and I always find that it is something like a theological question which tends to produce the greatest bitterness of controversy. No person, it would appear, can hold a definite opinion without believing that he is the only person who is right and those that differ from him are wickedly and criminally and intentionally wrong.

"And now, my Lord, it may be permissible to one who is in my position, and who is about to give up charge of the office which he has held for so many years, to utter a word relating to himself personally; and I would be very unwilling to give up my office without expressing the great obligation under which I have been placed during the whole of my service by the officers and subordinates of the Financial Department. I would not mention any names. There are too many whom I personally know and of whom I have an extremely high opinion. There are too many of them to bring their names before the Council, but there is one name I would mention. It is a matter of great grief to me that my last year of office should be signalised by the death of one officer who during part of my tenure of office was my right hand man, who was distinguished above all officers by his knowledge of the work of the department, and who was eminently suited to be the head of it—I refer to Mr. Stephen Jacob, over whose grave I stood last December—a man whom I had known for twenty years, outside the department as well as in it, and for whom every member of the department had the

profoundest respect. And now, my Lord, I wish to thank the Hon'ble Members for their goodness in referring to me personally and to the circumstances under which I hand over charge of my department to my successor. I am pleased to be able to do so at a time when everything looks prosperous. It depends neither upon me nor upon him, nor does it depend on Your Excellency's Government, to make sure that that state of things should be maintained. I hope there are good times in store, that this season of prosperity will last sufficiently long to enable Your Excellency's Government to take up the questions which have been pressed upon us to-day, namely, that of the remission of part of the existing taxation. It would have given me great pleasure, after having had something to do with increasing the people's burdens in this land, had I had the opportunity of taking part in the remission of them. I believe it, for the reasons I have stated, premature to do so, and therefore that task I hand over to my successor. In this country changes of *personnel* are very frequent. One's name remains for a short time, but I think one's work remains longer; and although perhaps my name and its connection with the Financial Department of the Government of India—a connection lasting now 29 years—may shortly be forgotten, yet I am convinced that part of my work will remain behind me, and that I shall have done something by that work to make some return to India for all that I have received from her."

His Excellency THE PRESIDENT said:—" I am glad to think that I need not detain my Hon'ble colleagues by remarks of any great length. The discussion to which we have listened has been far from devoid of interest; but although it has elicited differences of opinion, such as may legitimately be expected, it has, on the whole, been marked by an unusual unanimity of sentiment, due, no doubt, in the main to the prosperous circumstances in which we find ourselves, but nevertheless gratifying both to the Government and to the Financial Member, with whose last Indian Budget we are dealing. The official life of Sir James Westland, to whose affecting farewell we have none of us listened without emotion, has been, as he has just told us, indissolubly bound up with the finances of India. This is the seventh Budget that he has introduced into the Legislative Council of Government. Few Chancellors of the Exchequer in England, where the conditions of public employment are more permanent, have introduced a greater number. I doubt if any Indian Chancellor of the Exchequer has introduced so many.

" In neither country, I imagine, has any guardian of the public purse been confronted in the course of his official career with more marked vicissitudes of fortune than has Sir James Westland. He is happy, I think, in this—that his fat years have followed upon his lean years, instead of preceding them; and I can well believe that the anxieties and worries which have distracted him in times past are now forgotten in the glow of honourable satisfaction with which he can regard the termination of his labours, and can congratulate India, not less than himself, that he leaves her upon an ascending plane of material and economic progress.

" If the Finance Member in India is chided and reproached for his misfortunes in bad times, at least he should not be robbed of his share of the credit for better days; and I am sure that Council will cordially join me in assuring Sir James Westland of our grateful appreciation of his long and arduous labours, and in wishing him equal success in whatever work he may set his hand to in the future.

" With regard to his speech, to which we have just listened, I would also say this—and I would say it from personal knowledge—that he has represented himself as a much less charitable individual than he really is. To myself it is, I confess, a source of no slight pleasure that the first Financial Statement to which I should have listened in this Council has been one of so gratifying a description. My belief, more than once expressed on previous occasions, in the economic vitality of this country, in the solidity and range of its resources, and in its capacity for an industrial expansion far beyond what has hitherto been deemed possible, is confirmed by the experience of the past year. I recognise that the circum-

stances have been exceptionally favourable. War has fortunately ceased upon the frontier. There has been a high and an almost uniform rate of exchange. There has been a notable expansion in certain industries. The harvests have been abundant. On the other hand, there have been corresponding sources of depression and alarm in the recurrence of plague, which neither the resources of science nor the utmost administrative vigilance have so far succeeded in defeating, and which has made heavy inroads upon the Imperial as well as upon the Provincial exchequers. That the net result of these contending influences should yet be a balance of 4¾ crores is indicative to my mind not merely of uncommon powers of recuperation, but of a marvellous latent reserve of strength.

"We have been criticised in these circumstances for not having proposed a remission of taxation; and that criticism has found capable expression in more than one quarter at this table to-day. I quite understand, and I do not in any degree deprecate, such criticism. It is the natural and legitimate desire of taxpayers all over the world to obtain relief from what they regard, or at least represent, as their burdens, and to feel the passion for relief swelling in their bosoms in proportion to the apparent existence of the means for satisfying it. I doubt not that the payers of income-tax would have welcomed an extension of the scale of exemption. The Hon'ble the Maharaja of Darbhanga pleaded their cause with great ability, and was anxious for the extension of that scale from Rs. 500 to Rs. 1,500; the Hon'ble Mr. Charlu took much the same view; and the Hon'ble Mr. LaTouche pleaded for some relaxation of the same system. I may add also that it is equally the desire of Governments not merely to earn the popularity that may result from a remission of taxation—although my experience is that popularity so won is a very ephemeral asset—but also in the interests of good government itself to reduce the burdens upon the people. But there are considerations in this case, both normal and exceptional, which decided us to take the opposite course.

"The normal consideration of which I speak was that of ordinary caution. Though I have spoken of the astonishing recovery of the past year, though I believe it to represent a much more than transient improvement in the resources of the country, and though Sir James Westland budgets for a surplus of nearly 4 crores in the coming year, I am yet too conscious of the part played by what I may describe as the swing of the pendulum in the economic world to be willing to sacrifice any portion of a hardly won advantage by being in too great a hurry. The Hon'ble Sir Griffith Evans has reminded us that India is a land of surprises, and these surprises are liable to start into existence equally in the spheres of politics and finance. Even in the more sober atmosphere of England we have had during the past year a startling instance of this phenomenon; for whereas, in the plenitude of our wealth and substance, the Government of which I was a member a year ago agreed to a remission of taxation by which we forfeited in the case of one duty alone a sum of nearly 1½ million sterling without, so far as I remember, exciting any gratitude from anybody, within the space of a year the balance has so completely swung round owing to unexpected calls that, if what I read in the papers be correct, there will be no cause for surprise should the forthcoming Budget contain proposals for the recovery of considerably more than was then remitted. To reduce taxation in one year and to re-impose it in the next is a condition to which Governments have frequently been driven by unforeseen events. But it is one which it is better to avoid by an excess of prudence at the time than to meet with whatever ingenuity at a later period.

"The special circumstances which more even than these general considerations decided us against any remission of taxation in the forthcoming year are known to all. It is not unlikely that we may be invited before long to inaugurate momentous changes in the financial system of the Indian Empire. What these changes may be none of us as yet know, and we reserve our entire liberty to examine and consider them when they are submitted to us by Her Majesty's Government as the result of the expert enquiry now proceeding in London. But it must be obvious to the least informed that the prospects of any such change as we may decide to undertake must depend very largely upon the position and the credit that we

enjoy at the time in the eyes of the world; that they will be enhanced by the evidences of financial strength to which a large balance and expanding resources are the best testimony; and that they might be correspondingly imperilled by any stringency or insecurity here. We may be called upon to take steps that will affect the entire future of Indian trade and finance. We cannot afford, therefore, to slacken our hold upon any implement that may conduce to their success.

"There is another respect in which we may be thought to have carried caution to excessive lengths. The Hon'ble Member has framed his estimates for next year upon the basis of a $15\frac{3}{4}d.$ rupee. This has been variously explained as typical of the prudence of one whom I may perhaps without offence describe as 'an old financial hand,' or as prompted by a chivalrous desire to present a larger surplus than is apparent on the surface to his successor. I understand that both interpretations have been repudiated by the Hon'ble Member to-day. May I however add—and I do not think that I shall err on the opposite side of optimism in so doing—that this under-estimation, for so I think it may be called, must not be taken to indicate the least want of confidence on the part of the Indian Government. For my part I have every belief that the rupee will retain throughout the ensuing year the same position that it has done during the past; and I may even go further and say that I shall be disappointed if we are not able to invest the 16*d*. rupee with a greater durability than any which it has hitherto attained.

"I am glad to have heard in the speeches of those Hon'ble Members who have special knowledge of the circumstances and needs of outlying Provinces, notably in the speech of the Hon'ble Mr. Rees speaking for Madras, and I think, if we will allow me to say so, speaking for interests rather more wide than the railways of Madras, and in the speech of the Hon'ble Mr. Spence speaking for Bombay, a generous recognition of the assistance that has been rendered by the Government of India to those of the subordinate Governments who have been in distress. For a few months before the Budget is finally made up, and while the lips of the Finance Member are still sealed, he is the object either of passionate objurgations or of piteous appeals from those who think that they are going to get less than their due share of the Imperial superabundance, and who in the agony of their apprehension not infrequently appeal to the large-hearted impartiality of the Viceroy to rescue them from the niggardly prepossessions of the Finance Member. Such at least has been the experience of Sir James Westland and myself during the past few weeks. Meanwhile the Finance Member holds his counsel, and behind a front of iron conceals a melting heart. The result is that, now that the figures have transpired, it is I believe generally admitted that we have dealt liberally with our suffering brethren.

"The Hon'ble Mr. Mehta indeed argued that inadequate treatment had been given to his Province of Bombay. Now let me assure him that I have specially interested myself in the fate and fortunes of Bombay. I have been in frequent correspondence with its Governor on the subject, and I have been most anxious that financial justice should be tempered with some financial mercy. I believe that the Government of Bombay are themselves on the whole content with the treatment meted out to them; and I was glad to find that the Hon'ble Member, although he commenced his remarks in a tone of criticism, ended them in a spirit of generous, and I might almost say of wholesale, congratulation. The ordinary grants, as I may call them, that we have made to the Provincial Governments, in relief of the heavy burdens which have been laid upon them by the direct charges of plague and famine, amount to 42 lakhs. We have given to them in addition an extraordinary sum of 70 lakhs, a gift which, while it is no criterion of ordinary opportunities or deserts, and while it must not be interpreted by them as a precedent upon which they can rely, is yet, I hope, fairly proportionate on the present occasion both to our abundance and to their needs. The Provincial Contract System is one for the successful working of which a good deal of consideration is required at both ends of the scale; and I hope that the Provincial Governments, while they press upon us the obligations of munificence, will not lose sight of the corresponding obligation of economy.

"I am entirely in agreement with some of the remarks that fell from the Hon'ble Mr. Arthur with respect to the present high rate of telegraphic charges. I regard that rate as inimical to trade, as being a barrier to the ever-growing intercourse between India and the mother country, and as being obsolete and anomalous in itself. I have already considered the question, and I may say that I have placed it in a category of twelve important questions, all of them waiting to be taken up, all of them questions which ought to have been taken up long ago, and to which, as soon as I have the time, I propose to address myself. What these questions are I do not propose to relieve the curiosity of Hon'ble Members by now informing them. It is conceivable that I may have to add a thirteenth to their number in respect of the appeal of the Hon'ble Sir Griffith Evans with regard to the Small Cause Court Judges in the Mufassal. That is a question with which I am necessarily not myself familiar, but, while I understand the Finance Minister to have answered him on the point of finance, the impression left on me by Sir Griffith Evans' remarks was this, that he was arguing the case not from the point of view of pay but from that of character. It is from that point of view that the question is deserving of the attention of the Indian Government, which attention I shall be glad to give to it. But another question has been raised by an Hon'ble Member sitting at this table which I am unable to add to the dozen already alluded to. I am unable to add to it the suggestion of the Hon'ble Mr. Chitnavis that I should acquiesce in the reduction of the British soldiers in India. I can assure him that no such proposal will form part of the programme of the Government of India during my time.

"As regards Railways, Sir James Westland has indicated in his Budget Statement that for the moment our motto is *festina lente*, although this must not be taken to mark any policy of revulsion from that which has lately been pursued. There are times, however, at which it is desirable to go a little slower than the maximum pace. I am, however, rather in sympathy with what fell from the Maharaja of Darbhanga concerning the encouragement of light gauge feeder railways; and since I came here I have authorized the construction of some hundreds of miles of such lines. I should say in this context that one of the subjects to which I propose to turn my attention while at Simla is the whole question of the policy of Government in respect of railways in India, and our attitude towards private enterprise in particular. I am not satisfied with a condition of affairs which lays the Indian Government open to the charge—whether it be true or false I have not as yet the knowledge that enables me to pronounce—of indifference to the offers of assistance that are made to it, and of hostility to the investment of British capital in the country. We may hope much from fixity of exchange if we can succeed in establishing it. I should be glad if the Government could at the same time by its own attitude encourage what I hope may before long be a pronounced inclination towards India of the financial currents in the mercantile world.

"The subject of Irrigation is one that appeals very closely to my concern. We are all familiar with the aphorism about the service of the statesman who can make two blades of grass to grow where only one grew before; and in India we do not need to be reminded of the direct and almost immediate benefit to the agrarian class that results from an increase in the area of cultivation. I shall not embark upon any discussion of the rival advantages of irrigation and railways, because such a discussion would not be germane to this debate, and is in reality futile. The Government of India has never been inclined to balance its duties in these respects one against the other, and would, I think, be unwise to do so. Nevertheless the annual allotment of 75 lakhs which has for some time been made to irrigation might, I think, with advantage be extended; and I have persuaded Sir James Westland in his estimate for the forthcoming year to give me another 10 lakhs for that purpose. I had asked for more, and he would have been willing to give me more. But a scheme of irrigation is not a project upon which you can start quite as expeditiously or as easily as you can upon a railroad. In the first place, the best areas for the purpose have already been utilised. Fresh schemes are likely to be less profitable, and therefore require more consideration, than their predecessors. In the next place, very careful surveys

require to be made, levels have to be taken, a staff must be got together, an investigation of existing rights has in all probability to be undertaken. It is not the case therefore, as is sometimes imagined, that as soon as the cheque is drawn, it can at once, so to speak, be cashed in terms of tanks and canals. For these reasons it has been found that we are not in a position in the forthcoming year to spend more than an additional 10 lakhs upon irrigation; although in succeeding years, if our finances continue to flourish, I hope that we may present to you a more extended programme. I am about, in the course of a visit to the Punjab, to inspect the great irrigation works that have been taken from the Chenab River, and which were favourably alluded to in the speech of the Hon'ble Pandit Suraj Kaul, and I shall hope to learn a good deal there both concerning the present system and as to future requirements.

"It only remains for me to thank you for your co-operation in the labours of the session which is now about to conclude, to terminate this discussion and to announce that this Council is adjourned *sine die.*"

H. W. C. CARNDUFF,
Offg. Secy. to the Govt. of India,
Legislative Department.

CALCUTTA;
The 30th March, 1899.

SUPPLEMENT TO

The Gazette of India.

No. 13.] CALCUTTA, SATURDAY, APRIL 1, 1899.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

The 7th April, 1899.

No. 861-*I.-B.*—In exercise of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, 1879 (XXI of 1879), and of all other powers enabling him in this behalf, the Governor-General in Council is pleased to direct that, in the notification of the Government of India in the Foreign Department, No 212-J., dated the 24th October, 1873, for the entry relating to Act V of 1869 the following shall be substituted, namely:

V of 1869 (as modified and amended by Acts XII of 1891 and XII of 1894).	Indian Articles of War.	The whole Act, except clause (*b*) of Part I and Article 171.	*For* "British India" *read* "the Hyderabad Assigned Districts" and *for* "Local Government" *read* "Resident at Hyderabad."

No. 534-*E.-B.*—The following order of Her Majesty in Council, which was published in the *London Gazette,* dated the 3rd February 1899, is republished for general information :

ORDER IN COUNCIL.

EXTRADITION TREATY.—NETHERLANDS.

Osborne House, Isle of Wight, 2nd February, 1899.

AT the Court at *Osborne House, Isle of Wight,* the 2nd day of *February,* 1899.

PRESENT,

The QUEEN's Most Excellent Majesty.

Lord President. Duke of Marlborough.
Lord Privy Seal. Earl of Kintore.

WHEREAS by the Extradition Acts, 1870 to 1895, it was amongst other things enacted that, where an arrangement has been made with any foreign State with respect to the surrender to such State of any fugitive criminals, Her Majesty may, by Order in Council, direct that the said Acts shall apply in the case of such foreign State ; and that Her Majesty may, by the same or any subsequent Order, limit the operation of the Order, and restrict the same to fugitive criminals who are in or suspected of being in the part of Her Majesty's dominions specified in the Order, and render the operation thereof subject to such conditions, exceptions, and qualifications as may be deemed expedient.

And whereas a Treaty was concluded on the twenty-sixth day of September, one thousand eight hundred and ninety-eight, between Her Majesty and the Queen of the Netherlands for the mutual extradition of fugitive criminals, which Treaty is in the terms following :

"HER Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, and Her Majesty the Queen of the Netherlands, having mutually resolved to conclude a new Treaty for the extradition of criminals, the said High Contracting Parties have named as Their Plenipotentiaries to conclude a Treaty for this purpose, that is to say:

"Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, the Most Honourable Robert Arthur Talbot Gascoyne Cecil, Marquess of Salisbury, Earl of Salisbury, Viscount Cranborne, Baron Cecil, Peer of the United Kingdom, Knight of the Most Noble Order of the Garter, Member of Her Majesty's Most Honourable Privy Council, Her Majesty's Principal Secretary of State for Foreign Affairs, &c., &c.;

"And Her Majesty the Queen of the Netherlands, Alexander William Baron Schimmelpenninck van der Oye, Chargé d'Affaires, *ad interim,* of the Netherlands in London, Knight of the Order of Orange Nassau, &c., &c.;

"Who, having communicated to each other their respective full powers found in good and due form, have agreed upon and concluded the following Articles:

"ARTICLE I.

"The High Contracting Parties engage to deliver up to each other those persons who,

"HARE Majesteit de Koningin van het Vereenigd Koninkrijk van Groot-Britannië en Ierland, Keizerin Van Indie, en Hare Majesteit de Koningin der Nederlanden, in gemeenschappelijk overleg overeengekomen zijnde een nieuw verdrag te sluiten betreffende de uitlevering van misdadigers hebben gezegde Hooge Contracteerende Partijen te dien einde tot Hoogstderzelver Gevolmachtigden benoemd te weten:

"Hare Majesteit de Koningin van het Vereenigd Koninkrijk van Groot-Britannië en Ierland, Keizerin van Indië, den Heer Robert Arthur Talbot Gascoyne Cecil, Markies van Salisbury, Graaf van Salisbury, Burggraaf Cranborne, Baron Cecil, Pair van het Vereenigd Koninkrijk, Ridder van de Orde van den Kouseband, Lid van Harer Majesteit's Geheimen Raad, Harer Majesteit's voornaamsten Secretaris van Staat voor Buitenlandsche Zaken, enz.;

"En Hare Majesteit de Koningin der Nederlanden, Alexander Willem Baron Schimmelpenninck van der Oye, Tydelyk Zaakgelastigde der Nederlanden te London, Ridder der Orde van Oranje Nassau, enz., enz.;

"Die, na elkander hunne respectieve volmachten te hebben medegedeeld, welke in goeden en behoorlijken vorm zijn bevonden, omtrent de volgende Artikelen zijn overeengekomen en deze hebben vastgesteld:

"ARTIKEL I.

'De Hooge Contracteerende Partijen verbinden zich aan elkander uit te leveren alle personen,

being accused or convicted of a crime or offence committed in the territory of the one Party, shall be found within the territory of the other Party, under the circumstances and conditions stated in the present Treaty.

"ARTICLE II.

"The crimes or offences for which the extradition is to be granted are the following:

"1. Murder, including infanticide, or attempt, or conspiracy to murder, including such crimes when directed against the Sovereign, his heir, or any other person whomsoever, provided that the crime is not of a political character.

"2. Manslaughter, including the manslaughter of a child.

"3. Assault occasioning actual bodily harm.

"4. Maliciously wounding or inflicting grievous bodily harm.

"5. Counterfeiting or altering money, or uttering counterfeit or altered money.

"6. Forgery, counterfeiting or altering, or uttering what is forged, counterfeited or altered.

"7. Embezzlement; fraud by a bailee, banker, agent, factor, trustee, or director or member or public officer of any Company, made criminal by any law for the time being in force; or larceny.

"8. Malicious injury to property if the offence be indictable.

"9. Obtaining money, goods, or valuable securities by false pretences.

"10. Crimes against bankruptcy law.

"11. Perjury, or subornation of perjury.

"12. Rape.

"13. Carnal knowledge, or any attempt to have carnal knowledge, of a girl under 16 years of age.

"14. Indecent assault.

"15. Administering drugs, or using instruments with intent to procure the miscarriage of a woman.

"16. Abduction.

"17. Child stealing.

"18. Kidnapping of minors and their false imprisonment.

"19. Burglary or house-breaking.

"20. Arson.

"21. Robbery with violence.

"22. Any malicious act done with intent to endanger the safety of a railway train.

"23. Threats by letter or otherwise, with intent to extort.

"24. Piracy by law of nations.

"25. Sinking or destroying a vessel at sea, or attempting to do so.

"26. Assaults on board a ship on the high seas, with intent to destroy life, or do grievous bodily harm.

die beschuldigd van of veroordeeld wegens een misdrijf gepleegd op het grondgebied van de eene Partij, gevonden worden op het grondgebied van de andere Partij, onder de omstandigheden en voorwaarden in het tegenwoordig verdrag vermeld.

"ARTIKEL II.

"De misdrijven, ter zake waarvan de uitlevering zal worden toegestaan zijn de volgende:

"1. Moord, daaronder begrepen kindermoord, of poging of samenspanning tot moord, daaronder begrepen zoodanige misdrijven gericht tegen den Souverein, tegen diens erfgenaam, of tegen ieder ander persoon wien ook, mits het misdrijf geen staatkundig karakter draagt.

"2. Doodslag, daaronder begrepen kinderdoodslag.

"3. Mishandeling zwaar lichamelijk letsel ten gevolge heb bende.

"4. Verwonding met voorbedachten rade of het toebrengen van zwaar lichamelijk letsel.

"5. Het namaken of vervalschen van muntspeciën en muntpapier of het in omloop brengen van valsche of vervalschte muntspeciën of muntpapier.

"6. Valschheid in geschriften, of het gebruik maken van de valsche of vervalschte geschriften.

"7. Verduistering of diefstal.

"8. Opzettelijke en ernstige beschadiging van goederen.

"9. Oplichting.

"10. Bedriegelijke bankbreuk.

"11. Meineed of het uitlokken van meineed.

"12. Verkrachting.

"13. Het hebben van vleeschelijke gemeenschap met een meisje beneden den leeftijd van 16 jaar, of poging daartoe.

"14. Aanslag tegen de zeden.

"15. Het toedienen van middelen of het gebruiken van instrumenten met het doel de afdrijving der vrucht van eene vrouw te veroorzaken.

"16. Schaking.

"17. Wegvoering van kinderen.

"18. Oplichting van minderjarigen en hunne wederrechtelijke vrijheidsberooving.

"19. Inbraak.

"20. Opzettelijke brandstichting.

"21. Diefstal met geweld.

"22. Het opzettelijk doen ontstaan van gevaar voor een spoortrein.

"23. Bedreiging bij geschrifte onder eene bepaalde voorwaardë (Artikel 285 tweede lid Nederlandsch Wetboek van Strafrecht.

"24. Zeeroof.

"25. Het doen zinken of vernielen van een vaartuig op zee, of poging daartoe.

"26. Mishandelingen, met het oogmerk om te dooden of zwaar lichamelijk letsel toe te brengen, gepleegd aan boord van een vaartuig in volle zee.

"27. Revolt by two or more persons on board a ship on the high seas, against the authority of the master.

"28. Dealing in slaves in such a manner as to constitute a criminal offence against the laws of both States.

"Extradition is also to be granted for participation in any of the aforesaid crimes, provided such participation be an extradition crime by the laws of the State applied to.

"In the foregoing cases extradition shall take place only when the crime, if committed within the jurisdiction of the country on which the claim for surrender is made, would constitute an extradition crime by the laws of that country.

"Extradition may also be granted, at the discretion of the State applied to, in respect of any other crime for which, according to the laws of both the Contracting Parties for the time being in force, the grant can be made.

"ARTICLE III.

"Either Government may, in its absolute discretion, refuse to surrender its own subjects to the other Government.

"ARTICLE IV.

"The extradition shall not take place if the person claimed on the part of the British Government, or the person claimed on the part of the Netherland Government, has already been tried and discharged or punished, or is actually upon his trial, within the territory of the other of the two High Contracting Parties, for the crime for which his extradition is demanded.

"If the person claimed on the part of the British Government, or if the person claimed on the part of the Netherland Government, should be under examination, or is undergoing sentence under a conviction, for any other crime within the territories of the two High Contracting Parties respectively, his extradition shall be deferred until after he has been discharged, whether by acquittal or on expiration of his sentence, or otherwise.

"ARTICLE V.

"The extradition shall not take place if, subsequently to the commission of the crime, or the institution of the penal prosecution, or the conviction thereon, exemption from prosecution or punishment has been acquired by lapse of time, according to the laws of the State applied to.

"ARTICLE VI.

"A fugitive criminal shall not be surrendered if the offence in respect of which his surrender is demanded is one of a political character, or if he prove that the requisition for his surrender has in fact been made with a view to try or punish him for an offence of a political character.

"27. Verzet van twee of meer personen tegen het gezag van den schipper, gepleegd ann boord van een vaartuig in volle zee.

"28. Het drijven van slavenhandel mits opleverende een strafbaar feit volgens de wetten der beide Staten.

"Uitlevering wordt ook toegestaan wegens medeplichtigheid aan een der bovengenoemde misdrijven, wanneer voor die medeplichtigheid kan worden uitgeleverd volgens de wetten van den Staat, aan welken de uitlevering wordt aangevraagd.

"In de bovengenoemde gevallen zal de uitlevering alleen plaats hebben, wanneer het misdrijf, indien het ware gepleegd binnen het rechtsgebied van het land, waaraan de aanvrage tot uitlevering is gedaan, volgens de wetten van dat land tot uitlevering aanleiding zou kunnen geven.

"Uitlevering zal ook kunnen worden toegestaan, naar het goeddunken van den Staat, aan welken de uitlevering wordt aangevraagd, ten opzichte van eenig ander misdrijf waarvoor, overeenkomstig de wetten der beide Contracteerende Partijen op dat tijdstip van kracht, de toestemming kan worden verleend.

"ARTIKEL III.

"Elke Regeering mag, geheel naar eigen goeddunken, weigeren zijne eigen onderdanen aan de andere Regeering uit te leveren.

"ARTIKEL IV.

"De uitlevering zal geen plaats hebben, indien de persoon door de Britsche Regeering opgeëischt, of de persoon door de Nederlandsche Regeering opgeëischt, ter zake van het misdrijf, waarvoor zijne uitlevering aangevraagd wordt, reeds heeft terecht gestaan, en vrijgesproken, van rechtsvervolging ontslagen of gestraft is, of eene strafvervolging tegen hem aanhangig is op het grondgebied van de andere Hooge Contracteerende Partij.

"Indien de persoon door de Britsche Regeering opgeëischt of indien de persoon door de Nederlandsche Regeering opgeëischt, wegens een ander misdrijf, op het grondgebied van de andere Hooge Contracteerende Partij gepleegd, wordt vervolgd, of is veroordeeld, zal zijne uitlevering worden uitgesteld tot dat hij is ontslagen, hetzij ten gevolge van vrijspraak of ontslag van rechtsvervolging, hetzij hij zijne straf heeft ondergaan, hetzij op andere wijze.

"ARTIKEL V.

"De uitlevering zal geen plaats hebben indien, na het plegen van het misdrijf, of het instellen van eene strafrechterlijke vervolging, of de daarop gevolgde veroordeeling, de vervolging of de straf verjaard is, volgens de wetten van den Staat, aan welken de uitlevering wordt aangevraagd.

"ARTIKEL VI.

"Een voortvluchtig misdadiger zal niet uitgeleverd worden indien het strafbaar feit, ter zake waarvan zijne uitlevering wordt gevraagd, een staatkundig karakter draagt, of indien hij het bewijs levert, dat de aanvrage om zijne uitlevering opzettelijk is gedaan met de bedoeling om hem ter zake van een strafbaar feit van staatkundigen aard te vervolgen of te straffen.

"ARTICLE VII.

"A person surrendered may in no case be kept in prison, or be brought to trial in the State to which the surrender has been made, for any other crime or on account of any other matters than those for which the extradition shall have taken place, until he has been restored or had an opportunity during one month of returning to the State by which he has been surrendered.

"This stipulation does not apply to crimes committed after the extradition.

"ARTICLE VIII.

"The requisition for extradition shall be made through the Diplomatic Agents of the High Contracting Parties respectively.

"The requisition for the extradition of an accused person must be accompanied by a warrant of arrest issued by the competent authority of the State requiring the extradition, and by such evidence as, according to the laws of the place where the accused is found, would justify his arrest if the crime had been committed there.

"If the requisition relates to a person already convicted, it must be accompanied by the sentence of condemnation passed against the convicted person by the competent Court of the State that makes the requisition for extradition.

"A sentence passed *in contumaciam* is not to be deemed a conviction, but a person so sentenced may be dealt with as an accused person.

"ARTICLE IX.

"If the requisition for extradition be in accordance with the foregoing stipulations, the competent authorities of the State applied to shall proceed to the arrest of the fugitive.

"ARTICLE X.

"Pending the presentation of the demand for extradition through the Diplomatic channel, a fugitive criminal may be apprehended under a warrant issued by any Police Magistrate, Justice of the Peace, or other competent authority in either country, on such information or complaint, and such evidence, or after such proceedings as would, in the opinion of the authority issuing the warrant, justify the issue of a warrant if the crime had been committed or the person convicted in that part of the dominions of the two Contracting Parties in which the Magistrate, Justice of the Peace, or other competent authority exercise jurisdiction; provided, however, that in the United Kingdom the accused shall, in such case, be sent as speedily as possible before a Magistrate. He shall, in accordance with this Article, be discharged, as well in the Netherlands as in the United Kingdom, if within the term of twenty days a requisition for extradition shall not have been made by the Diploma-

"ARTIKEL VII.

"De persoon, wiens uitlevering heeft plaats gehad, mag in geen geval in hechtenis gehouden of vervolgd worden in den Staat aan welken de uitlevering heeft plaats gehad, ter zake van eenig ander misdrijf, of wegens eenig ander feit, dan dat waarvoor de uitlevering geschied is, alvorens hij is teruggekeerd of gedurende eene maand de gelegenheid heeft gehad terug te keeren naar den Staat door welken hij uitgeleverd is.

"Deze bepaling is niet toepasselijk op misdrijven na de uitlevering gepleegd.

"ARTIKEL VIII.

"De aanvrage tot uitlevering zal worden gedaan respectivelijk door de Diplomatieke Agenten der Hooge Contracteerende Partijen.

"De aanvrage tot uitlevering van een beschuldigde moet vergezeld zijn van een bevel van gevangenneming, afgegeven door de bevoegde overheid van den Staat, welke de uitlevering aanvraagt, en van zoodanige stukken als welke, overeenkomstig de wetten der plaats, waar de beschuldigde gevonden is, zijne aanhouding zouden wettigen, indien het misdrijf aldaar gepleegd ware.

"Indien de aanvrage eenen veroordeelde betreft, moet zij vergezeld zijn van het veroordeelend vonnis of arrest, ten laste van den veroordeelde gewezen door den bevoegden rechter van den Staat welke de uitlevering aanvraagt.

"Een vonnis bij verstek wordt niet geacht te zijn eene veroordeeling, maar een persoon, tegen wien zoodanig vonnis is gewezen, mag worden beschouwd als een beschuldigde.

"ARTIKEL IX.

"Wanneer de aanvrage tot uitlevering overeenkomstig de voorgaande bepalingen is geschied, zal de bevoegde macht in den Staat, aan welken de aanvrage gedaan is, de noodige maatregelen nemen tot inhechtenisstelling van den voortvluchtige.

"ARTIKEL X.

"In afwachting van de aanvrage om uitlevering langs Diplomatieken weg, ken de voortvluchtige in hechtenis worden genomen krachtens een bevel afgegeven door een 'Police Magistrate, Justice of the Peace,' of andere bevoegde overheid in elk der beide landen, op zoodanige aangifte of klacht en zoodanige bewijsstukken, of na zoodanig onderzoek als, naar het oordeel van de autoriteit, die het bevel verleent, termen tot het verleenen daarvan zou opleveren, indien het misdrijf gepleegd of de persoon veroordeeld ware binnen het ressort van het gebied der twee Contracteerende Partijen, waarover de 'Magistrate,' Justice of the Peace,' of andere bevoegde autoriteit rechtsmacht uitoefent; met dien verstande evenwel dat, in het Vereenigd Koninkrijk de beschuldigde in dat geval zoo spoedig mogelijk voor een 'Magistrate' zal worden gebracht. Hij zal, overeenkomstig dit Artikel, ontslagen worden, zoowel in Nederland als in het Vereenigd Koninkrijk, indien binnen twin-

tic Agent of the demanding country in accordance with the stipulations of this Treaty. The same rule shall apply to the cases of persons accused or convicted of any of the crimes or offences specified in this Treaty, and committed on the high seas on board any vessel of either country which may come into a port of the other.

tig dagen geene aanvrage tot uitlevering door den Diplomatieken vertegenwoordiger van het land dat de uitlevering aanvraagt is gedaan overeenkomstig de bepaligen van dit verdrag. Dezelfde regel zal worden toegepast in de gevallen dat personen zijn beschuldigd of veroordeeld ter zake van een der misdrijven in dit verdrag vermeld, en gepleegd in volle zee aan boord van een vaartuig van een der beide landen, hetwelk mocht komen in eene haven van het andere land.

" ARTICLE XI.

" If the fugitive have been arrested in the British dominions he shall forthwith be brought before a competent Magistrate, who is to examine him, and to conduct the preliminary investigation of the case, just as if the apprehension had taken place for a crime committed in the British dominions.

" In the examinations which they have to make in accordance with the foregoing stipulations, the authorities of the British dominions shall admit as valid evidence depositions or statements on oath or the affirmations of witnesses taken in the Netherlands, or copies thereof, and likewise the warrants and sentences issued therein, and certificates of, or judicial documents stating the fact of, a conviction, provided the same are authenticated as follows:

" 1. A warrant must purport to be signed by a Judge, Magistrate, or officer of the Netherlands.

" 2. Depositions or affirmations, or the copies thereof, must purport to be certified under the hand of a Judge, Magistrate, or officer of the Netherlands, to be the orginal depositions or affirmations, or to be the true copies thereof, as the case may require.

" 3. A certificate of, or judicial document stating the fact of, a conviction must purport to be certified by a Judge, Magistrate, or officer of the Netherlands.

" 4. In every case such warrant, deposition, affirmation, copy, certificate, or judicial document must be authenticated either by the oath of some witness, or by being sealed with the official seal of the Minister of Justice, or some other Minister of State of the Netherlands; but any other mode of authentication for the time being permitted by the law in that part of the British dominions where the examination is taken may be substituted for the foregoing.

" ARTIKEL XI.

" Wanneer de voortvluchtige op Britsch grondgebied is aangehouden zal hij oogenblikkelijk worden gebracht voor een bevoegd ' Magistrate ' die hem verhoort en de zaak voorloopig onderzoekt, evenals of de aanhouding had plaats gehad ter zake van een misdrijf gepleegd op Britsch grondgebied.

" Bij het onderzoek hetwelk de Britsch autoriteiten overeenkomstig de voorgaande bepalingen moeten instellen, zullen zij als wettige bewijsstukken aannemen beëedigde klachten of opgaven of getuigeverklaringen in Nederland afgelegd of gedaan, of afschriften daarvan, en eveneens de bevelschriften en vonnissen aldaar ter zake uitgevaardigd of gewezen, en stukken of gerechtelijke akten, waaruit blijkt van de veroordeeling, mits dezelve zijn gewaarmerkt als volgt:

" 1. Even bevelschrift moet inhouden de verklaring van te zijn geteekend door een Nederlandsch rechter, Officier van Justitie of andere bevoegde autoriteit.

" 2. Klachten of verklaringen, of de afschriften daarvan, moeten de verklaring inhouden van te zijn gewaarmerkt door een Nederlandsch rechter, Officier van Justitie of andere bevoegde autoriteit, als te zijn het origineel of in de gevallen waarin zulks noodzokelijk is, het eensluidend afschrift daarvan.

" 3. Een stuk of gerechtelijke akte, constateerende de veroordeeling, moet de verklaring inhouden dat het is gewaarmerkt door een Nederlandschen Rechter, Officier van Justitie of andere bevoegde autoriteit.

" 4. In ieder geval moet van zulk een bevelschrift, klacht, verklaring, afschrift, stuk of gerechtelijke akte de echtheid worden verzekerd, hetzij door een beeedigde getuigeverklaring, hetzij door het daaraan gehecht officiëel zegel van den Minister van Justitie, of van een ander Hoofd van een Ministeriëel Departement in Nederland; doch hiervoor kan in de plaats treden eenige andere wijze van waarmerking, welke op dat tijdstip geoorloofd is volgens de wet van dat gedeelte van het Britsche grondgebied, waar het onderzoek plaats heeft.

" ARTICLE XII.

" If the fugitive have been arrested in the dominions of the Netherlands the officer of justice shall prefer a requisition within three days after the arrest, or, if the arrest have not taken place, or if it have taken place prior to the application for extradition, then within three days after the receipt of authority for that purpose

" ARTIKEL XII.

" Wanneer de voortvluchtige op Nederlandsch grondgebied is aangehouden requireert de Officier van Justitie binnen drie dagen na de aanhouding, of, zoo de aanhouding niet heeft plaats gehad of reeds vóór de aanvrage tot uitlevering is geschied, binnen drie dagen na daartoe te zijn aangeschreven door de Nederlandsche

from the Netherland Government in order that the person claimed may be interrogated by the Court, and that it may express its opinion as to the grant or refusal of extradition.

"Within fourteen days after the interrogatory the Court shall forward its opinion and its decision, with the papers in the case to the Minister of Justice.

"The extradition shall only be granted on the production, either in original or in authenticated copy:

"1. Of a conviction; or,

"2.—(a.) Of a warrant of arrest (which, by the law of the British dominions, is the only document which is granted when it is adjudged upon evidence taken on oath that the accused ought to be taken into custody), issued in the form prescribed by British law, and indicating the offence in question sufficiently to enable the Netherland Government to decide whether it constitutes, in contemplation of Netherland law, a case provided for by the present Treaty; and,

"(b.) Of the evidence.

"In the examinations which they have to make in accordance with the foregoing stipulations, the authorities of the Netherland dominions shall admit as valid evidence depositions or statements on oath, or the affirmations of witnesses taken in the British dominions, or copies thereof, and likewise the warrants and sentences issued therein, and certificates of, or judicial documents stating the fact of, a conviction, provided the same are authenticated as follows:

"1. A warrant must purport to be signed by Judge, Magistrate, or officer of the British dominions.

"2. Depositions or affirmations, or the copies thereof, must purport to be certified under the hand of a Judge, Magistrate, or officer of the British dominions, to be the original depositions or affirmations, or to be true copies thereof, as the case may require.

"3. A certificate of, or judicial document stating the fact of, a conviction, must purport to be certified by a Judge, Magistrate or officer of the British dominions.

"4. In every case such warrant, deposition, affirmation, copy certificate, or judicial document must be authenticated either by the oath of some witness, or by being sealed with the official seal of one of the Principal Secretaries of State, or some other Minister of State of the British dominions, but any other mode of authentication for the time being permitted by law in that part of the dominions of the Netherlands where the examination is taken may be substituted for the foregoing.

"ARTICLE XIII.

"The extradition shall not take place unless the evidence be found sufficient, according to the

Regeering, dat de opgeëischte persoon door de rechtbank worde gehoord, en dat deze haar advies uitbrenge over het al of niet toestaan der uitlevering.

"Binnen veertien dagen na het verhoor zendt de rechtbank haar advies en haré beslissing, met de tot de zaak behoorende stukken, aan den Minister van Justitie.

"De uitlevering zal alleen worden toegestaan op vertoon van het origineel of van een gewaarmerkt afschrift—

"1. Van een vertoordeelend vonnis of

"2.—(a) Van een bevelschrift van gevangenneming (hetwelk volgens de wet van het Britsche Rijk het eenige stuk is dat wordt afgegeven wanneer op grond van onder eede afgelegde getuigeverklaringen bij rechterlijke uitspraak is beslist, dat de beschuldigde in bewaring behoort te worden gesteld), afgegeven in den vorm, door de Britsche wetgeving voorgeschreven, en waarbij het feit waarvan sprake is op zoodanige wijze is omschreven, dat de Nederlandsche Regeering in staat zij te beslissen of het, volgens de Nederlandsche wet, een der gevallen oplevert, in het tegenwoordige verdrag voorzien; en

"(b.) Van de bewijsstukken.

"Bij het onderzoek, hetwelk de Nederlandsche autoriteiten overeenkomstig de voorgaande bepalingen moeten instellen, zullen zij als wettige bewijsstukken aannemen, beëedigde klachten of opgaven, of getuigeverklaringen in het Britsche Rijk afgelegd of gedaan, of afschriften daarvan, en eveneens de bevelschriften en vonnissen aldaar ter zake uitgevaardigd of gewezen, en stukken of gerechtelijke akten, waaruit blijkt van de veroordeeling, mits dezelve zijn gewaarmerkt als volgt:

"1. Een bevelschrift moet inhouden de verklaring van te zijn geteekend door een 'Judge,' 'Magistrate,' of 'Officer' van het Britsche Rijk.

"2. Klachten of verklaringen of de afschriften daarvan, moeten de verklaring inhouden van te zijn gewaarmerkt door een 'Judge,' 'Magistrate,' of 'Officer' van het Britsche Rijk, als te zijn het origineel, of in de gevallen waarin zulks noodzakelijk is, het eensluidend afschrift daarvan.

"3. Een stuk of gerechtelijke akte, constateerende de veroordeeling, moet de verklaring inhouden dat het is gewaarmerkt door een 'Judge,' 'Magistrate,' of 'Officer' van het Britsche Rijk.

"4. In ieder geval moet van zulk een bevelschrift, klacht, verklaring, afschrift, stuk, of gerechtelijke akte de echtheid worden verzekerd hetzij door een beëedigde getuigeverklaring, hetzij door het daaraan gehecht officiëel zegel van een van de 'Principal Secretaries of State,' of eenig ander 'Minister of State' van het Britsche Rijk; doch hiervoor kan in de plaats treden eenig andere wijze van waarmerking, welke op dat tijdstip geoorloofd is volgens de wet van dat gedeelte van het Nederlandsch grondgebied, waar het onderzoek plaats heeft.

"ARTIKEL XIII.

"De uitlevering zal geen plaats vinden, tenzij er voldoende bewijs bestaat, volgens de wetten

laws of the State applied to, either to justify the committal of the prisoner for trial, if the crime had been committed in the territory of the said State, or to prove that the prisoner is the identical person convicted by the Courts of the State which makes the requisition, and that the crime of which he has been convicted is one in respect of which extradition could, at the time of such conviction, have been granted by the State applied to. The fugitive criminal shall not be surrendered until the expiration of fifteen days from the date of his being committed to prison to await his surrender.

van den Staat, aan welken de uitlevering is aangevraagd, hetzij om eene verwijzing naar de openbare terechtzitting terechtvaardigen, indien het misdrijf zou zijn gepleegd binnen het grondgebied van bedoelden Staat, hetzij om de zekerheid te verschaffen dat de aangehoudene dezelfde persoon is, die door de rechtbank van den Staat, welke de aanvrage doet, veroordeeld is, en dat hat misdrijf, ter zake waarvan hij is veroordeeld, behoort tot de zoodanige waarvoor, op het tijdstip van die veroordeeling, uitlevering had kunnen worden toegestaan door den Staat, aan welken de uitlevering is aangevraagd. De voortvluchtige middadiger zal niet worden uitgeleverd, alvorens de termijn van vijftien dagen is verstreken sedert den dag dat hij in afwachting van zijne uitlevering in bewaring is gesteld.

"ARTICLE XIV.

"If the individual claimed by one of the two High Contracting Parties in pursuance of the present Treaty should be also claimed by one or several other Powers, on account of other crimes or offences committed upon their respective territories, his extradition shall be granted to that State whose demand is earliest in date.

"ARTIKEL XIV.

"Wanneer de uitlevering van een persoon, krachtens het tegenwoordig verdrag door een der Hooge Contracteerende Partijen opgeëischt, eveneens door een of meer andere Staten wordt aangevraaged, op grond van andere misdrijven op hun respectievelijk grondgebied gepleegd, zal zijne uitlevering worden toegestaan aan dien Staat, welke het eerst de aanvrage daartoe heeft gedaan.

"ARTICLE XV.

"All articles seized which were in the possession of the person to be surrendered, at the time of his apprehension, shall, if the competent authority of the State applied to for the extradition has ordered the delivery thereof, be given up when the extradition takes place, and the said delivery shall extend not merely to the stolen articles but to everything that may serve as a proof of the crime.

"ARTIKEL XV.

"Al de in beslag genomen goederen, welke zich op het oogenblik zijner aanhouding in het bezit van den uit te leveren persoon bevonden, zullen, indien de bevoegde overheid van den Staat, aan welken de uitlevering wordt aangevraagd, de overgave daarvan bevolen heeft, worden overgegeven op het oogenblik, waarop de uitlevering plaats heeft, en die overgave zal zich uitstrekken niet alleen tot de door misdrijf verkregen voorwerpen, maar tot alles wat tot bewijs van het misdrijf kan dienen.

"ARTICLE XVI.

"The respective Governments mutually renounce all claim for the repayment of expenses incurred by them in the arrest and maintenance and transport of the person to be surrendered, and all other expenses which may be incurred within the limits of their respective territories until the person to be surrendered is placed on board ship, together with the expenses of giving up and returning all seized articles and of sending and returning the papers containing proof of the crime, or other documents, and they reciprocally agree to bear all such expenses themselves.

"ARTIKEL XVI.

"De beide Regeeringen doen over en weer afstand van alle terugvordering van kosten, door haar gemaakt voor de aanhouding, gevangenhouding en het transport van den uit te leveren persoon, en van alle andere kosten, weke mochten worden gemaakt binnen de grenzen van haar respectievelijk grondgebied, totdat de uit te leveren persoon aan boord is gebracht, benevens van de kosten, veroorzaakt door het over en weer zenden van al de in beslag genomen voorwerpen en, van papieren, inhoudende het bewijs van het misdrijf, of van andere bescheiden. Zij stemmen er wederkeerig in toe al die kosten zelve te dragen.

"The above stipulations, however, shall not apply to extradition to and from Canada, as regards which Colony all the expenses shall be borne by the demanding State.

"De bovenbedoelde bepalingen zijn echter niet van toepassing bij de uitlevering naar en uit Canada. Met betrekking tot deze Kolonie zullen alle koston worden gedragen door den Staat, welke de uitlevering aanvraagt.

"The person to be extradited shall be sent to the port which the Diplomatic or Consular Agent of the demanding State shall indicate.

"De uit te leveren persoon zal worden gezonden naar de haven, welke de Diplomatieke of Consulaire Agent van den aanvragenden Staat aanwijst.

"ARTICLE XVII.

"If in any criminal matter pending in any Court or Tribunal of one of the two countries it

"ARTIKEL XVII.

"Wanneer het in een bij eenig hof of rechtbank van een der beide landen aanhangige

is thought desirable to take the evidence of any witness in the other, such evidence may be taken by the judicial authorities in accordance with the laws in force on this subject in the country where the witness may be; and any expenses incurred in taking such evidence shall be defrayed by the country in which it is taken.

strafzaak wenschelijk geoordeeld wordt een getuige in het andere land te hooren, zal zoodanig verhoor plaats hebben voor de rechterlijke overheid, overeenkomstig de wet, ten deze van kracht in het land, waar de getuige zich bevindt; en de kosten tengevolge van zoodanig vehoor gemaakt, zullen worden gedragen door het land waar dit heeft plaats gehad.

"ARTICLE XVIII.

"The stipulations of the present Treaty shall apply to the Colonies and foreign possessions of the two High Contracting Parties, but being based upon the legislation of the mother country, shall only be observed on either side so far as they may be compatible with the laws in force in those Colonies or possessions.

"The demand for the extradition of an offender who has taken refuge in a Colony or foreign possession of either Contracting Party may also be made directly to the Governor or principal functionary of that Colony or possession by the Governor or principal functionary of a Colony or possession of the other Contracting Party when the two Colonies or foreign possessions are situated in Asia, Australia (including New Zealand and Tasmania), the Pacific and Indian Oceans, or South or East Africa.

"The same rule shall be followed if the two Colonies or foreign possessions are situated in America (including the West India Islands).

"The said Governors or principal functionaries shall have the power either of granting the extradition or of referring the question to their Government.

"In all other cases, the demand for extradition shall be made through the Diplomatic channel.

"The period of provisional arrest provided for in Article X shall for the purposes of this Article be extended to sixty days.

"ARTIKEL XVIII.

"De bepalingen van het tegenwoordige verdrag zullen van toepassing zijn op de Koloniën en overzeesche bezittingen der beide Hooge Contracteerende Partijen, doch, daar zij gegrond zijn op de wetgeving van het moederland, zullen zij van weerszijden slechts worden nagekomen voor zoover zij vereenigbaar zijn met de wetten in die Koloniën of bezittingen van kracht.

"De aanvrage tot uitlevering van een misdadiger die de wijk heeft genomen naar eene Kolonie of overzeesche bezitting van een der Contracteerende Partijen, kan ook rechtstreeks worden gedaan aan den Gouverneur of ander hoofd van die Kolonie of bezitting door den Gouverneur of ander hoofd van eene Kolonie of bezitting van de andere Contracteerende Partij, wanneer de twee Koloniën of overzeesche bezittingen zijn gelegen in Azië, Australië (daaronder begrepen Nieuw-Zeeland en Tasmania) den Stillen en den Indischen Oceaan, of Zuid of Oost Afrika.

"Dezelfde regel zal worden toegepast wanneer de beide Koloniën of overzeesche bezittingen zijn gelegen in Amerika (daaronder begrepen de West-Indische Eilanden).

"De bedoelde Gouverneurs of andere hoofden zullen de bevoegdheid hebben hetzij de uitlevering toe te staan, hetzij de zaak ter beslissing over te brengen aan hunne Regeering.

"In alle andere gevallen zal de aanvrage tot uitlevering langs Diplomatieken weg geschieden.

"De termijn voor voorloopige aanhouding, vastgesteld in Artikel X, zal, voor de toepassing van dit Artikel, worden gesteld op zestig dagen.

"ARTICLE XIX.

"From the day when the present Treaty shall come into force the Treaty of Extradition between the two countries of the 19th June, 1874, shall cease to have effect; but the present Treaty shall apply to all crimes within the Treaty, whether committed before or after the day when it comes into force.

"ARTIKEL XIX.

"Te rekenen van den dag van inwerkingtreding van het tegenwoordig verdrag zal het verdrag van uitlevering tusschen de twee landen van 19 Juni, 1874, ophouden van kracht te zijn; het tegenwoordig verdrag zal echter toepasselijk zijn op alle misdrijven hierin vermeld, hetzij deze zijn gepleegd vóór, hetzij ná dan dag waarop het in werking treedt.

"ARTICLE XX.

"The present Treaty shall be ratified, and the ratifications shall be exchanged as soon as possible.

"The Treaty shall come into force three months after the exchange of the ratifications. It may be terminated by either of the High Con-

"ARTIKEL XX.

"Het tegenwoordig verdrag zal worden bekrachtigd, en de akten van bekrachtiging er van zullen zoo spoedig mogelijk worden uitgewisseld.

"Het verdrag zal in werking treden drie maanden nadat de akten van bekrachting zullen zijn uitgewisseld. Het zal te allen tijde door

tracting Parties at any time on giving to the other six months' notice of its intention to do so.

"In witness whereof the respective Plenipotentiaries have signed the same, and have affixed thereto the seal of their arms.

"Done in duplicate at London, this 26th day of September, 1898.

elke der Hooge Contracteerende Partijen kunnen worden opgezegd door aan de andere zes maanden te voren daarvan kennis tegeven.

"Ten blijke waarvan de wederzijdsche Gevolmachtigden het hebben onderteekend en van hun zegel voorzien.

"Gedaan in dubbel te Londen den 26 September, 1898.

"SALISBURY.

"SCHIMMELPENNINCK v. D. OYE."

And whereas the ratifications of the said Treaty were exchanged at London on the fourteenth day of December, one thousand eight hundred and ninety-eight.

Now, therefore, Her Majesty, by and with the advice of Her Privy Council, and in virtue of the authority committed to Her by the said recited Acts, doth order, and it is hereby ordered, that from and after the fourteenth day of March, one thousand eight hundred and ninety-nine, the said Acts shall apply in the case of the Netherlands, and of the said Treaty with the Queen of the Netherlands.

Provided always, that the operation of the said Acts, shall be and remain suspended within the Dominion of Canada so long as an Act of the Parliament of Canada passed in one thousand eight hundred and eighty-six, and entitled "An Act respecting the extradition of Fugitive Criminals," shall continue in force there, and no longer.

A. W. FitzRoy.

W. J. CUNINGHAM,

Secretary to the Government of India.

FINANCE AND COMMERCE DEPARTMENT.

NOTIFICATIONS.

SEPARATE REVENUE.

SALT.

Simla, the 5th April, 1899.

No. 1469-*S.R.*—In supersession of the Rules for regulating first appointments to the Upper Grades of the Northern India Salt Revenue Department, published by the Commissioner of Northern India Salt Revenue in Part II of the *Gazette of India*, dated the 21st February 1891, the Governor General in Council is pleased to direct that the following revised Rules be published for the information of the candidates for employment in that Department:

Rules for admission to the superior executive grades of the Northern India Salt Department.

(1) Appointments to the superior executive grades of the Northern India Salt Revenue Department will be made by competitive examination.

(2) The qualifications necessary for the acceptance of candidates are the following :

(*a*) A candidate must not be under 18 or over 25 years of age on the birthday preceding the examination at which he wishes to compete.

(*b*) He must furnish the certificate of physical fitness prescribed by Article 61 of the Civil Service Regulations and such further evidence on the subject as the Commissioner may think necessary, having regard to the work required from officers of the Salt Department and the conditions of climate under which they must serve.

(*c*) He must satisfy the Commissioner—

(1) that he is of good moral character;

(2) that he is of active habits and especially that he is able to ride; he must show that he is able to make journeys on horseback.

(3) A candidate who possesses the above qualifications may be permitted by the Commissioner to present himself for examination; but this permission is a matter entirely within the discretion of the Commissioner, and no appeal lies from his decision.

(4) Not less than three candidates will be nominated for each expected vacancy. Ordinarily not more than five will be nominated. If at any time the number of accepted candidates exceeds this, fresh nominations will not ordinarily be made till an approximation to the above proportion is effected.

(5) Vacancies will be filled up as they become available by candidates in the order of merit in which they pass.

(6) Successful candidates will be considered on probation for one year. On the expiration of this term they will be called on to undergo the Departmental Examination prescribed by the standing orders of the Department. If they pass this examination, they will be confirmed in the post of Assistant Superintendent, 2nd grade. Probationary Assistant Superintendents whose services are not approved, or who fail to pass the Departmental Examination, are liable to removal from the service.

(7) The examination of nominated candidates will be held in the following subjects:

Compulsory.

Subjects.	Marks.
(1) English Composition. In allotting marks clear and legible handwriting will be considered	200
(2) Arithmetic	150
(3) English History and Literature (Elementary)	150
(4) Indian History from beginning of 17th Century and Indian Geography	150
(5) Elementary Inorganic Chemistry	100

Optional.

Subjects.	Marks.
* One subject out of each of the following groups:	*
(6) Euclid (Books I to IV); Plane Trigonometry (Elementary); Algebra up to and including Quadratic Equations	100
(7) French; German; Latin	100
TOTAL	950

(8) No candidate who fails to obtain 400 marks in all shall be appointed, whatever his place in the examination.

(9) The Commissioner may, at his discretion, prescribe text books in any of the subjects enumerated in Rule 7.

(10) Nothing in these rules shall prevent the Commissioner from promoting subordinates of proved merit to the rank of Assistant Superintendent, subject only to their passing the Departmental Examination referred to in Rule 6.

ACCOUNTS AND FINANCE.

RATES OF EXCHANGE.

The 7th April, 1899.

No. 1487-*A*.—It is hereby notified that the rate of exchange for the adjustment of financial transactions between the British and Indian Governments for the year 1899-1900 has been fixed by the Secretary of State, with the concurrence of the Lords Commissioners of Her Majesty's Treasury, at 1*s*. 4*d*. the rupee.

* NOTE.—A candidate *may* take up one subject in either or *in* both of the optional groups; but he *need not* take up any subject mentioned in the 'Optional' list.

H. H. RISLEY,

Offg. Secretary to the Government of India.

MILITARY DEPARTMENT.

Simla, the 7th April, 1899.

MILITARY WORKS DEPARTMENT.

PROMOTIONS.

No. 389.—The following promotions are made in the Engineer Establishment of the Military Works Department, in consequence of the retirement of Colonel N. Arnott, Chief Engineer, 1st class, with effect from the 9th March 1899:

Name.	From	To	Nature of promotion, etc.
Colonel S. C. Turner, R.E.	Chief Engineer, 2nd class	Chief Engineer, 1st class	Permanent.
Colonel J. E. Broadbent, C.B., R.E.	Chief Engineer, 3rd class	Chief Engineer, 2nd class	Permanent.
Colonel J. F. Garwood, R.E.	Superintending Engineer, 1st class.	Chief Engineer, 3rd class	Permanent.
Lieutenant-Col R O. Lloyd, R.E.	Superintending Engineer, 2nd class.	Superintending Engineer, 1st class.	Permanent.
Lieutenant-Col. H.W. Duperier, R.E.	Superintending Engineer, 3rd class.	Superintending Engineer, 2nd class.	Permanent.
Lieutenant-Col. J. M. T. Badgley, R.E.	Executive Engineer, 1st grade.	Superintending Engineer, 3rd class.	Permanent.

MARINE DEPARTMENT.

LEAVE.

No. 11.—The undermentioned officer has been granted an extension of leave by the Secretary of State for India:

Commander A. J. G. Piffard, R.I.M. (p. a.), for four days.

P. J. MAITLAND, *Major-General,*
Secretary to the Government of India.

MILITARY DEPARTMENT.

NOTIFICATION.

Simla, the 7th April, 1899.

Under clause 53 of the Regulations appended to the Regimental Debts Act of 1893, it is notified that a report of the death of the undermentioned commissioned officer, on the date specified, was received in the Military Department between the 25th March and the 7th April 1899:

Corps.	Rank and name.	Date of decease.	Place of decease.	Testate or intestate.	Remarks.
1st Battalion, Hampshire Regiment.	Lieutenant-Colonel E. H. LeMarchant.	23rd March 1899	Peshawar	...	...

P. J. MAITLAND, *Major-General,*
Secretary to the Government of India.

PUBLIC WORKS DEPARTMENT.

NOTIFICATIONS.

Simla, the 6th April, 1899.

No. 140.—The services of the undermentioned State Railway Officers, are, on their return from leave, temporarily lent to the Pekin Syndicate:

Mr. H. A. F. Currie, Executive Engineer, 3rd Grade.
Lieutenant E. Barnardiston, R.E., Assistant Engineer, 1st Grade.

The 7th April, 1899.

No. 142.—Mr. C. F. Sykes, Executive Engineer, 2nd Grade, State Railways, whose services were lent to the Burma Railways Company, Limited, is, on return to Government service, appointed Deputy Consulting Engineer to the Government of India for Railways, Assam.

The 6th April, 1899.

No. 141.—The following is published for general information:

No. 581 R.E., dated Simla, the 5th April, 1899.

RESOLUTION—By the Government of India, Public Works Department.

State Railway Provident Fund.

Modification of Rules.

Read—

Public Works Department Resolution No. 09 R. E., dated 24th January 1899, publishing new rules for the State Railway Provident Fund.

RESOLUTION.—The Governor General in Council is pleased to rule that the option offered to certain subscribers under rules I and II (*a*) of the rules referred to in the preamble, of having their Provident Fund accounts kept in sterling or in rupees, is applicable only to European and Eurasian subscribers who may reasonably expect, on retirement, to live in Europe, America or the Colonies.

2. This intention was expressed in the first clause of the Resolution quoted in the preamble, but was not made clear in the rules which followed.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Governments of Madras, Bombay and Burma, Public Works Department, Railway Branch; the Chief Commissioner of Assam; the Resident at Hyderabad; the Consulting Engineers to the Government of India for Railways, Calcutta, Lucknow and Assam, and the Managers, North Western, Oudh and Rohilkhand, East Coast and Eastern Bengal State Railways for information and guidance.

ORDERED also, that a copy be forwarded to the Accountant General, Public Works Department, for information, and that it be published in the *Gazette of India*.

F. R. UPCOTT,
Secretary to the Government of India.

The 1st April, 1899.

No. 136.—The services of Major H. G. C. Swayne, R.E., Executive Engineer, 2nd Grade, Bengal, are replaced at the disposal of the Military Department.

The 4th April, 1899.

No. 137.—With reference to Public Works Department Notification, No. 107, dated the 15th March 1899, Mr. F. C. Murray, Executive Engineer, 1st Grade, Punjab, is appointed to officiate as a Superintending Engineer, with effect from the afternoon of 11th March 1899, during the absence on deputation of Brevet Colonel J. W. Thurburn, R.E., or until further orders.

No. 138.—Colonel R. R. Pulford, C.I.E., R.E., Superintending Engineer, 1st Class, North-Western Provinces and Oudh, is temporarily transferred to Assam and appointed to officiate as Chief Engineer and Secretary to the Chief Commissioner in the Public Works Department, during the absence of Mr. W. H. Nightingale, on furlough, or until further orders.

While so officiating Colonel Pulford will hold the temporary rank of Chief Engineer, 3rd Class.

No. 139.—Mr. G. K. Watts, Executive Engineer, 1st Grade, Assam, is temporarily transferred to the North-Western Provinces and Oudh and appointed to officiate as a Superintending Engineer with temporary rank in the 3rd Class, *vice* Colonel R. R. Pulford, C.I.E., R.E., or until further orders.

T. HIGHAM,

Joint Secretary to the Government of India.

SUPPLEMENT TO

The Gazette of India.

No. 14.]   SIMLA, SATURDAY, APRIL 8, 1899.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on Saturday, April 1st, 1899.

The anti-cyclonic conditions of pressure and the fine weather which prevailed over India during last week have not held during the week under review. Pressure has been steadily low over Northern India, and slight depressions or storms have appeared in the north-west and north-east, so that in both these regions the weather has been disturbed and thunderstorms have occasioned both hail and rain. Of these storms the most severe was apparently that which visited Cachar on the evening of the 29th. Over the central parts of the country and the Peninsula pressure has been more uniform and steadier than over Northern India, but in these localities passing thunderstorms have occasioned light scattered showers. The temperature has been unsteady and has changed considerably during the week. In the early days of the week the heat was very excessive over North-West India and more or less excessive in nearly all parts of India except the south of the Peninsula. As the week advanced, however, and as showers of rain and hail fell disturbing the temperature conditions, the distribution of temperature relatively to the normal became much less regular, and the variations from the normal became smaller.

Daily Summary.—*Sunday, March 26th.*—The barometer had generally changed slightly. Pressure was low over the Western desert, over the Gangetic Plain and over Upper Burma, while it was high over the south-west of the Peninsula. The winds were southerly on the Bay Coasts, easterly along the foot of the Himalayas and variable elsewhere. At the head of the Bay the wind was strong to a gale, but elsewhere the force was low. The sky was slightly clouded over parts of North-West and of North-East India and of the

Peninsula, but was clear elsewhere, and the only rain reported was a light shower at Jalpaiguri. The heat was excessive except in parts of the Peninsula and of Tenasserim, the excess averaging 10° in Rajputana, 7·8° in the Punjab and over 5° in Bihar, Chota Nagpur, the North-West Provinces, Sind, Central India and Berar.

Monday, March 27th.—The barometer had been steady over North Bombay, but had fallen elsewhere, the change having been rapid over Bengal, etc. Pressure was low over Northern India generally, with a small central area of depression over West Bengal. The wind directions were about the average, except along the foot of the Himalayas, where easterly breezes were reported. The weather had cleared over the Peninsula, but had become more cloudy over both North-East and North-West India. Thunderstorms giving hail and rain had occurred over Assam; a snowstorm was reported from Minimarg and showers from Baluchistan. Elsewhere the weather had been fine. The mean temperature had fallen to below the normal over parts of Assam and Bengal, but elsewhere the distribution was generally the same as that on the preceding day, except that the excess in the north-west was less intense.

Tuesday, March 28th.—The barometer had fallen briskly to rapidly over the West Punjab, but was practically unchanged elsewhere. Pressure remained low over Northern India generally, and the only important change in the distribution was the appearance of a fresh depression over the West Punjab. The winds were variable between south and east over the Punjab, but elsewhere the directions were unaltered. At the head of the Bay the force remained strong to a gale. The sky was very cloudy over North-East India and part of the North-West Himalayas, but was clear or nearly so elsewhere. A little further snow had fallen on the Kashmir Himalayas, light rain at Peshawar, Bijapur, Colombo and in Baluchistan and Tenasserim, and moderate rain in parts of North-East India. The rainfall in the north-east had been accompanied with cooler weather than usual, the mean temperature having been from 1° to 4° below the normal in that region, but in nearly all other parts of India the heat was excessive, the excess being greatest and between 10° and 12° in the North Punjab.

Wednesday, March 29th.—Pressure had given way over part of North-East India, but had risen elsewhere—more particularly in the West Punjab. The depression noticed in that region on the 28th had moved northward and was disappearing over the North-West Himalayas. In other respects there was not much change. The winds remained variable over the Punjab, southerly on the coasts of the Bay and westerly to north-westerly over Rajputana, Central India and the Gangetic Plain. In the north of the Bay the force was still fresh to strong. Slight cloud was reported over a considerable part of the country and showers varying in amount from one cent to one-and-a-half inch had fallen over Assam, Kashmir, Baluchistan and at the stations of Barisal, Darjeeling, Cherat, Colombo, Belgaum, Bijapur and Tinnevelly. The heat was less than usual over Assam and North Bombay, but elsewhere the mean temperature was excessive, the excess averaging over 5° in the Punjab and over 6° in Chota Nagpur.

Thursday, March 30th.—The barometer had risen everywhere, but more particularly in the north-west and north-east. Pressure was relatively low in Central Burma and in Bihar, but the pressure differences were small. The winds were northerly over North-West India, westerly down the Gangetic Valley and southerly on the Bay Coasts. The force remained strong at the head of the Bay. There was a good deal of cloud reported, and thunderstorms had occasioned showers at a few stations in Assam, the North-West Himalayas and the Peninsula. In Assam the storms were severe and the rain and hail heavy and destructive. The mean temperature remained low in Assam and in North Bombay, but elsewhere the heat was greater than usual, though in most provinces temperature had given way since the previous day.

Friday, March 31st.—The barometer had risen slightly in most places, and pressure was generally fairly uniform, though pressure was slightly lower in Bengal, Sind, the West Coast and Burma than elsewhere. The winds were practically unchanged. The sky was cloudy over Bengal and parts of the Central Provinces and of the Peninsula. Light scattered showers were reported

from a few places in the Peninsula and the Central Provinces. The temperature had continued to fall. The variations of the mean temperature from the normal were irregular, the heat being greater in some and less in other districts, than the average.

Saturday, April 1st.—The barometer had fallen fast over Assam and Upper Burma, but there had been no other change of importance. The winds were also unchanged. The sky was slightly clouded except in the north-west, and showers were again reported from Assam, Bengal, Tenasserim, the Central Provinces and the south of the Peninsula. Temperature had begun to rise in the north-west, but was still falling elsewhere. The temperature variations were irregular, but a wave of heat was apparently entering India from the north-west.

Temperature.—The principal feature in the temperature conditions of the past week has been the great excess of temperature over the north-west and centre during the first three days of the week. After the 28th the excess of temperature became less general and less intense, but on the whole the weather remained hot throughout the week.

The following table gives mean temperature variation data for the week:

PROVINCE.	MARCH 1899.						APRIL 1899.	Mean variation of week.
	26th	27th	28th	29th	30th	31st	1st	
	°	°	°	°	°	°	°	°

Gujarat	+1·8	+0·7	+1·4	—1·8	—2·3	—3·3	—1·3	—0·7
Central India	+5·0	+5·6	+5·4	+2·4	+0·9	+1·1	+1·4	+3·1
Central Provinces	+4·7	+5·2	+4·7	+3·4	+3·1	+2·5	+1·0	+3·5
Berar	+5·4	+5·5	+4·8	+4·2	+3·9	—0·2	—0·9	+3·2
West Coast	+1·1	+1·0	+1·3	+1·0	+0·7	—0·1	—0·7	+0·6
Bombay Deccan	+2·0	+3·1	+2·4	+2·6	+1·1	—0·5	—1·1	+1·4
Mysore	+0·7	—0·2	+2·5	+2·5	+0·7	—1·1	—0·6	+0·6
Madras Coast	+0·3	+0·3	+1·5	+1·6	+1·1	—0·1	+0·2	+0·7
Madras Deccan	—0·3	—0·7	+1·7	+2·8	+0·8	—2·1	—2·6	—0·1
South India	—0·4	+1·0	+1·3	+1·8	+1·3	+0·6	—1·2	+0·6
Mean for whole of India	+3·6	+3·1	+2·9	+2·0	+1·4	+0·7	+0·2	+2·0

On each day of the week the mean temperature of the whole country exceeded the normal, the amount of the excess varying from 3·6° on the 26th March to only 0·2° on the 1st April. The provincial variations show that the weather during the week was hotter than usual in all provinces except Gujarat and the Madras Deccan. In the case of Chota Nagpur, the Punjab and Rajputana the excess averaged over 4°.

The following were the highest maxima recorded on each day:

March 26th	108·2°	at	Akola.
„ 27th	108·6°	„	Do.
„ 28th	108·2°	„	Chanda.
„ 29th	107·7°	„	Do.
„ 30th	108·0°	„	Chaibassa.
„ 31st	106·1°	„	Minbu.
April 1st	105·4°	„	Cuttack.

Rain.—As previously mentioned the weather has been considerably more disturbed over India than was the case last week, a series of fairly general thunderstorms having given rain and hail to the north-east districts of India and scattered thunderstorms having given partial rain to the Peninsula, the Central Provinces, and some north-western stations. The thunderstorms in the north-east were associated with a low pressure area which first appeared over West Bengal and subsequently was transferred to North Bengal. This low pressure area was accompanied with strong southerly winds at the head of the Bay which probably poured large quantities of vapour into Bengal and Assam. The scattered thunderstorms over the Peninsula were associated with a shallow low pressure area over the Deccan districts. The rainfall returns for the week show that rain was received in Assam, mainly between the 27th and 30th of March; in East Bengal, between the 28th and 30th, and in other parts of Bengal between the 26th and 28th, while in the Peninsula the showers, which were in all cases light, were scattered throughout the week.

The table at the close of the summary shows that the average actual rainfall for the week was one-tenth of an inch or more in fourteen of the rainfall divisions, *viz.*, all three Assam divisions, the East, Deltaic, Central, North and hills divisions of Bengal, Malabar, South-Central Madras, Coorg, the Bombay Deccan, the Baluchistan hills, and South Madras, while fifteen more divisions received some rain during the week, though in each case the average fall was less than 0·10 inch. The storms were most severe and the rainfall heaviest in Assam and North Bengal. In the case of the Assam hills the average amounted to 8·19 inches, in the Cachar Valley to 5·40 inches, and in the Assam Valley to 2·57 inches, while in North Bengal the average was 2·05 inches and in the Bengal hills 1·80 inches. The thunderstorms in the Cachar and Sylhet districts on the 28th and 30th of March and in North Bengal on the 27th and 28th were severe and the rain and hail, in some places, very heavy.

The third column of the rainfall table shows that the actual average rainfall was in excess of the normal in the Cachar Valley (+2·29 inches), in the Assam hills (+6·60 inches), in the Assam Valley (+1·09 inches), in North Bengal (+1·50 inches), in the Bengal hills (+0·94 inch), in Malabar (+0·32 inch), in the Bombay Deccan (+ 0·16 inch), in Berar (+ 0·02 inch), and in the south of the East Coast (+0·03 inch), but that in all the remaining divisions the fall was short of the normal. In most cases the deficiencies were small and unimportant, but in East Bengal and parts of the Punjab the differences were moderate.

The principal totals at individual stations for the week under review were as follows:

East Bengal	Barisal	1·94 inches.
Assam	South Sylhet	7·45 "
	Barkhola	10·00 "
	Cherrapoonjee	42·82 "
	Sadiya	4·81 "
Bengal	Faridpur	2·85 "
	Alipur	6·58 "
	Darjeeling	2·19 "
Malabar	Trichur	2·20 "
	Trivandrum	1·14 "
Deccan	Chikode	1·62 "
	Badami	1·50 "

The three concluding columns of the table show some improvement in the condition of the season rainfall in Assam and Bengal as well as in the Deccan districts, but over the greater part of the country the total fall of rain from February 26th to the 1st of April is still very largely short of the normal.

PROVINCE.	DIVISION.	Rainfall data for week ending April 1st, 1899.			Rainfall data from February 26th to April 1st, 1899.

W. L. DALLAS,
Asst. Meteorological Reporter to the Government of India.

SIMLA, *6th April, 1899.*

T. W. HOLDERNESS,
Secretary to the Government of India.

B

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 1st April.*—A few scattered showers fell in parts of the Circars and the Deccan, but more rain fell in the Southern districts and on the West Coast. The water-supply is normal for the season. Some sowings under irrigation continue. The standing crops are in good condition. The harvest continues in parts, yielding almost a normal outturn. Pasture has dried up, but fodder is sufficient. Cattle are in normal condition. Prices are almost stationary.

Bombay.—*For week ending 5th April.*—Slight rain fell in parts of the Deccan and the Karnatak and in one taluka of Ratnagiri during the week. Reaping of late crops is progressing in eleven and preparations for next season in fifteen districts. Cotton-picking continues in parts of Guzerat and the Karnatak. Fodder is sufficient, except in parts of Karachi. Agricultural stock is healthy. Prices have risen in one and fallen in seven districts; elsewhere they are stationary.

Bengal.—*For week ending 3rd April.*—There was rain during the week in all the districts of Bengal Proper, except those of the Burdwan division; while showers are also reported from the Patna, Champaran, Muzaffarpur, and Balasore districts. The rain has been very beneficial, but in parts of the Burdwan division and in the 24-Parganas district more is wanted for ploughing and early sowings and also for spring rice and other crops now in the ground. In Orissa the spring rice is coming into ear. The harvesting and threshing of the spring crops are still proceeding and sugarcane is being planted out in the Bhagalpur and Chota Nagpur divisions. The prospects of the *mahuá* (*Bassia latifolia*) crôp, which is being gathered, are favourable. The fodder-supply is sufficient, except in places in Midnapore and the Sonthal Parganas. Prices continue almost stationary.

North-Western Provinces and Oudh.—*For week ending 5th April.*—Seasonable weather prevailed during the week. Harvesting and threshing of spring crops continue. Sowing and irrigation of extra crops and planting of sugarcane are also in progress. Extraction of opium has been completed in some places and continues in others. Prospects are favourable. Markets are well-stocked; supplies and fodder are sufficient; and prices are stationary to falling.

Punjab.—*For week ending 5th April.*—There was slight rain in parts of the Rawalpindi district only. Harvesting of spring crops has commenced. Sowings of extra spring crops and of certain autumn crops continue. The condition and prospects of the standing spring crops are average on irrigated and below average or poor on unirrigated areas. The yield is also expected to be below average generally. The poppy crop is poor in Lahore. Water is said to

be deficient in Hissar. The standing crops are being damaged by insects in parts of the Ferozepore and Multan districts. Cattle are in fair condition in all districts, except Delhi. Fodder is scarce in Delhi, Umballa, Lahore, Shahpur and Dera Ismail Khan, and sufficient elsewhere. Prices, especially of wheat, are falling generally; they are unchanged only in the Umballa and Multan districts. Wheat is selling from 16½ to 21, gram 20 to 23, barley 32, bulrush-millet 19 to 24½, maize 28 to 38, great millet 20, and rice 13 to 14 seers per rupee.

Central Provinces.—*For week ending 4th April.*—The weather is hot and occasionally cloudy. Thunderstorms have given light rain in thirteen districts. The reaping of spring crops is almost completed and threshing is in progress. The planting of sugarcane continues in Bhandara and Sambalpur. There is still a little demand for labour in parts of Damoh, and village relief has been extended somewhat in the Kurai tahsil of Saugor. The water-supply is becoming scanty in some villages of the Mandla, Betul, Wardha, and Chindwara districts. Fodder is reported insufficient in parts of Seoni, Nagpur, and Sambalpur. The price of wheat, gram, rice, and *juar* has fallen in some districts and there is a slight rise in other districts, but the general range of prices is low. The cheapest prices are—wheat 21, gram 32, rice 22, and *juar* 29 seers per rupee. The dearest prices are—wheat 12½, gram 18, rice 10, and *juar* 21 seers per rupee.

Burma.—*For week ending 1st April.*—In Upper Burma plucking of cotton is being completed in Thayetmyo and reaping of miscellaneous crops is progressing favourably everywhere. Dry weather paddy and other standing crops are in healthy condition. The price of paddy has risen in Pegu and fallen slightly in Thongwa, Amherst, Pakôkku, and Myingyan; no changes elsewhere.

Assam.—*For week ending 4th April.*—A violent hurricane with heavy hail is reported from Cachar on the 29th March and heavy rain from Sylhet. Rain in most districts has facilitated cultivation. The hailstorm caused some damage to tea in South Sylhet and to tea, vegetables, and fruits in Lakhimpur. Ploughing for and sowing of early and late broadcast rice continue. Gathering of pulses is finished and the outturn is good. Plucking of tea is in progress. Prospects are good. Pressing of sugarcane is nearly finished and the outturn is generally good. Ploughing for and sowing of jute continue in Goalpara and Sylhet. Water is insufficient in parts of Nowgong. Prices of common rice—Sylhet 19; Silchar, Dhubri, Gauhati, Tezpur, and Nowgong 16; Sibsagar 12; and Dibrugarh 14 seers per rupee.

Mysore and Coorg.—*For week ending 5th April.*—MYSORE: Slight rain fell in parts of the Kolar district. The standing crops are in good condition. Prices have slightly risen in Kadur and fallen in Kolar and Chitaldroog districts. *Ragi* (*Eleusine coracana*) has been harvested in parts of the Mysore district.

COORG: Rainfall 77 cents. Seasonable rain for coffee blossom has fallen generally. Prices of food-grains are stationary. Water and fodder for cattle are sufficient.

Berar and Hyderabad.—*For week ending 5th April.*—BERAR: The weather is warm and cloudy. Breaking up of land for the ensuing monsoon crop is in progress. Fodder is insufficient in parts of two districts. Scarcity of water prevails in parts of the Province. Prices are almost steady.

HYDERABAD: Rainfall during the week 3 cents. The spring harvest is still progressing. The standing winter rice crops are in fair condition. Prices of grain continue to fall. Prices—wheat 9¾, coarse rice 10⅜, and *jowari* 24¼ seers per current sicca rupee.

Central India.—*For week ending 5th April.*—No rain fell in Central India during the week. Agricultural operations are nearly completed in Bhopawar and are in progress elsewhere. The crops are in fairly good condition. Agricultural stock and pasturage are in good condition. Prices continue above normal in Bundelkhand and normal in other Agencies. The condition of the opium crop is fair in Malwa and good in Gwalior and Bhopal. The collection of opium is finished in Bhopawar.

Rajputana.—*For week ending 5th April.*—Agricultural operations are progressing satisfactorily, except in Merwara and the hilly tract of Kherwara in Meywar territory. The state of the crops is generally good, except in Ajmere-Merwara, where it is fair. The harvesting of crops continues; the average estimated spring outturn in Ajmere is 11½ annas and in Merwara 6 annas. Cattle are in poor condition in Marwar, Haraoti, and Ajmere; elsewhere they are in good condition. A scarcity of fodder prevails in the States reported last week. Prices are rising in Jhallawar; falling in Meywar; and are steady elsewhere. Thirty-two persons emigrated during the week from the distressed Merwara villages. The total emigration from Merwara up to date numbers 4,335. The numbers employed on relief works were—355 in Ajmere, 4,220 in Merwara, and 969 in Marwar. Prices—Ajmere 19¾, Beawar 21, and Marwar 15 seers per rupee.

Kashmir.—*For week ending 4th April.*—The weather is fine. Prices continue below normal. Rice—27 seers per rupee.

JAMMU PROVINCE.—*For week ending 5th April.*—Slight rain fell during the week. Prices are falling slightly. Wheat is selling at 18 and maize at 25 seers per rupee. The condition of the standing crops is fair. Fodder is scarce.

Nepal.—*For week ending 1st April.*—Rainfall 0·24 inch. Weather hazy and windy. The wheat crop is doing well. Rice—9 seers per rupee.

T. W. HOLDERNESS,
Secretary to the Government of India.

DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 6th April 1899.

NOTIFICATIONS.

No. 1136 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, during the week ending 1st April 1899:—

No. 108 of 1899.—Kovata Surya Narayan Row, amateur machinist, of Guntur. *A noiseless automatic punkah-puller.*

No. 109 of 1899.—Carl Herold and Richard Richards, manufacturers, both of Zeile 44, Brünn, Moravia, Austria. *Improvements in circular looms.*

No. 110 of 1899.—Jacques Schiesser, manufacturer, residing at Radolfzell, on the lake of Constance, in the empire of Germany. *Improvements in or relating to the manufacture of knitted lining fabrics.*

No. 111 of 1899.—Bertram Charles Elliot, gentleman, of 95 King's road, Chelsea, in the county of Middlesex, England. *Improvements in or relating to apparatus for regulating the speed of marine or other engines.*

No. 112 of 1899.—Charles Kossuth Pickles, draughtsman, of the city of St. Louis, in the State of Missouri, U. S. A., and the United States Metallic Packing company, limited, of Soho works, Thornton road, Bradford, in the county of York, England. *Improvements in and in connection with pneumatic chipping hammers.*

No. 113 of 1899.—James Bett, tea planter, of Beechwood Strathtay, Perthshire, Scotland. *A new and improved method of drying tea and other products.*

No. 1137 P.—SPECIFICATION of the undermentioned invention has been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the department of land-records and agriculture, North-Western Provinces and Oudh. This and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

No. 472 of 1898.—Shamrao Babaji Powar, merchant, residing at Esplanade Cross road, Bombay. *An improved apparatus to assist the sense of hearing.* (Specification filed 24 March 1899.)

No. 1138 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

No. 22 of 1889.—The Honourable Erastus Wiman. *Improvements relating to the pulverisation or reduction of mineral or other substances and to apparatus therefor.* (From 1 April 1899 to 1 April 1900.)

No. 24 of 1895.—Francis Harley Davis. *Improvements in core boring apparatus and in the mode of gripping and raising cores therewith.* (From 3 April 1899 to 3 April 1900.)

No. 1129 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888 the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (*2*), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India and of authorizing others so to do has ceased :—

No. 21 of 1894.—The "Mail" Horse Shoe Syndicate (Foreign Patents) Limited. *Improvements in shoes for horses or other hoofed animals.* (Specification filed 28 December 1894.)

No. 22 of 1894.—The "Mail" Horse Shoe Syndicate (Foreign Patents) Limited. *Improvements in shoes for horses or other hoofed animals.* (Specification filed 28 December 1894.)

No. 73 of 1894.—Edmund Alfred Mitchell. *A fast khaki dye.* (Specification filed 28 December 1894.)

No. 124 of 1894.—Henry Fitzgerald Beale. *A new form of bit and bridle both for riding and driving.* (Specification filed 28 December 1894.)

Fee in respect of the continuance of an exclusive privilege—

4 (*a*) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of R50 for each of the above inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1895) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,
Offg. Secy. under the Inventions and Designs Act, 1888.

The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

P. J. GORMAN,

Offg. Presidency Postmaster, Calcutta.

CIVIL ENGINEERING COLLEGE, SIBPUR.

Agricultural Department.

UPPER CLASS.

Session 1899-1900.

The session of the Agricultural Department of the Civil Engineering College, Sibpur, will open on Monday, the 5th June.

Candidates for admission should apply to the Principal before the 15th April, 1899.

For admission to the Upper Agricultural class an applicant must have one of the following qualifications :—

(*i*) He must have passed the F. E. Examination of the Calcutta University, and be under 23 years of age.

(*ii*) He must have passed the B. A. Examination of the Calcutta University by the B. Course or possess other sufficient educational qualifications, be under 23 years of age, and, in addition, have received a nomination from the Bengal Government.

(*iii*) He must have had a general education qualifying him to follow the instruction in the Upper Agricultural Class, and must also receive a nomination from Government for admission as a special student. To be eligible for a nomination under this rule, a candidate must either have landed property of his own, or be recommended by some influential landholder who desires to train him to take part in the management of his estate, or he must otherwise satisfy Government that he intends to make practical use of his agricultural training. Students entering under this rule will be termed special agricultural students. They will not be subject to any maximum limit of age, but will not be entitled to the privileges conferred on passed students under Rules 11 and 12, even though they should obtain fully signed diplomas in due course after passing the necessary examinations.

Applications for admission must be in the prescribed form, copies of which may be had from the principal.

Rules 11 and 12 referred to are as follows :—

(11) Two appointments annually are assigned to students holding a fully signed diploma—one in the Provincial Executive Service and one in the Subordinate Executive Service. The right of selection for these appointments will rest with Government, and the students who gained the highest marks at the examination for diplomas will not necessarily be selected.

(12) Holders of fully signed agricultural diplomas who do not get the guaranteed appointments referred to in Rule 11, but who wish to compete for the examination for admission to the Provincial, Subordinate Executive and Opium Services, may submit their names through the Principal to Government for nominations. These applications for nominations will be considered, provided the applicants appear to His Honor the Lieutenant-Governor to be otherwise suitable for admission to these services.

LOWER CLASS.

The lower course of study will be open to students of the Sibpur College who have completed their second year in the apprentice department and to teachers sent from Training Schools with the sanction of the Director of Public Instruction, Bengal.

Further particulars will be supplied on application to the Principal.

A. MACDONELL,

Offg. Principal, Civil Engineering College.

SIBPUR,

The 16th March 1899.

CIVIL ENGINEERING COLLEGE, SIBPUR.

SESSION 1899-1900.

Candidates for admission to the Engineer Department should apply to the Principal before the 15th May, 1899. Each application must be accompanied by a Registration fee of R1. The session begins on Monday, the 5th June, 1899.

Candidates must furnish proof that they have passed one of the following tests :—

(1) The F. A. Examination of the Calcutta University, or a similar standard of any Indian University recognised by the Calcutta University. The candidate's age must be under 21 years.

(2) The B.A. Examination in the B. Course in Physics and Chemistry. The candidate's age must be under 23 years. (These students are admitted direct into the second year class.)

The maximum number to be admitted each year is limited to 40. The position in the University Examinations and the age of the candidates will be taken into consideration when selection is made, and such selection will be made by the Principal.

The tuition fee for students of the Engineer class is R10 a month for each month of the year, vacation included.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior or senior scholarships. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour and eyesight.

Further particulars will be supplied on application to the Principal.

A. MACDONELL,
Offg. Principal, Civil Engineering College.

SIBPUR,
The 4th April, 1899.

CIVIL ENGINEERING COLLEGE, SIBPUR.

APPRENTICE DEPARTMENT.

The date for admission to this Department is 5th June, 1899. Candidates must be at least 15 and not more than 17 years of age.

They must have passed standard VII of the Code for European Schools or the University Entrance Examination. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard so as to reach the Principal not later than the 6th May, 1899, together with a Registration fee of R1. No application will be attended to after this date.

The maximum number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in June. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding R10. No apprentice will be admitted or re-admitted to the College after the close of the month of June, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

There will be no vacancy on the free list for Christian Apprentices in June next, but there will be seven on the reduced* fee list. For natives there will be at least eleven vacancies, possibly more, on the reduced† fee list.

With the exception of students on the Free and Reduced Fee lists, all apprentices will pay a tuition fee of R3 a month for each month of the year.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can, therefore, be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

* R5 per mensem.
† R2 per mensem.

A. MACDONELL,
Offg. Principal, Civil Engineering College.

SIBPUR;
The 4th April, 1899.

NOTICE.

A British Indian subject named Troutas Pirzade having died at Paoule in the District of Samarkand in Russian territory in the year 1893, leaving an estate amounting to 704 roubles 20 copeks, the legal heir of the deceased, if any, is hereby invited to send in his name and address to the undersigned.

A. H. L. FRASER,
Offg. Secretary to the Government of India in the Home Department.

PUBLIC WORKS DEPARTMENT.

NOTIFICATION.

Simla, the 20th September, 1893.

A Registry Office for men of all grades out of employ is kept up by the Principal, Thomason College, Roorkee. Officers requiring men are requested to apply to Principal.

J. CLIBBORN, *Major, I.S.C.,*
Principal, Thomason College.

NOTICE.

It is notified, for information of Military and Civil officers, that services of Shams-ul-Ulama, Shaikh Mahmud Gilani, Persian Instructor, and Mr. R. F. Azoo, Arabic Instructor, have been specially retained by Government for giving instruction to candidates intending to present themselves for examinations in Arabic and Persian before the Board of Examiners. Gentlemen requiring their tuition should communicate with them at the office of the Board of Examiners.

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1898, the price of this Quinine will be as follows:—

1-pound tin,	R17,	or,	post-free,	R17-12.
½	,,	R8-8,	,,	R9-0.
¼	,,	R4-4,	,,	R4-12.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৮৯৮ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য লইবে, যথা—

১ এক পৌণ্ড টিন		১৭, বা ডাকমাশুল বিনা		১৭৸০
½ আধ ,,	,,	৮৷০	,,	৯৲
¼ শিকি ,,	,,	৪৷০	,,	৪৸০

পরিক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে, এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনা-ডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারে।

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT EMPLOYMENT ONLY.

It is advised that letters containing remittances be registered.

N.B.—The Revised Prices herein entered cover the cost of packing, postage, and other incidental charges (except commission for Value-payable supplies), and are for all purchasers other than resident College Students.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal Octavo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required:—

VOLUME I.*

Section	I.	Building Materials,	R2-6.
,,	II.	Masonry,	R1-4.
,,	III.	Carpentry, (1889),	R1-4.
,,	IV.	Earthwork (1892),	R1-4.
,,	V.	Tools and Plant (never published).	

VOLUME II.*

Section	VI.	Buildings. (In the Press.)	
,,	VII.	Bridges,	R4-4.
,,	VIII.	Roads,	R1-8.
,,	IX.	Railways (1891),	R1-4.
,,	X.	Irrigation Works. (Under revision.)	

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol. I. Direct and Transverse Strain, principally by Analytical Methods. R7

,, II. The Stability of Structures, mostly by Graphic Methods (in the Press).

MANUALS.

VII. **Surveying** (by Major Firebrace, R.E.) (6th edition, with Curve Table). R3.

XIII. **Drawing** (by Lieut. R. Pulford, R.E.). † R8.

XIIIa. **Drawing, First Principles of Geometrical** (by do.) (4th edition). R1-4.

XIV. **Simple Applied Mechanics, Parts I and II in one** (in the Press).

Simple Applied Mechanics, Part II (1st edition). 8a.

XV. **Examples of Estimating.** Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition). R3-12.

XVI. **Earthwork Estimating,** with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. Say R1.

XVII. **Specimens of Printing** used in the College Drawing Course and Entrance Examinations. 6a.

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting Section X, is the course for the Upper Subordinate Class. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

Principal, Thomason Civil Engineering College, Roorkee

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete Series, *including postage* . . . R22-8

	Without postage.	With postage.
	R a. p.	R a. p.
For the Calcutta Series	10 0 0	12 8 0
„ each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
„ a part of the Calcutta Series purchased separately, *inclusive of postage in India*	...	2 0 0
„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately, *inclusive of postage in India*	...	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For mofussil.
	R a. p.	R a. p.
For the Calcutta Series; per copy . . .	0 8 9	0 10 0
„ each of the Madras, Bombay, and Allahabad Series; per copy	0 5 3	0 5 9
„ the Calcutta Series. For the year . .	7 2 6	8 6 3
„ each of the Madras, Bombay, and Allahabad Series. For the year . . .	4 4 6	4 11 0

Persons desiring to subscribe for, or purchase, the Report, should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
The Curator of Government Books, North-Western Provinces and Oudh.

The Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper, of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	*Half page.*	*Quarter page.*
For one issue	R 20	R 14	R 9
„ three issues	„ 55	„ 36	„ 24
„ six „	„ 100	„ 68	„ 45
„ nine „	„ 145	„ 96	„ 64
„ twelve „	„ 180	„ 120	„ 80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage.	With postage.
	R a. p.	R a. p.
Bengal Law Reports, for one year . .	20 0 0	22 8 0
Single copies, R2 per copy.		
Full Bench Rulings, Parts I and II . .	20 0 0	22 8 3

Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.
Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depôt.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

BOOKS AND PUBLICATIONS

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 13th April, 1899.

NOTIFICATIONS.

No. 1171 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, during the week ending 8th April 1899:—

No. 114 of 1899.—Muthulakkan Achary, son of Mahalingam Achary, goldsmith, residing at North Car street, Dindigul, Madura district, Madras presidency. *A water lift, to be called "sankaran water lift."*

No. 115 of 1899.—Charles Martin Samuel Rooke, sub-engineer, P. W. D., at present residing at 4½ Esplanade road, Calcutta. *An apparatus for heating water or other liquids and of utilising the heat of night lamps, etc.*

No. 116 of 1899.—Reginald Belfield, electrician, of 32 Victoria street, in the city of Westminster, England. *Improvements in systems of electrical distribution.*

No. 117 of 1899.—James Major, mechanical engineer, and Thomas James Wood, manufacturer, both of Eccles, in the county of Lancaster, England. *Improvements in dyeing, bleaching, or otherwise treating with liquids cops of yarn, and in apparatus therefor.*

No. 118 of 1899.—Willard Noyes Packer, machinist, of 34 Barbara street, Cleveland, county of Cuyahoga, state of Ohio, U. S. A. *A machine for defibrating fibrous plants.*

No. 119 of 1899.—Handel Beech, engineer, of Oldham, in the county of Lancaster, England. *Improvements in apparatus for automatically causing a flow of water or other fluid by the fusion of a suitable joint or connection for fire extinguishing and like purposes.*

No. 120 of 1899.—Harry Phillips Davis, electrical engineer, of 327 Neville street, Pittsburg, and Frank Conrad, electrical engineer, of 709 Whitney avenue, Wilkinsburg, both in the county of Allegheny, state of Pennsylvania, U. S. A. *Improvements in electric motors and meters adopted for use with alternating currents.*

No. 121 of 1899.—J. Douglas Walker, lieutenant, the Black Watch, Sitapur. *An improved apparatus for night signalling in the army and navy.*

No. 122 of 1899.—Joseph Charles Gelly, engineer, of 97 rue Saint-Lazare, Paris. *Hydraulic rams.*

No. 123 of 1899.—W. A. Stuart William, C. E., executive engineer, P. W. D., Sirmoor state, Nahan, Punjab. *A wooden mill for extracting the juice from sugar-cane, with appliances for splitting and dressing the cane, to be styled the "Jat."*

No. 124 of 1899.—Curling's Tannery, limited, tanners, of 53 Parliament street, in the county of London. *An improved process for tanning hides and skins, and apparatus for use therein.*

No. 1172 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's

office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 61 of 1898.—Ganesh Mahadev Janorikar, teacher, Free General Assembly's Institution, Bombay. *Janorikar's universal big types.* (Specification filed 24 March 1899.)

No. 330 of 1898.—Mark Anthony Heath, mechanic, of 504 Pine street, in the city and county of Providence and state of Rhode Island, U. S. A. *Improvements in metallic bale coverings adapted to be used as casings for packages of cotton or fibrous material or other such merchandise.* (Specification filed 28 March 1899.)

No. 387 of 1898.—Paluru Sankaranarayana, M.A., tutor to the raja of Pithapuram, Godavari district, Madras presidency. *An improved case or box.* (Specification filed 29 March 1899.)

No. 1173 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 179 of 1891.—Francis Edward Elmore. *Improvements in mandrils for electrolytically deposited tubes.* (From 19 April 1899 to 19 April 1900.)

No. 105 of 1892.—Saiyid Amir Ali. *Improvements and alterations in the "Husaini coffee peeler."* (From 30 March 1899 to 30 March 1900.)

No. 34 of 1894.—Edmund Charrington. *Improvements in rollers for reciprocating rods such as those which work railway points or signals and the like.* (From 13 April 1899 to 13 April 1900.)

No. 71 of 1894.—Peter Black. *Improvements in apparatus for moving and locking railway points and safety bars.* (From 7 May 1899 to 7 May 1900.)

No. 104 of 1895.—Louis Michel Bullier. *A process for the manufacture of carbides or acetylides of the earth-metals and alkali-earth metals, and of the oxides of these metals.* (From 26 April 1899 to 26 April 1900.)

No. 1174 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling and using the said inventions in British India, and of authorising others so to do, has ceased:—

No. 2 of 1894.—Edward Seitz and Richard Pickup Park. *Improvements in centrifugal pumps.* (Specification filed 4 January 1895.)

No. 247 of 1894.—John Hodgart and Angus McEwan. *An automatic continuous flow lubricator for railway vehicles.* (Specification filed 5 January 1895.)

No. 300 of 1894.—Rowland Matthews and James Noad. *Improvements in the manufacture of white lead and coloured pigments.* (Specification filed 3 January 1895.)

No. 355 of 1894.—Joseph Fishburn. *Improvements in and relating to ice rinks.* (Specification filed 31 December 1894.)

Fee in respect of the continuance of an exclusive privilege—

4 (*a*) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of R50 for each of the above inventions.

No. 167 of 1893.—George Earl Church and George Watson Ettenger. *Improvements in the construction of metallic under-frames of railway carriages and wagons.* (Specification filed 5 January 1894.)

Fee in respect of the continuance of an exclusive privilege—

4 (*b*) After the expiration of the fourth year and before the expiration of the fifth year from the date of the filing of the specification—

The sum of R50 for the above invention.

No. 280 of 1892.—Heinrich Count von Pückler. *An improved electric apparatus for alluring and destroying insects.* (Specification filed 7 January 1893.)

Fee in respect of the continuance of an exclusive privilege—

4 (*c*) After the expiration of the fifth year and before the expiration of the sixth year from the date of the filing of the specification—

The sum of R50 for the above invention.

No. 98 of 1888.—Thomas Witter. *Improvements in automatic fire extinguishing sprinklers.* (Specification filed 2 January 1889.)

Fee in respect of the continuance of an exclusive privilege—

4 (*g*) After the expiration of the ninth year and before the expiration of the tenth year from the date of the filing of the specification—

The sum of R100 for the above invention.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,

Offg. Secy. under the Inventions and Designs Act, 1888.

Calcutta, the 14th April, 1899.

TELEGRAPH DEPARTMENT.

NOTIFICATIONS.

Simla, the 11th April, 1899.

No. 1.—Mr. F. E. Dempster, C.I.E., Superintendent, Class V, 1st grade, is allowed furlough for twelve months under Article 340 (*b*) of the Civil Service Regulations, with effect from the forenoon of the 11th March, 1899.

No. 2.—Mr. W. C. Nigel Jones, Chief Superintendent, Class IV, is allowed furlough for two years under Article 340 (*b*) of the Civil Service Regulations, with effect from the forenoon of the 11th March, 1899.

No. 3.—The following temporary promotion in the Superior Establishment of the Indian Telegraph Department is ordered, with effect from the 27th February, 1899, and until further orders :—

Name.	From	To
G. P. Roy.	Assistant Superintendent, Class VII, 1st grade.	Assistant Superintendent, Class VI, 2nd grade.

CHAS. E. PITMAN,
Director General of Telegraphs.

INDO-EUROPEAN TELEGRAPH DEPARTMENT.

NOTIFICATIONS.

Calcutta, the 13th April, 1899.

No. 83.—Mr. J. Hughes, Assistant Superintendent, Class VI, grade II, has been granted by the Director, Persian Gulf Telegraph, furlough out of India for one year under Article 340 (*b*) of the Civil Service Regulations, with effect from the 24th March, 1899, subject to confirmation by the Director-in-Chief, Indo-European Telegraph Department.

S. G. WOOD,
Examiner of Telegraph Accounts.

AGENT TO THE GOVERNOR-GENERAL, RAJPUTANA.

NOTIFICATION.

Abu, the 6th April, 1899.

No. 1328.—Captain W. C. R. Stratton, Indian Staff Corps, Officiating Political Agent, Kotah, is granted privilege leave for two months and fifteen days, with effect from the afternoon of the 16th March, 1899.

By order,

L. IMPEY, *Captain,*
First Assistant Agent to the Governor-General, Rajputana.

AGENT TO THE GOVERNOR-GENERAL FOR CENTRAL INDIA.

NOTIFICATION.

Indore Residency, the 8th April, 1899.

No. 3035.—The Agent to the Governor-General in Central India directs that, when counterfeit coins come before Judicial Officers in Central India under the procedure prescribed in sections 517-523 and 524 of the Code of Criminal Procedure, they shall, when possible, be sent to the Mint at Calcutta or Bombay. In cases where the person from whom the coin has been received, and who is legally entitled to its possession, does not consent to the counterfeit coin being sent to the Mint, unless the broken pieces are afterwards returned to him, the coin should not be sent at all. It is, however, open to a Judicial Officer to whom such a coin is tendered, in cases in which the tenderer is otherwise unwilling to part with it, to purchase it from him at a suitable price not in any case exceeding its nominal value, charging its cost to Government. This course should only be followed when, from the excellence of the execution or for any other special cause, it seems desirable that the coin should be acquired as a specimen, and the officer purchasing the same should, when forwarding it to the Mint, state at the same time the grounds upon which its purchase was considered desirable.

It is not necessary that such coins should be sent direct to the Mint by Judicial Officers. They may be forwarded to the nearest Treasury Officer to be remitted by him to the Mint.

W. E. JARDINE,
First Assistant Agent to the Governor-General for Central India.

AGENT TO THE GOVR.-GENERAL IN BALUCHISTAN.

NOTIFICATIONS.

Quetta, the 4th April, 1899.

No. 2563.—The Agent to the Governor-General in Baluchistan is pleased to direct that the following additions and alterations may be made in his notification No. 5662, dated the 21st October, 1893, as modified by notification No. 88-C., dated the 19th January, 1893 :—

(i) In columns 1, 2 and 3 of the table in clause (i) add the following :—

District.	Sub-district.	Limits.
Sinjawi and Railway.	Kohlu.	The Kohlu tahsil.

(ii) In column (3) of the table in clause (ii) for "the Extra Assistant Commissioner, Sinjawi" read "Naib Tahsildar, Sinjawi." Add the following to the same table :—

District.	Sub-district.	Sub-Registrar.
Sinjawi and Railway.	Kohlu.	The Naib Tahsildar.

The 7th April, 1899.

No. 2700.—Under section 93 of the Baluchistan Agency Civil Justice Law, 1896, the Agent to the Governor-General is pleased to invest Khan Bahadur Kazi Jalaluddin, Extra Assistant Commissioner for Settlement, with all the powers of a Political Agent under the said Law, and to declare that the said powers shall be exercised only within the Sinjawi Tahsil and only in respect of original suits relating to land or water, or the rent or revenue of land and appeals in such cases.

By Order,

P. T. SPENCE, *Captain,*
First Assistant.

CHIEF COMMISSIONER IN BRITISH BALUCHISTAN.

NOTIFICATION.

Quetta, the 7th April, 1899.

No. 2703.—Under section 93 of the British Baluchistan Civil Justice Regulation, 1896, the Chief Commissioner is pleased to invest Khan Bahadur Kazi Jalaluddin, Extra Assistant Commissioner for Settlement, with all the powers of a Deputy Commissioner under the said Regulation, and to declare that the said powers shall be exercised only within the Sharigh Tahsil and only in respect of original suits relating to land or water, or the rent or revenue of land and appeals in such cases.

Notification from this office, No. 1106, dated the 19th March, 1897, is hereby cancelled.

By Order,

P. T. SPENCE, *Captain,*
First Assistant.

THE RESIDENT IN MYSORE.

NOTIFICATION.

Aden, Egypt, Europe, America, Zanzibar, Mozambique, Delagoa Bay, Mauritius, Madagascar, Réunion, etc., Natal, and Cape Colony, and in general all countries served through the United Kingdom.	20th April	Per P. & O. Str. from Bombay.
Parcels, Insured letters and Money Orders for the United Kingdom and other Foreign places.	19th ,,	Ditto.
*Australasian Colonies . .	15th ,,	*Viâ* Tuticorin and Colombo.*
Ditto ditto . .	22nd ,,	Ditto.
Colombo	20th ,,	Per P. and O. Str. *Sumatra.*
Straits Settlements, China and Japan.	21st ,,	Per Steamer *Suisang.*
Rangoon and Moulmein . .	20th ,,	Per B. I. S. N. Co.'s Steamer.
Rangoon, Moulmein, Tavoy, Mergui, Penang and Singapore.	17th ,,	Ditto.
Rangoon and Moulmein . .	15th ,,	Ditto.
Ditto ditto . .	22nd ,,	Ditto.
Akyab, Kyaukpyu and Sandoway.	15th ,,	Ditto.
Ditto ditto . .	22nd ,,	Ditto.
Ditto ditto . .	17th ,,	Per land route *viâ* Chittagong.
Ditto ditto At 5-30 A.M.	18th ,,	Ditto.
Port Blair	17th ,,	*Viâ* Rangoon.
South African Ports . . .	19th ,,	Per Steamer *Umlazi.*
Mauritius, Réunion, Mayotte, Nossi Be, Delagoa Bay, Natal and Cape Colony.	24th ,,	*Viâ* Tuticorin and Colombo.

*Although the date entered in column 2 is, as far as can be calculated, the latest safe date of posting for the next Mail Steamer, full allowance being made for the steamer being in advance of her published timing, Mails for the places mentioned in column 1 are despatched daily to Colombo, so that they may proceed by any steamer that has been usually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

The letter-box for Inland articles will be cleared for the evening Mails without late fee at the following hours, *viz.*:—

For the Bombay Mail *viâ* Jubbulpore carrying also Mails for Ceylon at 6 P.M.

For Darjeeling and Assam at 8-25 P.M. without late fee, and 8-30 P.M. with late fee ½ anna.

For the Punjab at 7-30 P.M.

Late letters bearing a fee of ½ anna will be received for the Bombay Mail *viâ* Jubbulpore up to 6-30 P.M. and for other Mails from 7-30 to 8 P.M., and from 8-0 to 8-45 P.M. with a late fee of 1 anna for the Punjab Mails only.

Late registered articles will be received between the following hours:—

For Offices served by the Bombay Mail *viâ* Allahabad and Jubbulpore from 5 P.M. to 6-15 P.M.

For Offices served by the Punjab Mail from 6 P.M. to 7 P.M.

For Offices served by the Goalundo Mail from 6 P.M. to 7 P.M.

For Offices served by the Khulna Mail from 6 P.M. to 7 P.M.

The late fee on each registered letter will be two annas, which must be prepaid in stamps on the letter.

Articles for Burma and for Port Blair by Sea are received without late fee up to 7-30 P.M., after which hour they are received fully prepaid and bearing an extra stamp of ½ anna up to 8 P.M.

On the latest safe day of despatch of the Mail for the Australasian Colonies *viâ* Tuticorin, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6 P.M., and late letters and papers fully prepaid will be received up to 6-30 P.M.

On the day of despatch of the Mail for Europe (Thursday), the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6-30 P.M., and late letters and papers fully prepaid will be received up to 6-45 P.M. Late registered articles will be received from 5 to 6 P.M. On other days the letter-box for Foreign articles will be cleared for the last time without the late fee at 6 P.M., and late letters and papers will be received up to 6-30 P.M. for despatch by any Foreign Mails *viâ* Tuticorin, Madras, or Bombay the same night and up to 8-30 P.M., late letters and papers up to 9 P.M., for any Foreign Mails despatched by Sea. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

P. J. GORMAN,

Offg. Presidency Postmaster, Calcutta.

PUBLIC WORKS DEPARTMENT.

NOTIFICATION.

Simla, the 20th September, 1893.

A Registry Office for men of all grades out of employ is kept up by the Principal, Thomason College, Roorkee. Officers requiring men are requested to apply to Principal.

J. CLIBBORN, *Major, I.S.C.,*

Principal, Thomason College.

NOTICE.

It is notified, for information of Military and Civil officers, that services of Shams-ul-Ulama. Shaikh Mahmud Gilani, Persian Instructor, and Mr. R. F. Azoo, Arabic Instructor, have been specially retained by Government for giving instruction to candidates intending to present themselves for examinations in Arabic and Persian before the Board of Examiners Gentlemen requiring their tuition should communicate with them at the office of the Board of Examiners.

Do.	do.	31st Dec., 1896.	Price R1.

Apply to the Registrar, Geological Survey of India, Calcutta.

CIVIL ENGINEERING COLLEGE, SIBPUR.

Agricultural Department.

UPPER CLASS.

Session 1899-1900.

The session of the Agricultural Department of the Civil Engineering College, Sibpur, will open on Monday, the 5th June.

Candidates for admission should apply to the Principal before the 15th April, 1899.

For admission to the Upper Agricultural class an applicant must have one of the following qualifications:—

(*i*) He must have passed the F. E. Examination of the Calcutta University, and be under 23 years of age.

(*ii*) He must have passed the B. A. Examination of the Calcutta University by the B. Course or possess other sufficient educational qualifications, be under 23 years of age, and, in addition, have received a nomination from the Bengal Government.

(*iii*) He must have had a general education qualifying him to follow the instruction in the Upper Agricultural Class, and must also receive a nomination from Government for admission as a special student. To be eligible for a nomination under this rule, a candidate must either have landed property of his own or be recommended by some influential landholder who desires to train him to take part in the management of his estate, or he must otherwise satisfy Government that he intends to make practical use of his agricultural training. Students entering under this rule will be termed special agricultural students. They will not be subject to any maximum limit of age, but will not be entitled to the privileges conferred on passed students under Rules 11 and 12, even though they should obtain fully signed diplomas in due course after passing the necessary examinations.

Applications for admission must be in the prescribed form, copies of which may be had from the principal.

Rules 11 and 12 referred to are as follows .—

(11) Two appointments annually are assigned to students holding a fully signed diploma —one in the Provincial Executive Service and one in the Subordinate Executive Service. The right of selection for these appointments will rest with Government, and the students who gained the highest marks at the examination for diplomas will not necessarily be selected.

(12) Holders of fully signed agricultural diplomas who do not get the guaranteed appointments referred to in Rule 11, but who wish to compete for the examination for admission to the Provincial, Subordinate Executive and Opium Services, may submit their names through the Principal to Government for nominations. These applications for nominations will be considered, provided the applicants appear to His Honor the Lieutenant-Governor to be otherwise suitable for admission to these services.

LOWER CLASS.

The lower course of study will be open to students of the Sibpur College who have completed their second year in the apprentice department and to teachers sent from Training Schools with the sanction of the Director of Public Instruction, Bengal.

Further particulars will be supplied on application to the Principal.

A. MACDONELL,

Offg. Principal, Civil Engineering College.

SIBPUR,

The 16th March 1899.

CIVIL ENGINEERING COLLEGE, SIBPUR.

SESSION 1899-1900.

Candidates for admission to the Engineer Department should apply to the Principal before the 15th May, 1899. Each application must be accompanied by a Registration fee of R1. The session begins on Monday, the 5th June, 1899.

Candidates must furnish proof that they have passed one of the following tests :—

(1) The F. A. Examination of the Calcutta University, or a similar standard of any Indian University recognised by the Calcutta University. The candidate's age must be under 21 years.

(2) The B.A. Examination in the B. Course in Physics and Chemistry. The candidate's age must be under 23 years. (These students are admitted direct into the second year class.)

The maximum number to be admitted each year is limited to 40. The position in the University Examinations and the age of the candidates will be taken into consideration when selection is made, and such selection will be made by the Principal.

The tuition fee for students of the Engineer class is R10 a month for each month of the year, vacation included.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior or senior scholarships. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour and eyesight.

Further particulars will be supplied on application to the Principal.

A. MACDONELL,

Offg. Principal, Civil Engineering College.

SIBPUR,

The 4th April, 1899.

CIVIL ENGINEERING COLLEGE, SIBPUR.

APPRENTICE DEPARTMENT.

The date for admission to this Department is 5th June, 1899. Candidates must be at least 15 and not more than 17 years of age.

They must have passed standard VII of the Code for European Schools or the University Entrance Examination. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard so as to reach the Principal not later than the 6th May, 1899, together with a Registration fee of R1. No application will be attended to after this date.

The maximum number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first* Monday in June. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding R10. No apprentice will be admitted or re-admitted to the College after the close of the month of June, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

There will be no vacancy on the free list for Christian Apprentices in June next, but there will be seven on the reduced* fee list. For natives there will be at least eleven vacancies, possibly more, on the reduced† fee list.

With the exception of students on the Free and Reduced Fee lists, all apprentices will pay a tuition fee of R3 a month for each month of the year.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can, therefore, be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

* R5 per mensem.
† R2 per mensem.

A. MACDONELL,
Offg. Principal, Civil Engineering College.

SIBPUR;
The 4th April, 1899.

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1898, the price of this Quinine will be as follows:—

1-pound tin,	R17,	or,	post-free,	R17-12.
½	,,	R8-8,	,,	R9-0.
¼	,,	R4-4,	,,	R4-12.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৮৯৮ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য লইবে, যথা—

১ এক পৌণ্ড টিন	১৭,	বা ডাকমাশুল বিনা	১৭৸৹	
৷ আধ ,, ,,	৮৷৹	,,	৯,	
৷ সিকি ,, ,,	৪৷৹	,,	৪৸৹	

পরিক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে, এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনা-ডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারে।

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT EMPLOYMENT ONLY.

It is advised that letters containing remittances be registered.

N.B.—The Revised Prices herein entered cover the cost of packing, postage, and other incidental charges (except commission for Value-payable supplies), and are for all purchasers other than resident College Students.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal Octavo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required:—

VOLUME I.*

Section	I.	**Building Materials,**	R2-6.
"	II.	**Masonry,**	R1-4.
"	III.	**Carpentry,** (1889),	R1-4.
"	IV.	**Earthwork** (1892),	R1-4.
"	V.	**Tools and Plant** (never published).	

VOLUME II.*

Section	VI.	**Buildings.** (In the Press.)	
"	VII.	**Bridges,**	R4-4.
"	VIII.	**Roads,**	R1-8.
"	IX.	**Railways** (1891),	R1-4.
"	X.	**Irrigation Works.**	(Under revision.)

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol. I. Direct and Transverse Strain, principally by Analytical Methods. R7.

" II. The Stability of Structures, mostly by Graphic Methods (in the Press).

MANUALS.

VII. **Surveying** (by Major Firebrace, R.E.) (6th edition, with Curve Table). R3.

XIII. **Drawing** (by Lieut. R. Pulford, R.E.). † R8.

XIIIa. **Drawing, First Principles of Geometrical** (by do.) (4th edition). R1-4.

XIV. **Simple Applied Mechanics, Parts I and II in one** (in the Press).

Simple Applied Mechanics, Part II (1st edition). 8a.

XV. **Examples of Estimating.** Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition). R3-12.

XVI. **Earthwork Estimating,** with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. Say R1.

XVII. **Specimens of Printing** used in the College Drawing Course and Entrance Examinations. 6a.

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting Section X, is the course for the Upper Subordinate Class. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

J. CLIBBORN, *Lieut.-Col., I. S. C.,*
Principal, Thomason Civil Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870:—

Terms of subscription payable annually in advance.

For the complete Series, *including postage* . . . R22-8

	Without postage.			With postage.		
	R	a.	p.	R	a.	p.
For the Calcutta Series	10	0	0	12	8	0
" each of the Madras, Bombay, and Allahabad Series	6	0	0	7	0	0
" a part of the Calcutta Series purchased separately, *inclusive of postage in India*	...			2	0	0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, *inclusive of postage in India*	...			1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.			For mofussil.		
	R	a.	p.	R	a.	p.
For the Calcutta Series; per copy . .	0	8	9	0	10	0
" each of the Madras, Bombay, and Allahabad Series; per copy	0	5	3	0	5	9
" the Calcutta Series. For the year . .	7	2	6	8	6	3
" each of the Madras, Bombay, and Allahabad Series. For the year . . .	4	4	6	4	11	0

Persons desiring to subscribe for, or purchase, the Report, should apply to—
Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
The Curator of Government Books, North-Western Provinces and Oudh.
The Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper, of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	*Half page.*	*Quarter page.*
For one issue . . .	R 20	R 14	R 9
" three issues . . .	" 55	" 36	" 24
" six " . . .	" 100	" 68	" 45
" nine " . . .	" 145	" 96	" 64
" twelve " . . .	" 180	" 120	" 80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage.			With postage.		
	R	a.	p.	R	a.	p.
Bengal Law Reports, for one year . .	20	0	0	22	8	0
Single copies, R2 per copy.						
Full Bench Rulings, Parts I and II . .	20	0	0	22	8	3

Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.
Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depôt.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

SANITARY.

PLAGUE.

The 11th April, 1899.

No. 1386.—Whereas the Governor General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Aiyangar-Kolam in the Conjeeveram taluk of the Chingleput District of the Madras Presidency, if pilgrims or other persons from the Mysore State are permitted to assemble at that place on the occasion of the ensuing Nadabhavi festival:

In exercise of the powers conferred by section 2, sub-section (*1*), of the Epidemic Diseases Act (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Arkonam Junction, Palur, Conjeeveram, Walajabad, Villiyampakkam and Chingleput on the South Indian Railway, shall be sold from the 20th to the 25th April 1899 (both days inclusive) within the Mysore State to any pilgrim or other person intending or believed to be intending to proceed on pilgrimage to the Nadabhavi festival at Aiyangar-Kolam.

No. 1391.—Whereas the Governor General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease in the town of Conjeeveram in the Chingleput District of the Madras Presidency, if pilgrims or other persons from the Bombay Presidency, the Nagpur Division of the Central Provinces and the Hyderabad and Mysore States are permitted to assemble at that place on the occasion of the ensuing Brahmotsvam festival of Sri Devarajaswami:

In exercise of the powers conferred by section 2, sub-section (*1*), of the Epidemic Diseases Act (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Arkonam Junction, Palur, Conjeeveram, Walajabad, Villiyampakkam and Chingleput on the South Indian Railway, shall be sold from the 16th May to the 4th June 1899 (both days inclusive) within the Bombay Presidency, the Nagpur Division of the Central Provinces, and the Hyderabad and Mysore States to any pilgrim or other person intending or believed to be intending to proceed on pilgrimage to the Brahmotsvam festival of Sri Devarajaswami at the town of Conjeeveram.

The 12th April, 1899.

No. 1406.—Whereas the Governor General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Ajodhia in the Fyzabad District of Oudh, if pilgrims or other persons from the Bombay Presidency, excluding Sind with the exception of Karachi, the Province of Bengal, certain portions of the Jullundur District in the Punjab, and the Nagpur Division of the Central Provinces are permitted to assemble at that place on the occasion of the ensuing Ramnaumi fair:

In exercise of the powers conferred by section 2, sub-section (1), of the Epidemic Diseases Act (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Lakarmandi Ghât on the Bengal and North-Western Railway and Ajodhia and Fyzabad on the Oudh and Rohilkhand Railway shall be sold from the 15th to the 20th April 1899 (both days inclusive) within the Bombay Presidency, excluding Sind with the exception of Karachi, the Province of Bengal, the Punjab at any railway station between Beas and Ludhiana (both inclusive) or other stations at which special punch-marked tickets are now being issued, and the Nagpur Division of the Central Provinces to any pilgrim or other person intending or believed to be intending to proceed on pilgrimage to the Ramnaumi fair.

No. 1414.—The following notices of the Board of Trade are published for general information:

(F. and H. 3815.)

Board of Trade (Fisheries and Harbour Department), London, March 3, 1899.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a copy of a Despatch from Her Majesty's Representative at Lourenço Marques, intimating that the entrance into any of the ports of the Province is forbidden to sailing vessels or dhows bringing cargo or proceeding from any country either infected with, or even suspected of, plague, and that vessels without sickness on board, or those whose voyages had lasted for more than the maximum time of incubation of plague, are liable to thorough fumigation before admission. The following articles are liable to be denied admission, *viz.* :—Rags and paper, old newspapers, all secondhand clothing, sacking, wrapping cloth, carpets and mats that have been used, hides, hoofs, horns, bones, claws, and all refuse of animals, skins, silk in bulk and wool, and hair to be used by hair dressers or for other commercial purposes.

(F. and H. 3816.)

Board of Trade (Fisheries and Harbour Department), London, March 3, 1899.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a copy of a Despatch from Her Majesty's Representative at Washington, enclosing the following Quarantine Notice issued by the United States Government, *viz.*:

Circular No. 8.

Division of Customs and Insular Affairs.

War Department, Washington,
February 1, 1899.

The following order of the President, relative to quarantine regulations for ports in Cuba and Porto Rico, is hereby published for the information and guidance of all concerned:

Executive Mansion, Washington,
January 17, 1899.

To prevent the introduction of epidemic disease, it is ordered that the provisions of the Act of Congress, approved February 15, 1893, entitled "An Act granting additional quarantine powers and imposing additional duties upon the Marine Hospital Service," and all rules and regulations heretofore prescribed by the Secretary of the Treasury under that Act, are to be given full force and effect in the islands of Cuba and Porto Rico, and the following additional rules and regulations are hereby promulgated:

The examination in ports of the islands of Cuba and Porto Rico of incoming and outgoing vessels and the necessary surveillance over their sanitary condition as well as of cargo, passengers, crew, and of all personal effects, is vested in and will be conducted by the Marine Hospital Service, and medical officers will be detailed by the Secretary of the Treasury as quarantine officers at the ports of Havana, Matanzas, Cienfuegos and Santiago immediately, and other ports in the islands of Cuba and Porto Rico as soon as practicable or necessary. Quarantine officers shall have authority over vessels, their wharfage and anchorage in infected seaports, in so far as is necessary to prevent the infection of vessels or their personnel, and all vessels, including vessels of the Army Transport Service and merchant and coastwise vessels, leaving ports in the islands of Cuba or Porto Rico for the United States or for other ports in the islands of Cuba or Porto Rico, vessels of the United States Navy excepted. Quarantine officers will enforce necessary measures on incoming vessels through collectors of customs at ports of entry, who will not permit entry without quarantine certificates, and bill of health shall not be given to an outgoing vessel unless all quarantine regulations have been complied with. All officers of the Army Transport Service and medical officers of the Army and Marine Hospital Service on duty on Army transports will use every precaution to prevent danger of exposure to infection of crews while in ports in the islands of Cuba or Porto Rico.

Since the quarantine service herein provided is for the protection of the islands of Cuba and Porto Rico as well as the protection of the United States against both, the expenses arising therefrom will be charged at present both against the revenues of these islands and the epidemic fund ; said expenses will be divided equally against both; payments, however, to be made out of the epidemic fund and reimbursement made thereto from the revenues of the islands of Cuba and Porto Rico.

WILLIAM MCKINLEY.

This order to be duly proclaimed and enforced at ports in Cuba and Porto Rico.

G. D. MEIKLEJOHN,
Assistant Secretary of War.

The 14th April, 1899.

No. 1423.—Whereas the Governor General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Chitrakot in the Central India Agency, if pilgrims or other persons from the Bombay Presidency, excluding Sind with the exception of Karachi, the Province of Bengal, certain portions of the Jullundur District in the Punjab, and the Nagpur Division of the Central Provinces, are permitted to assemble at that place on the occasion of the fair which will be held there on the 29th April 1899 :

In exercise of the powers conferred by section 2, sub-section (*1*), of the Epidemic Diseases Act (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to any station between Naini and Katni (both inclusive) on the East Indian Railway and Manikpur and Jhansi (both inclusive) on the Indian Midland Railway shall be sold from the 15th to the 30th April 1899 (both days inclusive) within the Bombay Presidency, excluding Sind with the exception of Karachi, the Province of Bengal, the Punjab at any railway station between Beas and Ludhiana (both inclusive), or other stations at which special punch-marked tickets are now being issued, and the Nagpur Division of the Central Provinces to any pilgrim or other person intending or believed to be intending to proceed on pilgrimage to the fair at Chitrakot.

No. 1432.—It is notified for general information that the Government of India have received intimation that pilgrims returning to India from the Hedjaz will not in future be permitted by the Government of His Highness the Sultan of Muskat to break their journey, or to land, at Muskat.

No. 1444.—The following telegram from Her Majesty's Secretary of State for India, dated the 21st March 1899, is published for general information :

My telegram* of 12th March 1897. Greece withdraws prohibition against postal articles from places other than Bombay.

* Published in Home Department Notification No. 1020 (Sanitary), dated the 19th March 1897 (*Gazette of India*, dated the 20th March 1897, Part I, page 218).

JUDICIAL.

The 11th April, 1899.

No. 545.—Mr. H. Adamson, of the Indian Civil Service, is appointed to officiate as Judicial Commissioner of Upper Burma during the absence on privilege leave of Mr. H. Thirkell White, C.I.E., or until further orders.

The 12th April, 1899.

No. 562.—In exercise of the power conferred by section 24, sub-section (*1*), of the Indian Petroleum Act, 1899 (VIII of 1899), the Governor General in Council is pleased to direct, in supersession of the Notification of the Government of India in the Home Department, No. 187, dated the 1st February 1887, that drafts of rules which it may be proposed to make under the said Act shall be published—

(*a*) when the authority making the rules is a Local Government, in three consecutive issues of the local official Gazette in English and in such other language or languages as the Local Government may direct ; and,

(*b*) when the authority making the rules is the Governor General in Council, in three consecutive issues of the Gazette of India in English, and in three consecutive issues of the local official Gazette (if any) of every Local Government in British India in English and in such other language or languages as the Local Government may direct.

EDUCATION.

The 13th April, 1899.

NOTIFICATIONS.

No. 1524-*Gl*.

Simla, the 10th April, 1899.

RESOLUTION—By the Government of India, Finance and Commerce Department.

READ again—

Resolution by the Government of India in the Finance and Commerce Department, No. 6023, dated the 31st December 1890.

Read—

Resolution by the Government of India in the Finance and Commerce Department, No. 2157, dated the 20th May 1891.

Despatch to the Secretary of State for India, No. 324 (Financial), dated the 4th November 1896.

Despatch from the Secretary of State for India, No. 104 (Financial), dated the 17th June 1897.

RESOLUTION.—In partial supersession of the orders contained in the Resolution of 20th May 1891 read above, the Government of India have, with the sanction of the Secretary of State, decided that of the vacancies in the Enrolled List of the Account Department, which under the terms of the above Resolution are filled otherwise than by the appointment of members of the Indian Civil Service or of Chief Superintendents and others already in the service of the Government, two-thirds will be filled by the Secretary of State in London and one-third by competitive examination of nominated candidates in India. The recruitment in India will be restricted to Natives of India within the meaning of the Statute 33 Vict., Chapter 3, Section 6. The definition in the Statute is:

"The words 'Native of India' shall include any person born and domiciled within the dominions of Her Majesty in India of parents habitually resident in India and not established there for temporary purposes only."

2. The following revised rules are now prescribed for the recruitment of candidates in India:

I.—A register of candidates will be kept from which not less than three candidates for each vacancy will be nominated from time to time as vacancies are expected. Only candidates so nominated will be entitled to compete.

II.—Applications by persons desirous of having their names entered in the above register should be made by them in their own hand-writing to the Secretary to the Government of India in the Finance and Commerce Department, and should be accompanied by proof that the applicant is a Native of India within the meaning of the Statute above quoted, by certificates of character and of educational qualifications, by a statement of age, and by information regarding any services that may have been rendered to the State by his parents and family.

NOTE.—Copies of all certificates should be sent for record, along with the originals which will be returned.

The names of persons not possessed of high educational qualifications will not be registered. Clear and distinct hand-writing and a business familiarity with the English language are in any case indispensable.

III.—The Government of India reserve an absolute discretion not only in regard to the selection of persons to be entered on the register of candidates, but also as to the nomination of candidates to compete at the examination. It must be clearly understood that registration of a candidate's name does not in any way imply that he will be nominated for admission to examination.

The name of a registered candidate will be struck off the register when he has reached the age of 25, or has failed in two examinations.

A candidate nominated for admission to one examination will not be admitted to a later examination unless again nominated.

IV.—The age of a candidate, when examined, must not exceed twenty-five years. A nominated candidate before appearing at the examination must produce a certificate in the annexed form by a Commissioned Medical Officer or by a Medical Officer in charge of a Civil Station.

Certificate.

I do hereby certify that I have examined *A.B.*, a candidate for employment in the Financial Department of the Government of India, and that I cannot discover that he has any disease, constitutional affection, or bodily infirmity unfitting him, or likely to unfit him, for the public service in any part of India.

He must also before appearing produce a certificate of age from the Officer in charge of the District in which his family reside, or, if they reside in a Presidency Town or a Native State, from the Presidency Magistrate or Political Agent respectively. To obtain this certificate the date and place of the candidate's birth must be proved before the District Officer, Presidency Magistrate or Political Agent, as the case may be, by documentary evidence, supplemented, where this is not conclusive proof, by statements of relatives and others on oath or solemn affirmation.

V.—The nominated candidates will be examined in the subjects described in the Schedule attached to this Resolution. No candidate will be admitted to the Department who fails to show a competent knowledge of the compulsory subjects, and the Government reserves the right of declining to make any appointment when no candidate reaches a high standard of proficiency.

VI.—The examination will be mainly by written questions and answers. There will be a *vivâ voce* test in the last two groups of the compulsory subjects mentioned in the schedule attached to this Resolution. The questions will be prepared, and the examination conducted, in such manner as the Governor General in Council from time to time directs.

VII.—The examination will be held at such place as the Governor General in Council from time to time directs.

ORDER.—Ordered, that this Resolution be communicated to the Departments of the Government of India, to the several Local Governments and Administrations, with the request that it may be communicated to all heads of colleges and schools in their respective Provinces, to the Comptroller and Auditor General, and to all Accountants General and Comptrollers, for information.

Ordered also, that this Resolution be published in the *Gazette of India.*

By order, etc.,

H. H. RISLEY,

Offg. Secretary to the Government of India.

SCHEDULE.

SUBJECTS FOR EXAMINATION.

Compulsory Subjects.

	Marks.
Writing and Composition. Impromptu Essay upon some given subject	300
Political Economy and Logic	300
English History and Literature and Indian History	200

PUBLIC WORKS DEPARTMENT.

NOTIFICATIONS.

Simla, the 8th April, 1899.

No. 143.—It is hereby notified for general information that Her Majesty's Secretary of State for India has entered into a Contract with the Delhi-Umballa-Kalka Railway Company for the construction and working of a narrow gauge railway from Kalka to Simla.

No. 144.—Mr. E. A. Lee, Examiner of Accounts, attached to the Office of the Examiner, Public Works Accounts, Madras, is appointed to officiate as Government Examiner of Accounts, Burma Railways, during the absence of Mr. W. E. Curry, on privilege leave, or until further orders.

No. 145.—It is hereby notified for general information that Her Majesty's Secretary of State for India has, in Despatch No. 9 Railway, dated the 9th February 1899, confirmed the sanction accorded to the construction by, and at cost of, the Bikaneer Durbar of the third section of the Bikaneer-Bhatinda Railway, from Lunkaransar to Suratgarh, a distance of 63 miles.

No. 146—With reference to Public Works Department Notification No. 240, dated the 19th June 1897, it is hereby notified for general information that Her Majesty's Secretary of State for India in Council has, in Despatch No 7 Railway, dated the 2nd February 1899, accorded sanction to the project for the construction of an independent broad gauge line of Railway from Hyderabad to Rahuki, in connection with the conversion of the whole of the existing Hyderabad-Shadipalli Railway to the metre gauge, and its extension on the metre gauge to the Jodhpur frontier. Also to the estimates of the cost of constructing and converting the British portion of the Shadipalli-Balotra Railway as noted below:

(i) Estimate for new broad gauge line from Hyderabad to Rahuki, 6·25 miles in length, amounting to Rs 4 52,247.

(ii) Revised estimate for the conversion of the existing 5′ 6″ line between Hyderabad and Shadipalli to metre gauge, 55·08 miles in length, amounting to Rs. 6,33,236.

(iii) Revised estimate for the British Section from Shadipalli to the Jodhpur frontier, a distance of about 71 miles, amounting to Rs. 27,03,956.

The 10th April, 1899.

No. 147.—Mr. S. C. Hill, Officiating Officer in charge of the Records of the Government of India, and *ex-officio* Assistant Secretary to the Government of India in the Home Department, will have charge of that portion of the Public Works Department which is in Calcutta, during the absence of the Government of India at Simla.

No. 148.—Mr. L. C. D. Bean, District Traffic Superintendent, in Class II, Grade 3, of the Superior Revenue Establishment of State Railways, is appointed to officiate as Deputy Traffic Superintendent, North Western Railway, in Class I of that Establishment, during the absence of Mr. C. E. Vining, on furlough, or until further orders.

No. 149.—With reference to Public Works Department Notification No. 506, dated the 9th November 1898, Mr. C. J. Keene, Officiating Deputy Traffic Superintendent, North Western Railway, in Class I, of the Superior Revenue Establishment of State Railways, is temporarily promoted to Class I, Grade 3, of that Establishment, until further orders.

The 12th April, 1899.

No. 150.—In exercise of the powers conferred by section 135 of the Indian Railways Act (IX of 1890), the Governor General in Council is pleased, under Clause (1) of that section, to declare that the Oudh and Rohilkhand (State) Railway shall be liable to pay in aid of the funds of the Lucknow Municipality—

(*a*) a water rate under the provisions of the North-Western Provinces and Oudh Water Works Act (I of 1891), in respect of the houses, buildings and lands occupied by the railway, and

(*b*) a wheel tax under the provisions of the North-Western Provinces and Oudh Municipalities Act (XV of 1883), in respect of the *thelas,* or hand carts, plying for hire;

within the limits of the said Municipality.

The liability imposed by this Notification in respect to (*a*) shall be deemed to have arisen from the 1st January 1897.

The 13th April, 1899.

No. 151.—Major E. A. Waller, R.E., Deputy Accountant General, Public Works Department, for inspection duty, is appointed to officiate as Deputy Accountant General and Under Secretary to the Government of India in the Public Works Department during the absence of Mr. R. N. Burn, on privilege leave.

No. 153.—Mr. W. J. Chamberlain, in Class I, Grade 3, of the Superior Revenue Establishment of State Railways, Traffic Department, is permitted to retire from the service of Government, under Article 485 of the Civil Service Regulations, with effect from the forenoon of the 7th February 1899.

The 14th April, 1899.

No. 154.—It is hereby notified for general information that Her Majesty's Secretary of State for India has, in Despatch No. 17 Railway, dated the 2nd March 1899, accorded sanction to an estimate amounting to Rs. 2,38,723 of the cost of constructing an extension of the South Indian Railway from the seaport terminus at Nagapatam along the coast northward to the seaport of Nagore, a distance of 4·67 miles.

No. 155.—Mr. C. T. R. Scovell, Executive Engineer, 2nd Grade, State Railways, is appointed Deputy Consulting Engineer for Railways, Bombay, until further orders.

No. 156.—Captain P. Ashworth, R.E., Assistant Engineer, 1st Grade, State Railways, is, on relief of his duties on the Bezwada-Madras Railway, appointed Deputy Consulting Engineer for Railways, Madras, until further orders.

F. R. UPCOTT,

Secretary to the Government of India.

The 13th April, 1899.

No. 152.—Mr. R. E. Sherard, Sub-Engineer, 3rd Grade, Burma, is appointed to the Provincial Service of the Engineer Branch of the Public Works Department as an Assistant Engineer, 3rd Grade, and posted to Burma.

T. HIGHAM,

Joint Secretary to the Government of India.

SUPPLEMENT TO

The Gazette of India.

No. 15.] SIMLA, SATURDAY, APRIL 15, 1899.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on Saturday, April 8th, 1899.

The general conditions of the weather have been the same as those reported last week. Pressure has been steadily low over Northern India and slight shallow depressions have, from time to time, appeared in the north-west and the north-east. Over the Peninsula on the contrary pressure has been uniform and relatively high. Dust and thunder storms have been frequent and widely extended in Northern India and scattered occasional showers have been experienced over the central districts of India and parts of the Peninsula. The storms were most general and extensive in the north-west on the 6th and in the north-east on the 7th, but in neither region were the storms so severe or the rain and hail so heavy as those which were experienced in the Surma Valley last week. The mean temperature of the whole country was about normal on the first three days, but was higher than usual during the remainder of the week.

Daily Summary.—*Sunday, April 2nd.*—Pressure had changed irregularly and generally slightly. The barometer read low over Northern India and two shallow depressions were shown,—one over Sind, the other over Assam. Over the Peninsula and the Central Provinces pressure was uniform and relatively high. The winds were between north-west and south-west over Northern India and variable over the Peninsula. The force was generally light to moderate. The weather was feebly unsettled, cloudy and showery over the north-east districts of India, the Central Provinces and the south of the Peninsula. The falls of rain and hail were generally very light, but in the south of the Peninsula falls of between 1 inch and 2¾ inches were recorded. The heat was less than usual over the Peninsula, the central districts of India and the centre of the North-West Provinces, but both in North-West and North-East India the mean temperature was higher than usual. The following variations from the normal explain the distribution:—Jacobabad + 6·4°, Saugor — 3·5° and Bogra +6·4°.

Monday, April 3rd.—The barometer continued to change by small or slight amounts and pressure remained low in Northern India with shallow depressions in the north-west and north-east. Pressure remained fairly uniform over the Peninsula and Central Provinces. The wind directions were fairly normal. At Saugor Island, as is usual at this season, the southerly wind was strengthening. The weather was clear or nearly so of cloud almost everywhere and the rainfall had diminished, only a few light scattered showers being reported. The mean temperature remained high for the time of year over North-West India and Upper Burma, but elsewhere the weather was cooler than usual. At Hoshangabad the variation from the normal was—6·2°, at Ranchi—7·4°, at Silchar—5·3°, and at Mooltan and Sialkot each+7·4°.

Tuesday, April 4th.—The barometer had fallen briskly to rapidly over North-West India and the Gangetic Plain and depressions were shown,—one over Upper Sind, the other over Oudh, in both of which regions the pressure was considerably below the normal. In the Assam Valley the barometer had risen and a high pressure area was appearing; elsewhere the changes were unimportant. The wind directions were generally little changed, but the southerly wind at the head of the Bay continued to increase in strength. There had been a little rain in Assam, and light to moderate showers over the south of the Peninsula, but elsewhere the weather was fine. The mean temperature had generally risen. The heat was greater than usual over North-West India and over Burma, but was low for the time of year elsewhere. The following variations from the normal explain the distribution: Mooltan + 9·2°, Khandwa — 3·9°, Coimbatore — 5·5°, and Toungoo +4·4.

Wednesday, April 5th—The small depression which lay over Upper Sind on the 4th had moved eastward to the neighbourhood of Bickaneer, while that over Oudh had more or less filled up. Pressure was highest in the Upper Assam Valley. The wind had become north-easterly over the Punjab and easterly along the foot of the hills, but elsewhere there had been no important change and the southerly winds at the head of the Bay still blew strongly. A few light showers were reported from the Punjab, the North-West Himalayas, and parts of the Peninsula, but in Assam the rain had ceased. The weather was cool over the south of the Peninsula, Assam, and the greater part of Burma, but was hotter than usual elsewhere. Over the Western desert the excess was between 8° and 10°.

Thursday, April 6th.—The barometer had risen over the Punjab and adjacent parts of the North-West Provinces and of Rajputana, as well as over the Assam Valley, and had generally fallen elsewhere. Pressure was lowest over West Bengal and the east of the North-West Provinces, and was highest in Upper Assam, but a slight high pressure area had appeared over the Punjab. The winds were southerly on the Bay Coasts, easterly along the foot of the hills in Bengal and the North-West Provinces, and more or less variable elsewhere. The force was strong and the wind gusty in Northern India and at the head of the Bay. Duststorms and thunderstorms had occasioned rain over North-West India, North Bengal, and the Assam Valley; but elsewhere the weather was fine. The rainfall amounts were, however, small and only exceeded half-an-inch at one station, Chakrata. The mean temperature was almost everywhere higher than usual, the greatest excess (between 4° and 6°) lying within a band stretching from Sind eastward to Chota Nagpur.

Friday, April 7th.—The barometer had risen briskly over the Gangetic Plain, Bengal, and Lower Burma, and a well-marked high pressure area was developing in the extreme north-east. At the same time pressure was giving way over the Western desert and a shallow depression had appeared over Sind and Rajputana. A very shallow depression was also shown over the east of the Central Provinces. The wind remained southerly on the coasts of the Bay; it was south-easterly and easterly over Bengal and up the north side of the Gangetic Plain as far as the Punjab, while elsewhere the directions were variable. The easterly winds in Northern India and the southerly wind at the head of the Bay

were strong and gusty. The weather was very unsettled with duststorms, thunderstorms and rain in the north-east and slightly unsettled with thunder-showers in the Kumaun Himalayas, but elsewhere fine quiet weather prevailed. The heat was less than usual along the foot of the Himalayas from Sibsagar to Umballa, but elsewhere the mean temperature was higher than usual.

Saturday, April 8th.—The barometer had risen except at one or two west coast stations. The rise had been slight over the Western desert and rapid over the Punjab, so that the depression over the Western desert had concentrated and became better marked. Pressure remained highest in Burma and Assam. A well-marked cyclonic circulation of the winds prevailed over North-West India, but elsewhere the directions were similar to those reported on the 7th. The force remained strong at the head of the Bay and was strong to a gale in North-West India. Thunder and dust storms had occasioned rain over parts of North-West India, of North-East India, and of the south of the Peninsula. Mymensingh had received nearly 4 inches. The mean temperature had changed irregularly. It remained low for the time of year over parts of Burma and Assam, as well as over Bengal and the North Gangetic Plain. Elsewhere the heat was excessive.

Temperature.—The mean temperature during the week under review has been steadily higher than usual over North-West India, the excess in some places and on some days having been large. On the other hand, it has been steadily lower than usual over the west and south of the Peninsula, but elsewhere the temperature has been unsteady and has changed from day to day.

The following table gives the mean temperature variation data for the week :

Province.	April 1899.							Mean variation of week.
	2nd	3rd	4th	5th	6th	7th	8th	
	°	°	°	°	°	°	°	°
Burma	+1·8	+0·7	+1·0	—0·1	+1·4	+2·0	+0·9	+1·1
Assam	+1·7	—1·5	—1·1	—0·8	—1·4	—2·2	—0·8	—0·9
Bengal	+2·1	—1·4	+0·2	+1·1	+1·8	+1·3	—1·3	+0·5
Orissa	—0·5	+0·4	—0·1	+1·1	+1·2	+2·2	+1·1	+0·8
Bihar	+2·7	+0·6	—1·4	+1·3	+2·2	—1·0	—1·8	+0·4
Chota Nagpur	+0·7	—4·0	—0·4	+2·6	+4·4	+4·0	+1·6	+1·7
N.-W. P. and Oudh	+0·3	—0·7	+1·5	+4·0	+3·5	—1·1	—0·5	+1·0
Punjab	+2·1	+4·6	+6·1	+7·5	+1·3	+1·9	+4·4	+4·0
Sind	+3·4	+4·1	+5·6	+7·8	+3·5	+5·0	+5·3	+4·8
Rajputana	+1·2	+2·0	+7·0	+7·8	+4·4	+3·0	+4·8	+4·3
Gujarat	+1·3	+0·9	+4·5	+4·5	+[illegible]·0	+3·0	+2·8	+2·9
Central India	—1·0	—1·1	+1·0	+3·8	+5·4	+1·1	+3·0	+1·9
Central Provinces	—1·1	—2·4	—1·5	+1·3	+3·5	+2·8	+3·7	+0·9
Berar	—1·9	—3·2	—1·7	+1·1	+2·8	+3·2	+4·5	+0·7
West Coast	—1·2	—1·1	—0·7	—0·1	+0·1	+1·5	+0·5	—0·1
Bombay Deccan	—1·4	—2·4	+0·1	+0·9	+0·4	+0·9	+0·9	—0·1
Mysore	—2·5	—2·7	—3·1	—2·0	—0·5	+1·1	+1·1	—1·2
Madras Coast	—0·5	+0·5	—0·2	+0·6	+0·7	+1·3	+1·2	+0·5
Madras Deccan	—1·0	—0·8	—0·3	—0·2	+1·6	+1·7	+1·9	+0·4
South India	—3·1	—2·8	—2·9	—2·8	—1·5	—0·2	+0·2	—1·9
Mean for whole of India	+0·2	—0·5	+0·7	+2·0	+1·9	+1·5	+1·7	+1·1

For the first three days the mean temperature of the whole country was about normal, but on the 5th a rise set in and from that day to the close of the week the heat was excessive In consequence the mean temperature of the whole country for the week was excessive.

The provincial variations show that the heat during the week was less than usual in South India and Mysore, about normal in Assam, Bengal, Orissa, Bihar, the Central Provinces, Berar, the West Coast, the Bombay Deccan, the Madras Coast and the Madras Deccan, and higher than usual elsewhere. The greatest excess was in the Punjab, Sind and Rajputana.

The following were the highest maxima recorded on each day:

April 2nd	. . . . . .	106·6°	at Minbu.
„ 3rd	. . . . . .	106·1°	„ Mandalay.
„ 4th	. . . . . .	107·4°	„ Jacobabad.
„ 5th	. . . . . .	109·3°	„ Do.
„ 6th	. . . . . .	107·8°	„ Ahmedabad.
„ 7th	. . . . . .	108·5°	„ Chaibassa.
„ 8th	. . . . . .	110·3°	„ Jacobabad.

Rainfall.—As mentioned above, the week under review has been one of widely extended unsettled weather. There has been no large or serious storm, but the pressure differences have been moderate, and dust and thunder storms have been widespread and have occasioned rain over a very large part of the country. These storms were most general in Bengal on the 7th and 8th of April; in Assam on the 6th, 7th and 8th; in the North-West Provinces on the 5th and 6th; in the Punjab on the 6th, 7th and 8th; in the south of the Peninsula on the 2nd, 3rd and 4th; in the Central Provinces on the 2nd; and in Madras on the 2nd and 3rd. The above shows that rain fell in some part of the country on all days of the week, but while the falls were moderately heavy in North-Eastern, North-Western and South-Western India, they were very light and scattered in other parts of the country.

The rainfall table at the close of the summary shows that rain averaging one-tenth of an inch or more has been received during the week in no less than seventeen of the rainfall divisions, *viz.*, in the Surma, Hills and Brahmaputra divisions of Assam, East, Central and North Bengal, the hills and west submontane divisions of the North-West Provinces, the south-east and hills divisions of the Punjab, Malabar, South-Central Madras, Coorg, Mysore, the Bombay Deccan, the south of the East Coast and South Madras. Within these seventeen divisions the average actual rainfall ranges from 2·24 inches in the Assam Valley, 1·67 inches in Coorg, 1·38 inches in South-Central Madras, and 1·08 inches in the Assam Hills to 0·11 inch in the South-East Punjab and 0·10 inch in the Bombay Deccan. In addition to the above mentioned seventeen divisions, no less than twenty-two more divisions received rain, though the average fall per division was less than one-tenth of an inch. Still that thirty-nine divisions received rain during the week shows the very large area of country affected by the unsettled weather. The third column of the table shows that the average actual rainfall was heavier than the average normal in the case of seventeen divisions, *viz.*, the Assam Valley, East, Central and North divisions of Bengal, North Bihar, the Hills and the West and West submontane divisions of the North-West Provinces, the South-East Punjab, the Punjab Hills, Malabar, South-Central Madras, Coorg, Mysore, the Konkan, the south of the East Coast and South Madras. Elsewhere the week's rainfall was short of the average, the deficiency being large in Assam Surma, but generally unimportant in the other divisions.

The following were the principal large totals recorded at individual stations during the week:

Assam	Tezpur	4·18 inches.
	Debrugarh	3·56 "
	Sonapur (Gauhati)	2·79 "
Bengal	Mymensingh	4·23 "
	Nator (Rampore Boalia)	1·66 "
	Dinajpur	1·43 "
Bihar	Purnea	1·11 "
N.-W. P.	Bijnor	1·13 "
	Pithoragarh	1·07 "
Punjab	Thanesar (Karnal)	0·74 inch.
Malabar	Perinselmanna	3·70 inches.
Nilgiris	Kodanad	4·23 "
Mysore	Devanhalli	2·05 "
Deccan	Halkalanjada	1·30 "
East Coast	Kangundi (North Arcot)	2·75 "
South Madras	Palamcotta	2·92 "

The three concluding columns of the table give the state of the rainfall for the period 26th February to the 8th of April, and show that in general the actual rainfall is much behind the normal. In the case of the Hill and Brahmaputra divisions of Assam, North Bengal, Malabar, South-Central Madras, Coorg, Mysore, the Konkan and Sind the rainfall has been heavier than usual, but practically in all the remaining divisions it has been short, and in some parts of North-West India—more particularly on the hills—this deficiency has been considerable.

W. L. DALLAS,
Asst. Meteorological Reporter to the Government of India.

SIMLA, *13th April, 1899.*

T. W. HOLDERNESS,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 8th April.*—Light showers fell in parts of the Circars and Bellary, and heavy rain in parts of the Central, West Coast, and Southern districts. The water-supply is becoming exhausted, but is almost normal for the season. Some sowings under irrigation are in progress. The standing crops are generally in good condition, but are suffering from exhaustion of the water-supply in parts. The harvest continues to yield a normal outturn. Pasture has dried up, but fodder is sufficient. The condition of cattle is normal. Prices are almost stationary.

Bombay.—*For week ending 12th April.*—Slight rain fell in parts of six districts. Harvesting of late crops is progressing in twelve and preparations for next season in eighteen districts. Cotton-picking continues in parts of Guzerat and Karnatak. Fodder is sufficient, except in parts of Sind. Agricultural stock is healthy. Prices have risen in seven and fallen in two districts; elsewhere they are stationary.

Bengal.—*For week ending 10th April.*—There was rain during the week in almost all parts of Bengal Proper and in places in North Bihar and in the Balasore and Hazaribagh districts. Ploughing is proceeding rapidly and the sowing of autumn rice and jute is going on in parts. The planting of sugarcane is also in progress. Spring rice is doing well, though some more rain is still required in the Burdwan and Presidency divisions. The spring crops are still being harvested in places. A good crop of *mahua* (*Bassia latifolia*) is being gathered in the Bhagalpur and Chota Nagpore divisions. The fodder-supply is everywhere sufficient, except at Midnapore. Prices continue practically stationary.

North-Western Provinces and Oudh.—*For week ending 12th April.*—The weather was generally unsettled during the week and rain has fallen in several districts. Harvesting of the spring crops is nearly over and threshing and winnowing are in active progress. Extra crops and sugarcane are being sown, planted and irrigated. Opium weighments have commenced. Prospects are favourable and supplies and fodder are sufficient. Prices show a tendency to rise in a few districts, but are generally stationary to falling.

Punjab.—*For week ending 12th April.*—Rain has fallen in all districts, except Delhi, Jullundur, Shahpur, and Peshawar. Harvesting of spring and sowings of extra spring and autumn crops continue. The condition and prospects of the standing irrigated crops are average and of unirrigated crops below average or poor. The yield is generally expected to be below average. Cattle are in fair condition, except in Delhi and parts of Dera Ismail Khan. Fodder is scarce in Delhi, Umballa, Lahore, Shahpur, Dera Ismail Khan, and parts of Hissar, and sufficient elsewhere. Prices, especially of wheat, are rising in Sialkot, Peshawar, and Dera Ismail Khan; falling in Hissar, Jullundur, and Rawalpindi;

and are unchanged elsewhere. Wheat is selling from 16¾ to 21½, gram 20 to 23½, barley 32, bulrush-millet 19 to 29, maize 28 to 39, great millet 20, and rice 13 to 14 seers per rupee.

Central Provinces.—*For week ending 11th April.*—The weather is hot and occasionally cloudy, and high winds prevail almost everywhere. Slight showers of rain fell in eight districts. The threshing of spring crops is approaching completion and the planting of sugarcane continues in Bhandara and Sambalpur. In Saugor labourers find occupation in gathering *mahua* (*Bassia latifolia*) and other minor products from Government forests. In parts of Damoh also the forests have been thrown open to the poorer classes and village relief is being organised in the northern half of that district. The water-supply is becoming scanty in some villages of the Mandla, Betul, Wardha, and Chhindwara districts. Fodder is reported insufficient in parts of Seoni, Wardha, Nagpur, and Sambalpur. The price of wheat, gram, rice, and *juar* has fallen in some districts, and has slightly risen in others. A tendency to rise is shown mainly in the Jubbulpore division, but both there and elsewhere prices are below normal, the cheapest being—wheat 21, gram 35, rice 22, and *juar* 29 seers per rupee; the dearest prices are—wheat 12, gram 18, rice 10, and *juar* 19 seers per rupee.

Burma.—*For week ending 8th April.*—In Upper Burma sowing and transplanting of dry weather paddy are not yet completed in some districts. The crop promises well, except in Mandalay, where prospects are poor and in a few villages of the Ruby Mines district in which more water is needed. Wheat is being harvested in Sagaing and reaping of miscellaneous crops is progressing generally in Myitkyina and the Ruby Mines district. Land is being cleared for cultivation of hill side paddy. The price of paddy has fallen slightly in Rangoon, Pegu, and Pakôkku, and has risen in Amherst.

Assam.—*For week ending 11th April.*—Rain in most districts has facilitated cultivation. Ploughing for and sowing of early and late broadcast rice continue. Transplanted early rice is somewhat damaged by rise of water in Sunamganj. Plucking of tea is in progress and prospects are generally good, except in Cachar, where red spider and blight prevail. Pressing of sugarcane is nearly finished; the outturn is poor in Sylhet, elsewhere it is generally good. Ploughing for and sowing of jute continue in Goalpara and Sylhet. Prices—common rice—Sylhet 19; Silchar, Dhubri, Gauhati, and Nowgong 16; Tezpur 15; Sibsagar 10; and Dibrugarh 14 seers per rupee.

Mysore and Coorg.—*For week ending 12th April.*—MYSORE: Rainfall 53 cents in the Civil and Military station and slight rain in parts of the Province. The standing crops are in good condition. Prices have slightly fallen in Bangalore, Hassan, and Shimoga; and have risen in Kolar, Kadur, and Mysore.

COORG: Rainfall 17 cents. Coffee has blossomed. Prices of food-grains are stationary. Water and fodder for cattle are sufficient.

Berar and Hyderabad.—*For week ending 12th April.*—BERAR: The weather is warm and occasionally cloudy. Preparation of land for the ensuing rain crop continues. Scarcity of fodder and water prevails in parts of the Province. Prices are fluctuating.

NOTE.—In the Assam report for the week ending 4th April *delete* the words "and heavy rain from Sylhet".

HYDERABAD: No rain during the week. The spring harvest is progressing and the standing winter rice crop is in fairly good condition. Prices of grain continue steady. Prices—wheat 9¾, coarse rice 10¼, and *jowari* 24 seers per current sicca rupee.

Central India.—*For week ending 12th April.*—No rain during the week. Agricultural operations are in progress throughout Central India. The standing crops are in fairly good condition. Prices continue above normal in Bundelkhand. The condition of the opium crop is fair in Malwa and good in Gwalior and Bhopal.

Rajputana.—*For week ending 12th April.*—Agricultural operations are progressing satisfactorily, except in Merwara. The state of the crops is generally good, except in Ajmere-Merwara, where it is fair. The harvesting of crops is almost completed. Cattle are in poor condition in Marwar, Haraoti, and Ajmere; elsewhere they are in good condition. Fodder scarcity prevails in States reported last week. Prices are falling in two States and are steady elsewhere. Twenty persons emigrated from Ajmere and seven from Merwara during the week. The total emigration from Merwara up to date numbers 4,342. The numbers employed on relief works were—440 in Ajmere, 3 262 in Merwara, and 970 in Marwar. Prices—Ajmere 20⅓, Beawar 22, and Marwar 15 seers per rupee. The water-supply threatens to fail in Kherwara and remedial operations have been started.

Kashmir.—*For week ending 11th April.*—Rain fell during the week. The prospects of the spring crops are excellent. Prices continue below normal. Rice—27 seers per rupee.

JAMMU PROVINCE.—*For week ending 12th April.*—Slight rain fell during the week. Prices are stationary. Wheat is selling at 18 and maize 25 seers per rupee. The condition of the standing crops is fair. Fodder is scarce.

Nepal.—*For week ending 8th April.*—Rainfall 0·34 inch. The weather is cold, windy, and stormy. Crop prospects are good. The price of rice is 9⅓ seers per rupee.

T. W. HOLDERNESS,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

No. 11—124-2.

Extract from the Proceedings of the Government of India, Department of Revenue and Agriculture (Civil Veterinary Administration),—dated Simla, the 7th April, 1899.

Read—

The Annual Report of the Civil Veterinary Department in India for the official year 1897-98.

RESOLUTION.

The Report of the Civil Veterinary Department for the year 1897-98 shows satisfactory progress in all directions. The results of the famine in the shape of high prices and scarcity of fodder continued to affect the operations of the Department and added in no small degree to the anxieties of the Inspector General and his officers The number of Government stallions employed was somewhat smaller than in the previous year. The average number of mares covered per Government stallion employed in the three most important breeding centres—the North-Western Provinces, North Punjab and South Punjab—fell from 52 to 49. The Government of India, however, agree with the Inspector General that, considering the sufferings of these Provinces from scarcity, and the strain on the resources of the Punjab caused by the frontier campaigns, it is satisfactory that the decrease was not more marked. The increase in the corresponding figures for Baluchistan, which is one of the best breeding-grounds, is very satisfactory.

As in the previous year the high cost of feed and keep of Government stallions was unavoidable. The Inspector General exercised the closest personal supervision over expenditure under this head in all the Provincial departments under his charge, and the Government of India are satisfied that the utmost possible economy was observed.

The condition of the Bombay market for Arab stallions during the year was most unsatisfactory. In 1896-97 only half the usual number of horses was landed, but in the year under review, owing to previous losses sustained by dealers and fear of plague, only 1,500 horses were landed against a yearly average under normal conditions of 5,000. Under circumstances so unfavourable, it is creditable to Veterinary Colonel Queripel that he obtained the requisite number of Arab stallions of high class.

The suggestions for remedying existing defects in the accommodation provided for stallions on board hired transports have been referred to a Committee appointed to consider the matter.

2. The removal of the Punjab Stallion Depôt at Babugarh to a site near the cantonment of Abbottabad has now been practically approved, and the plans and estimates for the new buildings are at present under the consideration of the Government of India. The location of the stables on the new site should have the best results, as regards the acclimatization and treatment of horses, and is likely to act as a stimulus to horse-breeding in the Punjab generally.

3. Steps have been taken to carry into effect the proposal of the Inspector General that the attention of Officers Commanding British Cavalry Regiments mounted on country-breds should be specially directed to the working of those horses whose pedigrees are known, for the purpose of comparing the working capabilities of horses got by the different classes of sires.

4. There was a reduction, for the most part due to the destruction of old donkeys who were no longer fit for breeding, in the number of donkey stallions employed as compared with the figure for the preceding year.

Similarly, there was a falling off in the percentage of mares covered per donkey stallion employed. These reductions were due to the peculiar circumstances of the year, considering which the results shown are satisfactory In addition to scarcity there was the demand for transport for the late frontier expeditions, which undoubtedly caused a serious drain on the pony-mare supply, and of which the effect is likely to be seen to a still greater extent in the figures for 1898-99. To meet the demand for donkey stallions which exceeds the supply, the purchase of 25 additional jacks per annum for the next three years has recently been sanctioned.

5. The increase in the number of branded mares is satisfactory. Little advantage has been taken of the concession granted a few years ago of allowing unbranded mares to be covered on certificates granted by District Officers. The Government of India, however, agree that there is no harm in giving the system a further trial except in the Bombay Presidency proper, where no reasons for its continuance exist. There was a slight falling off in the total number of mares covered, but considering the various unfavourable conditions of the year the results are not unsatisfactory.

6. Though the season was less unfavourable to horse fairs and shows than the preceding year, owing to the plague and other causes a certain number could not be held, whilst in other cases the attendance was below the average. There was a falling off in the number of purchases made by the Army Remount Department, but the class of animals obtained was well up to the average of former years. On the other hand, the purchases made by the Native Cavalry exceeded by 94 the figure for the preceding year. It is satisfactory that the award of silver medals to owners of the best collections of brood mares and young stock is so much appreciated and continues to excite keen competition.

7. The Instruction Farms continue to fulfil a useful purpose. It was thought advisable during the year to sell the pony and donkey mares attached to the two Farms and gradually to increase the stock of big mares. The changes will have the advantage, amongst others, of enabling experiments to be carried out as to the value of the different crosses.

8. A considerable advance was made during the year towards completing the equipment of the bacteriological laboratory at Muktesar and placing the staff on a thoroughly satisfactory footing. As the result of an informal conference held at Simla which was attended by Veterinary-Colonel Queripel and Dr. Lingard, a Veterinary Officer has been posted as Assistant to the Imperial Bacteriologist to attend to the practical work outside the laboratory, as well as to assist in the laboratory itself. A trained German head laboratory assistant has been attached to the laboratory, and most of the buildings and appliances required have been provided. Government have unfortunately been deprived temporarily of Dr. Lingard's services owing to his being obliged to take sick leave, but Captain Leonard Rogers, I.M.S., has been appointed to carry on his work, and a number of important experiments are in progress in connection with rinderpest, whilst the manufacture of mallein and other reagents is being carried on. It is a source of satisfaction to Government that the laboratory is at length in working order and the various objects of the institution are being actively pursued.

Operations under the Glanders and Farcy Act have been extended during the year. In particular the Act was amended in order to meet the paucity of qualified Veterinary Practitioners in the North-Western Provinces and Oudh by utilizing with the express permission of the military authorities the services of Veterinary Officers of the Army Veterinary Department in cases of urgent necessity. Rules have been framed for the working of the Act in the Hyderabad Assigned Districts, and the difficulty caused by the absence of any qualified Veterinary Practitioner has been met by the appointment as Veterinary Surgeon under section 7 of the Act of the Superintendent, Civil Veterinary Department, or, in his absence, of the Senior Veterinary Assistant. Glanders was prevalent in most of the Provinces, but not to any serious extent except in Bombay City. Further information has been collected regarding *surra* disease which shows how widespread this fatal malady is. So far inquiries have been confined to the Punjab and the North-Western Provinces, and investigations should be directed to ascertaining whether the disease affects animals elsewhere in the Indian Peninsula and, if so, to what extent. It is to be regretted

that no progress has been made in investigating the Ludhiana disease or anthrax. The Imperial Bacteriologist may possibly be able to undertake this duty in the near future.

9. It is satisfactory that the Inspector General has succeeded in inducing the railway companies to adopt a uniform system for the cleansing of horse-boxes and railway trucks, and that the railways have now definitely adopted a uniform set of rules for this purpose.

10. The Inspector General's account of horse-breeding in the Native States shows a satisfactory state of things, and it is evident that the *durbars* generally conduct their operations with energy and intelligence.

11. There was a slight falling off in the number of horse, pony and donkey stallions maintained by District Boards, but the interest taken in horse-breeding by local bodies, more especially in Northern India, is well maintained and the demand for suitable stallions considerably exceeds the supply. The Arab sire maintains his popularity with the owners of mares, and there was an increase in the number of coverings and of foals. Pony-breeding continues to yield most encouraging results, the fillies produced not only being sufficiently well developed to admit of their being branded and served by Imperial stallions, but in a few instances being up to the remount standard.

12. Much attention was paid during the year to the investigation and prevention of cattle disease, and opportunity was taken of the visit of Dr. Koch to this country to depute as many officers as possible to attend the demonstrations of his methods kindly given by him at Muktesar.

13. Much good work was done in the veterinary dispensaries during the year and there is ample evidence of the steady increase of these institutions in popularity. Bombay still leads the way as regards numbers, but Bengal is rapidly drawing up, and the Punjab and the Central Provinces are doing their best with limited resources. The utility of dispensaries as a means not only of alleviating much suffering but of enlisting the sympathies and securing the confidence of the people in Western veterinary methods cannot be overestimated, and it is earnestly to be hoped that in provinces like Madras, where at present not a single dispensary exists, and in the North-Western Provinces, where there is only one, there will be no unavoidable delay in taking action in the matter.

14. The results of the final examinations held at the Veterinary Schools were generally satisfactory, the Lahore Veterinary School being the most successful. At the Bombay School only 7 out of 14 passed; but the fact that the curriculum of study is altogether of a higher standard, and the tests somewhat more stringent there than at other schools, is no doubt partly responsible for the somewhat disappointing result.

15. In conclusion the Government of India desire to endorse the tribute paid by the Inspector General to the excellent work of the officers of the Department, and are glad again to acknowledge the care, zeal, and energy with which Veterinary-Colonel Queripel carried on the administration of the Department in a year of more than ordinary difficulty.

To the Government of Madras.

ORDER.—Ordered, that a copy of the foregoing Resolution be forwarded to the Local Governments and Administrations noted in the margin.

ORDERED, also, that a copy be forwarded to the Military Department for information and favour of communication to the Director, Army Remount Department, the Commissary-General-in-Chief, and the Adjutant General in India, for the information of His Excellency the Commander-in-Chief and of Officers Commanding Regiments of Native Cavalry.

Ordered, also, that a copy be forwarded to the Inspector .General, Civil Veterinary Department, for information and to the Director-General, Indian Medical Service, for communication to the Imperial Bacteriologist.

Ordered, also, that a copy be published in the Supplement to the *Gazette of India.*

[True Extract.]

T. W. HOLDERNESS,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
PUBLIC WORKS DEPARTMENT.
RAILWAY STATISTICS.

STATEMENT OF APPROXIMATE GROSS EARNINGS OF INDIAN RAILWAYS FROM 1ST JANUARY TO 31ST MARCH 1898, AND FROM 1ST JANUARY TO 31ST MARCH 1899.

N.B.—As regards the figures in column *Total Earnings from 1st January 1899*, audited figures have been used, as far as possible.

Railway.	Average earnings per mile per week during the 1st half of 1898.	Last 12 days of March 1898.			Last 13 days of March 1899.			Earnings from 1st January to 31st March 1898.	Earnings from 1st January to 31st March 1899.	Increase.	Decrease.
		Mean mileage worked.	Earnings. Total.	Earnings. Per mile open.	Mean mileage worked.	Earnings. Total.	Earnings. Per mile open.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 1st April, 1899.

No. 841 (*a*)-*I.-B*—Whereas the Governor-General in Council has power and jurisdiction within the Cantonment of Sutna within the limits of the Central India Agency:

In exercise of this jurisdiction and of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, 1879 (XXI of 1879), and of all other powers enabling him in this behalf, and in modification of the notification of the Government of India in the Foreign Department cited in the margin, the Governor-General in Council is pleased to apply to the said local area the provisions, so far as they may be applicable, of the Code of Criminal Procedure, 1898 (Act V of 1898):

No. 4370-I., dated the 28th November 1892.

Provided that all references to the Code of Criminal Procedure of 1882 in the said notification shall be construed as referring to the corresponding provisions of the Code of Criminal Procedure, 1898 (Act V of 1898), and that the latter Code, as now applied, shall be subject to the provisions of the said notification so construed.

No. 841 (*b*)-*I.-B.*—In exercise of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, 1879 (XXI of 1879), and of all other powers enabling him in this behalf, the Governor-General in Council is pleased to apply to the Indore and Gwalior Residencies, the Cantonment and Civil Lines of Nowgong, the Cantonments of Mhow, Neemuch, Sehore, Sirdarpur, Sutna and Agar, and that portion of the Agra and Bombay Road between Manpur and Bijasini Chowki which passes through the Bhopawar Agency, the following portions of the Police Act, 1861 (V of 1861), in the modified form set forth in the first schedule annexed hereto.

2. The notifications of the Government of India in the Foreign Department specified in the second schedule, annexed hereto, are hereby superseded to the extent set forth in the third column thereof.

THE FIRST SCHEDULE.

The Police Act, 1861, as modified and applied.

Whereas it is expedient to re-organize the police and to make it a more efficient instrument for the prevention and detection of crime; It is enacted as follows:

Interpretation-clause.

1. The following words and expressions in this Act shall have the meaning assigned to them unless there be something in the subject or context repugnant to such construction, that is to say:

The words "general police-district" shall embrace the local areas comprising the Indore and Gwalior Residencies, the Cantonment and Civil Lines of Nowgong, the Cantonments of Mhow, Neemuch, Sehore, Sirdarpur, Sutna and Agar, and that portion of the Agra and Bombay Road between Manpur and Bijasini Chowki which passes through the Bhopawar Agency.

The words "Magistrate of the district" shall mean, as regards the Cantonments of Mhow, Neemuch and Nowgong, the Cantonment Magistrates, and, as regards the Indore and Gwalior Residencies, the Civil Lines of Nowgong, the Cantonments of Sehore, Sirdarpur, Sutna and Agar, and the Agra and Bombay Road, the officer or respective officers exercising within the said local areas respectively the powers of a District Magistrate as described in the Code of Criminal Procedure, 1898:

The word "Magistrate" shall include all persons within the general police-district exercising all or any of the powers of a Magistrate:

The word "police" shall include all persons appointed under this Act:

The words "District Superintendent" and "District Superintendent of Police" shall include any Assistant District Superintendent or other person appointed by the general or special order of the Agent to the Governor-General in Central India to perform all or any of the duties of a District Superintendent of Police under this Act:

The word "property" shall include any moveable property, money or valuable security:

Words importing the singular number shall include the plural number, and words importing the plural number shall include the singular number:

Words importing the masculine gender shall include females:

The word "person" shall include a company or corporation:

The word "month" shall mean a calendar month:

The provisions of this Act relating to cattle shall apply also to elephants, camels, horses, asses, mules, sheep, goats and swine.

Superintendence in the Agent to the Governor-General.

3. The superintendence of the police throughout the general police-district shall vest in, and, subject to the general control of the Governor-General in Council, be exercised by the Agent to the Governor-General in Central India, and, except as authorized under the provisions of this Act, no person, officer or Court shall be empowered by the Agent to the Governor-General to appoint, supersede or control any police functionary.

Inspector-General of Police, etc.

4. The administration of the police throughout the general police-district shall be vested in the person for the time being holding the office of Assistant to the Agent to the Governor-General in Central India, to be styled the Inspector-General of Police, and, under the general control and direction of the Magistrate of the district, in a District Superintendent or Assistaut District Superintendent of Police.

* * * * * * * * *

Appointment, dismissal and punishment of inferior officers.

7. The appointment of all police-officers other than those mentioned in section 4 of this Act shall, under such rules as the Agent to the Governor-General in Central India shall from time to time sanction, rest with the Inspector-General and the District Superintendent or Assistant District Superintendent of Police—

who may, under such rules as aforesaid, at any time dismiss, suspend or reduce any police-officer whom they shall think remiss or negligent in the discharge of his duty, or unfit for the same,

or may award any one or more of the following punishments to any police-officer who shall discharge his duty in a careless or negligent manner, or who by any act of his own shall render himself unfit for the discharge thereof, namely:

(*a*) fine to any amount not exceeding one month's pay;

(*b*) confinement to quarters for a term not exceeding fifteen days, with or without punishment drill, extra guard, fatigue or other duty;

(*c*) deprivation of good-conduct pay;

(*d*) removal from any office of distinction or special emolument.

8. Every police-officer so appointed shall receive on his appointment a certificate in the form annexed to this Act, under the signature of the Inspector-General or such other officer as the Inspector-General may appoint, by virtue of which the person holding such certificate shall be vested with the powers, functions and privileges of a police-officer.

Certificates of appointment.

Such certificate shall cease to have effect whenever the person named in it ceases for any reason to be a police-officer, and, on his ceasing to be such an officer, shall be forthwith surrendered by him to any officer empowered to receive the same.

A police-officer shall not, by reason of being suspended from office, cease to be a police-officer During the term of such suspension the powers, functions and privileges vested in him as a police officer shall be in abeyance. but he shall continue, subject to the same responsibilities, discipline and penalties and to the same authorities, as if he had not been suspended.

9. No police-officer shall be at liberty to withdraw himself from the duties of his office unless expressly allowed to do so by the District Superintendent or Assistant District Superintendent or, without the leave of the District Superintendent or Assistant District Superintendent, to resign his office, unless he shall have given to his superior officer notice, in writing, for a period of not less than two months of his intention to resign.

Police-officer not to resign without leave or two months' notice.

10. No police-officer shall engage in any employment or office whatever other than his duties under his Act, unless permitted to do so by the Inspector-General.

Police-officers not to engage in other employment.

* * * * * * * * *

12. The Inspector-General of Police may, from time to time, subject to the approval of the Agent to the Governor-General in Central India, frame such orders and rules as he shall deem expedient relative to the organization, classification and distribution of the police force, the places at which the members of the force shall reside and the particular services to be performed by them; their inspection, the description of arms, accoutrements and other necessaries to be furnished to them; the collecting and communicating by them of intelligence and information; and all such other orders and rules relative to the police force as the Inspector-General shall, from time to time, deem expedient for preventing abuse or neglect of duty, and for rendering such force efficient in the discharge of its duties.

Power of Inspector-General to make rules.

13. It shall be lawful for the Inspector-General of Police or for the District Superintendent or Assistant District Superintendent, subject to the general direction of the Magistrate of the district, on the application of any person showing the necessity thereof to depute any additional number of police-officers to keep the peace at any place within the general police district and for such time as shall be deemed proper. Such force shall be exclusively under the orders of the District Superintendent or Assistant District Superintendent, and shall be at the charge of the person making the application:

Additional police-officers employed at cost of individuals.

Provided that it shall be lawful for the person on whose application such deputation shall have been made, on giving one month's notice in writing to the Inspector-General or to the District Superintendent or Assistant District Superintendent, to require that the police-officers so deputed shall be withdrawn; and such person shall be relieved from the charge of such additional force from the expiration of such notice.

* * * * * * * * *

16. (1) All moneys payable under section 13 shall be recoverable by the Magistrate of the district in the manner provided by sections 386 and 387 of the Code of Criminal Procedure, 1898, for the recovery of fines, or by suit in any competent Court.

Recovery of moneys payable under section 13 and disposal of same when recovered.

(2) All moneys paid or recovered under section 13 shall be credited to a fund to be called "The General Police Fund" and shall be applied to the maintenance of the police force under such orders as the Agent to the Governor-General in Central India shall pass.

17. When it shall appear that any unlawful assembly or riot or disturbance of the peace has taken place, or may be reasonably apprehended, and that the police force ordinarily employed for preserving the peace is not sufficient for its preservation and for the protection of the inhabitants and the security of property in any part of the general police-district, it shall be lawful for any police-officer, not below the rank of Inspector, to apply to the nearest Magistrate to appoint so many of the residents therein as such police-officer may require to act as special police-officers for such time and within such limits as he shall deem necessary; and the Magistrate, to whom such application is made, shall, unless he sees cause to the contrary, comply with the application.

Special police-officers.

18. Every special police-officer so appointed shall have the same powers, privileges and protection, and shall be liable to perform the same duties, and shall be amenable to the same penalties, and be subordinate to the same authorities, as the ordinary officers of police.

Powers of special police-officers.

2

19. If any person being appointed a special police-officer as aforesaid shall, without sufficient excuse, neglect or refuse to serve as such, or to obey such lawful order or direction as may be given to him for the performance of his duties, he shall be liable, upon conviction before a Magistrate, to a fine not exceeding fifty rupees for every such neglect, refusal or disobedience.

Refusal to serve as special police-officers.

* * * * * * * * *

22. Every police-officer shall, for all purposes in this Act contained, be considered to be always on duty, and may at any time be employed as a police-officer in any part of the general police-district, as the Inspector-General of Police may direct.

Police-officers always on duty and may be employed in any part of certain areas.

23. It shall be the duty of every police-officer promptly to obey and execute all orders and warrants lawfully issued to him by any competent authority; to collect and communicate intelligence affecting the public peace; to prevent the commission of offences and public nuisances; to detect and bring offenders to justice; and to apprehend all persons whom he is legally authorized to apprehend, and for whose apprehension sufficient ground exists; and it shall be lawful for every police-officer for any of the purposes mentioned in this section without a warrant, to enter and inspect any drinking-shop, gaming-house or other place of resort of loose and disorderly characters.

Duties of police-officers.

24. It shall be lawful for any police-officer to lay any information before a Magistrate, and to apply for a summons, warrant, search-warrant or such other legal process as may by law issue against any person committing an offence.

Police-officers may lay information, etc.

25. It shall be the duty of every police-officer to take charge of all unclaimed property, and to furnish an inventory thereof to the Magistrate of the district.

Police-officer to take charge of unclaimed property, and be subject to Magistrate's orders as to disposal.

Police-officers shall be guided, as to the disposal of such property, by such orders as they shall receive from the Magistrate of the district.

26. (1) The Magistrate of the district may detain the property and issue a proclamation specifying the articles of which it consists, and requiring any person who has any claim thereto to appear and establish his right to the same within six months from the date of such proclamation.

Magistrate may detain property and issue proclamation.

(2) The provisions of section 525 of the Code of Criminal Procedure, 1898, shall be applicable to property referred to in this section

27. (1) If no person shall within the period allowed claim such property, or the proceeds thereof, if sold, it may, if not already sold under sub-section (2) of the last preceding section, be sold under the orders of the Magistrate of the district.

Confiscation of property if no claimant appears.

(2) The sale proceeds of property sold under the preceding sub-section and the proceeds of property sold under section 26, to which no claim has been established, shall be at the disposal of Government.

28. Every person having ceased to be a police-officer under this Act, who shall not forthwith deliver up his certificate and the clothing, accoutrements, appointments and other necessaries which shall have been supplied to him for the execution of his duty, shall be liable, on conviction before a Magistrate, to a penalty not exceeding two hundred rupees or to imprisonment, with or without hard labour, for a period not exceeding six months or to both.

Persons refusing to deliver up certificate, etc., on ceasing to be police-officers.

29. Every police-officer who shall be guilty of any violation of duty or wilful breach or neglect of any rule or regulation or lawful order made by competent authority,

Penalties for neglect of duty, etc.

or who shall withdraw from the duties of his office without permission, or without having given previous notice for the period of two months, or who, being absent on leave, shall fail, without reasonable cause, to report himself for duty on the expiration of such leave,

or who shall engage without authority in any employment other than his police duty,

or who shall be guilty of cowardice,

or who shall offer any unwarrantable personal violence to any person in his custody,

shall be liable, on conviction before a Magistrate, to a penalty not exceeding three months' pay, or to imprisonment, with or without hard labour, for a period not exceeding three months, or to both.

30. (1) The District Superintendent or Assistant District Superintendent of Police may, as occasion requires, direct the conduct of all assemblies and processions on the public roads, or in the public streets or thoroughfares, and prescribe the routes by which, and the times at which, such processions may pass.

Regulation of public assemblies and processions, and of music in the streets.

(2) He may also, on being satisfied that it is intended by any person or class of persons to convene or collect an assembly in any such road, street or thoroughfare, or to form a procession which would, in the judgment of the Magistrate of the district or of the sub-division of a district, if uncontrolled, be likely to cause a breach of the peace, require by general or special notice that the persons convening or collecting such assembly or directing or promoting such procession shall apply for a license.

(3) On such application being made, he may issue a license specifying the names of the licensees and defining the conditions on which alone such assembly or such procession is to be permitted to take place, and otherwise giving effect to this section, provided that no fee shall be charged on the application for, or grant of, any such license.

(4) He may also regulate the extent to which music may be used in the streets on the occasion of festivals and ceremonies.

Powers with regard to assemblies and processions violating conditions of license.

30-A. (1) Any Magistrate or District Superintendent of Police or Assistant District Superintendent of Police or Inspector of Police or any police-officer in charge of a station may stop any procession which violates the conditions of a license granted under the last foregoing section, and may order it or any assembly which violates any such conditions as aforesaid to disperse.

(2) Any procession or assembly, which neglects or refuses to obey any order given under the last preceding sub-section, shall be deemed to be an unlawful assembly.

Police to keep order in public roads, etc.

31. It shall be the duty of the police to keep order on the public roads, and in the public streets, thoroughfares, ghâts and landing-places, and at all other places of public resort, and to prevent obstructions on the occasions of assemblies and processions on the public roads and in the public streets, or in the neighbourhood of places of worship during the time of public worship, and in any case when any road, street, thoroughfare, ghât or landing-place may be thronged or may be liable to be obstructed.

Penalty for disobeying orders issued under last three sections, etc.

32. Every person opposing or not obeying the orders issued under the last three preceding sections, or violating the conditions of any license granted by the District Superintendent or Assistant District Superintendent of Police for the use of music, or for the conduct of assemblies and processions, shall be liable, on conviction before a Magistrate, to a fine not exceeding two hundred rupees.

Saving of control of Magistrate of district.

33. Nothing in the last four preceding sections shall be deemed to interfere with the general control of the Magistrate of the district over the matters referred to therein.

Punishment for certain offences on roads, etc.

34. Any person who, on any road or in any open place or street or thoroughfare within the general police-district, commits any of the following offences to the obstruction, inconvenience, annoyance, risk, danger or damage of the residents or passengers, shall, on conviction before a Magistrate, be liable to a fine not exceeding fifty rupees or to imprisonment not exceeding eight days; and it shall be lawful for any police-officer to take into custody, without a warrant, any person who within his view commits any of such offences, namely:

Slaughtering cattle, furious riding, etc.

1st.—Any person who slaughters any cattle or cleans any carcass; any person who rides or drives any cattle recklessly or furiously, or trains or breaks any horse or other cattle.

Cruelty to animals.

2nd.—Any person who wantonly or cruelly beats, abuses or tortures any animal.

Obstructing passengers.

3rd.—Any person who keeps any cattle or conveyance of any kind standing longer than is required for loading or unloading or for taking up or setting down passengers, or who leaves any conveyance in such a manner as to cause inconvenience or danger to the public.

Exposing goods for sale.

4th.—Any person who exposes any goods for sale.

Throwing dirt into streets, etc.

5th.—Any person who throws or lays down any dirt, filth, rubbish or any stones or building materials; or who constructs any cow-shed, stable or the like; or causes any offensive matter to run from any house, factory, dung-heap or the like.

Being found drunk or riotous.

6th.—Any person who is found drunk or riotous or who is incapable of taking care of himself.

7th.—Any person who wilfully and indecently exposes his person, or any offensive deformity or disease, or commits nuisance by easing himself, or by bathing or washing in any tank or reservoir not being a place set apart for that purpose.

Indecent exposure of person.

8th.—Any person who neglects to fence in or duly to protect any well, tank or other dangerous place or structure.

Neglect to protect dangerous places.

35. Every charge against a police-officer above the rank of a constable under this Act shall be enquired into and determined only by a Magistrate of the first class.

Jurisdiction.

36. Nothing contained in this Act shall be construed to prevent any person from being prosecuted under any other Regulation or Act for any offence made punishable by this Act or from being liable, under any other Regulation or Act, to any other or higher penality or punishment than is provided for such offence by this Act:

Power to prosecute under other law not affected.

Provided that no person shall be punished twice for the same offence.

37. The provisions of sections 64 to 70, both inclusive, of the Indian Penal Code, and of sections 386 to 389, both inclusive, of the Code of Criminal Procedure, 1898, with respect to fines, shall apply to penalties and fines imposed under this Act on conviction before a Magistrate:

Recovery of penalties and fines imposed by Magistrates.

Provided that, notwithstanding anything contained in section 65 of the first-mentioned Code, any person sentenced to fine under section 34 of this Act may be imprisoned in default of payment of such fine for any period not exceeding eight days.

* * * * * * * * *

41. All sums paid for the service of process by police-officers, and all rewards, forfeitures and penalties, or shares of rewards, forfeitures and penalties, which by law are payable to informers, shall, when the information is laid by a police-officer, be paid into the General Police Fund.

Rewards to police and informers payable to General Police Fund.

42. Notice in writing of all actions and prosecutions against any person, which may be lawfully brought for anything done or intended to be done under the provisions of this Act or under the general police powers hereby given, and of the cause thereof, shall be given to the defendant, or to the District Superintendent or Assistant District Superintendent of Police, one month at least before the commencement of the action.

Notice of actions and prosecutions and tender of amends.

No plaintiff shall recover in any such action if tender of sufficient amends shall have been made before such action brought, or if a sufficient sum of money shall have been paid into Court after such action brought, by or on behalf of the defendant, and, though a decree shall be given for the plaintiff in any such action, such plaintiff shall not have costs against the defendant, unless the Judge before whom the trial is held shall certify his approbation of the action:

Provided always that no action shall in any case lie where such officers shall have been prosecuted criminally for the same act.

43. When any action or prosecution shall be brought or any proceedings held against any police-officer for any act done by him in such capacity, it shall be lawful for him to plead that such act was done by him under the authority of a warrant issued by a Magistrate.

Plea that act was done under warrant.

Such plea shall be proved by the production of the warrant directing the act, and purporting to be signed by such Magistrate, and the defendant shall thereupon be entitled to a decree in his favour, notwithstanding any defect of jurisdiction in such Magistrate. No proof of the signature of such Magistrate shall be necessary, unless the Court shall see reason to doubt its being genuine:

Provided always that any remedy, which the party may have against the authority issuing such warrant, shall not be affected by anything contained in this section.

44. It shall be the duty of every officer in charge of a police-station to keep a general diary in such form as shall, from time to time, be prescribed by the Agent to the Governor-General in Central India, and to record therein all complaints and charges preferred, the names of all persons arrested, the names of the complainants, the offences charged against them, the weapons or property that shall have been taken from their possession or otherwise, and the names of the witnesses who shall have been examined.

Certain police-officers to keep diaries.

The Magistrate of the district shall be at liberty to call for and inspect such diary.

45. The Agent to the Governor-General in Central India may direct the submission of such returns by the Inspector-General and other police-officers, as to him shall seem proper and may prescribe the form in which such returns shall be made.

Agent to the Governor-General may prescribe form of returns.

46. (1) The Agent to the Governor-General in Central India may, from time to time, by notification in the Central India Agency Orders, make rules consistent with this Act—

Powers of Agent to the Governor-General to make rules.

(a) to regulate the procedure to be followed by Magistrates and police-officers in the discharge of any duty imposed upon them by or under this Act, and,

(b) generally, for giving effect to the provisions of this Act.

(2) All rules made under this Act may, from time to time, be amended, added to or cancelled by the Agent to the Governor-General in Central India.

FORM.

(See section 8.)

A. B. has been appointed a member of the police force under the Police Act, 1861, as applied to the Indore and Gwalior Residencies, the Cantonment and Civil Lines of Nowgong, the Cantonments of Mhow, Neemuch, Sehore, Sirdarpur, Sutna and Agar, and part of the Agra and Bombay Road, for the purposes of the said Act, and is vested with the powers, functions and privileges of a police-officer.

THE SECOND SCHEDULE.

Number and date.	Part superseded.	Remarks.
No. 1375-I., dated the 25th April 1890.	Paragraph 1, clause (5) . .	Makes certain modifications in section 12 of Act XIII of 1889 as applied to the Cantonment of Mhow.
No. 1376-I., dated the 25th April 1890.	Paragraph 1, clause (5) . .	Ditto as regards the Cantonment of Neemuch.
No. 5022-I., dated the 24th December 1891.	So much of Part I as refers to Act XX of 1856 or Act V of 1861 and the whole of Part IV.	Part I applies Act XX of 1856 to the Cantonment and Civil Lines of Nowgong, and section 34 of Act V of 1861 to the Cantonments of Nowgong, Mhow and Neemuch and the Civil Lines of Nowgong. Part IV vests the administration of the police in the Cantonment Magistrate controlled by the Officer Commanding the Cantonment.
No. 5024-I., dated the 24th December 1891.	Paragraph 1, clause (7) . .	Makes certain modifications in section 12 of Act XIII of 1889 as applied to the Cantonment of Nowgong.

W. J. CUNINGHAM,

Secretary to the Government of India.

The 18th April, 1899.

No. 560-*G.*—Mr. A. Warden, Adjutant of the Okhamandal Battalion, is appointed to officiate as Assistant to the Resident at Baroda in charge of the Okhamandal District, with effect from the date of assuming charge, and during the absence on privilege leave of Mr. H. Harrison, or until further orders.

The 19th April, 1899.

No. 573-*G.*—Captain M. A. Tighe, Indian Staff Corps, a Political Assistant of the 1st (officiating Political Agent of the 4th) class, and Assistant Commissioner, Thal-Chotiali, and Assistant Political Agent, Sinjawi and Railway District, is granted privilege leave for three months, with effect from the 7th April, 1899.

The 20th April, 1899.

No. 578-*G.*—Mr. F. L. Reid, Principal of the Government College at Ajmere and Inspector of Schools in Ajmere-Merwara, is granted furlough for two years, under Article 340 (*b*) of the Civil Service Regulations, with effect from the 1st May, 1899, or the subsequent date on which he may avail himself of the furlough.

The 21st April, 1899.

No. 587-*G.*—With reference to notification No. 499-G., dated the 3rd April, 1899, and consequent on the death of Mr. C. E. Biddulph, a Special Assistant Commissioner, the following changes are ordered in the constitution of the Berar Commission, with effect from the 7th March, 1899:

The appointment of Special Assistant Commissioner is abolished; the number of

Deputy Commissioners of the 1st class is increased to two; the number of Deputy Commissioners of the 2nd class is decreased to two; and the number of Assistant Commissioners of the 2nd class is increased to five.

The following substantive promotions are made from the above date:

Major W. Hastings, Indian Staff Corps, a Deputy Commissioner of the 2nd class, to be a Deputy Commissioner of the 1st class.

Munshi Aziz-ud-din, an Assistant Commissioner of the 3rd class, to be an Assistant Commissioner of the 2nd class.

No. 589-*G*.—Mr. L. T. Harris of the Indian Civil Service, Madras Establishment, is appointed to officiate as District Magistrate and Collector of the Civil and Military Station of Bangalore, with effect from the 5th April, 1899, *vice* Mr. A. M. Slight, and until further orders.

No. 1017-*I.-A*.—In exercise of the powers conferred by section 26 of the Court-fees Act, 1870 (VII of 1870), as applied to the Civil and Military Station of Bangalore by the Notification of the Government of India in the Foreign Department, No. 2252-I., dated the 7th August, 1883, the Governor-General in Council is pleased to direct that—

(*a*) when in any case the fee chargeable under the said Act, as so applied, is less than Rs. 10, such fee shall be denoted by adhesive stamps only, and

(*b*) when in any case the fee chargeable under the said Act, as so applied, amounts to or exceeds Rs. 10, such fee shall be denoted by impressed stamps, adhesive stamps being employed only in respect of fractions (if any) of less than Rs. 10.

No. 1018-*I.-A*.—In exercise of the powers conferred by section 35 of the Court-fees Act, 1870 (VII of 1870), as applied to the Civil and Military Station of Bangalore by the Notification of the Government of India in the Foreign Department, No. 2252-I., dated the 7th August, 1883, and in supersession of the Notification of the Government of India in the Foreign Department, No. 2370-I., dated the 24th June, 1884, the Governor-General in Council is pleased to direct as follows:

I.—So much of the Notification of the Government of India in the Department of Finance and Commerce, No. 4650, dated the 10th September, 1889, issued under section 35 of the Court-fees Act, 1870 (VII of 1870), and amended by the Notification of the same Department, No. 4276-S.-R., dated the 23rd September, 1897, as is specified below, shall apply to the Civil and Military Station of Bangalore, namely,—

(*a*) The preamble;

(*b*) Clauses (1) to (11), both inclusive:

Provided that—

(i) the refund authorized by clause (3) shall not be made unless the stamp in question has been purchased from the Resident's Treasury, or from a person duly authorized to sell Court-fee stamps in the said station; and

(ii) in clause (6) "clause (*c*)" shall be inserted after "section 244;"

(*c*) Clauses (13) to (19A), both inclusive:

Provided that in clause (15) for the figures "1882" the words and figures "1898 (Act V of 1898)," shall be substituted; and

(*d*) Clause (35), except the words "in the Presidency of Bombay or by the Sadar Court in Sind."

II.—No Court-fee shall be charged on an application for the repayment of a fine, or of any portion of a fine, the refund of which has been ordered by competent authority.

No. 1019-*I.-A*.—Lala Banarsi Das, an Extra Assistant Commissioner of the 7th grade in the Punjab, is appointed temporarily to be an Extra Assistant Commissioner in Merwara, with effect from the date of assuming charge.

H. S. BARNES,

Offg. Secretary to the Government of India.

RESOLUTION—By the Government of India, Public Works Department.

General Rules of 1895 for working open lines of railway in British India.

Modified rule 110 of Part I.

Read—

Section 47 of the Indian Railways Act, 1890.

Government of India, Public Works Department, notification No. 118, dated the 21st March 1895, publishing—in Part I of the *Gazette of India* of the 23rd March 1895—the Government of India circular No. 6 Railway, dated the 12th March 1895, and the General Rules therewith promulgated for all open lines of railway in British India administered by the Government.

Government of India, Public Works Department, notification No. 257, dated the 28th May 1896, publishing—in Part I of the *Gazette of India* of the 30th May 1896—the Government of India circular No. 3 Railway, dated the 22nd May 1896, and the amended rules therewith promulgated.

Government of India, Public Works Department, notification No. 345, dated the 14th August 1896, publishing—in Part I of the *Gazette of India* of the 15th August 1896—the Government of India resolution No. 640 R. T., dated the 12th August 1896, sanctioning the application of the General Rules read above to the Tarakeshwar-Magra Steam Tramway.

Government of India, Public Works Department, notification No. 32, dated the 28th January 1898, publishing—in Part I of the *Gazette of India* of the 29th January 1898—the Government of India resolution No. 84 R. T., dated the

25th January 1898, sanctioning the adoption on the railways worked by the Bengal and North Western and Oudh and Rohilkhand railway administrations of an amended rule No. 110 of the General Rules referred to.

Government of India memorandum No. 411 R. T., dated the 21st April 1898, promulgating the amended rule No. 110 above referred to.

Letter from the Government of Bengal No. 450 R., dated the 18th March 1899.

OBSERVATIONS.—The Managing Director of the Bengal Provincial Railway Company has applied that the amended rule No. 110 of Part I of the General Rules for working open lines of railway in British India which was published in Part I of the *Gazette of India* of the 29th January 1898, under the Government of India, Public Works Department, notification No. 32, dated the 28th January 1898, and promulgated with the Government of India memorandum No. 411 R. T., dated the 21st April 1898, may be made applicable to the Tarakeshwar-Magra Steam Tramway in supersession of the corresponding rule No. 110 which was promulgated with the Government of India circular No. 3 Railway, dated the 22nd May 1896, and published in Part I of the *Gazette of India* of the 30th May 1895, under the Government of India, Public Works Department, notification No. 257, dated the 28th May 1896.

RESOLUTION.—The Governor General in Council is pleased to sanction, under section 47, sub sections (3) and (1), of the Indian Railways Act, (IX) of 1890, the application to the Tarakeshwar-Magra Steam Tramway of the amended rule No. 110 of the open line General Rules of 1895 referred to in the foregoing observations.

ORDER.— Ordered that this resolution be published under a notification in Part I of the *Gazette of India*, as required by section 47, sub-section (3), of the Indian Railways Act, 1890 ; also that the General Rules as amended—which have already been published in the *Gazette of India*—be kept at railway stations as directed by sub-section (6) of the same section.

Ordered, also, that this resolution be communicated to the Government of Bengal, for information and guidance.

F. R. UPCOTT,

Secretary to the Government of India.

The 15th April, 1899.

No. 161.—*Corrigendum.*—In Public Works Department Notification No. 33, dated the 25th January 1899, expunge the word " Ditto " in column 4, opposite Mr. A. F. Higgins' name.

The 17th April, 1899.

No. 165.—Mr. J. I. R. Dempster, Superintending Engineer, 2nd Class, sub. *pro tem.*, Punjab, is permitted to retire from the service, with effect from the afternoon of the 6th April 1899, under Article 712 (*c*), Civil Service Regulations.

No. 166.—Mr. W. P. Brodie, Executive Engineer, 1st Grade, Punjab, is appointed to officiate as a Superintending Engineer, with *temporary rank* in the 3rd Class, with effect from the afternoon of the 6th April 1899, *vice* Mr. J. I. R. Dempster, retired.

The 21st April, 1899.

No. 173.—Public Works Department Notification No. 136, dated 1st April 1899, replacing the services of Major H. G. C. Swayne, R.E., Executive Engineer, 2nd Grade, Bengal, at the disposal of the Military Department, is hereby cancelled.

T. HIGHAM,

Joint Secretary to the Government of India.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

USE OF CHURCHES CONSECRATED FOR THE SERVICES OF THE CHURCH OF ENGLAND FOR THE SERVICES OF PRESBYTERIANS AND WESLEYANS.

NOS. 146—161.

Extract from the Proceedings of the Government of India in the Home Department (Ecclesiastical),—under date Simla, the 20th April, 1899.

Read—

The Resolution of the Government of India in the Home Department, Nos. 271—86, dated the 17th June 1898, regarding the use by other denominations of churches consecrated for the services of the Church of England.

RESOLUTION.

The Governor General in Council is pleased to prescribe the following rules to regulate the use of churches consecrated for the service of the Church of England for the services of other denominations in supersession of the rules contained in the Resolution of the Government of India read in the preamble :

(1) A Church provided by Government and consecrated for the services of the Church of England may be used for the services of Presbyterians and Wesleyans.

(2) The use of the Church shall be permissible both to Scotch Chaplains on the regular establishment and to Presbyterian and Wesleyan Ministers officiating with troops.

(3) It shall be necessary to obtain the consent of the Bishop of the Diocese in each case.

(4) The Bishop, or the Church of England Chaplain, or Clergyman of the Church of England performing the duties of Chaplain, shall, under the Bishop's instructions fix the hours at which the Church shall be made available to the Presbyterian, or Wesleyan congregations.

(5) The care of the Church and Church furniture and the expenditure and control of the Church establishment shall remain exclusively in the hands of the Chaplain or Clergyman of the Church of England performing the duties of Chaplain.

(6) The Bishop of the Diocese may withdraw his assent to use the Church for the worship of any congregation other than that of the Church of England whenever he shall think fit.

(7) If in any case dissatisfaction is felt with any order passed under these rules either as to the use of a Church by a congregation not belonging to the Church of England or as to the hour at which it is made available for the use of such congregation, the Senior Chaplain of the Church of Scotland or the General Superintendent of the Wesleyan Church, as the case may be, may bring the matter before the Lieutenant-General of the Command, through the General Officer Commanding the District; and the Lieutenant-General shall then, if he considers this necessary, communicate with the Bishop in order, if possible, to arrange the matter with him. Should the Senior Chaplain of the Church of Scotland or the General Superintendent of the Wesleyan Church, as the case may be, be dissatisfied with the arrangement made between the Lieutenant-General of the Command and the Bishop, he shall be at liberty to ask the Lieutenant-General that the matter may be referred for final decision to the Metropolitan.

ORDER.—Ordered, that this Resolution be communicated to Local Governments and Administrations, the Most Reverend the Metropolitan, the Senior Chaplain of the Church of Scotland, Calcutta, the General Superintendent of the Wesleyan Church and the Foreign and Military Departments.

Ordered, also, that it be published in the *Gazette of India*.

[True Extract.]

A. H. L. FRASER,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on Saturday, April 15th, 1899.

The general conditions of weather have been unusual and irregular during the week under review. Pressure has been high over North-East India and relatively high along the foot of the Himalayas, while it has been low over the Western desert and over Ceylon and the south of the Peninsula. As a result, conditions have been favourable for easterly winds over a large part of India, and moist winds from easterly directions have prevailed over a considerable part of the country instead of the dry westerly winds which are usual at this season of the year. As a consequence, the weather has been much more unsettled than usual, and thunderstorms giving rain and hail have been very widespread, but have been particularly frequent over Upper Burma, Assam and Bengal, over the Punjab and the North-West Himalayas and over the southern half of the Peninsula. Accompanying the rainfall over North-East India and the Peninsula there has been very cool weather, but over North-West India the thunderstorms were too light and too local to largely affect temperature, which during the week in these regions has been generally excessive.

Daily Summary.—*Sunday, April 9th.*—The barometer had fallen almost everywhere, and the depression, which was noticed over the western desert at the close of the preceding week, had commenced an eastward movement down the Gangetic Plain. It was central near Agra where pressure was largely below the normal. Pressure was highest and slightly to moderately above the normal over Burma and North-East India. The winds were irregularly cyclonic over North-West India and southerly and south-easterly over the Peninsula and Lower Bengal, while along the foot of the hills in Bengal and the North-West Provinces the direction was easterly. The weather was unsettled and cloudy. Thunder and dust storms had occasioned rain over parts of Burma, Assam, Bengal, the North-West Himalayas, Malabar, the east of the Central Provinces and Madras. Generally the rainfall had been moderate or light. The mean temperature was low over Assam and Bengal, about normal over South Madras and higher than usual elsewhere.

Monday, April 10th.—The lowest pressures had been re-transferred westward, and the depression was again shown over the Western desert. Pressure remained highest over Burma, Assam and Bengal, and, while the barometer read 0·091 inch higher than usual at Sibsagar, it read 0·152 inch lower than usual at Multan and Deesa. The winds generally were little changed, but the easterly current in Northern India had increased and extended, and easterly and south-easterly winds blew from Central Bengal to the Punjab. The weather had been fairly fine, though here and there disturbed by thundershowers, over the Peninsula and the central parts of the country, but over Northern India and Burma showers had been remarkably prevalent. The mean temperature was falling almost everywhere, and the areas of deficient temperature over North-East India and over the south of the Peninsula were both increasing in extent and intensity. In North-West and Central India and part of Burma the heat still remained excessive.

Tuesday, April 11th.—Pressure had changed irregularly. The barometer continued to read unusually high in North-East India and unusually low in North-West India, so that conditions, favourable for easterly winds over Northern India, continued, and winds from easterly directions prevailed from Bengal to the Punjab. South-easterly winds prevailed over the Peninsula and variable winds over Lower Bengal. The weather had cleared, and the rainfall become lighter and less extensive over North-West India, but over Burma, Assam and Bengal rain had continued both general and heavy, and fair showers had been received over

the south of the Peninsula and some central districts. The area of deficient temperature continued to extend, and mean temperatures exceeding the normal were only reported from the extreme north-west of India and the Madras Coast districts. In Bengal the weather was remarkably cool. The following variations from the normal explain the general distribution of temperature relatively to the normal: Patna —15·2°, Berhampore —14·0°, Jacobabad +8·2°, Madras +1·6° and Madura —5·5°.

Wednesday, April 12th.—Pressure continued to change irregularly. Pressure remained highest and higher than usual over Assam and Upper Burma and lowest and lower than usual over the Western desert, so that the general conditions were unaltered, and easterly and south-easterly winds continued over North and West Bengal and up the Gangetic Plain. In North-West India squally cyclonic winds prevailed around the depression over the Western desert, while south-easterly or variable winds were reported over the Peninsula. Thunder and dust storms had continued to give rain over North-East and North-West India, the southern half of the Peninsula and the east of the Central Provinces. In the North-West Provinces, the central parts of India (except the east) and the northern half of the Peninsula the weather was fine, but elsewhere it was more or less disturbed. The weather was remarkably cool over North-East India and the east and south of the Peninsula, while the heat was excessive over the north-western and central parts of the country.

Thursday, April 13th.—Pressure had risen over Northern India and had been nearly steady over Burma and the Peninsula. The storm in the north-west had become shallower and more diffused, but, on the contrary, the high pressure area in the north-east had become more strongly marked. Easterly winds continued from Central Bengal to the Punjab, but the cyclonic circulation in the north-west had died down. South-easterly and variable winds continued over the Peninsula. The weather remained unsettled and disturbed with dust and thunder storms over Northern India and the south of the Peninsula, but was fine in the intervening regions. The rainfall amounts were larger than usual. The mean temperature conditions were similar to those reported on the preceding day, the heat having been greater than usual over North-Western and Central India and less than usual elsewhere.

Friday, April 14th.—The barometer had changed irregularly and in some places by considerable amounts. Pressure was highest and largely above the normal along the foot of the Eastern Himalayas; it was lowest and slightly below the normal over the Western desert and relatively low and considerably lower than usual over Ceylon. The depression over the Western desert was somewhat better defined than on the 13th. Westerly and north-westerly winds prevailed in Bombay and southerly to easterly winds in most other places. Fairly general thundershowers had been received over Lower Bengal, Assam and the North-West Provinces and scattered showers over the Peninsula and the east and south of the Central Provinces. The temperature conditions were generally similar to those reported on the preceding day, but both the excess in the north-west and the deficiency in the north-east were smaller.

Saturday, April 15th.—Pressure had changed very little. Barometric readings were highest along the foot of the hills, lowest over the Western desert and relatively low near Ceylon. Easterly and south-easterly winds continued over Northern India and variable breezes elsewhere. The rainfall area had contracted somewhat over Northern India, but thundershowers continued to be reported from Assam, North and West Bengal and the North-West Provinces. In the Peninsula, on the contrary, the rainfall area had extended and the showers become heavier. The heat had been greater than usual over the greater part of North-Western and Western India and over Burma, while it had been less than usual in all other places. The following variations from the average explain the distribution relatively to the normal: Jacobabad + 6·0°, Madura —7·4°, Gorakhpur —12·8°, Dhubri —12·0° and Tounghoo + 6·4°.

Temperature.—The heavyish rainfall at the commencement of the week in North-East India and in the south of the Peninsula produced in those two

regions areas of deficient temperature which were comparatively small and comparatively slight on the 9th. The rainfall continuing these areas of relatively low temperature increased both in intensity and size till, during the latter half of the week, they embraced most parts of the country except the north-west and centre. In the two latter regions the mean temperature was steadily excessive during the week, the showers in those areas having been insufficient to seriously affect the temperature conditions.

The following table gives the mean temperature variation data for the week :

PROVINCE.	APRIL 1899.							Mean variation of week.
	9th	10th	11th	12th	13th	14th	15th

Mean for whole of India	+1·8	—0·3	—2·8	—1·6	—1·3	—2·4	—2·6	—1·3

On the first day of the week the heat of the whole country was greater than usual, but between the 9th and the 10th there occurred a fall of over 2°, and from that date onward the temperature of the whole of India was below the normal, the deficiency being considerable on the 11th, 14th and 15th. The provincial variations show that the weather during the week was warmer than usual in Sind, Rajputana, Gujarat, Central India and Berar; that the mean temperature was about normal in the Punjab, the Central Provinces, the West Coast, the Bombay Deccan and the Madras Coast; and that it was less than usual in all the remaining provinces. The deficiency was greatest in Behar where from the 11th to the 15th the mean temperature was very largely below the normal.

The following were the highest maxima recorded on each day:

April 9th	. . . . . .	109·4°	at Rajkote.
„ 10th	. . . . . .	108·2°	„ Bhavnagar.
„ 11th	. . . . . .	109·3°	„ Jacobabad.
„ 12th	. . . . . .	107·2°	„ Jodhpur.
„ 13th	. . . . . .	106·7°	„ Akola.
„ 14th	. . . . . .	105·1°	„ Hyderabad (Sind).
„ 15th	. . . . . .	107·4°	„ Jacobabad.

Rain.—The past week has been one of exceptionally widespread and heavy rainfall considering the time of year. The only practically rainless regions during the week were Lower Burma and North Bombay with the adjoining parts of Rajputana and Central India. In all other parts of the Indian area rain has been received, the rainfall amounts ranging from a few cents over the Punjab, the Gangetic Plain, the central parts of the country and the head of the Peninsula, to several inches in Assam and the south of the Peninsula The daily rainfall returns for the week show that rain was received principally between the 9th and 12th in Upper Burma; between the 9th and 13th in Assam; on most days of the week in Bengal; on the 9th, 11th and 12th in Bihar; on the 13th and 14th in the east and centre of the North-West Provinces; on different days of the week in the west of the North-West Provinces and in the Punjab, on all days of the week in the south of the Peninsula; and between the 12th and the 15th in the east of the Peninsula.

The rainfall table at the close of the summary shows that the average actual rainfall of the week exceeded 0·10 inch in all the rainfall divisions except Tenasserim, Deltaic Burma, the South Punjab, the West Punjab, the Konkan, Khandesh, Berar, the west of the Central Provinces, Gujarat, Kathiawar, Sind, Baluchistan, Central India and Rajputana where the week's rainfall has been actually or practically *nil*. In all the remaining divisions effective rain has been received, the average actual rainfall ranging from 7·02 inches in the Assam Hills, 4·91 inches in the Surma Valley, 4·33 inches in Malabar and 4·40 inches in South Madras, to 0·13 inch in Upper Burma, 0·14 inch in the South-East Punjab, 0·13 inch in the Central Punjab, 0·16 inch in the centre of the Central Provinces and 0·18 inch in the central division of Madras. The third column of the table shows that in no less than thirty-nine of the rainfall divisions the week's rain has been in excess of the normal. These thirty-nine divisions covered Arakan, Assam, Bengal, Bihar, the North-West Provinces, the South-East Punjab, the Peninsula and the Central Provinces, and the excess amounted to 4·99 inches in the Assam Hills, to 4·12 inches in South Madras, to 3·77 inches in Malabar, to over 2 inches in South-Central Madras, Coorg, Orissa and East Bengal and to over 1 inch in the Assam Valley, Deltaic Bengal, North Bengal, the Bengal Hills, Chota Nagpur, North Bihar, and the north (*a*) division of the East Coast.

The following were the principal large totals recorded at individual stations during the week:

Burma . . .	Akyab	2·07 inches.
Assam . . .	Cherra Poonjee	20·30 "
	Borkhola (Cachar)	6·44 "
Bengal . . .	Ramchanda (Tippera) . . .	5·60 "
	Goalundo (Faridpur) . . .	4·96 "
	Alipurduar (Jalpaiguri) . . .	3·41 "
Bihar . . .	Sitamarhi (Muzaffarpur) . . .	4·82 "
N.-W. P. . . .	Padrauna (Gurakhpur) . . .	2·95 "
	Ukimath (Garhwal)	3·10 "
Punjab . . .	Chakwal (Jhelum)	0·66 inch.
	Hangu (Kohat)	1·25 inches.
Malabar . . .	Alleppy	11·20 "
Nilgiris . . .	Kilkundah	10·82 "
Mysore . . .	Holalkeri	4·71 "
Madras . . .	Jehapur (Ganjam)	4·80 "
	Pattukattai (Tanjore) . . .	4·71 "
	Uslampetty (Madura) . . .	7·63 "

The three concluding columns of the table show that the heavy rainfall of the past week has brought about a considerable change in the condition of the seasonal rainfall. In Assam, Bengal, the west of the Peninsula and South Madras the actual fall between February 26th and April 15th has been in excess of the average, while in other parts of the country, though the rainfall is still short, the deficiency has been considerably reduced.

PROVINCE.	DIVISION.	RAINFALL DATA FOR WEEK ENDING APRIL 15TH, 1899. Average actual rainfall of division.	Average normal rainfall of division.	Excess or defect in inches.	RAINFALL DATA FROM FEBRUARY 26TH TO APRIL 15TH, 1899. Average actual rainfall of season to date.	Average normal rainfall, February 26th to April 15th. W. L. DALLAS,
for *Meteorological Reporter to the Government of India.*

SIMLA, *20th April, 1899.*

T. W. HOLDERNESS,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 15th April.*—The rainfall was most exceptional during the week; it was heavy on the West Coast and in the Southern districts and in parts of the Carnatic, the Central districts, and the Circars, and light showers were general elsewhere. Since the end of week more heavy rain has fallen on the East Coast and the south of Nellore and light rain in inland districts. The water-supply is generally sufficient, except in parts of the Deccan. Some sowings under irrigation and on the West Coast are going on. Preparations for the new season have begun. The standing crop is in good condition. Harvesting continues in some places and the yield is normal. Pasture is very scanty, but fodder is sufficient. The recent rain will benefit the standing crops, especially under wells, and produce some pasture. Prices continue almost stationary.

Bombay.—*For week ending 19th April.*—Slight rain fell in parts of six districts during the week. Reaping of late crops continues in eight and cotton-picking in four districts. Preparations for next season are progressing generally. Fodder is sufficient, except in parts of Sind. Agricultural stock is healthy. Prices have risen in five and fallen in six districts; elsewhere they are stationary.

Bengal.—*For week ending 17th April.*—Rain, sufficient for present requirements, fell in all parts of the Province during the week; but in places in Bihar it is said to have injured the spring crops lying on the threshing ground. Ploughing is now general and sowing of autumn rice and jute and planting of sugarcane are in progress. Spring rice is maturing and in some places is being reaped. The *mahua* (*Bassia latifolia*) harvest in the Bhagalpur and Chota Nagpore divisions is almost over, and the outturn has been good. No want of fodder is reported. Prices are generally stationary.

North-Western Provinces and Oudh.—*For week ending 19th April.*—Stormy weather prevailed during the week accompanied by rain and hail in several districts. Slight damage from hail is reported in places. Harvesting operations are nearing completion and new grain is coming into the markets in parts. Sugarcane and extra crops are being irrigated where necessary. Indigo is being sown. Markets are well-stocked and fodder is sufficient. Prices have risen in a few districts, but are otherwise stationary to falling.

Punjab.—*For week ending 19th April.*—Rain has fallen in all districts, except Ferozepore, Mooltan, Amritsar, and Dera Ismail Khan. Harvesting of standing spring crops and sowings of extra spring and certain autumn crops continue. Sugarcane and cotton crops are being watered. The condition and prospects of the standing irrigated crops are reported average and of unirrigated crops below average or poor. More rain is wanted for autumn sowings in Shahpur. The outturn of spring crops is generally expected to be average or below average. The standing spring crops have been seriously damaged by hail in parts of the

Lahore, Peshawar, and Dera Ismail Khan districts. The condition of cattle is poor in Delhi and in parts of Dera Ismail Khan and good elsewhere. Fodder is reported sufficient in all districts, except in Delhi, Umballa, and parts of Dera Ismail Khan. Prices, especially of wheat, the chief food-staple, are rising in Umballa and Jullundur; falling in Rawalpindi and Dera Ismail Khan; and are unchanged elsewhere. Wheat is selling from 16 to 21, gram 20 to 23, barley 30 to 32, bulrush-millet 19 to 25, maize 28 to 35, great millet 20, and rice 13 to 14 seers per rupee.

Central Provinces.—*For week ending 18th April.*—The weather was generally unsettled during the week and rain has fallen in twelve districts, the rainfall in four districts measuring more than half-an-inch. The threshing of spring crops is proceeding. The planting of sugarcane is also in progress in Bhandara and Sambalpur. An abundant crop of *mahua* (*Bassia latifolia*) is being gathered and labourers derive much benefit from forest concessions in consequence. Village relief is being gradually extended in the distressed areas in Saugor and has been started in the Damoh tahsil. Water is getting scanty in parts of Mandla, Betul, Chanda, and Chhindwara. Fodder is insufficient in parts of seven districts and grain stocks are reported to be insufficient in the Hinghanghat tahsil of Wardha. The range of prices is generally below the normal: the cheapest prices are—wheat 21, gram 35, rice 22, and *juar* 30 seers per rupee; the dearest prices are—wheat 12½, gram 18, rice 10, and *juar* 22 seers per rupee.

Burma.—*For week ending 15th April.*—In Upper Burma reaping of island crops is approaching completion. Dry weather paddy is being harvested in Mandalay, Sagaing, and Kyaukse. The prospects of the standing crops continue unchanged. Slight rain fell during the week in several districts of Upper and Lower Burma. The price of paddy has risen in Prome, Pakôkku, and Minbu; and has fallen in Thaton and Amherst, and has also slightly fallen in Rangoon.

Assam.—*For week ending 18th April.*—Rain fell in most districts during the week. Ploughing for and sowing of late broadcast rice are in progress. Transplanted early rice has been slightly damaged by hail in Sunamganj and Habiganj sub-divisions. Plucking of tea continues. Prospects are generally good, except in parts of Cachar, where red spider prevails. Pressing of sugarcane is nearly finished; the outturn is poor in Sylhet, but elsewhere is generally good. Sowing of jute continues in Sylhet and Goalpara. Planting of sugarcane has commenced in Kamrup. Prices—common rice—Silchar, Tezpur, and Nowgong 16; Sylhet and Dhubri 17; and Gauhati 15 seers per rupee.

Mysore and Coorg.—*For week ending 19th April.*—MYSORE: Rainfall—fifteen cents in the Civil and Military station and general good rain in parts of the Province. The standing crops are in good condition. Prices have fallen in Kolar, Kadur, and Shimoga.

COORG: Rainfall—2 inches 87 cents. Prices of food-grains are stationary. Water and fodder for cattle are sufficient.

Berar and Hyderabad.—*For week ending 19th April.*—BERAR: The weather is hot and cloudy. Breaking up of land for the ensuing monsoon crop

continues. The fodder and water-supply remain insufficient in parts of the Province. Prices are fluctuating.

HYDERABAD: Rainfall during the week 21 cents. The spring harvest is almost over. The standing winter rice crop is in fairly good condition and is being harvested in parts. Prices of grain are almost stationary. Prices—wheat 10, coarse rice 10½, and *jowari* 24½ seers per current sicca rupee.

Central India.—*For week ending 19th April.*—There was a slight fall of rain in Bundelkhand during the week. Agricultural operations have been completed in Bundelkhand and are in progress elsewhere. The standing crops are in fairly good condition. Agricultural stock and pasturage are in good condition. The prices are above normal in Bundelkhand and normal elsewhere. The condition of opium is fair in Malwa and good in Gwalior.

Rajputana.—*For week ending 19th April.*—Rainfall in cents—Abu 27; Ulwar 16; Kherwara 13½; and slight rain in Haraoti. Agricultural operations are progressing satisfactorily, except in Merwara. The state of the crops is generally good, except in Ajmere-Merwara, where it is fair. Harvesting of crops is approaching completion. The average estimated spring outturn in Kherwara is 3 and 6 annas. Cattle are in poor condition in Marwar, Haraoti, and Ajmere; elsewhere they are in good condition. Fodder scarcity prevails in the States reported last week. Prices are rising in three States and are steady elsewhere. Twenty persons emigrated from Ajmere and 18 from Merwara during the week. The total emigration from Merwara up to date numbers 4,360. The numbers employed on relief works were—422 in Ajmere, 3,257 in Merwara, and 960 in Marwar. Prices—Ajmere 20½, Beawar 22, and Marwar 15 seers per rupee.

Kashmir.—*For week ending 18th April.*—Rain fell during the week. The prospects of the spring crops are excellent. Prices continue below normal. Rice—27 seers per rupee.

JAMMU PROVINCE.—Report not received.

Nepal.—*For week ending 15th April.*—Rainfall 1·50 inches. The weather has been cold and stormy, but the rain has benefited the wheat, and ground is now being prepared for the early rice crops. Price of rice 9½ seers per rupee.

T. W. HOLDERNESS,

Secretary to the Government of India.

The 20th April 1899.

A. F. COX,
Comptroller-General.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 20th April, 1899.

NOTIFICATIONS.

No. 1269 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, during the week ending 15th April 1899:—

No. 125 of 1899.—Emile Suter, Ph.D., manager, the Agave Fibre company, Powai, near Bombay. *Improvements in fibre extractors.*

No. 126 of 1899.—James Baird, engineer, of Devonport, near the city of Auckland in the provincial district of Auckland and colony of New Zealand. *An improved rotary engine.*

No. 127 of 1899.—William John Brewer, civil engineer, of 15 Denbigh place, Belgrave road, Pimlico, London, and John Edward Cooper, engineer, of 1 Gladstone villas, Prince's avenue, Withernsea, in the county of York. *Improvements in auto-motor carriages or vehicles.*

No. 128 of 1899.—Horace Leonard Short, consulting mechanical engineer, of New Malden, in the county of Surrey, England. *Improvements in methods of, and apparatus for, increasing the volume of sounds from telephonic or phonographic instruments, and transmitting such sounds to distances.*

No. 129 of 1899.—Charles Joseph Bertrand, engine driver, G. I. P. railway, Igatpuri, Bombay Presidency. *Bertrand's rail joint nut check.*

No. 130 of 1899.—John Charles Henry McCaskill, lieutenant, Indian staff corps, Mardan Punjab. *Fastening ties.*

No. 131 of 1899.—Reginald Belfield, electrician, of 32 Victoria street, in the city of Westminster, England. *Improvements in speed varying devices, and electric motors for use therein.*

No. 132 of 1899.—Clemens Dörr, a subject of the Emperor of Germany, residing at Germersheim, Germany. *A process of manufacturing hard masses by heating tar and solid bodies.*

No. 133 of 1899.—Samuel Cleland Davidson, merchant, of Sirocco engineering works, Belfast, Ireland. *Improvements in means of supporting the bearings of spindles or shafts in wall brackets or frames.*

No. 134 of 1899.—Samuel Cleland Davidson, merchant, of Sirocco engineering works, Belfast, Ireland. *Improvements in centrifugal fans and pumps.*

No. 135 of 1899.—Solomon Robert Dresser, inventor, of the city of Bradford, in the county of McKean, in the state of Pennsylvania, U.S. A. *Improvements in insulated pipe couplings.*

No. 136 of 1899.—Fred. Michael, engineer, of 6 Bridge road, Hastings, Calcutta. *An electric belt.*

No. 137 of 1899.—John Christmas Chorley, chemist, of Lodge lane, Bewsey, Warrington, in the county of Lancaster, England. *Improvements in the method of, and means for, producing cellulose films for photographic and other purposes.*

No. 138 of 1899.—Charles Henry Dyer, chief clerk, goods superintendent's office, East Indian railway, Howrah. *Metal seals for railway wagons, postal and railway mail and cash bags, and the like.*

No. 1270 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the

Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the department of land-records and agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

No. 381 of 1898.—Konrad Trobach, civil engineer, of 28 Berlinerstrasse, of Pankow, near Berlin, and Kurt Schultze, manager, of 4 Neue Promenade, of Berlin. *Improvements in and connected with gas-incandescence-lamps.* (Specification filed 8 April 1899.)

No. 400 of 1898.—Victor Bergman, wheelwright, and William George Boyle, storekeeper, both of Mysia, in the colony of Victoria. *Improvements in fastenings or clasps for boots and other articles.* (Specification filed 11 April 1899.)

No. 482 of 1898.—Uriah Dudley, mine manager and mining engineer, of Drake, in the colony of New South Wales. *Improvements in clips or binders.* (Specification filed 11 April 1899.)

No. 1271 P.—THE fees prescribed in Schedule 4 of Act V of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

No. 155 of 1888.—Ludwig Mond and Carl Langer. *Improvements in gas batteries.* (From 10 April 1899 to 10 April 1900.)

No. 218 of 1889.—Carl Olof Lundholm. *Improvements in the manufacture of dynamite.* (From 11 April 1899 to 11 April 1900.)

No. 229 of 1889.—Arthur Elphinstone Cummins. *Improvements in apparatus for compressing cotton or other materials into bales.* (From 11 April 1899 to 11 April 1900.)

No. 275 of 1891.—Isaac Shone and Edwin Ault. *Improvements in and connected with the ventilation of drains and sewers.* (From 5 May 1899 to 5 May 1900.)

No. 283 of 1892.—Carl Olof Lundholm and Joseph Sayers. *Improvements in the manufacture of explosives.* (From 21 April 1899 to 21 April 1900.)

No. 14 of 1895.—John Frederick Duke. *Improvements in the means for automatically lighting gas.* (From 11 April 1899 to 11 April 1900.)

No. 1272 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act (V of 1888) the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India and of authorizing others so to do has ceased :—

No. 51 of 1894.—George Falvey Beyts. *A single rail elevated tramway and in vehicles therefor.* (Specification filed 15 January 1895.)

No. 60 of 1894.—Thomas Headly Stackhouse. *Reciprocating machines for printing from stencils.* (Specification filed 10 January 1895.)

No. 182 of 1894.—Daniel McGill. *An improved method of, and means for, the compression of air or other gases.* (Specification filed 10 January 1895.)

No. 193 of 1894.—John Stewart MacArthur. *Improvements in precipitating precious metals from cyanide or similar solutions.* (Specification filed 11 January 1895.)

No. 364 of 1894.—Abraham Martin. *A new mechanical toy.* (Specification filed 14 January 1895.)

No. 370 of 1894.—Manning Prentice. *Improvements in the manufacture of nitric acid.* (Specification filed 11 January 1895.)

Fee in respect of the continuance of an exclusive privilege—

4 (*a*) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of R50 for each of the above inventions.

No. 141 of 1893.—Scott McKenzie. *A road watering cart.* (Specification filed 11 January 1894.)

Fee in respect of the continuance of an exclusive privilege—

4 (*b*) After the expiration of the fourth year and before the expiration of the fifth year from the date of the filing of the specification—

The sum of R50 for the above invention.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,
Offg. Secy. under the Inventions and Designs Act, 1888.

MILITARY ACCOUNTS DEPARTMENT.

Claimants who have attained their majority.

It is hereby notified that claims from the undermentioned individuals on account of the patrimony due to them should be submitted to the Pay Examiner, Madras, through the Staff Officer of the station at which each claimant may be residing:—

Names of Warrant and Non-Commissioned Officers and Soldiers deceased.	Claimants.
Brooks, Sergeant John, Infantry Veteran Company	Caroline Brooks (daughter). Dennis Brooks (son).
Brandon, Gunner John, European Artillery Veteran Company	John Brandon (son). Charles Brandon (son).
Clarkson, Carnatic Ordnance Artificer Samuel	Miss Ann Clarkson (daughter).
Carroll, Sergeant J., 2nd European Light Infantry	Elizabeth Carroll (daughter). Joseph Carroll (son). Agnes Carroll (daughter).
Cosser, Sub-Conductor J., Ordnance Department	John Cosser (son).
Crawley, Sergeant	George Wellington Crawley (son).
Doyle, Gunner J., 4th Battalion, Madras Artillery	James Doyle (son).
Danford, Gunner S., 3rd Battalion, Madras Artillery	Amelia *alias* Emma Danford (daughter).
Furlong, Corporal J.	Master John Furlong (son).
Flynn, Corporal J.	James Flynn (son). William Flynn (son). Joseph Flynn (son).
Grimstone, Sergeant R., 3rd Madras European Regiment	Perquira Grimstone (daughter). Richard Grimstone (son).
Hawkins, Private Richard, European Infantry Veteran Company	Master Jeremiah Mitchell. Foster Hawkins (son). Master George Hawkins (son).
Hunsley, Sub-Conductor W., Ordnance Department	Master Charles Hunsley (son).
Hutchins, Gunner James, 2nd Battalion Artillery	George Henry Hutchins (son).
Hatherill, Drummer G., 1st Madras Fusiliers	William Edward Hatherill (son) (claim received from his brother and forwarded to the Presidency Postmaster for payment).
Healey, Hospital Sergeant P.	Edward Healey (son). Frank Healey (son).
Howie, Conductor Thomas, Unattached List	John Howie (son), Gunner, 33rd Field Battery, R. A.
Keleker, Bombardier I. T., 3rd Battalion Artillery	Mary Keleker (daughter).
Knowles, Half Pay Bugler W. S., D. Company, 1st Battalion, Madras Artillery.	Andrew James Knowles (son).
McDonald, 2nd Corporal B., Sappers and Miners	Master James McDonald (son).

Ditto ditto . .	24th ,,	Per land route *viâ* Chittagong.
Ditto ditto A. M. At 5-30	25th ,,	Ditto.
South African Ports . . .	22nd ,,	Per Steamer *Umlazi*.
Mauritius, Réunion, Mayotte, Nossi Be, Delagoa Bay, Natal and Cape Colony.	26th ,,	*Viâ* Tuticorin and Colombo.

*Although the date entered in column 2 is, as far as can be calculated, the latest safe date of posting for the next Mail Steamer, full allowance being made for the steamer being in advance of her published timing, Mails for the places mentioned in column 1 are despatched daily to Colombo, so that they may proceed by any steamer that has been usually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

The letter-box for Inland articles will be cleared for the forenoon Mails at the following hours :—

For Goalundo and Chittagong Express train at 5-30 A.M.
For Eastern districts as far as Dacca at 6-30 A.M.
For Bombay Mail *viâ* Nagpur at 7-30 A.M. and with a late fee of ½ anna up to 8 A.M.
For Midnapore and Orissa at 8 A.M.

The letter-box will be cleared for the evening Mails without late fee at the following hours, *viz.*:—

For E. I. Railway Loop Mail at 2-30 P.M. and up to 2-55 P.M. with a late fee of ½ anna.

For the Bombay Mail *viâ* Jubbulpore carrying also Mails for Ceylon at 6 P.M.

For Darjeeling and Assam at 3-25 P.M. without late fee, and 3-50 P.M. with late fee ½ anna.

For the Punjab at 7-30 P.M.

Late letters bearing a fee of ½ anna will be received for the Bombay Mail *viâ* Jubbulpore up to 6-30 P.M. and for other Mails from 7-30 to 8 P.M., and from 8-0 to 8-45 P.M. with a late fee of 1 anna for the Punjab Mails only.

Late registered articles will be received between the following hours :—

Jubbulpore from 5 P.M. to 6-15 P.M.

For Offices served by the Punjab Mail from 6 P.M. to 7 P.M.

For Offices served by the Goalundo Mail from 6 P.M. to 7 P.M.

For Offices served by the Khulna Mail from 6 P.M. to 7 P.M.

The late fee on each registered letter will be two annas, which must be prepaid in stamps on the letter.

Articles for Burma and for Port Blair by Sea are received without late fee up to 7-30 P.M., after which hour they are received fully prepaid and bearing an extra stamp of ½ anna up to 8 P.M.

On the latest safe day of despatch of the Mail for the Australasian Colonies *viâ* Tuticorin, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6 P.M., and late letters and papers fully prepaid will be received up to 6-30 P.M.

On the day of despatch of the Mail for Europe (Thursday), the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6-30 P.M., and late letters and papers fully prepaid will be received up to 6-45 P.M. Late registered articles will be received from 5 to 6 P.M. On other days the letter-box for Foreign articles will be cleared for the last time without the late fee at 6 P.M., and late letters and papers will be received up to 6-30 P.M. for despatch by any Foreign Mails *viâ* Tuticorin, Madras, or Bombay the same night and up to 8-30 P.M., late letters and papers up to 9 P.M., for any Foreign Mails despatched by Sea. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

P. J. GORMAN,

Offg. Presidency Postmaster, Calcutta.

REPORTS OF DESERTIONS.

Report of a Deserter or Absentee without leave from the 1st Battalion, Gloucestershire Regiment of Infantry, dated at Allahabad, this 19th day of April, 1899.

Number, Rank, and Name,—No. 4975, Private George Milsom.
Age,—22 years.
Height,—5 feet 6 inches.
Colour of—Complexion, fresh; hair, brown; eyes, blue.
Trade,—Labourer.
Date of Enlistment,—10th February, 1897.
Place of Enlistment,—Bristol.
Parish and County in which born.—Bedminster, Bristol, Somerset.
Date of Desertion or Absence,—16th April, 1899.
Place of Desertion or Absence,—Allahabad.
Marks,—Scar back of head.
Under three years' service.

E. WILFORD, *Lt.-Colonel,*

Commanding 1st Gloucestershire Regiment

Report of a Deserter or Absentee without leave from the 1st Battalion, Gloucestershire Regiment of Infantry, dated at Allahabad, this 19th day of April, 1899.

Number, Rank, and Name,—No. 4755, Private John Schneider.
Age,—23 years.
Height,—5 feet 4 inches.
Colour of—Complexion, fresh; hair, brown; eyes, grey.
Trade,—Porter.
Date of Enlistment,—5th December, 1895.
Place of Enlistment,—Bristol.
Parish and County in which born.—Stroud, Stroud, Gloucestershire.
Date of Desertion or Absence,—16th April, 1899.
Place of Desertion or Absence,—Allahabad.
Marks,—+ Right Forearm.
Under four years' service.

E. WILFORD, *Lt.-Colonel,*

Commanding 1st Gloucestershire Regiment.

MILITARY WORKS DEPARTMENT.

NOTIFICATION.

Simla, the 18th April, 1899.

No. 7-*A*.—The following promotions are made in the Engineer Establishment of the Military Works Department, with effect from the dates specified :—

NAMES.	From	To	Nature of promotion.	With effect from
Lieutenant A. J. Close, R.E.	Assistant Engineer, 1st grade.	Executive Engineer, IV grade.	Temporary	7th March, 1899.
Lieutenant H. Biddulph, R.E.	Assistant Engineer, 1st grade.	Executive Engineer, IV grade.	Temporary	9th March, 1899.
Lieutenant W. D. Pearson, R.E.	Assistant Engineer, 1st grade.	Executive Engineer, IV grade.	Temporary	13th March, 1899.
Lieutenant A. Rolland, R.E.	Assistant Engineer, 1st grade.	Executive Engineer, IV grade.	Temporary	17th March, 1899.
Lieutenant A. A. McHarg, R.E	Assistant Engineer, 1st grade.	Executive Engineer, IV grade.	Temporary	19th March, 1899.
Lieutenant O. G. Brandon, R.E.	Assistant Engineer, 1st grade.	Executive Engineer, IV grade.	Temporary	2[illegible]th March, 1899.

S. C. TURNER, *Major-General,*

Director General of Military Works in India.

GEOLOGICAL SURVEY OF INDIA.

FOR SALE.

1. Records of the Geological Survey of India, Vols. I to XXX. Price R2 per volume or R1 per part.

2. Memoirs of the Geological Survey of India, Vols. I to XXVII. Price per Volume R5.

3. Palæontologia Indica, Series I to XVI. The price of these publications is 4*a*. per single plate.

4. A Manual of the Geology of India, 2nd Edition. By R. D. Oldham, A.R.S.M., F.G.S. Price R8.

5. A Manual of the Geology of India, Economic Geology, 2nd Edition, part 1, corundum. By T. H. Holland, A.R.C.S., F.G.S. Price per copy R1.

6. An Introduction to the Chemical and Physical Study of Indian Minerals. By T. H. Holland, A.R.C.S., F.G.S. Price 8*a*.

7. Report on the Geological Structure and Stability of the Hill Slopes around Naini Tal. By T. H. Holland, A.R.C.S., F.G S. Price R3.

8. Bibliography of Indian Geology. By R. D. Oldham, A.R.S.M., F.G.S. Price R1-8.

9. Map of the Geology of India, scale 1"=96 miles. R1 per copy.

10. Map of the Geology of India, in 6 sheets, scale 1"=32 miles. R12 per copy.

11. Reports on the Inspection of Mines in India, by James Grundy :—

Report for the year ending 30th June, 1894. Price R1.

Do.	do.	30th June, 1895.	Price R2.
Do.	do.	30th June, 1896.	Price R1.
Do.	do.	31st Dec., 1896.	Price R1.

Apply to the Registrar, Geological Survey of India, Calcutta.

CIVIL ENGINEERING COLLEGE, SIBPUR.

SESSION 1899-1900.

Candidates for admission to the Engineer Department should apply to the Principal before the 15th May, 1899. Each application must be accompanied by a Registration fee of R1. The session begins on Monday, the 5th June, 1899.

Candidates must furnish proof that they have passed one of the following tests :—

(1) The F. A. Examination of the Calcutta University, or a similar standard of any Indian University recognised by the Calcutta University. The candidate's age must be under 21 years.

(2) The B.A. Examination in the B. Course in Physics and Chemistry. The candidate's age must be under 23 years. (These students are admitted direct into the second year class.)

The maximum number to be admitted each year is limited to 40. The position in the University Examinations and the age of the candidates will be taken into consideration when selection is made, and such selection will be made by the Principal.

The tuition fee for students of the Engineer class is R10 a month for each month of the year, vacation included.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior or senior scholarships. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour and eyesight.

Further particulars will be supplied on application to the Principal.

A. MACDONELL,

Offg. Principal, Civil Engineering College.

SIBPUR,

The 4th April, 1899.

CIVIL ENGINEERING COLLEGE, SIBPUR.

APPRENTICE DEPARTMENT.

The date for admission to this Department is 5th June, 1899. Candidates must be at least 15 and not more than 17 years of age.

They must have passed standard VII of the Code for European Schools or the University Entrance Examination. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard so as to reach the Principal not later than the 6th May, 1899, together with a Registration fee of R1. No application will be attended to after this date.

The maximum number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in June. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which

he will be liable to a fine not exceeding R10. No apprentice will be admitted or re-admitted to the College after the close of the month of June, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

There will be no vacancy on the free list for Christian Apprentices in June next, but there will be seven on the reduced* fee list. For natives there will be at least eleven vacancies, possibly more, on the reduced† fee list.

With the exception of students on the Free and Reduced Fee lists, all apprentices will pay a tuition fee of R3 a month for each month of the year.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can, therefore, be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

* R5 per mensem.
† R2 per mensem.

A. MACDONELL,
Offg. Principal, Civil Engineering College.

SIBPUR;
The 4th April, 1899.

GOVERNMENT CINCHONA FEBRIFUGE.

Cinchona Febrifuge can be purchased by all Government officers, and by any one taking *six pounds* at a time, from the Superintendent Botanic Garden, Calcutta, at the following rates —per four-ounce tin, *R2-8;* per eight-ounce tin, *R5;* per pound tin, *R10.* The general public can be supplied by the Superintendent, Botanic Garden, *for cash only,* at the undernoted rates: per four-ounce tin, *R3;* per eight-ounce tin, *R6;* per pound tin, *R12.* This medicine is also sold by the principal European and Native druggists in Calcutta. Postage, four annas per four-ounce tin, eight annas per eight ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

سنکونا فبري فيوج يعني تپ بهگانے والي سنکونا *

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1898, the price of this Quinine will be as follows:—

1-pound tin,	R17,	or, post-free,	R17-12.
½	„	R8-8,	„	R9-0.
¼	„	R4-4,	„	R4-12.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৮৯৮ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন	১৭,	বা ডাকমাশুল বিনা	১৭৸৹
½ আধ „	„	৮।৹	„	৯,
¼ শিকি „	„	৪।৹	„	৪৸৹

পরিক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে, এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনাডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারে।

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT EMPLOYMENT ONLY.

It is advised that letters containing remittances be registered.

N.B.—The Revised Prices herein entered cover the cost of packing, postage, and other incidental charges (except commission for Value-payable supplies), and are for all purchasers other than resident College Students.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal Octavo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required :—

VOLUME I.*

Section	I.	**Building Materials,**	R2-6.
"	II.	**Masonry,**	R1-4.
"	III.	**Carpentry,** 1889),	R1-4.
"	IV.	**Earthwork** (1892),	R1-4.
"	V.	**Tools and Plant** (never published).	

VOLUME II.*

Section	VI.	**Buildings.** (In the Press.)	
"	VII.	**Bridges,**	R4-4.
"	VIII.	**Roads,**	R1-8.
"	IX.	**Railways** (1891),	R1-4.
"	X.	**Irrigation Works.** (Under revision.)	

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol. I. Direct and Transverse Strain, principally by Analytical Methods. R7.

" II. The Stability of Structures, mostly by Graphic Methods (in the Press).

MANUALS.

VII. **Surveying** (by Major Firebrace, R.E.) (6th edition, with Curve Table). R3.

XIII. **Drawing** (by Lieut. R. Pulford, R.E.). † R8.

XIIIa. **Drawing, First Principles of Geometrical** (by do.) (4th edition). R1-4.

XIV. **Simple Applied Mechanics,** Parts I and II in one (in the Press).

Simple Applied Mechanics, Part II (1st edition). 8a.

XV. **Examples of Estimating.** Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition). R3-12.

XVI. **Earthwork Estimating,** with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. Say R1.

XVII. **Specimens of Printing** used in the College Drawing Course and Entrance Examinations. 6a.

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting Section X, is the course for the Upper Subordinate Class. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

Shelly's Workshop appliances. R1-8.

Curve Tables, complete, for laying any curve. 4a.

Scantlings of Timber for Roofs. Tables and investigation of formulæ for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 16 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. R1.

Notes on Chemistry of Building Materials. R2-0.

Tate's Mechanism. R1.

Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Rai Kunnya Lal. R2-8.

* Date of Edition on sale.

† Originally published at R15, reduced to R8.

O'Callaghan's Earthwork Tables for India, in one large sheet, 12a.; mounted on cloth and bound. R1-12.

Index to Professional Papers and loose Papers, 1st and 2nd Series, at 2*a*. each, and loose papers, 3rd Series, 3*a*. each, exclusive of packing and postage.

FERROTYPE PRINTING.

Chemicals and Lithographic Paper for this process can be purchased from Thomason College Book Depôt. Application to be made to the Curator.

Apparatus for Printing can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

CIRCULARS.

Circulars containing the Rules of **admission to the different** classes of the College will be forwarded to applicants.

J. CLIBBORN, *Lieut.-Col., I. S. C.,*
Principal, Thomason Civil Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870:—

Terms of subscription payable annually in advance.

For the complete Series, *including postage* . . . R22-8

	Without postage.			With postage.		
	R	a.	p.	R	a.	p.
For the Calcutta Series	10	0	0	12	8	0

" a part of the Calcutta Series purchased separately, *inclusive of postage in India*	...			2	0	0
" a part of each of the Madras Bombay, and Allahabad Series purchased separately, *inclusive of postage in India*	...			1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.			For mofussil.		
	R	a.	p.	R	a.	p.
For the Calcutta Series; per copy . .	0	8	9	0	10	0
" each of the Madras, Bombay, and Allahabad Series; per copy	0	5	3	0	5	9
" the Calcutta Series. For the year . .	7	2	6	8	6	3
" each of the Madras, Bombay, and Allahabad Series. For the year . . .	4	4	6	4	11	0

Persons desiring to subscribe for, or purchase, the Report, should apply to—
Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
The Curator of Government Books, North-Western Provinces and Oudh.
The Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper, of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	*Half page.*	*Quarter page.*
For one issue . . .	R 20	R 14	R 9

Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.
Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depôt.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

SUPPLEMENT No. 17.

PART I.

Government of India Notifications, Appointments, Promotions, &c.

MILITARY SECRETARY'S OFFICE.

NOTIFICATION.

Simla, the 27th April, 1899.

No. 488-*M*.—Notice is hereby given that HIS EXCELLENCY THE VICEROY AND GOVERNOR GENERAL will hold a Levée at Viceregal Lodge, Simla, at 9-45 P.M. on Wednesday, the 24th May 1899.

All Civil and Military Officers and the Native Officers of the Infantry Escort are invited to attend.

The following regulations are to be observed at His Excellency's Levée :

I.—Gentlemen who propose to attend His Excellency's Levée are requested to bring with them two large cards with their names *clearly written* thereon—one to be left with the Aide-de-Camp in waiting in the Corridor, and the other to be delivered to the Military Secretary, who will announce the name to His Excellency.

II.—Gentlemen who have not already been presented at the Court of St. James or at the Viceregal Court should send in their names and addresses through the Gentlemen who propose to present them to the Military Secretary's

Office not later than Monday, the 15th May 1899, in order that the names may be submitted to His Excellency, when, if they are approved, Presentation cards will be forwarded.

III.—Gentlemen presenting others must themselves attend the Levée.

IV.—Gentlemen wearing Uniform will appear in Levée Dress. Gentlemen not entitled to wear Uniform will appear in Evening Dress.

By Command,

ARTHUR SANDBACH, *Lieut.-Col.,*

Military Secretary to the Viceroy.

LEGISLATIVE DEPARTMENT.

NOTIFICATIONS.

Simla, the 27th April, 1899.

No. 11.—With reference to Notifications No. 2, dated the 5th January last, and No. 3, dated the 11th idem, Mr. H. W. C. Carnduff, I.C.S., and Mr. A. Williams, I.C.S., held the office of Secretary and Deputy Secretary to the Government of India in the Legislative Department, respectively, substantively *pro tempore,* from the 22nd March to the 3rd April, 1899, both days inclusive.

No. 12.—The services of Mr. A. Williams, I.C.S., are replaced at the disposal of the Foreign Department, with effect from the 5th instant.

J. M. MACPHERSON,

Secretary to the Government of India.

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Simla, the 28th April, 1899.

No. 821.—In accordance with the provisions of section 18, sub-section (*1*), of the Indian Explosives Act, 1884 (IV of 1884), and with the directions contained in the Notification of the Government of India in the Home Department, No. 1964, dated the 2nd September, 1887, the Governor General in Council is pleased to publish, for the information of persons likely to be affected thereby, the following draft of certain rules which it is proposed to substitute for Rules 10 and 11 of the rules to regulate the transport and importation of explosives published with the Notification of the Government of India in the Home Department, No. 1393, dated the 8th July 1897.

The draft will be taken into consideration on or after the 1st July, 1899.

Draft Rules.

10. An explosive shall not be imported by sea except at one of the ports of Calcutta, Madras, Bombay, Rangoon, Calicut, Karachi, Aden *and (in the case of crackers only) Negapatam.* But a license to import an explosive by sea from Rangoon into the Port of Akyab, Moulmein, Sandoway, Kyouk-Phyoo, Tavoy or Mergui, as the case may be, may be granted by the Magistrate of the district in which such port is situated. The fee payable in respect of each such license shall be one rupee, and the license shall be in Form A in the schedule hereto annexed.

11. If the explosive is gunpowder or an explosive of the 1st division of the 6th (ammunition) class or an explosive of the 7th (fire-work) class, the license to import the same may be granted, at the Port of Calcutta, Madras or Bombay, by the Commissioner of Police, and at the Port of Rangoon, Calicut, Karachi, Aden *or Negapatam*, by the District Magistrate.

5.500 " 5.750	10	[illegible]
5,750 " 6,000	10	3,700

PROVISO — Provided that, where in ships already fitted the minimum cubic contents of boats placed under davits are provided as required by column 3 of the said scale, this rule shall be deemed to have been sufficiently complied with although the actual number of boats so carried falls below the minimum prescribed in column 2 of the said scale.

SANITARY.

Plague.

The 25th April, 1899.

No. 1524.—Whereas the Governor General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Puspagiri, in the hamlet of Kottur, in the Cuddapah taluk of the Cuddapah District of the Madras Presidency, if pilgrims or other persons from the Hyderabad and Mysore States are permitted to assemble at that place on the occasion of the ensuing Sri Chennakeswaraswami, Santana Malleswaraswami and Sri Vaidyanatheswaraswami festivals:

In exercise of the powers conferred by section 2, sub-section (*1*), of the Epidemic Diseases Act (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Cuddapah, Krishnapuram, Gangayapalle and Kamalapuram on the Madras Railway shall be sold from the 1st to the 15th May 1899 (both days inclusive) within the Hyderabad and Mysore States to any pilgrim or other person intending or believed to be intending to proceed on pilgrimage to the aforesaid festivals.

The 28th April, 1899.

No. 1550.—In exercise of the powers conferred by section 2 of the Epidemic Diseases Act, 1897, the Governor General in Council is pleased to make the

following regulation to be observed by all persons embarking on board vessels at any port in British India, namely:

"1. No person, without the written or printed permission in this behalf of the Local Government in whose territories the port is situated, under the signature of a Secretary to Government, first obtained, shall take either on his own person, or in any baggage or parcel, or as cargo or otherwise howsoever, or shall send or permit to be taken or sent on his account either on the person of another, or in any baggage or parcel, or as cargo or otherwise howsoever, any plague microbes or cultures on board any vessel in any port in British India.

2. No person, whether he has or has not obtained permission as hereinbefore required, shall take, send or permit to be taken or sent as aforesaid any such microbes or cultures, on any such vessel at any such port unless and until he has—

(1) given 14 clear days' notice in writing of his intention so to do to the Health Officer of such port, and,

(2) by a certificate in the form hereinafter contained and signed by such person, and in such other manner as may be required by such officer, satisfied such officer that all such microbes or cultures—

(*a*) are addressed to, and intended for scientific purposes at, some recognized constituted Laboratory or Laboratories specified by such person in his own handwriting, and

(*b*) are secured in a tin or tins—

(i) of adequate strength,

(ii) hermetically sealed, and

(iii) labelled with such distinguishing inscription as will suffice to make immediately manifest the nature of the contents thereof."

FORM OF CERTIFICATE REFERRED TO IN RULE 2 (2).

CERTIFIED that the plague microbes (or cultures) which I wish to send to ________ by the vessel which is timed to sail from the port of ________ on the ________ are addressed to the Scientific Laboratory at ________ and are intended for scientific purposes at that Laboratory or other recognized scientific Laboratories. Certified also that the microbes (or cultures) are secured in ________ tin(s) of adequate strength, hermetically sealed, and labelled.

(Signed)

DATED ________,

The *1899.*

No. 184.—With reference to Public Works Department Notification No. 183, dated 28th April 1899, Mr. A. W. U. Pope, District Traffic Superintendent, in Class II, Grade 1 of the Superior Revenue Establishment of State Railways, is appointed to officiate as Traffic Superintendent of the Oudh and Rohilkhand Railway with temporary rank, in Class I, Grade 3 of that Establishment, until further orders.

No. 185.—The services of Mr. H. S. Harington, Superintending Engineer, 3rd Class, are lent to the Delhi-Umballa-Kalka Railway Company, with effect from the date on which he landed in India on return from furlough.

F. R. UPCOTT,
Secretary to the Government of India.

The 26th April, 1899.

No. 179.—Mr. C. P. Walsh, Executive Engineer, 3rd Grade, temporary rank, Assam, is reverted to the substantive rank of Assistant Engineer, 1st Grade, with effect from the 1st March 1899.

TELEGRAPHS.

The 28th April, 1899.

No. 186.—In exercise of the powers conferred by section 7 of the Indian Telegraph Act, 1885 (XIII of 1885), the Governor General in Council is pleased to direct that the following further alterations be made with effect from the 1st May 1899 in the rules under the said Act published with the Notification of the Government of India in the Public Works Department (Telegraphs), No. 245, dated the 25th June 1897, and amended by the like Notifications Nos. 63, 273, 344 and 552, dated, respectively, the 10th February, the 16th June, the 27th July and the 5th December 1898 :

(1) For Rule 116 in Section II (Inland Telegrams) the following shall be substituted, namely :

"**116. Postage.**—No charge is made for postage on a telegram addressed to a place in India where there is no telegraph office, or to a place out of India to which Indian Inland Postal rates apply, *e. g.*, Aden and Ceylon, but on telegrams to be posted to a place beyond the limits of the Indian Inland Postal Tariff, the following additional charges must be paid to cover postage and registration :

(i) On a telegram to be posted to the United Kingdom or any British Possession which has joined the Penny Postal Union—

one anna, if the message is to be posted unregistered, and

three annas, if it is to be posted registered.

(ii) On a telegram to be posted to a country which has not joined the Penny Postal Union—

three annas, if the message is to be posted unregistered, and

five annas, if it is to be posted registered."

(2) For Rule 117 in the same section the following shall be substituted, namely :

"**117. Inland telegrams posted from India to Ceylon.**—Inland telegrams to be posted to Ceylon should be addressed to Tuticorin, from which place a daily mail boat leaves for Colombo.

Example.

Address—To *Colombo,* From *Calcutta.*

J. Young, *W. Collins.*

Oriental Hotel, Colombo,

Post Tuticorin.

Text.—*Start by first steamer.*

The charge for such a telegram is the usual inland rate according to class, and, as stated in Rule 116, there is no charge for postage."

(3) For Rule 118 in the same section the following shall be substituted, namely :

"**118. Inland telegrams posted from Indian ports.**—An inland telegram telegraphed to an Indian port to be posted under Rule 116 to a place beyond

Indian limits must have the name of the port preceded by the words *Post* or *Post Registered*, according as the Sender wishes the message to be sent unregistered or registered, added to the address—

Example.

Class—(Deferred, Ordinary, or Urgent).

Address—To *Bombay* From *Calcutta*,

Mrs. Johnson, *W. Johnson.*

20, Cambridge Terrace,

Hyde Park, London,

Post Bombay.

Text.—*Afraid my letter missed mail. Am quite well.*

The charge for such a telegram would be the usual inland rate according to the class (urgent, ordinary or deferred, at Sender's choice), *plus* one anna for postage under Rule 116. If the Sender desired the message to be registered before being posted, he would write "*Post registered Bombay*" in place of "*Post Bombay*" at the end of the address, and the charge for postage and registration would then be three annas under Rule 116.

NOTE.—Telegrams to be forwarded by post *registered* are received at the General Post Office, Bombay, up to within three hours of the time of sailing of the Homeward Mail. If not to be registered, they will be posted if received within 1½ hours of the time of sailing."

(4) For Rule 119 in the same section the following shall be substituted, namely :

" 119. Telegrams as in the preceding Rule may also be multiple (see Rule 109), but in such case the Sender must pay the copying fee for each additional Address, and also an additional fee for each for postage, or for postage and registration, as the case may be, according to the charges laid down in Rule 116. But such telegrams cannot be addressed partly to persons beyond the sea, and partly to persons at the port itself. If the Sender wants the telegram also delivered to a person at the port itself, he must send it as a separate telegram."

T. HIGHAM,

Joint Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on Saturday, April 22nd, 1899.

Pressure conditions have changed considerably during the week under review. The relatively high pressures which existed over North-Eastern and Northern India last week have given way, and pressure has been steadily high in Southern and low in Northern India. But, though this distribution is more normal and regular, and the winds have been less easterly and more westerly than during the two preceding weeks, the weather has continued very unsettled and the mean temperature much lower than the average. The rainfall was general and moderately heavy over the Peninsula during the early part of the week under review, but after Wednesday, the 19th, the fall became both more scattered and lighter. Occasional showers have been received over the Central Provinces, while daily showers have been received over parts of Assam and Bengal. In North-West India there were some scattered showers at the beginning of the week, but during the latter half the weather was fine. The temperature conditions were very remarkable—more particularly at the close of the week, when in every province of India (excluding Burma) the heat was less than usual, and in some the deficiency of temperature was most exceptional.

Daily Summary.—*Sunday, April 16th.*—Pressure was high and above the normal over Burma, North-East India and across the head of the Peninsula; it was low and below the normal over the south of the Peninsula and Ceylon and was lowest and considerably below the normal over North-West India where a well-marked depression was shown. The winds were cyclonic in the north-west, easterly along the foot of the Himalayas and over part of the Peninsula and about normal elsewhere. The weather was very cloudy over the Peninsula where rain had fallen generally and was slightly clouded over the Central Provinces and part of North-East and North-West India where scattered light showers were received. The mean temperature was slightly or moderately higher than usual over Burma and slightly to largely higher than usual over the Punjab, Sind, Rajputana, Bombay, Central India and part of the Central Provinces. Elsewhere the weather was cooler than usual—more particularly in Bengal and the south of the Peninsula.

Monday, April 17th.—The depression noticed in North-West India on the 16th had moved eastward, at the same time filling up and was apparently central near Agra. Pressure was becoming higher over Tenasserim and the Peninsula, but this was the only important change. There were still some easterly winds along the foot of the hills and in parts of the Peninsula, and the winds were more northerly than usual in the north-west. The weather was cloudy to overcast over the Peninsula where rain had again been fairly general and heavy, and some scattered showers had been received over Assam, some central districts

A

and parts of North-West India. Temperature had fallen fast over the Punjab and the Madras Deccan and risen fast over North-East India. The mean temperature was very low over the Peninsula and considerably below the normal over parts of Bengal and the Punjab.

Tuesday, April 18th.—Pressure was low over the Punjab, Eastern Rajputana and the Gangetic Plain and was high over the Peninsula and Sind. Consequently north-westerly winds prevailed over a large part of North-West India and westerly winds across the head of the Peninsula and the central parts of the country. Easterly breezes, however, continued to be reported along the foot of the Himalayas and south-easterly winds in parts of the Peninsula. Rain had continued to fall over the Peninsula, and scattered showers continued to be received over a considerable part of Northern India. Temperature had, on the whole, risen, but the heat remained largely below the normal over the Peninsula and considerably below over the Punjab and Bengal.

Wednesday, April 19th.—Pressure had changed irregularly, the principal change having been a large rise over part of North-West India. Pressure was lowest in the North-West Provinces and was relatively low over the Western desert and over Upper Burma, while it was highest in the extreme south. The wind was more northerly than usual over North-West India, more southerly than usual over the Peninsula, but was about normal elsewhere, though there were still some easterly winds along the foot of the Eastern Himalayas. Rain had continued to fall over the west of the Peninsula, but in the east, as well as over the plains of Northern India, the rainfall had almost ceased. The mean temperature had risen over parts of North-East India and of the south of the Peninsula, but had generally fallen elsewhere—more particularly in North-West India where the heat was much less than usual.

Thursday, April 20th.—Pressure had fallen again in the north-west where the change had been rapid. Pressure was low over Northern India and high in the extreme south. The winds were unusually northerly over North-West India; they were fairly normal over the Bay area and were variable in direction elsewhere. The weather was cloudy over parts of the Peninsula, of the central districts and of North-East India, and a few scattered showers had been received over those districts. Temperature had fallen fast over the North-West Provinces and Central India, and the heat was very low for the time of year over North-West India and over the Deccan.

Friday, April 21st.—Pressure remained low in the north and high in the south, and shallow depressions were shown—one over the west of the North-West Provinces and a second over Upper Burma. The wind directions were very variable, while the force was strong and gusty over a large part of the country. The weather was generally unchanged, and scattered showers had been received over parts of North-East India, the Central Provinces, North Madras and the west of the Peninsula. The mean temperature had changed irregularly and was very low for the time of year except in Burma and North-East India.

Saturday, April 22nd.—The pressure changes were again irregular, but the general conditions were unchanged, pressure remaining low over Northern and

high over Southern India. The wind directions were variable, and calms were reported from the Punjab and the Gangetic Plain. Thunderstorms had given rain to parts of Bengal, Assam, the west of the Central Provinces and the Peninsula. Temperature had risen a little in parts of North-Western and of Central India, but had fallen elsewhere. The heat was less than usual in all provinces or divisions except Burma, the deficiency being extraordinarily large in some central districts.

Temperature.—The most marked feature in the weather of the past week has been the very low temperature prevailing over the greater part of the country. This relative coolness has been in part due to the occurrence of snow on the North-West Himalayas, and an outflow of cold air from the mountain regions, in part due to abnormally heavy and extensive rainfall and in part to light thundershowers which have locally depressed the day temperatures—in some cases to an extraordinarily large extent.

The following table gives the mean temperature variation data for the week:

PROVINCE.	APRIL 1899.							Mean variation of week.
	16th	17th	18th	19th	20th	21st	22nd	
	°	°	°	°	°	°	°	°
Burma	+1·2	+0·7	+1·5	+1·7	+2·1	+2·3	+1·6	+1·6
Assam	—1·8	—1·3	—0·7	—2·4	—1·0	—0·1	—0·3	—1·1
Bengal	—3·0	—0·3	—0·5	+0·7	+1·7	+1·6	—2·9	—0·4
Orissa	—4·8	—1·6	—1·1	+1·4	+0·3	—2·8	—8·1	—2·4
Bihar	—6·0	—1·9	—1·8	+0·4	+1·2	+0·1	—1·8	—1·4
Chota Nagpur	—5·9	—3·5	—3·7	—0·7	—0·1	—5·3	—7·7	—3·8
N.-W. P. and Oudh	—2·2	+1·5	+1·6	+0·8	—5·1	—4·3	—4·2	—1·7
Punjab	+2·1	—2·[illegible]	—2·6	—9·7	—10·1	—7·7	—5·[illegible]	—5·2
Sind	+3·7	+2·3	+1·0	—6·2	—3·9	—6·4	—3·3	—1·8
Rajputana	+4·3	+4·1	+3·1	—6·8	—7·9	—5·5	—4·6	—1·9
Gujarat	+3·6	+3·5	+4·7	—1·3	—2·1	—5·0	—2·9	+0·5
Central India	+3·8	+3·7	+3·5	+1·2	—6·2	—4·5	—4·4	—0·4
Central Provinces	+0·2	+0·1	+1·8	+1·9	—0·4	—5·1	—8·6	—1·4
Berar	—0·3	0	+0·8	+1·1	+1·9	—5·0	—18·8	—2·9
West Coast	—2·4	—0·7	—0·3	—1·4	—1·8	—1·5	—2·6	—1·5
Bombay Deccan	—0·7	—1·9	—2·6	—2·6	—2·6	—5·3	—9·5	—3·5
Mysore	—6·4	—8·0	—3·6	—3·8	—3·7	—2·6	—2·9	—4·4
Madras Coast	—2·8	—4·2	—3·5	—1·9	+0·7	—1·4	—3·2	—2·3
Madras Deccan	—6·9	—10·5	—8·1	—6·7	—4·5	—4·8	—4·4	—6·6
South India	—10·8	—9·6	—6·4	—5·7	—3·9	—2·7	—2·5	—5·9
Mean for whole of India	—1·7	—1·5	—0·8	—2·0	—2·3	—3·3	—4·8	—2·3

The mean temperature of the whole country was lower than usual on each day of the week, the deficiency ranging from 0·8° on the 18th to as much as 4·8° on the 22nd. The provincial variations show that the heat during the week was greater than usual in Burma, was about normal in Bengal, Gujarat and Central India and was less than usual elsewhere, the deficiency being very large in the case of the Punjab, the Madras Deccan and South India.

The following were the highest maxima reported on each day, the reading, as was natural under the conditions disclosed in the above table, having been in no case very high:

April 16th	. . . . . .	107·8°	at Ahmedabad.
„ 17th	. . . . . .	108·6°	„ Deesa.
„ 18th	. . . . . .	109·8°	„ Ahmedabad.
„ 19th	. . . . . .	108·7°	„ Bhavnagar.
„ 20th	. . . . . .	108·9°	„ Gaya.
„ 21st	. . . . . .	106·6°	„ Mandalay.
„ 22nd	. . . . . .	105·6°	„ Minbu.

Rain.—The rainfall during the week under review has been as general and widespread as during the preceding week, but, on the whole, the amount has been less and the rainfall lighter. Most of the rainfall in the north-west was connected with the depressions which appeared during the week on the frontier and thence passed eastward across North-West India to the Gangetic Plain, while the rainfall over the Peninsula was apparently attributable to the moist easterly winds which blew from the Bay across the southern half of India. In North-East India, Assam and Burma most of the rainfall occurred during thunderstorms. The rainfall returns for the week show that over Burma what rain fell occurred on the 21st and 22nd; in Assam the rainfall was spread out throughout the week; in Bengal the fall occurred mainly on the 18th and on the 21st and 22nd; in Bihar and Upper India the rain occurred principally on the 18th and 19th; in Malabar rain fell on most days of the week, and in Mysore, the Deccan and the Konkan the rainfall was spread out throughout the week; in the central parts of India rain fell generally on the 20th, 21st and 22nd, while over the Madras Presidency the fall occurred chiefly on the 16th, 17th and 18th and on the 22nd.

The rainfall table at the close of the summary shows that rain during the week fell in no less than forty-nine of the rainfall divisions, but of these forty-nine divisions, ten report an average actual rainfall of less than one-tenth of an inch, so that in these divisions—*viz.*, Upper Burma, South Oudh, the west of the North-West Provinces, the two submontane divisions of the North-West Provinces, the South-East Punjab, the South Punjab, the West Punjab, Baluchistan and Central India (East) as well as in Deltaic Burma, Central Burma, the central division of the North-West Provinces, Gujarat, Kathiawar, Sind, the east of Rajputana and the west of Central India and west Rajputana the rainfall of the week has been actually or practically *nil*. In all the remaining divisions more or less effective rain has been received, the average actual amounts varying from 6·67 inches in the Surma Valley of Assam and 4·22 inches in Malabar, to 0·10 inch in South Bihar and 0·11 inch in Tenasserim, the east of the North-West Provinces and the submontane division of the Punjab. The second column of the table shows that during the week under review showers are anticipated in nearly all parts of the Indian region, while the third column shows that, on the whole, but particularly over North-East India and the Peninsula, the actual rainfall has been heavier than the normal. The excess is greatest in the Surma division of Assam (+4·16 inches), but in Malabar (+3·45 inches), the Konkan (+3·16 inches), the central division of the

East Coast (+3·01 inches) and the south division of the East Coast (+2·67 inches) it is large and is more than 1 inch in the case of South-Central Madras, Coorg, Mysore, the Bombay Deccan, the north of the East Coast, Central Madras and South Madras. In Burma, the hiil division of Assam and some divisions in North-West India the small averagé fall for the week was not reachad.

The following were the principal large totals recorded at individual stations during the week:

Assam	Karimgunj	11·29 inches.
Bengal	Pirojpur (Barisal)	3 82 „
	Basirhat (24-Parganas)	5·49 „
N.-W. P.	Robertsgunj (Mirzapur)	1·01 „
Punjab	Kharian (Gujarat)	0·93 „
	Abbottabad	2·71 „
Malabar	Suddur	10·43 „
Mysore	Holalkere (Chitaldroog)	5·80 „
Konkan	Mandangad (Ratnagiri)	13·48 „
Deccan	Godag (Dharwar)	6·01 „
Berar	Karinja (Amraoti)	2·53 „
Madras	Chodavaram (Godaveri)	5·16 „
	Vinukonda (Kistna)	7·22 „
	Vedaramen (Tanjore)	8·66 „

The three concluding columns of the table exhibit the actual and normal rainfall for the period from the 26th February to the 22nd April, and show that the rainfall has been heavier than usual over Assam, Bengal, Bihar, the east and east submontane divisions of the North-West Provinces, the east of the Central Provinces, Sind and nearly all the Peninsular divisions, while Burma, the Gangetic Plain, the Punjab, the west and centre of the Central Provinces, Gujarat, Kathiawar, Baluchistan, Central India and Rajputana have all received less than the usual amount of rain. The excess over the Peninsula is very large and is mainly attributable to the heavy rainfall of the past two weeks.

PROVINCE.	DIVISION.	Rainfall data for week ending April 22nd, 1899. Average actual rainfall of division.	Average normal rainfall of division.	Excess or defect in inches.	Rainfall data from February 26th to April 22nd, 1899. Average actual rainfall of season to date.	Average normal rainfall, February 26th to April 22nd.	Excess or defect of (seasonal) rainfall expressed as a percentage.

SIMLA, *27th April, 1899.*

T. W. HOLDERNESS,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 22nd April.*—The rainfall of the week was exceptionally heavy throughout the Presidency, except in Tinnevelly, where it was normal. The water-supply is sufficient and freshets have occurred in some rivers. Ploughing is in progress in many places. The standing crop is in good condition. The harvest continues with normal yield. Pasture is scarce, but fodder is sufficient. Cattle are in normal condition. Prices have fallen slightly in the northern half of the Presidency and are almost stationary elsewhere.

Bombay.—*For week ending 26th April.*—The rainfall was almost general in the Konkan, Deccan, and Karnatic; heavy in parts of Konkan; and moderate or light elsewhere. Cotton in parts of Dharwar has been damaged by rain. Reaping of late crops continues in five and cotton-picking in three districts. Preparations for the next season are progressing generally. The fodder-supply is sufficient, except in parts of Sind. Agricultural stock is healthy. Prices have risen in five and fallen in six districts; elsewhere they are stationary.

Bengal.—*For week ending 24th April.*—There was rain in almost every district during the week and agricultural prospects are favourable. Ploughing is general and the sowing of autumn rice and jute is going on in several districts. Sugarcane is still being planted in some districts and *cheena* (*Panicum frumentaceum*) is being sown in Bihar. The harvesting of the spring rice is progressing. There is no want of fodder, and the general condition of cattle is good. The price of common rice is practically stationary.

North-Western Provinces and Oudh.—*For week ending 26th April.*—Light showers are reported from some districts and were in a few accompanied by hail. Threshing and winnowing of the spring crops are in progress and nearing completion in parts. Extra crops and sugarcane are being irrigated. Indigo sowings continue. Prospects are favourable; supplies and fodder are sufficient; and prices are stationary to falling.

Punjab.—*For week ending 26th April.*—Rain has fallen in Rawalpindi and in parts of Delhi, Ferozepore, Lahore, Amritsar, Sialkot, and Dera Ismail Khan districts. Harvesting of spring crops, sowing of extra spring crops, and irrigation of sugarcane and cotton crops continue. Sowings of rice have commenced in Peshawar. The condition of the standing crops is generally average on irrigated and below average or poor on unirrigated areas. The condition of cattle is said to be poor in Delhi and in parts of Dera Ismail Khan and fair elsewhere. Fodder is reported sufficient in all districts, except in Delhi, Umballa, Shahpur, and in parts of Dera Ismail Khan. Prices, generally of wheat, are rising in Rawalpindi, Peshawar, and Dera Ismail Khan; falling in Umballa, Jullundur, Lahore, Amritsar, and Sialkot; and are unchanged elsewhere. Wheat is selling from 16⅛

to 21, gram 19⅝ to 23, barley 30 to 32, bulrush-millet 19 to 23¼, maize 28 to 38, great millet 20 to 32, and rice 13 to 14 seers per rupee.

Central Provinces.—*For week ending 25th April.*—The weather has been occasionally stormy during the week. In the Nagpur country rain has fallen in nine districts causing a fall in the temperature, but the days are now growing hot again. Threshing of spring crops is reaching completion. The rain is reported to have damaged unthreshed crops in the Simga tahsil of Raipur. Sugarcane planting continues in Sambalpur. In Saugor and Damoh forest concessions afford much relief to labourers in the collection of *mahua* (*Bassia latifolia*) and other forest products. Village relief is in progress in both districts. The water-supply is becoming scarce in parts of Mandla, Betul, Chanda, and Chhindwara. Fodder is scarce in parts of seven districts and grain stocks are also insufficient in the Hinganghat tahsil of Wardha. The price of wheat, gram, rice, and *juar* has fallen in some districts and has risen in others. The cheapest prices are—wheat 20, gram 35, rice 20, and *juar* 30 seers per rupee; the dearest prices are—wheat 12½, gram 18, rice 10, and *juar* 22 seers per rupee.

Burma.—*For week ending 22nd April.*—In Upper Burma reaping of dry weather paddy is progressing in Mandalay, Sagaing, and Kyaukse, and the crop is in ear in Thayetmyo and Bhamo. Miscellaneous crops are still being harvested in some districts. Clearing and burning for cultivation of hill paddy are in progress in Bhamo, Myitkyina, the Ruby Mines district, and the Southern Shan States. The standing crops are in fair or good condition except in parts of Mandalay. The price of paddy has fallen slightly in Rangoon, Prome, Bassein, Henzada, and Amherst and has risen in Thongwa; elsewhere it is unchanged.

Assam.—*For week ending 25th April.*—The weather is too cold and wet for the growth of tea in Cachar, Sibsagar, and Lakhimpur; elsewhere the prospects of tea are fair. Sowing of early rice, planting of sugarcane, and plucking and manufacture of tea are in progress. Land is being prepared for late rice. Reaping of low land transplanted rice has commenced in Sylhet. Pressing of sugarcane still continues in places and the outturn is generally good. Sowing of jute continues in Sylhet and Goalpara. Prices—common rice—Silchar, Dhubri, Tezpur, and Nowgong 16; Sylhet 18; Gauhati 15; Sibsagar 12; and Dibrugarh 14 seers per rupee.

Mysore and Coorg.—*For week ending 26th April.*—MYSORE: Rainfall—six cents in the Civil and Military station and general good rain in parts of Bangalore, Tumkur, Hassan, Chitaldrug, Kadur, and Shimoga. Prices have slightly risen in Bangalore, Kolar, Hassan; and have fallen in Mysore and Kadur. *Ragi (Eleusine coracana)* has been sown in Kolar and Mysore.

COORG: Rainfall—29 cents. Prices of food-grains are stationary. Water and fodder for cattle are sufficient.

Berar and Hyderabad.—*For week ending 26th April.*—BERAR: The weather is warm and cloudy. Ploughing of fields for the rain crop is in progress. Fodder and water scarcity prevails in parts of the Province. Prices are almost steady.

HYDERABAD: Rainfall during the week 25 cents. The spring harvest is nearly over and the winter rice harvest has commenced in parts. Prices of grain are almost steady. Prices—wheat 10, coarse rice 10¼, and *jowari* 24¾ seers per current sicca rupee.

Central India.—*For week ending 26th April.*—No rain fell in Central India during the week. Agricultural operations have been completed in Bundelkhand and are in progress elsewhere. The crops, agricultural stock, and pasturage are in fairly good condition. Prices are about normal in Bundelkhand; normal elsewhere. The condition of opium is good in Gwalior and fair in Malwa.

Rajputana.—*For week ending 26th April.*—Agricultural operations are progressing satisfactorily, except in Merwara. Sowings have commenced in Sirohi and ploughing and manuring lands in Jhallawar; and breaking up of the soil for the next crop is in progress in parts of Ajmere-Merwara. The harvesting of crops is approaching completion. Cattle are in poor condition in Marwar, Haraoti, and Ajmere; elsewhere they are in good condition. Fodder scarcity prevails in the States reported last week. Prices are rising in Meywar; falling in Jhallawar; and are steady elsewhere. Nineteen persons emigrated from Ajmere and 11 from Merwara during the week. The total emigration from Ajmere-Merwara up to date numbers 4,371. The numbers employed on relief works were—4[illegible]6 in Ajmere; 3,327 in Merwara; and 965 in Marwar. Prices—Ajmere 20⅓, Beawar 22, Marwar 15 seers per rupee.

Kashmir.—*For week ending 25th April.*—Rain fell during the week. Prospects of the spring crops are excellent. Prices continue below normal. Rice—27 seers per rupee.

JAMMU PROVINCE.—*For week ending 26th April.*—No rain. Prices are generally stationary. Prices—wheat 17 and maize 25 seers per rupee. The condition of the standing crops is fair. Fodder is scarce.

Nepal.—*For week ending 22nd April.*—Rainfall 0·14 inch. The weather is stormy with high winds. Crop prospects continue good. Price of rice 9½ seers per rupee.

T. W. HOLDERNESS,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

By order of Government, all subscriptions must be paid *in advance*.

Applications for the supply of the *Gazette* on the *public service* should be addressed to the Home Department.

Complaints regarding non-receipt of any number of the *Gazette* should be forwarded within a week after the date on which it is due.

Attention is invited to the Circular Memo. of the Government of India, Home Department, of February, 1870, directing that all Notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Publisher's Office not later than 2 P.M. on Friday afternoon, and that matter sent after that hour must be certified to be extremely urgent in order to ensure its appearance in the next day's Gazette.

Matter intended for publication in the Supplement should reach the Press not later than Thursday.

CHAS. SANDERSON,
Offg. Publisher, Gazette of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 27th April, 1899.

NOTIFICATIONS.

No. 1340 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, during the week ending 22nd April 1899:—

No. 139 of 1899.—Alexander Atkinson, engineer, at present of Lahore, Punjab. *The construction of a pole cap, to be called "the Lahore pole cap."*

No. 140 of 1899.—Maurice Salomon, manufacturer, care of Messrs. Julius Norden and company, of Aldenhoven, in the German empire. *Improvements in spirit lamps.*

No. 141 of 1899.—Neilson Burgess, mechanician, of 42 Upper Bedford Place, London. *Improvements in apparatus for exercising horses and other animals on board ship, and for like purposes.*

No. 142 of 1899.—The Marsden company, a corporation under the laws of the state of New Jersey, of 850 Drexel building, corner of Fifth and Chesnut streets, in the city and county of Philadelphia, state of Pennsylvania, U. S. A. *A material for packings and other purposes.*

No. 143 of 1899.—Reginald Belfield, electrician, of 32 Victoria street, in the city of Westminster, England. *An improvement in regulation of rotary transformer direct current electromotive force.*

No. 144 of 1899.—Edward Maynard and George Maynard, engineers, both of 17 Merritt road, Brockley, in the county of Surrey, England. *An improved apparatus for signalling on railways during dark or foggy weather.*

No. 145 of 1899.—James McLelland and William Waddell, engineers, both residing at 30 Strand road, Howrah. *A folding ladder, to be called "McLelland's patent folding ladder."*

No. 146 of 1899.—Jacob Salmon, pleader, Bombay High Court, residing at Chinchpoogly, Parel, Bombay. *Improvements in artificial stone.*

No. 1341 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 134 of 1898.—Frederick Thomas Granville Walton, engineer-in-chief, Godavari bridge, Madras. *A sleeper to carry the rails of a railway.* (Specification filed 21 February 1899.)

No. 318 of 1898.—George Henry Crowther, surveyor and estate agent, of Thornhill road, Robert Holliday, manufacturing chemist, of Ravensknowle hall and Edward Cockshaw, cashier, of 65 Blacker road, all in Huddersfield, in the county of York, England. *Improvements in acetylene lamps.* (Specification filed 20 April 1899.)

No. 357 of 1898.—Ernst Schliemann, manufacturer, of 25 Catharinenstrasse, Hamburg, in the German empire. *The manufacture of a wax-like substance by the action of oxidising agents upon a mixture of resin and paraffin.* (Specification filed 14 April 1899.)

No. 358 of 1898.—Emanuel Winter, manufacturer, of 111 Hernalser Hauptstrasse, Vienna. *Improvements in slate frames.* (Specification filed 14 April 1899.)

No. 362 of 1898.—Albert Price, gentleman, residing at St. Louis, in the state of Missouri, U. S. A. *Improvements in decorticating machines.* (Specification filed 14 April 1899.)

No. 364 of 1898.—Fred. Lobnitz, director of Lobnitz and company, limited, shipbuilders, Renfrew, Scotland. *Improvements in apparatus for breaking up or cutting rocks, boulders, stones or earth, under water or on dry land.* (Specification filed 14 April 1899.)

No. 368 of 1898.—Jean Effront, professor of chemistry, of 72 Rue du Marais, Brussels. *An improved process for fermenting worts.* (Specification filed 14 April 1899.)

No. 370 of 1898.—Auguste Collette (junior), distiller, and Auguste Boidin, chemist, both of Seclin (Nord), France. *Improvements in apparatus for the manufacture of alcohol by saccharification and fermentation by means of mucedineæ.* (Specification filed 14 April 1899.)

No. 371 of 1898.—Auguste Collette (junior), distiller, and Auguste Boidin, chemist, both of Seclin (Nord), France. *An improved process for the manufacture of alcohol by saccharification and fermentation by mucedineæ, and apparatus therefor.* (Specification filed 14 April 1899.)

No. 404 of 1898.—John Jack, manufacturer, of 96 Buchanan street, Glasgow, and Matthew Blake, engineer, of Victoria works, Greenock. *Improvements in and relating to the extracting and recovering of oil from fish, fish refuse or other oil-producing animal, or vegetable matters, and treating the residue thereof.* (Specification filed 18 April 1899.)

No. 419 of 1898.—Walter Martin Musgrave, of the firm of John Musgrave and sons, limited, engineers, millrights, boiler-makers and iron-founders, of Globe iron Works, Bolton, in the county of Lancaster, England. *Improvements in the construction of vertical compound steam engines, and in apparatus for automatically lubricating the same.* (Specification filed 20 April 1899.)

No. 476 of 1898.—Samuel Cleland Davidson, merchant, of Sirocco engineering works, Belfast, Ireland. *Improvements in centrifugal fans and pumps.* (Specification filed 11 April 1899.)

No. 481 of 1898.—Frederick William Jones, chemist, of Barwick near Ware, in the county of Herts, England. *Improvements in or connected with the treatment of explosives.* (Specification filed 18 April 1899.)

No. 39 of 1899.—The Right Honourable Douglas Mackinnon Baillie Hamilton Cochrane, Earl of Dundonald, of 34 Portman square, in the county of London. *Improvements in the coupling and traction of bicycles.* (Specification filed 20 April 1899.)

No. 47 of 1899.—Henry Livingstone Sulman, analytical chemist, of 60 Gracechurch street, in the city of London. *Improvements in obtaining gold from certain of its ores.* (Specification filed 20 April 1899.)

No. 56 of 1899.—Reginald Belfield, electrician, of 32 Victoria street, in the city of Westminster, England. *Improvements in controllers for electric motors.* (Specification filed 14 April 1899.)

No. 1342 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

No. 148 of 1889.—Charles Joseph van Depoele. *Improvements in carbon contacts or commutator brushes for use with dynamo-electric generators and electro-dynamic motors.* (From 10 July 1899 to 10 July 1900.)

No. 19 of 1892.—George William Rowe and William George Heys. *Improvements in and relating to pneumatic and similar tyres.* (From 6 July 1899 to 6 July 1900.)

No. 33 of 1892.—George Perfect. *Improvements in sugarcane-crushing mill rollers.* (From 17 April 1899 to 17 April 1900)

No. 311 of 1892.—William Richard Sumption Jones. *Improvements in central buffers for railway and other vehicles.* (From 20 April 1899 to 20 April 1900.)

No. 1343 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling and using the said inventions in British India, and of authorising others so to do, has ceased:—

No. 296 of 1894.—Charles Nicholson. *Lubricating the wheel journals of locomotive engines, tenders, carriages and wagons, called "a revolving lubricator."* (Specification filed 21 January 1895.)

No. 326 of 1894.—Angus Murray and Wallace Fairweather. *Improvements in sand moulding machines.* (Specification filed 16 January 1895.)

No. 3 of 1895.—Charles Frederick Pike. *Improvements in and relating to methods of washing, concentrating amd amalgamating ores, and in apparatus therefor.* (Specification filed 16 January 1895.)

Fee in respect of the continuance of an exclusive privilege—

4 (*a*) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of R50 for each of the above inventions.

No. 282 of 1892.—Felix Bernhard Fremerey. *Improvements in machinery for decorticating jute, ramie and other fibrous plants.* (Specification filed 17 January 1893.)

Fee in respect of the continuance of an exclusive privilege—

4 (*c*) After the expiration of the fifth year and before the expiration of the sixth year from the date of the filing of the specification—

The sum of R50 for the above invention.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of

the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,
Offg. Secy. under the Inventions and Designs Act, 1888.

CALCUTTA UNIVERSITY.

NOTICE.

SREEGOPAL BASU MALLIK FELLOWSHIP.

An election for the above Fellowship, founded for the encouragement and promotion of Sanskrit learning and Vedantic studies, will be held on or about the 8th July, 1899.

The remuneration is R400 per mensem for a period of one year or more to be hereafter determined. The Fellow shall not embark in, or continue in, any other occupation or profession during the term of this Fellowship.

Hindu graduates of the Calcutta University or any other Hindus, without distinction of caste, who may have made the Vedanta their especial study, are eligible as candidates.

Each candidate is to send in to the Registrar, before the 15th June, certificates of his qualifications and 15 copies of a synopsis, printed in either Bengali or English, of at least 12 lectures which he is prepared to deliver in the subjects which will be found in the Regulations.

The attention of intending candidates is particularly directed to Rule 13:—

"Under no circumstances will any candidate, or any one on his behalf, be allowed to canvass directly or indirectly for his appointment, or in any way to communicate with regard thereto with any member of the Syndicate or with Babu Sreegopal Basu Mallik, or with any one acting on his behalf."

Disqualification is the penalty attached to disregard of this rule.

Copies of the Rules and Regulations can be had on application to

A. C. EDWARDS,
Offg. Registrar.

NOTICE.

It is notified, for information of Military and Civil officers, that services of Shams-ul-Ulama, Shaikh Mahmud Gilani, Persian Instructor, and Mr. R. F. Azoo, Arabic Instructor, have been specially retained by Government for giving instruction to candidates intending to present themselves for examinations in Arabic and Persian before the Board of Examiners. Gentlemen requiring their tuition should communicate with them at the office of the Board of Examiners.

PUBLIC WORKS DEPARTMENT.

NOTIFICATION.

Simla, the 20th September, 1893.

A Registry Office for men of all grades out of employ is kept up by the Principal, Thomason College, Roorkee. Officers requiring men are requested to apply to Principal.

J. CLIBBORN, *Major, I.S.C.*,
Principal, Thomason College.

POST OFFICE.

NOTIFICATIONS.

Calcutta, the 22nd April, 1899.

No. 976.—Mr. W. E. Douglas, Superintendent of post offices, officiating in the 1st grade, is granted furlough for one year, with effect from the date on which he may avail himself of it.

The 24th April, 1899.

No. 1090.—Mr. J. R. Webster, Superintendent of post offices, second grade, Fyzabad Division, is granted privilege leave for three months, with effect from the 1st May, 1899, or from the date on which he may avail himself of it.

Lala Mokand Behari Lal, Postmaster, Benares City, is appointed to act as Superintendent of post offices, 4th grade, during the absence on privilege leave of Mr. J. R. Webster, or until further orders.

The 25th April, 1899.

No. 1130.—Mr. R. S. Burns, Superintendent of post offices, 1st grade, is granted leave on medical certificate for eight months, with effect from the 1st May, 1899, or from the date on which he may avail himself of it.

Mr. G. W. Love is appointed to act as Superintendent of post offices, 4th grade, during the absence of Mr. R. S. Burns, on leave, or until further orders.

No. 1135.—The following acting appointments are made, with effect from the 5th March, 1899, during the absence on privilege leave of Mr. H. Tulloch, Superintendent of Post Offices, officiating in the 1st grade, or until further orders:—

Mr. J. W. K. McCrea, Superintendent of post offices, 2nd grade, to act in the 1st grade.

Lala Sanwal Das Ramasnehi, Superintendent of post offices, 3rd grade, to act in the 2nd grade.

Babu Dwarka Nath Goswami, Superintendent of post offices, 4th grade, to act in the 3rd grade.

No. 1144.—Mr. C. L. Pigott, Superintendent of post offices, 3rd grade, is granted privilege leave for one month and twenty-five days, with effect from the 24th April, 1899, or from the date on which he may avail himself of it.

Babu Kshetrapada Bannerji is appointed to act as Superintendent of post offices, 4th grade, during the absence on privilege leave of Mr. C. L. Pigott, or until further orders.

The 26th April, 1899.

No. 1225.—Mr. C. E. O'Shea, Superintendent of post offices, 4th grade, was granted, under Article 369 of the Civil Service Regulations, an extension of leave on medical certificate for one month and two days, with effect from the 1st December, 1898.

A. U. FANSHAWE,
Director General of the Post Office of India.

Ditto ditto . .	1st May	Per land route *viâ* Chittagong.
Ditto ditto A. M. At 5-30	2nd "	Ditto.

*Although the date entered in column 2 is, as far as can be calculated, the latest safe date of posting for the next Mail Steamer, full allowance being made for the steamer being in advance of her published timing, Mails for the places mentioned in column 1 are despatched daily to Colombo, so that they may proceed by any steamer that has been unusually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

The letter-box for Inland articles will be cleared for the forenoon Mails at the following hours:—

For Goalundo and Chittagong Express train at 5-30 A.M.
For Eastern districts as far as Dacca at 6-30 A.M.
For Bombay Mail *viâ* Nagpur at 7-30 A.M. and with a late fee of ½ anna up to 8 A.M.
For Midnapore and Orissa at 8 A.M.

The letter-box will be cleared for the evening Mails without late fee at the following hours, *viz.*:—

For E. I. Railway Loop Mail at 2-30 P.M. and up to 2-55 P.M. with a late fee of ½ anna.

For the Bombay Mail *viâ* Jubbulpore carrying also Mails for Ceylon at 6 P.M.

For Darjeeling and Assam at 3-25 P.M. without late fee, and 3-50 P.M. with late fee of ½ anna.

For the Punjab at 7-30 P.M.

Late letters bearing a fee of ½ anna will be received for the Bombay Mail *viâ* Jubbulpore up to 6-30 P.M. and for other Mails from 7-30 to 8 P.M., and from 8-0 to 8-45 P.M. with a late fee of 1 anna for the Punjab Mails only.

Late registered articles will be received between the following hours:—

For Offices served by the Bombay Mail *viâ* Allahabad and Jubbulpore from 5 P.M. to 6-15 P.M.

For Offices served by the Punjab Mail from 6 P.M. to 7 P.M.

For Offices served by the Goalundo Mail from 6 P.M. to 7 P.M.

For Offices served by the Khulna Mail from 6 P.M. to 7 P.M.

The late fee on each registered letter will be two annas, which must be prepaid in stamps on the letter.

Articles for Burma and for Port Blair by Sea are received without late fee up to 7-30 P.M., after which hour they are received fully prepaid and bearing an extra stamp of ½ anna up to 8 P.M.

On the latest safe day of despatch of the Mail for the Australasian Colonies *viâ* Tuticorin, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6 P.M., and late letters and papers fully prepaid will be received up to 6-30 P.M.

On the day of despatch of the Mail for Europe (Thursday), the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6-30 P.M., and late letters and papers fully prepaid will be received up to 6-45 P.M. Late registered articles will be received from 5 to 6 P.M. On other days the letter-box for Foreign articles will be cleared for the last time without the late fee at 6 P.M., and late letters and papers will be received up to 6-30 P.M. for despatch by any Foreign Mails *viâ* Tuticorin, Madras, or Bombay the same night and up to 8-30 P.M., late letters and papers up to 9 P.M., for any Foreign Mails despatched by Sea. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

P. J. GORMAN,

Offg. Presidency Postmaster, Calcutta.

Apply to the Registrar, Geological Survey of India, Calcutta.

CIVIL ENGINEERING COLLEGE, SIBPUR.

SESSION 1899-1900.

Candidates for admission to the Engineer Department should apply to the Principal before the 15th May, 1899. Each application must be accompanied by a Registration fee of R1. The session begins on Monday, the 5th June, 1899.

Candidates must furnish proof that they have passed one of the following tests :—

(1) The F. A. Examination of the Calcutta University, or a similar standard of any Indian University recognised by the Calcutta University. The candidate's age must be under 21 years.

(2) The B.A. Examination in the B. Course in Physics and Chemistry. The candidate's age must be under 23 years. (These students are admitted direct into the second year class.)

The maximum number to be admitted each year is limited to 40. The position in the University Examinations and the age of the candidates will be taken into consideration when selection is made, and such selection will be made by the Principal.

The tuition fee for students of the Engineer class is R10 a month for each month of the year, vacation included.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior or senior scholarships. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour and eyesight.

Further particulars will be supplied on application to the Principal.

A. MACDONELL,

Offg. Principal, Civil Engineering College.

SIBPUR,

The 4th April, 1899.

CIVIL ENGINEERING COLLEGE, SIBPUR.

APPRENTICE DEPARTMENT.

The date for admission to this Department is 5th June, 1899. Candidates must be at least 15 and not more than 17 years of age.

They must have passed standard VII of the Code for European Schools or the University Entrance Examination. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard so as to reach the Principal not later than the 6th May, 1899, together with a Registration fee of R1. No application will be attended to after this date.

The maximum number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in June. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding R10. No apprentice will be admitted or re-admitted to the College after the close of the month of June, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

There will be no vacancy on the free list for Christian Apprentices in June next, but there will be seven on the reduced* fee list. For natives there will be at least eleven vacancies, possibly more, on the reduced† fee list.

With the exception of students on the Free and Reduced Fee lists, all apprentices will pay a tuition fee of R3 a month for each month of the year.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can, therefore, be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

* R5 per mensem.
† R2 per mensem.

A. MACDONELL,

Offg. Principal, Civil Engineering College.

SIBPUR;
The 4th April, 1899.

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1898, the price of this Quinine will be as follows:—

1-pound tin,	R17,	or,	post-free,	R17-12.
½	,,	R8-8,	,,	R9-0.
¼	,,	R4-4,	,,	R4-12.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৮৯৮ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য লইবে, যথা—

১ এক পৌণ্ড টিন	১৭,	বা ডাকমাশুল বিনা	১৭৸০
½ আধ ,, ,,	৮৷০	,,	৯,
¼ শিকি ,, ,,	৪৷০	,,	৪৸০

পরিক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে, এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনাডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারে।

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT EMPLOYMENT ONLY.

It is advised that letters containing remittances be registered.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal Octavo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required :—

VOLUME I.*

Section I. Building Materials, R2-6.
" II. Masonry, R1-4.
" III. Carpentry, (1889), R1-4.
" IV. Earthwork (1892), R1-4.
" V. Tools and Plant (never published).

VOLUME II.*

Section VI. Buildings. (In the Press.)
" VII. Bridges, R4-4.
" VIII. Roads, R1-8.
" IX. Railways (1891), R1-4.
" X. Irrigation Works. (Under revision.)

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol. I. Direct and Transverse Strain, principally by Analytical Methods. R7.
" II. The Stability of Structures, mostly by Graphic Methods (in the Press).

MANUALS.

VII. Surveying (by Major Firebrace, R.E.) (6th edition, with Curve Table). R3.
XIII. Drawing (by Lieut. R. Pulford, R.E.). † R8.
XIIIa. Drawing, First Principles of Geometrical (by do.) (4th edition). R1-4.
XIV. Simple Applied Mechanics, Parts I and II in one (in the Press).
Simple Applied Mechanics, Part II (1st edition). 8a.
XV. Examples of Estimating. Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition). R3-12.
XVI. Earthwork Estimating, with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. Say R1.
XVII. Specimens of Printing used in the College Drawing Course and Entrance Examinations. 6a.

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting Section X, is the course for the Upper Subordinate Class. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

Shelly's Workshop appliances. R1-8.

Curve Tables, complete, for laying any curve. 4a.

Scantlings of Timber for Roofs. Tables and investigation of formulæ for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 16 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. R1.

Notes on Chemistry of Building Materials. R2-0.

Tate's Mechanism. R1.

Circulars containing the Rules of admission to the different classes of the College will be forwarded to applicants.

J. CLIBBORN, *Lieut.-Col., I. S. C.,*
Principal, Thomason Civil Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete Series, *including postage* . . . R22-8

	Without postage. R a. p.	With postage. R a. p.
For the Calcutta Series	10 0 0	12 8 0
" each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
" a part of the Calcutta Series purchased separately, *inclusive of postage in India*	...	2 0 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, *inclusive of postage in India*	...	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town. R a. p.	For mofussil. R a. p.
For the Calcutta Series; per copy . . .	0 8 9	0 10 0
" each of the Madras, Bombay, and Allahabad Series; per copy	0 5 3	0 5 9
" the Calcutta Series. For the year . .	7 2 6	8 6 3
" each of the Madras, Bombay, and Allahabad Series. For the year . . .	4 4 6	4 11 0

Persons desiring to subscribe for, or purchase, the Report, should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
The Curator of Government Books, North-Western Provinces and Oudh.
The Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper, of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	*Half page.*	*Quarter page.*
For one issue . . .	R 20	R 14	R 9
" three issues . . .	" 55	" 36	" 24
" six " . . .	" 100	" 68	" 45
" nine " . . .	" 145	" 96	" 64
" twelve " . . .	" 180	" 120	" 80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage. R a. p.	With postage. R a. p.
Bengal Law Reports, for one year . .	20 0 0	22 8 0
Single copies, R2 per copy.		
Full Bench Rulings, Parts I and II . .	20 0 0	22 8 3

Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.

Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depôt.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

FINANCE AND COMMERCE DEPARTMENT
April 25, 1899.

J. F. FINLAY,
Secretary to the Government of India.

The Gazette of India,

EXTRAORDINARY.

PUBLISHED BY AUTHORITY.

CALCUTTA, THURSDAY, MARCH 30, 1899.

FINANCE AND COMMERCE DEPARTMENT.

NOTIFICATION.

No. S. R.—1429 C.

Calcutta, the 30th March 1899.

In exercise of the powers conferred by the Indian Post Office Act, 1898 (VI of 1898), and in supersession of all existing notifications under that Act or the Indian Post Office Act, 1866 (XIV of 1866), the Governor General in Council is pleased to issue the following rules and orders:—

Part I.—Rates of postage.

I.—Inland postal articles.

1. The following rates of postage shall be chargeable on postal articles where the postage is prepaid:—

Letters.

For a letter not exceeding half a tola in weight	Half an anna.
For a letter exceeding half a tola but not exceeding one tola and a half in weight	One anna.
For every additional one tola and a half or part of that weight . .	One anna.

Postcards.

For a single postcard . . .	One-quarter of an anna.
For a reply postcard	Half an anna.

Book, pattern and sample packets.

For every ten tolas or part of that weight	Half an anna.

Registered newspapers.

For a newspaper not exceeding four tolas in weight . . .	One-quarter of an anna.

A

For a newspaper exceeding four tolas but not exceeding twenty tolas in weight	Half an anna.
For every additional twenty tolas or part of that weight . . .	Half an anna.

Parcels.

For a parcel not exceeding twenty tolas in weight	Two annas.
For a parcel exceeding twenty tolas but not exceeding forty tolas in weight	Four annas.
For every additional forty tolas or part of that weight . . .	Four annas.

2. The following rates of postage shall be chargeable on the delivery of postal articles where the postage is not prepaid or is insufficiently prepaid:—

On an unpaid letter, postcard of private manufacture or packet . . .	Double the prepaid rate.
On an insufficiently paid letter or packet	Double the deficiency.
On an unpaid registered parcel . .	The prepaid rate (and registration fee).

II.—Foreign postal articles.

3. The following are declared to be the rates of postage chargeable on postal articles where the postage is prepaid:—

Samples.

For any part of the world served by the Foreign post with the exception of Ceylon :—

For a packet not exceeding four ounces in weight	One anna.
For every additional two ounces or part of that weight . . .	Half an anna.
For Ceylon	Indian inland rates.

Registered newspapers.

For Ceylon	Indian inland rates.

Parcels.

The Director General shall, from time to time, declare in the Indian Postal Guide the countries and places to which parcels may be transmitted by the Foreign post, and the rates of postage chargeable in each case.

In the case of Ceylon the Indian inland rates of postage shall be applicable, provided that prepayment of postage, and registration, shall be compulsory.

4. The following are declared to be the rates of postage chargeable on the delivery of postal articles, other than parcels received by the Foreign post, where the postage is not prepaid or is insufficiently prepaid :—

When the postage is not prepaid .	Double the prepaid rate.
When the postage is insufficiently prepaid	Double the deficiency.

Part II.—Main conditions of transmission by post of postal articles.

I.—Inland postal articles.

(a) Postcards.

5. Single and reply cards of private manufacture, with or without adhesive postage stamps affixed thereto in payment of postage, may be transmitted by post as postcards :

Provided that they are in conformity, as regards size and weight, with the inland postcards issued by the Post Office.

6. (*1*) Nothing shall be written on the address-side of a postcard except—

(*a*) the heading "Postcard" or "Reply Postcard ;"

(*b*) the name and address of the addressee ;

(*c*) the name and address of the sender ;

(*d*) the date of posting ;

(*e*) engravings or advertisements, provided that sufficient space is left for a clear address and for the official marks of the Post Office.

(*2*) Nothing shall be affixed or attached to a postcard except,—

(*a*) on the address-side, postage stamps in pre-payment of postage and the registration-fee (if any), or an address-label bearing the name and address of the addressee and not exceeding in size 2 inches in length by ¾ of an inch in width ;

(*b*) on the other side, receipt stamps.

Explanation.—The sender of a reply-postcard may affix to the address-side of the reply-half an address-label bearing his name and address and not exceeding in size 2 inches in length by ¾ of an inch in width.

(*3*) A postcard shall not be folded, cut or otherwise altered, except that the impressed postage stamp (if any) may be perforated with initials.

7. Should any of the conditions imposed by rules 5 and 6 be infringed, the postcard shall be treated as a letter.

(b) Book packets.

8. A book packet may contain any of the following articles :—

(1) Newspapers and publications of all kinds ; books, whether blank or printed ; engravings, photographs, drawings, plans, maps, printed music, and proof sheets, with or without the manuscript relating thereto ; blank paper, parchment, or card-board ; and, generally, anything printed, engraved, lithographed or papyrographed on paper, parchment or card-board.

(2) Business papers, written or drawn wholly or partly by hand, not being of the nature of a letter or having the character of a personal communication, such as deeds, bills of lading, invoices, accounts ; and manuscript of all kinds, including manuscript music, not being of the nature of personal correspondence.

(3) Written letters of old date which have previously passed through the post and served their original purpose.

With any of the above mentioned articles may be sent anything that is necessary for their safe transmission through the post, such as rollers, etc., and with any of the articles mentioned in clause (*1*) may be sent any legitimate binding, mounting, or covering, loose or attached, and anything that ordinarily appertains to such articles, as pens and pencils in the case of a pocket-book, photographs in the case of a photograph-book, and card-plates in the case of visiting cards.

Manuscript for the press shall not be reckoned as having the character of personal correspondence within the meaning of clause (*2*), and may be sent as a book packet.

9. No communication of the nature of a letter, or having the character of a personal communication, shall be enclosed with, or written upon, the contents of a book packet:

Provided that nothing in this rule shall be held to prohibit inscriptions or entries stating who the sender is or to whom the articles are to be given, or to prohibit purely complimentary greetings from being entered, in writing or otherwise, on Christmas, New Year and Birthday cards and similar articles.

10. A book packet shall not contain "paper-money," which for the purposes of this rule includes unobliterated postage or other stamps, currency notes, hundies, cheques, bank-notes, bankpost bills, bills of exchange, and all orders or authorities for the payment of money.

Explanation.—This rule shall not apply to a book packet containing a stamped and addressed envelope, postcard, or wrapper, forwarded by the sender of the packet in order that such envelope, card, or wrapper may be returned through the post to the sender or sent to some other person designated by him.

11. The dimensions of a book packet, which may be of any shape, shall not exceed two feet in length by one foot in width and one foot in depth. When, however, the packet is in the form of a roll, the length shall not exceed thirty inches:

Provided that, if the length exceeds twenty-four inches (two feet), the diameter shall not exceed four inches.

12. A book packet shall be posted without a cover, or with a cover entirely open at both ends, or in an unfastened envelope or in a cover which can be easily removed so as to admit of a ready examination of the contents. The ends of the packet, however, may be tied with string.

Illustration.—A closed envelope notched at the sides or ends does not admit of a ready examination of its contents, and does not, therefore, fulfil the conditions prescribed by this rule.

13. If a book packet is found to contain anything not permitted by the rules, or to be in excess of the prescribed size, or to be packed in a manner not in accordance with the rules, it shall be charged on delivery with letter or parcel postage, whichever may be less. Any postage stamps that may be affixed to it shall, however, be recognised in assessing the charge.

(c) Pattern packets.

14. A pattern packet may contain *bonâ fide* trade patterns or samples of merchandise not having any saleable value, together with, or without, any matter which may be sent as a book packet. There shall be no writing upon or in a pattern packet, except the name and address of the sender, the name and address of the person for whom it is intended, a trade mark, numbers, prices, and indications as to the weight, size or quantity to be disposed of.

15. The dimensions of a pattern packet shall not exceed two feet in length by one foot in width and one foot in depth; and the weight shall not exceed forty tolas.

16. A pattern packet shall be posted without a cover, or with a cover open at both ends, or in an unfastened envelope or other cover which can be easily removed so as to admit of a ready examination of the contents. Samples

of seeds, drugs, and other articles which cannot be sent in unfastened or removable envelopes may be sent enclosed in boxes or bags, provided that they are fastened in such a way that they can be easily opened. They may also be sent in air-tight cases when necessary, provided that the nature of the contents is certified on the cover under the full signature and address of the sender.

17. If a pattern packet is found to contain anything not permitted by the rules, or to be in excess of the prescribed size or weight, or to be packed in a manner not in accordance with the rules, it shall be charged on delivery with letter or parcel postage, whichever may be less. Any postage stamps that may be affixed to it shall, however, be recognised in assessing the charge.

(d) Registered newspapers.

18. Newspapers as defined in section 9 of the Indian Post Office Act, 1898 (hereinafter referred to as "the Act") shall be transmitted by post as registered newspapers, provided that they are posted in accordance with the following conditions:—

(1) The newspaper shall be registered in the office of the Postmaster General, or officer exercising the powers of the Postmaster-General, of the postal circle in which it is published. Such registration shall cease to have effect at the close of the calendar year following that in which it was effected, and must be renewed if a continuance of the privilege conferred by the system beyond that time is desired.

(2) The postage shall be prepaid by postage stamps.

(3) The newspaper shall bear in print immediately above the address the word "Registered" followed by the registration-number which shall be assigned to it by the Postmaster-General or other officer referred to in condition (1).

(4) The newspaper shall be posted at the place of publication.

(5) The newspaper shall be posted without a cover or in a short cover open at the ends.

(6) There shall be no word printed on the newspaper after its publication or upon the cover (if any) thereof, nor shall any writing or mark be made upon it or upon the cover (if any) thereof, except the name and address of the person to whom it is sent, and, if desired, the name and address of the newspaper, or of the sender.

(7) There shall be no paper or thing enclosed in or with any such newspaper other than an extra or supplement as specified in section 9 of the Act.

Nothing in this rule shall be held to prevent newspapers being transmitted by post, either singly or otherwise, at the rates, and under the conditions, prescribed for book packets.

(e) Parcels.

19. A parcel may contain one (but shall not contain more than one) written communication of the nature of a letter, or having the character of a personal communication:

Provided that the communication shall be addressed only to the addressee of the parcel itself.

20. A parcel shall not exceed 440 tolas in weight, unless it is registered, in which case the weight shall not exceed 25 seers (2,000 tolas). A parcel shall not be of a kind which, owing to size, shape, manner of packing, or any other cause, cannot be carried by post without serious inconvenience or risk.

21. The postage on a parcel, unless it is a registered parcel, shall be fully prepaid by means of postage stamps which shall be affixed either to the cover of the parcel or to an official label which can be obtained free at the post office. In either case, the sender or his messenger shall affix the stamps himself, postal officials being strictly forbidden to affix them.

The postage, including the registration fee, on a registered parcel may be either fully prepaid or wholly unpaid : partial prepayment of postage shall not be recognized.

22. Every parcel intended for transmission by post shall be presented at the window of the post office. Any parcel found in a letter-box shall be treated and charged as a registered parcel.

(f) Re-direction of postal articles.

23. A postal article re-directed to any place served by the Inland post by an officer of the Post Office or by an agent of the addressee after its delivery shall be transmitted by post free of charge in respect of such further transmission :

Provided that,—

(1) in the case of an unregistered article re-directed by an agent of the addressee,—the article has not been opened and has been either returned to the postman or re-posted at the place of delivery ; and,

(2) in the case of a registered article re-directed by an agent of the addressee,—the article has not been opened and has been returned to the postman at the place of delivery with the receipt unsigned.

24. A postal article re-posted after having been opened, or re-posted at any place other than the place at which it was delivered, shall be treated as a postal article posted for the first time, and charged with postage accordingly. A registered article of which delivery has been taken can be re-posted only under the conditions prescribed for the posting of registered articles for the first time.

II.—Foreign postal articles.

25. The Director-General shall, from time to time, notify in the Indian Postal Guide the conditions in force for the transmission of postal articles by the Foreign post :

Provided that the rules relating to inland registered newspapers shall be deemed to apply in the case of newspapers sent to Ceylon.

Treatment of postal articles from abroad bearing fictitious or previously used stamps.

26. Where a postal article has been received by post from any place beyond the limits of British India, bearing a fictitious or previously used postage stamp, and the addressee of such postal article has failed to attend, by himself or his agent, at the post office of delivery within the time specified in the notice sent to him in that behalf, or, having so attended, has refused to make known the name and address of the sender or to re-deliver the postal article or such portion thereof as may be required under section 27 of the Act, and, in consequence of such failure or refusal, the postal article has not been delivered to the addressee or his agent, the postal article shall be disposed of in the following manner :—

The officer in charge of the post office at which the postal article has been received for delivery, shall record a statement, in such form as the Director General shall prescribe, setting forth the action taken by him under the provisions of section 27 of the Act, and the fact of such failure or refusal as aforesaid on the part of the addressee or his agent; and shall forward the statement, together with the postal article, through the usual channel, to the Director General.

The Director General shall then, in due course, transmit the statement, together with the postal article, to the Postal Administration of the place beyond the limits of British India from which the article was received.

Part III.—Registration of postal articles.

I.—Inland postal articles.

27. Letters, postcards, book and pattern packets and parcels may be registered at any post office for transmission by post to any other post office.

28. In addition to the postage, the following further fees shall be charged for the registration of postal articles:—

For a letter, postcard, or book or pattern packet .	2 annas.
For a parcel not exceeding 20 tolas in weight .	2 annas.
For a parcel exceeding 20 tolas in weight . .	4 annas.

29. The prepayment of the postage and registration fee shall be optional in the case of uninsured registered parcels, and shall be compulsory in the case of all other registered articles. Prepayment of the postage and registration fee on registered articles shall be made by means of postage stamps affixed to the articles.

30. Articles intended for registration shall be presented at the window of the post office.

31. A receipt shall be given to the person who presents an article for registration at the post office window during the hours prescribed for posting registered articles.

32. No registered article shall be delivered to the addressee unless and until he or his agent has signed a receipt for it in such form as the Director General shall prescribe.

33. The sender of a registered article shall be entitled to obtain an acknowledgment of its delivery signed by the addressee by paying a fee of one anna, in addition to the postage and registration fee, at the time of posting the article. The fee for a special acknowledgment shall be paid by means of postage stamps affixed to the article, in the case of registered postcards, letters, and packets, and in cash in the case of registered parcels.

34. The sender of a registered article may obtain an attested copy of the original receipt signed by the addressee on payment of a special fee of three annas, provided that he makes his application for it within six months of the date on which the addressee signed the original receipt.

35. Registration shall be obligatory in the case of—

(1) any parcel exceeding 440 tolas in weight;

(2) any parcel for which the postage is not prepaid;

(3) any insured parcel; and

(4) any parcel addressed to a place for which a customs declaration is required.

36. (1) A currency note, or any portion of a currency note, may be sent by post only in a registered cover. Registration shall be compulsory in the case of a postal article which contains postage or other stamps or labels, or a cheque, hundi, bank note, bankpost bill, bill of exchange, or the like, if the contents are either superscribed upon the cover, or are known or manifest to the officers of the Post Office owing to the transparency, insecurity or insufficiency of the cover, or to any other cause. Nothing in this rule shall be held to render registration of a packet compulsory only by reason that it contains a stamped envelope, postcard, or wrapper as provided by the explanation to rule 10.

(2) Twice the fee for registration shall be levied on the delivery of any postal article required under this rule to be registered at the time of posting on which the fee for registration has not been prepaid.

II.—Foreign postal articles.

37. Letters, postcards and packets may be registered at any post office for transmission to countries and places served by the foreign post, subject to such exceptions as the Director General shall, from time to time, notify in the Indian Postal Guide.

38. In addition to the postage, a further fee of two annas shall be charged for the registration of any article to be sent by the foreign post.

39. The prepayment of the postage and registration fee on foreign registered articles shall be compulsory, and shall be made by means of postage stamps affixed to the articles.

40. Rules 30, 31 and 32, relating to the registration of inland postal articles, shall be equally applicable to registered articles sent or received by the foreign post.

41. The sender of a registered article addressed to any country belonging to the Universal Postal Union shall be entitled to obtain an acknowledgment of its delivery by paying, at the time of posting the article, a fee, in addition to the postage and registration fee, of one anna in the case of a registered article addressed to Ceylon, and of two annas in the case of a registered article addressed to any other such country.

Part IV.—Insurance of postal articles.

I.—Inland postal articles.

42. Registered letters, value-payable registered letters and registered parcels may be insured up to the value of R500 at such branch post offices, and up to the value of R2,000 at such other post offices, as may be authorized by the Director General to accept articles for insurance:

Provided that in no case shall such value exceed the real value of the contents of the article insured.

43. Insurance shall be of two kinds, complete and partial. Complete insurance shall cover all risks in course of transmission by post. Partial insurance shall cover all risks in course of transmission by post in British territory, and all risks, except those arising out of highway robbery, in course of transmission by post in such Native State territory as may be specified in this behalf by the Director General in the Indian Postal Guide.

44. In addition to the postage and the fee for registration, the following further fees shall be charged for insurance:—

	Annas.
Where the value insured does not exceed R50 . .	2
Where the value insured exceeds R50 but does not exceed R100	4
For every additional R100 or fraction thereof . .	4

The further fees in the case of partially insured articles shall be charged at only half the above rates.

45. The prepayment of all charges on insured articles, namely, postage, registration fees and insurance fees, shall be compulsory. Payment in all cases shall be made by means of postage stamps affixed to the articles.

46. The cover of a letter intended for insurance shall be of strong paper or other substantial material, securely closed and sealed at intervals not exceeding two inches along each fold or seam. A parcel intended for insurance shall be securely packed in an outer covering of cloth, waxcloth or wood. If the parcel is packed in cloth or waxcloth, it shall bear seals at intervals not exceeding three inches over each seam. All the seals affixed to an insured article shall be of the same kind of wax and shall bear distinct impressions of the same device. The device shall not be that of a current coin or merely a series of straight, curved or crossed lines.

47. The minimum size for an insured parcel shall be 12 cubic inches.

48. An article intended for insurance shall be presented at the window of the post office with the amount for which the sender wishes it to be insured, clearly written, in words and figures, on the cover. The name and address of

the sender shall also be written on the cover in the lower left-hand corner, or on a separate slip of paper, to be presented with the article, should there be no room for his name and address on the cover.

49. A receipt shall be given to the person who presents an article for insurance at the post office window during the hours prescribed for posting insured articles.

50. The sender of an insured article shall be entitled to obtain, free of charge, an acknowledgment of its delivery signed by the addressee.

51. There shall be payable to the sender of an insured postal article compensation not exceeding the amount for which the article has been insured, for the loss of the postal article or its contents or for any damage caused to it in course of transmission by post:

Provided that the compensation shall in no case exceed the value of the article lost or the amount of the damage caused and provided that in the case of loss the sender shall furnish full particulars of the contents of the postal article and their value:

Provided, also, that no compensation shall be payable—

(*a*) where there has been misdelivery arising out of incorrectness or incompleteness of the address written by the sender;

(*b*) where there has been fraud on the part of the sender or addressee;

(*c*) where the insured article has been delivered to the addressee and he has signed and returned the receipt therefor;

(*d*) where the sender has not given intimation of the loss within three months from the date of posting;

(*e*) where the damage was due to improper or insecure packing;

(*f*) where there is no visible damage to the cover or seals; or,

(*g*) in the case of partially insured articles, where the loss or damage was caused by highway robbery during the transit in respect of which the insurance is partial only.

52. Compensation shall be payable one month after the date on which intimation of loss is given by the sender to the Post Office, except in cases in which the Postmaster-General may consider that the circumstances demand the withholding of payment pending inquiry. When compensation has been paid for the loss of a postal article or its contents, the Post Office shall be entitled to retain, and dispose of, such postal article or its contents should they be subsequently recovered, and the compensation paid not be refunded on demand being made.

53. Coin, bullion, precious stones, jewellery and articles of gold or silver may be sent by post only in insured registered letters or insured parcels. If a letter or parcel presented at the post office window is found to contain any such object of value, it shall not be accepted for transmission by post, unless the sender insures it; and, if an uninsured article manifestly containing any such object of value is found in course of transmission by post, it shall be either intercepted and returned to the sender or forwarded to destination and delivered to the addressee subject to the payment of a fee of one rupee. The payment of this fee shall not impose any liability on the Government.

Explanation.—In this rule, the expression "articles of gold or silver" includes articles made wholly or partly of gold or silver, but not electro or other plated goods or gold or silver lace or embroidery.

II.—Foreign parcels.

54. The Director-General shall, from time to time, notify in the Indian Postal Guide the countries and places for transmission to which foreign parcels may be insured, and the limit up to which such parcels may be insured in each case:

Provided that in no case shall such value exceed the real value of the contents of the parcel insured.

55. In addition to the postage, the following further fees shall be charged for insurance:—

(a) *For insurance to Ceylon.*

	Annas.
Where the value insured does not exceed R 100 . .	4
For every additional R100 or fraction thereof . .	4

(b) *For insurance to other countries or places.*

Where the value insured does not exceed £5 . .	6
For every additional £5 or fraction thereof . .	6

56. The prepayment of all charges on insured foreign parcels shall be compulsory. Payment in all cases shall be made by means of postage stamps affixed to the parcels.

57. A foreign parcel intended for insurance shall be packed securely and substantially, with due regard to the nature of the contents and the length of the journey, in an outer covering of cloth and canvas or other substantial material shall bear seals of wax or lead at intervals not exceeding three inches along each line of sewing or join. All the seals affixed to an insured foreign parcel shall be of the same kind of wax or lead and shall bear distinct impressions of the same device. The device shall not be that of a current coin or merely a series of straight, curved or crossed lines.

58. A foreign parcel intended for insurance shall be presented at the window of the post office with the amount for which the sender wishes it to be insured, clearly written, in words and figures, on the cover, and accompanied by such form or forms duly filled up as may be prescribed by the Director-General, from time to time, in the Indian Postal Guide. The name and address of the addressee of a foreign parcel intended for insurance shall be written in ink on the actual covering of the parcel.

59. A receipt shall be given to the person who presents a foreign parcel for insurance at the window of the post office during the hours prescribed for posting insured foreign parcels.

60. There shall be payable to the sender, or, in default or at the request of the sender, to the addressee of an insured foreign parcel, compensation not exceeding the amount for which the parcel has been insured, for the loss of the parcel or its contents or for any damage caused to it in course of transmission by post; and the sender shall, in the case of loss, also be entitled to a refund of the postage, but in no case of the insurance fee paid:

Provided that the compensation shall in no case exceed the value of the article lost or the amount of the damage caused.

Provided, also, that no compensation shall be payable—

(a) where the loss or damage has been caused by the fault or negligence of the sender, or arises from the nature of the article;

(b) where the insurance has been fraudulently made for a sum above the real value of the contents, or there has been any other fraud on the part of the sender or addressee;

(c) where the insured article has been delivered to the addressee and he has signed and returned the receipt therefor;

(d) where the sender or addressee has not given intimation of the loss or damage within twelve months from the date of posting;

(e) where the loss or damage was due to improper or insecure packing;

(f) where there is no visible damage to the cover or seals; or

(g) In cases beyond control (*e.g.*, tempest, ship-wreck, earthquake, war, etc.).

61. Where a foreign parcel contains coin, bullion, precious stones, jewellery, watches or articles of gold or silver, it shall not be accepted for transmission

by post unless the sender wishes to insure it. If a foreign parcel containing any such object of value is addressed to a country or place to which insurance is not available, the parcel shall be insured for its inland transit within the limits of British India, and in such cases the fee charged for insurance shall be calculated as follows :—

(*a*) *When the value is expressed in rupee currency.*

	Annas.
Where the value insured does not exceed R50 . .	2
For every additional R50 or fraction thereof . .	2

(*b*) *When the value is expressed in sterling.*

Where the value insured does not exceed £3 . .	2
For every additional £3 or fraction thereof . .	2

If an uninsured foreign parcel, declared to contain or manifestly containing any of the objects of value specified above, is received from a country with which, as notified by the Director-General in the Indian Postal Guide, insured parcels can be exchanged, the parcel shall either be intercepted and returned to the sender or forwarded to destination and delivered to the addressee subject to the payment of a fee of one rupee. The payment of this fee shall not impose any liability on Government.

Explanation.—In this rule, the expression "articles of gold or silver" includes articles made wholly or partly of gold or silver, but not electro or other plated goods, or gold or silver lace, or embroidery.

62. Where an insured foreign parcel is received in India subject to a fresh insurance fee by reason of its having been re-directed, such fee shall be recoverable on delivery as if it were postage due under the Act.

Part V.—Value-payable post.

I.—Value-payable postal articles.

63. Registered and unregistered parcels, registered letters, registered book packets, newspapers prepaid at newspaper rates of postage, and fully prepaid unregistered book packets, may be transmitted by the inland post as value-payable postal articles, provided that the amount to be recovered on any such postal article shall not be less than 4 annas or more than 1,000 rupees, and shall not contain a fraction of an anna.

Postal articles as aforesaid, with the exception of unregistered parcels, may be transmitted by post to Ceylon as value-payable postal articles, provided that the amount to be recovered on any such postal article shall not exceed R150.

64. No such postal article as aforesaid shall be accepted for transmission by post as a value-payable postal article unless the sender declares that the contents have been sent in execution of a *bonâ fide* order received by him.

65. Legal documents, bonds, policies of insurance, promissory notes, railway goods and parcel receipts, bills of lading, or ordinary bills for collection may be sent as value-payable postal articles, provided that the sender declares that they are so sent in execution of a *bonâ fide* order received by him.

Explanation.—In the case of a railway receipt or bill of lading sent as a value-payable postal article, it will be sufficient for the purposes of this rule if the article to which the railway receipt or bill of lading relates, has been sent in execution of a *bonâ fide* order.

66. Every postal article intended to be transmitted by post as a value-payable postal article shall be presented at the post office with a printed form, to be prescribed by the Director-General and obtainable at the post office, in which the sender shall specify the sum to be recovered from the addressee, fill in the required entries and sign the declaration that the article is sent in execution of a *bonâ fide* order. If the article is an unregistered parcel, unregistered book packet, or newspaper prepaid at newspaper rates of postage, a fee calculated

according to the schedule below on the amount specified for recovery from the addressee shall be prepaid by the sender by affixing postage stamps of the value of the fee to the form presented with the article in the space provided for this purpose. The sender of a postal article intended to be transmitted by post as value-payable shall write his name and address clearly on the article itself.

Schedule of fees.

On any sum specified for recovery not exceeding R10	2 annas.
On any sum specified for recovery exceeding R10, but not exceeding R25 .	4 annas.
On any sum specified for recovery exceeding R25	4 annas for each complete sum of R25, and 4 annas for the remainder, provided that, if the remainder does not exceed R10, the charge for it shall be only 2 annas.

67. When the sum specified is recovered from the addressee, the amount for payment to the sender shall be remitted to him by means of a money order. In the case of a value-payable unregistered parcel, book packet or value-payable newspaper prepaid at newspaper rates of postage, the whole amount specified for recovery shall be remitted to the sender; in the case of any other value-payable article, the amount specified for recovery, *minus* a fee calculated as in rule 66, shall be remitted. If the addressee of a value-payable article refuses or omits to take delivery of it, the article shall be returned to the sender, who will be required to pay any postage that may be due on it, and, in the case of a value-payable unregistered parcel, book packet or value-payable newspaper prepaid at newspaper rates of postage, to acknowledge receipt of the article by signing the form presented by the postman. Under no circumstances will the fee prepaid in stamps, in the case of a value-payable unregistered parcel, book packet or value-payable newspaper be refunded.

68. The Government shall not incur any liability in respect of the sum specified for recovery on a value-payable postal article unless and until that sum has been received from the addressee.

II.—Transmission by post of railway receipt-notes open as value-payable articles.

69. A railway receipt-note for goods may be transmitted by post open as a value-payable postal article:

Provided that—

(1) the goods to which the railway receipt-note relates, does not exceed R1,000 in value; and

(2) the railway receipt-note shows on its face that the goods to which it relates, have been consigned to the sender himself, is endorsed to the person to whom the goods are to be delivered, and is signed by the sender.

70. The open railway receipt-note shall be presented at the post office with the printed form prescribed by the Director-General for registered value-payable postal articles, in which the sender shall specify the sum to be recovered from the addressee, fill in the required entries and sign the declaration that the article is sent in execution of a *bonâ fide* order.

71. A fee of two annas shall be paid on each railway receipt-note presented for transmission by post open. The fee shall be paid in postage stamps, which shall be affixed by the sender to the receipt-note.

72. The Post Office will transmit the open railway receipt-note to the post office of destination, and will deliver it to the person to whom it has been endorsed by the sender, on his paying the amount specified for recovery, in such

manner as the Director-General may from time to time appoint for the delivery of registered value-payable postal articles.

73. The amount when recovered will be remitted to the sender in accordance with the rules for the time being in force relating to registered value-payable postal articles.

74. A railway receipt-note for goods may be transmitted by post open under the foregoing rules, without compliance with the conditions laid down in the second proviso to rule 69, if—

(1) it relates to goods sent—

(a) between stations on such railways as are for the time being specified in this behalf by the Director-General in the Indian Postal Guide, or

(b) between offices on the Kalka-Simla Government Bullock Train-line, or between such offices and stations on the North-Western State Railway; and

(2) shows on its face that the goods so sent have been declared at the booking office as being sent under the value-payable system.

75. These rules apply also to receipt-notes for goods conveyed by steamer within the limits of British India.

76. Nothing in these rules shall be construed to prevent the transmission by post of receipt-notes under the rules for the time being in force relating to the value-payable post generally.

Part VI.—Money orders.

I.—Inland money orders.

(a) Ordinary inland money orders.

77. The amount for which a single money order may be issued, shall not exceed R600, and shall not include a fraction of an anna, except in the case of money orders issued by, or in favour of, any Department of the Government, or by, or in favour of, a District, Local or Municipal Board.

78. Money orders may be issued on the following Native States, but the amount for which a single money order may be issued on these States, shall not exceed R150:—

Chamba.	Gwalior.	Nabha.
Faridkot.	Jhind.	Patiala.

79. A commission on the issue of inland money orders shall be charged at the following rates, namely:—

On any sum not exceeding R10 . . .	2 annas.
„ „ „ exceeding R10, but not exceeding R25	4 annas.
On any sum exceeding R25	4 annas for each complete sum of R25, and 4 annas for the remainder, provided that, if the remainder does not exceed R10, the charge for it shall be only 2 annas.

80. The Director-General may, at any time, suspend the issue of money orders upon any particular post office, or group of post offices, or direct that money orders shall not be so issued except on payment of special rates of commission higher than those prescribed by rule 79.

81. The remitter of a money order shall fill in, in ink, on a money order form prescribed by the Director-General such particulars as the Director-General may require. Such particulars may be written in English or in the vernacular of the district.

82. The money order form duly filled in, together with the amount of the money order and commission, may be presented at the post office during the hours prescribed by the Director-General for money order business.

83. A receipt shall be given to the remitter for the amount paid by him on account of the money order and commission.

84. The remitter of a money order shall be entitled to obtain, free of charge, an acknowledgment of the payment of the amount of the order signed by the payee.

85. The payment of a money order shall ordinarily be made at the address of the payee on his signing the money order and acknowledgment.

86. The money order and acknowledgment shall be signed by the payee named by the remitter, or by some person authorized in writing by the payee in this behalf. The signature shall be written in ink in the space provided for the purpose.

87. If the remitter or payee of a money order is illiterate, his mark shall be obtained and shall be verified in such manner as the Director-General may direct.

88. A money order shall be re-directed to the payee on his written request free of charge.

89. The remitter of a money order which has not been paid, may require that the address of the payee shall be altered or that the name of the post office, at which the order was originally made payable, shall be changed. The required change shall be made without additional charge on the remitter's applying in writing to the post office at which the order was issued.

90. The remitter of a money order which has not been paid, may require that the amount be paid to some person other than the payee named in the order. The required change shall be made, on payment of a second commission equal to the first, on the remitter's applying in writing to the post office at which the order was issued.

91. The remitter of a money order which has not been paid, may stop payment and require that the money be re-paid to himself. This shall be done without additional charge on the remitter's applying in writing to the post office at which the money order was issued, and producing the receipt and giving full particulars of the payee's address as entered in the money order. In no case, however, shall the Post Office be responsible for inability or failure to stop payment of a money order in compliance with the remitter's request.

92. If the payee of a money order cannot be found, or if the payee refuses to take payment, the amount of the order shall be returned at once to the remitter free of charge. The commission shall in no case be refunded.

93. If payment of a money order to the payee cannot be effected and the amount cannot be re-paid to the remitter owing to the latter not being found, the order shall be void and its value credited to the Government. But, if the payee or remitter subsequently applies for payment, the amount of the order shall be paid to him on a fresh money order issued by the Comptroller, Post Office, provided that application is made before the expiration of one year from the date of issue of the original order.

(b) *Telegraphic inland money orders.*

94. The amount for which a single telegraphic money order may be issued, shall not exceed R 600, and shall not include any sum less than a rupee, and, if the amount exceeds R150, the telegraphic money order shall not be for a sum which is not a multiple of R10.

95. The following fees (which include the cost of the telegram) shall be charged for the issue of telegraphic money orders:—

	R	a.
On sums not exceeding R25	1	4
" " exceeding R 25 but not exceeding R 50	1	8
" " " " 50 " " 75	1	12
" " " " 75 " " 100	2	0
" " " " 100 " " 125	2	4
" " " " 125 " " 150	2	8
" " " " 150 " " 200	3	0
" " " " 200 " " 250	3	8
" " " " 250 " " 300	4	0
" " " " 300 " " 350	4	8
" " " " 350 " " 400	5	0
" " " " 400 " " 450	5	8
" " " " 450 " " 500	6	0
" " " " 500 " " 550	6	8
" " " " 550 " " 600	7	0

96. The Director-General may, at any time, suspend the issue of telegraphic money orders upon any post office, or group of post offices, or direct that telegraphic money orders shall not be so issued except on payment of special fees higher than those prescribed by rule 95.

97. The remitter of a telegraphic money order shall fill in, in ink, on a money order form prescribed by the Director-General, such particulars as the Director-General may require.

98. The money order form duly filled in, together with the amount of the telegraphic money order and fees, may be presented at the post office during the hours prescribed by the Director-General for telegraphic money order business.

99. A receipt shall be given to the remitter, showing the total amount paid by him, the payee's name and the hour at which the telegraphic money order was presented.

100. The remitter of a telegraphic money order shall be entitled to obtain free of charge, by post, an acknowledgment of the payment of the amount of the order signed by the payee.

101. The payment of a telegraphic money order shall ordinarily be made, as soon as practicable after receipt of the telegraphic advice by the office of payment, at the residence of the payee on his signing a receipt for the amount paid and the acknowledgment.

102. The receipt and acknowledgment shall be signed by the payee named by the remitter, or by some person authorized in writing by the payee in this behalf. The signature shall be written in ink in the space provided for the purpose.

103. If the remitter or payee of a telegraphic money order is illiterate, his mark shall be obtained and shall be verified in such manner as the Director-General may direct.

104. If the payee of a telegraphic money order has removed from the place at which the order was originally payable, and has left written instructions with the post office for the re-direction of articles to his address, the telegraphic money order shall be re-directed to him by post on receipt of the postal confirmation of the telegraphic money order, and the order shall be payable at the revised address without any extra charge.

105. The remitter of a telegraphic money order which has not been paid, may require that the address of the payee shall be altered, or that the name of the office at which the order was originally made payable, shall be changed. The required alteration shall be made in the ordinary course of post, without

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 4th May, 1899.

NOTIFICATIONS.

No. 1409 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 29th April 1899:—

No. 147 of 1899.—Alexander Imschenetzky, lieutenant-colonel, of 2 Tikhvinskaya, St. Petersburg, Russia. *A process for the manufacture of a new refractory material.*

No. 148 of 1899.—Eduard Migual deMonte, civil engineer, of Allahabad, in the North-West Provinces of India. *An apparatus for chiefly refrigerating or cooling a compartment of a railway carriage by means of an automatic sprinkler and a khus khus pardah.*

No. 149 of 1899.—George Speirs Alexander Ranking, doctor of medicine, lieutenant-colonel, Indian medical service, of 17 Elysium row, Calcutta. *An improvement in the method or gear for lowering and disengaging boats at sea.*

No. 150 of 1899.—Joseph Henry Johnson, proprietor, Pioneer Lock Works, Aligarh. *A new or improved process for galvanizing metals.*

No. 151 of 1899.—Charles Joseph Bertrand, engine-driver, G. I. P. railway, Igatpuri, Bombay Presidency. *Bertrand's rail key check.*

No. 152 of 1899.—Pompeo Ariodante Labanti, civil engineer and engineering contractor, of Lucknow, in the province of Oudh. *Improvements in or relating to the manufacture of artificial marble, stone, tiles, and the like.*

No. 153 of 1899.—Henry Marles, mechanic, of 72 Cobden road, Brighton, and George Weller Butt, manufacturer, of Wilbury, Littlehampton, both in the county of Sussex, England. *Improvements in carving machines.*

No. 154 of 1899.—Max Gehre, engineer, of Rath near Dusseldorf, in the German Empire. *Improvements in wave motors or devices for utilizing the power of sea waves more particularly for the generation of electricity.*

No. 1410 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection from 11 A. M. to 4 P. M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 379 of 1898.—The Fibrous Materials Syndicate, limited, manufacturers, of 79½ Gracechurch street, London. *Improvements in treating waste cocoanut husk, dust, fibre or refuse.* (Specification filed 24 April 1899.)

No. 383 of 1898.—Herbert Samuel Elworthy, chemist and chemical engineer, temporarily, of 69 Guilford street, London. *An improved process for the manufacture of carbonic acid and apparatus therefor.* (Specification filed 24 April 1899.)

No. 395 of 1898.—Sidney Prescott Wood, engineer, of Newport, Melbourne, in the colony of Victoria, Australia. *Improvements in means for locking railway points and signals.* (Specification filed 24 April 1899.)

No. 401 of 1898.—George Valentine Gress, capitalist, of Atlanta in the county of Fulton and state of Georgia, U. S. A. *Improvements in phonographs.* (Specification filed 26 April 1899.)

No. 410 of 1898.—Maurice Mary Joseph Owen O'Conor, captain in the Third Connaught Rangers, of Inisfale island, Drumshambo, in the county of Leitrim, Ireland. *Improvements in dredging apparatus.* (Specification filed 24 April 1899.)

No. 414 of 1898.—Frederick Baker, builder, of "Maylands," Kambrook road, Caulfield near Melbourne, in the colony of Victoria. *An improved spike and holdfast for securing rails, decking, platforms and the like.* (Specification filed 24 April 1899.)

No. 454 of 1898.—William Griffiths and William John Griffiths, engineers, both of 61 Sinclair road, West Kensington, in the county of London. *Improvements in or relating to facing point lock and signalling apparatus for railways.* (Specification filed 24 April 1899.)

No. 1 of 1899.—Joseph Pope, mining engineer, of Penlee, Tregony, Grampound road, in the county of Cornwall, England. *An improved lighter for igniting blasting fuses.* (Specification filed 24 April 1899.)

No. 34 of 1899.—Allibhoi Valliji & Sons, tin despatch box manufacturers, Mooltan cantonment. *An improved ladies' air-tight tin hat box.* (Specification filed 25 March 1899.)

No. 1411 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 155 of 1891.—The Vacuum Brake company, limited. *Improvements in or applicable to automatic vacuum-brake apparatus, having reference more especially to the ejector and brake-controlling mechanism.* (From 1 October 1899 to 1 October 1900.)

No. 119 of 1892.—The Central Cyclone company, limited. *Improvements in and relating to apparatus for pulverising or disentegrating grain and other dry substances.* (From 29 April 1899 to 29 April 1900.)

No. 129 of 1892.—The Vacuum Brake company, limited. *Improvements in or applicable to automatic vacuum-brake apparatus.* (From 1 August 1899 to 1 August 1900.)

No. 50 of 1893.—Otto Hoffmann. *Improvements in air moistening and ventilating apparatus.* (From 29 April 1899 to 29 April 1900.)

No. 80 of 1893.—John Stewart Reid. *Wire barbing machines.* (From 8 May 1899 to 8 May 1900.)

No. 115 of 1893.—Charles Cheers Wakefield. *Improvements in sight feed lubricators for steam engines.* (From 9 May 1899 to 9 May 1900.)

No. 298 of 1893.—The Daimler-Motoren-Gesellschaft. *Improvements in hydrocarbon engines.* (From 27 April 1899 to 27 April 1900.)

No. 276 of 1894.—John Isaac Thornycroft. *Improvements in apparatus for automatically regulating the supply of feed water to water-tube and other boilers.* (From 3 May 1899 to 3 May 1900.)

No. 305 of 1894.—Jean Jacques Heilmann. *An improved locomotive.* (From 10 May 1899 to 10 May 1900.)

No. 347 of 1894.—Jean Jacques Heilmann. *An improved balanced engine.* (From 10 May 1899 to 10 May 1900.)

No. 375 of 1894.—August Kirschner. *Improvements in and connected with beating apparatus employed in opening and cleaning cotton and other fibres.* (From 1 July 1899 to 1 July 1900.)

No. 34 of 1895.—Jean Jacques Heilmann. *Improvements in and connected with electro-locomotives.* (From 10 May 1899 to 10 May 1900.)

No. 1412 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limit in that behalf by the fourth schedule to

the Inventions and Designs Act, V of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling and using the said inventions in British India, and of authorising others so to do, has ceased :—

No. 160 of 1894.—Charles A. Kellgrén. *A new and improved sodawater or aërating machine, to be called "The Challenge."* (Specification filed 29 January 1895.)

No. 213 of 1894.—Walter Glen Connell and John Hewetson Lorimer. *Improvements in woven fabrics and looms for the production thereof.* (Specification filed 25 January 1895.)

No. 357 of 1894.—Ramchander Narotum. *Wind-trunks consisting of metallic cylindrical tubes for folding harmoniums.* (Specification filed 29 January 1895.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of R50 for each of the above inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,

Offg. Secy. under the Inventions and Designs Act, 1888.

HIGH COURT—ORIGINAL SIDE.

NOTIFICATION.

Calcutta, the 1st May, 1899.

The Honourable the Chief Justice has, with the approval of His Excellency the Governor General of India in Council, appointed Mr. Charles Edward Grey, Barrister-at-Law, to officiate as Official Receiver of the High Court during the absence of Mr. F. Peacock on extraordinary leave, or until further order.

R. BELCHAMBERS,
Registrar.

AGENT TO THE GOVERNOR-GENERAL, RAJPUTANA.

NOTIFICATION.

Abu, the 30th April, 1899.

No. 1845.—Major P. D. Pank, I.M.S., Residency Surgeon, Jaipur, availed himself on the afternoon of the 20th April, 1899, of the privilege leave granted him in this office Notification No. 1187, dated the 31st March, 1899.

By order,

L. IMPEY, *Captain,*
First Assistant Agent to the Governor-General, Rajputana.

CHIEF COMMISSIONER OF AJMERE-MERWARA.

NOTIFICATIONS.

Abu, the 25th April, 1899.

No. 370—190.—Munshi Harnam Das, Extra Assistant Commissioner, II Grade, Ajmere, is granted privilege leave for three months, with effect from the 15th April, 1899, or the subsequent date on which he may avail himself of the same.

With effect from the same date, Mir Sayyid Hussain, Deputy Magistrate, Kekri, is appointed to officiate as Extra Assistant Commissioner, II Grade, Ajmere, during the absence of Munshi Harnam Das, or until further orders.

No. 373—190.—In exercise of the powers conferred on him by section 12 of the Code of Criminal Procedure (Act V of 1898), the Chief Commissioner of Ajmere-Merwara is pleased to invest Mir Sayyid Hussain, while Officiating as Extra Assistant Commissioner, 2nd grade, Ajmere, with the ordinary powers of a Magistrate of the 1st class to be exercised within the Ajmere District.

No. 377—190.—In exercise of the powers conferred on him by section 12 of the Code of Criminal Procedure (Act V of 1898), the Ch Commissioner of Ajmere-Merwara is pleased to invest Lala Bhagwati Lal, while Officiating as Tahsildar, 2nd grade, Ajmere, with the ordinary powers of a Magistrate of the 2nd class to be exercised within the Ajmere District.

No. 383.—In exercise of the powers vested in him by section 32 of the Code of Criminal Procedure (Act V of 1898), the Chief Commissioner of Ajmere-Merwara is pleased to invest Major G. Sutton Jones, Indian Staff Corps, Officiating Cantonment Magistrate, Deoli, and a Magistrate of the 2nd class, with power to pass sentences of whipping.

By order,

L. IMPEY, *Captain,*
First Assistant to the Governor-General's Agent, Rajputana, and Chief Commissioner, Ajmere-Merwara.

GEOLOGICAL SURVEY OF INDIA.

NOTIFICATION.

Calcutta, the 28th April, 1899.

*Although the date entered in column 2 is, as far as can be calculated, the latest safe date of posting for the next Mail Steamer, full allowance being made for the steamer being in advance of her published timing, Mails for the places mentioned in column 1 are despatched daily to Colombo, so that they may proceed by any steamer that has been unusually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

The letter-box for Inland articles will be cleared for the forenoon Mails at the following hours:—

For Goalundo and Chittagong Express train at 5-30 A.M.

For Eastern districts as far as Dacca at 6-30 A.M.

For Bombay Mail *viâ* Nagpur at 7-30 A.M. and with a late fee of ½ anna up to 8 A.M.

For Midnapore and Orissa at 8 A.M.

The letter-box will be cleared for the evening Mails without late fee at the following hours, *viz.*:—

For E. I. Railway Loop Mail at 2-30 P.M. and up to 2-55 P.M. with a late fee of ½ anna.

For the Bombay Mail *viâ* Jubbulpore carrying also Mails for Ceylon at 6 P.M.

For Darjeeling and Assam at 3-25 P.M. without late fee, and 3-50 P.M. with late fee of ½ anna.

For the Punjab at 7-30 P.M.

Late letters bearing a fee of ½ anna will be received for the Bombay Mail *viá* Jubbulpore up to 6-30 P.M. and for other Mails from 7-30 to 8 P.M., and from 8-0 to 8-45 P.M. with a late fee of 1 anna for the Punjab Mails only.

Late registered articles will be received between the following hours:—

For Offices served by the Bombay Mail *viá* Allahabad and Jubbulpore from 5 P.M. to 6-15 P.M.

For Offices served by the Punjab Mail from 6 P.M. to 7 P.M.

For Offices served by the Goalundo Mail from 6 P.M. to 7 P.M.

For Offices served by the Khulna Mail from 6 P.M. to 7 P.M.

The late fee on each registered letter will be two annas, which must be prepaid in stamps on the letter.

Articles for Burma and for Port Blair by Sea are received without late fee up to 7-30 P.M., after which hour they are received fully prepaid and bearing an extra stamp of ½ anna up to 8 P.M.

On the latest safe day of despatch of the Mail for the Australasian Colonies *viá* Tuticorin, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6 P.M., and late letters and papers fully prepaid will be received up to 6-30 P.M.

On the day of despatch of the Mail for Europe (Thursday), the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6-30 P.M., and late letters and papers fully prepaid will be received up to 6-45 P.M. Late registered articles will be received from 5 to 6 P.M. On other days the letter-box for Foreign articles will be cleared for the last time without the late fee at 6 P.M., and late letters and papers will be received up to 6-30 P.M. for despatch by any Foreign Mails *viá* Tuticorin, Madras, or Bombay the same night and up to 8-30 P.M., late letters and papers up to 9 P.M., for any Foreign Mails despatched by Sea. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

Apply to the Registrar, Geological Survey of India, Calcutta.

CIVIL ENGINEERING COLLEGE, SIBPUR.

SESSION 1899-1900.

Candidates for admission to the Engineer Department should apply to the Principal before the 15th May, 1899. Each application must be accompanied by a Registration fee of R1. The session begins on Monday, the 5th June, 1899.

Candidates must furnish proof that they have passed one of the following tests :—

(1) The F. A. Examination of the Calcutta University, or a similar standard of any Indian University recognised by the Calcutta University. The candidate's age must be under 21 years.

(2) The B.A. Examination in the B. Course in Physics and Chemistry. The candidate's age must be under 23 years. (These students are admitted direct into the second year class.)

The maximum number to be admitted each year is limited to 40. The position in the University Examinations and the age of the candidates will be taken into consideration when selection is made, and such selection will be made by the Principal.

The tuition fee for students of the Engineer class is R10 a month for each month of the year, vacation included.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior or senior scholarships. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour and eyesight.

Further particulars will be supplied on application to the Principal.

A. MACDONELL,

Offg. Principal, Civil Engineering College.

SIBPUR,

The 4th April, 1899.

CIVIL ENGINEERING COLLEGE, SIBPUR.

APPRENTICE DEPARTMENT.

The date for admission to this Department is 5th June, 1899. Candidates must be at least 15 and not more than 17 years of age.

They must have passed standard VII of the Code for European Schools or the University Entrance Examination. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard so as to reach the Principal not later than the 6th May, 1899, together with a Registration fee of R1. No application will be attended to after this date.

The maximum number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in June. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding R10. No apprentice will be admitted or re-admitted to the College after the close of the month of June, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

There will be no vacancy on the free list for Christian Apprentices in June next, but there will be seven on the reduced* fee list. For natives there will be at least eleven vacancies, possibly more, on the reduced† fee list.

With the exception of students on the Free and Reduced Fee lists, all apprentices will pay a tuition fee of R3 a month for each month of the year.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can, therefore, be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

* R5 per mensem.
† R2 per mensem.

A. MACDONELL,
Offg. Principal, Civil Engineering College.

SIBPUR;
The 4th April, 1899.

THE YEARLY EXAMINATION OF CANDIDATES FOR FOURTH GRADE OF ACCOUNTANTS.

The yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday, the 3rd and 4th July, 1899, at 10-30 A.M. :—

SUBJECTS.	Full marks.	Minimum pass marks
Writing (neatness, clearness, and rapidity).	100	50
Dictation (spelling, punctuation, etc).	100	50
Arithmetic (the whole)	240	160
Mensuration (*a*) the whole	60	30
Book-keeping (*b*) mercantile	100	50
TOTAL	600	400

Minimum required in all papers collectively.

(*a*) Todhunter's Mensuration for Beginners.
(*b*) "Book-keeping," by Ball and Hamilton.
"Book-keeping" by double and single entry by W. Inglis (Chambers' Educational Course).

The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. The examination will be *ipso facto* vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies if such is pensionable by the British Government.

2. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of R10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or of birth not required if the candidate is already in permanent Government employ).

(3) Certificate that the application is in the candidate's handwriting.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts to whom the candidate submits his application to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the college or at the

office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments, preference will be given to qualified persons who are already employed in the Department.

7. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

A. MACDONELL,
Offg. Principal, Civil Engineering College.

SIBPUR,
The 1st May, 1899.

DIRECTOR OF RAILWAY TRAFFIC.

NOTIFICATION.

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1898, the price of this Quinine will be as follows:—

1-pound tin,	R17,	or, post-free,	R17-12.	
½ „	R8-8,	„	R9-0.	
¼ „	R4-4,	„	R4-12.	

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৮৯৮ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন	১৭	বা ডাকমাশুল বিনা	১৭৸০
। আধ „ „	৮।০	„	৯
। পোয়া „ „	৪।০	„	৪৸০

পরিক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে, এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনাডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারে।

NOTICE.

It is notified, for information of Military and Civil officers, that services of Shams-ul-Ulama, Shaikh Mahmud Gilani, Persian Instructor, and Mr. R. F. Azoo, Arabic Instructor, have been specially retained by Government for giving instruction to candidates intending to present themselves for examinations in Arabic and Persian before the Board of Examiners. Gentlemen requiring their tuition should communicate with them at the office of the Board of Examiners.

Muntakhab-ut-Tawarikh, (Text) Fasc. I—XV, at annas 6 each. R5-10.

Muntakhab-ut-Tawarikh, (English) Vol. I, Fasc. I—IV, Vol. II, Fasc. I—V, at annas 12 each. R6-12.

Muntakhab-ul-Lubab, (Text) Fasc. I—XIX, at annas 6 each. R7-2.

Ma'asir-i-Alamgiri, (Text) Fasc. I—VI, at annas 6 each R2-4.

Nukhbat-ul-Fikr, (Text) Fasc. I. 6a.

Nizami's Khiradnamah-i-Iskandari, (Text) Fasc. I and II, at annas 12 each. R1-8.

Riyazu-s-Salatin, (Text) Fasc. I—IV, at annas 6 each. R1-8.

***Suyaty's Itqan, on the Exegetic Sciences of the Koran, with Supplement,** (Text) Fasc. VII—X, at R1 each. R4.

Tabaqat-i-Nasiri, (Text) Fasc. I—V, at annas 6 each. R1-14.

Tabaqat-i-Nasiri, (English) Fasc. I—XIV, at annas 12 each. R10-8.

Tabaqat-i-Nasiri Index. R1.

Tarikh-i-Firuz Shahi of Zia-ud-din Barni, (Text) Fasc. I—VII, at annas 6 each. R2-10.

Tarikh-i Firuzshahi, of Shams-i-Siraj Aif, (Text) Fasc. I—VI, at annas 6 each. R2-4.

Ten Ancient Arabic Poems, Fasc. I and II, at R1-8 each. R3.

Wis o Ramin, (Text) Fasc. I—V, at annas 6 each. R1-14.

Zafarnamah, Vol. I, Fasc. 1—9, Vol. II, Fasc. 1—8, at annas 6 each. R6-6.

Tuzuk-i-Jahangiri, (English) Fasc. I. 12a.

ASIATIC SOCIETY'S PUBLICATIONS.

1. **Asiatic Researches,** Vol. VII, Vols. XIII and XVI and Vols. XIX and XX, at R10 each. R50.

2. **Proceedings** of the Asiatic Society from 1865 to 1869 (incl.), at annas 6 per No.; and from 1870 to date, at annas 8 per No.

3. **Journal** of the Asiatic Society for 1843 (12), 1844 (12), 1845 (12), 1846 (5), 1847 (12), 1848 (12), 1866 (7), 1867 (6), 1868 (6), 1869 (8), 1870 (8), 1871 (7), 1872 (8), 1873 (8), 1874 (8), 1875 (7), 1876 (7), 1877 (8), 1878 (8), 1879 (7), 1880 (8), 1881 (7) 1882 (6), 1883 (5), 1884 (6), 1885 (6). 1886 (8), 1887 (7), 1888 (7), 1889 (10), 1890 (11), 1891 (7), 1892 (8), 1893 (11), 1894 (8), 1895 (7), 1896 (8), at R1-8 per No. to Members, and at R2 per No. to Non-Members.

N.B.—The figures enclosed in brackets give the number of Nos. in each Volume.

4. **Centenary Review of the Researches of the Society** from 1784—1883. R5.

General Cunningham's Archæological Survey Report for 1863-64 (Extra No., J. A. S. B., 1864). R2.

Theobald's Catalogue of Reptiles in the Museum of the Asiatic Society (Extra No., J. A. S. B., 1868). R2.

Catalogue of Mammals and Birds of Burmah, by E. Blyth (Extra No., J. A. S. B., 1875). R4.

Introduction to the Maithili Language of North Bihar, by G. A. Grierson, Part II, Chrestomathy and Vocabulary (Extra No., J. A. S. B., 1882). R4.

5. **Anis-ul-Musharrahin.** R3.
6. **Catalogue of Fossil Vertebrata.** R3.
7. **Catalogue of the Library of the Asiatic Society, Bengal,** by W. A. Bion. R3-8.
8. **Istilahát-us-Sufiyah,** edited by Dr. A. Sprenger, 8vo. R1.
9. **Inayah,** a Commentary on the Hidayah, Vols. II and IV, at R16 each. R32.
10. **Jawami-ul-'ilm ir-riyazi,** 168 pages, with 17 plates, 4to. Part I. R2.
11. **Khizanat-ilm.** R4.
12. **Mahábharata,** Vols. III and IV, at R20 each. R40.
13. **Moore and Hewitson's Descriptions of New Indian Lepidoptera,** Parts I—III, with 8 coloured Plates, 4to., at R6 each. R18
14. **Sharaya-ool-Islam.** R4.
15. **Tibetan Dictionary,** by Csoma de Kőrös. R10.
16. **Tibetan Grammar,** by Csoma de Kőrös. R8.
17. **Kacmiracabdamrta,** Part I. R1-8.

Notices of Sanskrit Manuscripts, Fasc. I—XXVI, at R1 each. R20.

Nepalese Buddhist Sanskrit Literature, by Dr. R. L. Mitra. R5.

N.B.—All Cheques, Money Orders, etc., must be made payable to the "Treasurer, Asiatic Society," only.

Books are supplied in value-payable post.

GEORGE WATT,

Reporter on Economic Products to the Government of India.

CALCUTTA,

The 6th September, 1897.

* The other Fasciculi of these works are out of stock, and complete copies cannot be supplied.

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT EMPLOYMENT ONLY.

It is advised that letters containing remittances be registered.

N.B.—The Revised Prices herein entered cover the cost of packing, postage, and other incidental charges (except commission for Value-payable supplies), and are for all purchasers other than resident College Students.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal Octavo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required :—

VOLUME I.*

Section	I.	**Building Materials,**	R2-6.
"	II.	**Masonry,**	R1-4.
"	III.	**Carpentry** (1889),	R1-4.
"	IV.	**Earthwork** (1892),	R1-4.
"	V.	**Tools and Plant** (never published).	

VOLUME II.*

Section	VI.	**Buildings.** (In the Press.)	
"	VII.	**Bridges,**	R4-4.
"	VIII.	**Roads,**	R1-8.
"	IX.	**Railways** (1891),	R1-4.
"	X.	**Irrigation Works.** (Under revision.)	

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol. I. Direct and Transverse Strain, principally by Analytical Methods. R7.

" II. The Stability of Structures, mostly by Graphic Methods (in the Press).

MANUALS.

VII. **Surveying** (by Major Firebrace, R.E.) (6th edition, with Curve Table). R3.

XIII. **Drawing** (by Lieut. R. Pulford, R.E.). † R8.

XIIIa. **Drawing, First Principles of Geometrical** (by do.) (4th edition). R1-4.

XIV. **Simple Applied Mechanics,** Parts I and II in one (in the Press).

Simple Applied Mechanics, Part II (1st edition). 8a.

XV. **Examples of Estimating.** Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition). R3-12.

XVI. **Earthwork Estimating,** with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. Say R1.

XVII. **Specimens of Printing** used in the College Drawing Course and Entrance Examinations. 6a.

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting Section X, is the course for the Upper Subordinate Class. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

Shelly's Workshop appliances. R1-8.

Curve Tables, complete, for laying any curve. 4a.

Scantlings of Timber for Roofs. Tables and investigation of formulæ for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 16 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. R1.

Notes on Chemistry of Building Materials. R2-0.

Tate's Mechanism. R1.

Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Rai Kunnya Lal. R2-8.

* Date of Edition on sale.

† Originally published at R15, reduced to R8.

O'Callaghan's Earthwork Tables for India, in one large sheet, 12a.; mounted on cloth and bound. R1-12.

Tables for Computing Earthwork in Distributaries and small open Channels, in use in Irrigation Department, N.-W. Provinces. 12a.

Tyndall's Hand-Book of Specifications. R5.

The Indian Engineer's Pocket Book. (In the Press.)

Wooden Bridges and Designs. By Rai Kunhya Lal. (In the Press.)

Blasting under Water (2nd edition). 10a.

Waugh's Instructions for Topographical Surveying. R1.

Analysis of Lime and Cement Stones. By Murray Thomson, Esq., M.D., F.R.S.E. 6a.

Chart, giving by a graphic method the discharges of earthen channels up to 40 feet bed width, very useful for Projects. R1-8.

SCIENCE BOOKS.

Wilson's Inorganic Chemistry. R2-0.

Baneman's Descriptive Mineralogy. R3.

MATHEMATICAL.

Boileau's Tables of Wages and Rent, and of the value of goods. Tables for converting Seers and Chittacks into decimals of a Maund, and Annas and Pies into decimals of a Rupee. With a few others of general utility (4th edition). R1-8.

Boileau's Tables of Log sin² ½ P (for computing time). 4a.

Cape's Logarithms, with Tables of Squares, Cubes, etc. R1-4.

Cape's Geometry. R1-4.

Cape's Mechanics. 8a.

Todhunter's Plane Trigonometry. R2-12.

Todhunter's Differential Calculus. R2-8.

Military Topography. 8a.

HINDUSTANI.

Elements of Hindustani Grammar. 8a.

Technical Dialogues—English and Urdu. R1.

A Vocabulary of Common and Technical Words in English-Urdu. R1.

History of India (*Itihas Timirnásak*), Hindi, Parts I and II. Each Part 3a.

Short Account of Ganges Canal (English and Urdu). 4a.

NOTE AND FIELD-BOOKS, etc.

Note-Books (Section paper), large. R1-4.

Surveying Field-Books (ruled). 14a.

Levelling Field-Books (English Pattern). R1-4.

" " (Canal "). R1-4.

" " (College "). R2-0.

P. W. D. Note-Book. R1-4.

" **Measurement Book.** R1-4.

Circular Card-board Protractors, 12 inches. R2.

MISCELLANEOUS.

Distributary, Velocity and Discharge Table. By Capt. Allan Cunningham. 8a.

Description of Venomous Snakes. (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thanatophidia of India.") R1-8.

Ditto ditto in Urdu. R1-4.

Perspective (fully explained). By Col. A. M. Brandreth, R.E. R1-12.

Thomason College Calendars for 1892,* 1895,† 1896† and 1897. Each R2.

Ditto ditto for 1898, Pt. I. R3-6.

Forms of Accounts, P. W. D., for Sub-Divisional Officers, in English (very old). 4a.

Memo. of Instructions for Road Project. R1.

Project for College Mess (sample Project). R1.

Ferrotype Printing Processes. 8a.

* Calendar for 1892 includes question papers for entrance to Engineer and Upper Subordinate Classes only.

† These include question papers for entrance to Engineer and Upper Subordinate Classes and Superior Accounts Branch, Public Works Department.

Thomason College Library Catalogue. R2-4.
Ditto, Supplement, 1895 and 1896. Each 2a.
Ditto, ditto, 1897 and 1898. Each 2a.

Irrigation by Rajbahas,
Irrigation Tract, No. I.
" " " II.
" " " III. } 4a. each.

Land Measuring Chain Statement, Area of kucha and pucka Bighas, sheet. 4a.

Report of the Ganges Canal Committee (Major Crofton's Project for remodelling the Ganges Canal according to the views of Major-General Sir Arthur Cotton, R.E., K.C.S.I.), 1866. 8a.

Report of the Ganges Canal. By Captain J. Crofton, R.E., with Estimates and Plan—
Vol. I, Report, 1865. 8a.

Shakesperian Readings, *viz.*:—
1. **Taming of the Shrew,**
2. **Othello,**
3. **Macbeth,**
4. **Comedy of Errors,**
5. **Merchant of Venice,** } Each 4a.

Graphic Hydraulic Diagrams for channels in earth, giving Discharges and mean Velocities for varying bed widths, depths, and slopes. By R. G. Kennedy, Executive Engineer. R7-8.

PLANS OF STATIONS.

Lithographed Plans of the Cantonments and Regimental Lines in the different Military Stations of India. Drawn to a uniform scale, and prepared between 1864 and 1868 for the Government of India, P. W. Department. (Useful for Executive Engineers' and Superintending Engineers' Offices.)
Bengal, 51 Plans.
Madras, 99 Plans.
Bombay, 91 Plans.
N.-W. Provinces, 104 Plans.
Oudh, 21 Plans.
Rajputana, 4 Plans.
British Burma, 19 Plans.
Central Provinces. } Each 5a.

PROFESSIONAL PAPERS ON INDIAN ENGINEERING.

(FIRST SERIES.)

Vol. I. (**Quarterly, Nos. 1 to 5**), bound R2.
Quarterly, Nos. 1, 2, 3, 4, and 5
Vol. II, Quarterly, Nos. 6 and 7,
" **VI,** " **Nos. 24 and 25,**
" **VII,** " **Nos. 26, 27, 28, and 29,**
Extra No., April 1870. } 8a. each, exclusive of packing and postage.

(SECOND SERIES.)

Quarterly Numbers of Vols. I, II, VIII, IX, and XI. 8a. each, exclusive of packing and postage.
Quarterly Number 41A of Vol. X. 8a. each, exclusive of packing and postage.
Cloth covers for Volumes of 1st and 2nd Series, at 4a. each.

(THIRD SERIES.)

Quarterly Nos. 13 and 15, at 8a. each, exclusive of packing and postage.

Index to Professional Papers and loose Papers, 1st and 2nd Series, at 2a. each, and loose papers, 3rd Series, 3a. each, exclusive of packing and postage.

FERROTYPE PRINTING.

Chemicals and Lithographic Paper for this process can be purchased from Thomason College Book Depôt. Application to be made to the Curator.

Apparatus for Printing can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

CIRCULARS.

Circulars containing the Rules of admission to the different classes of the College will be forwarded to applicants.

J. CLIBBORN, *Lieut.-Col., I. S. C.,*
Principal, Thomason Civil Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete Series, *including postage* . . . R22-8

	Without postage. R a. p.	With postage. R a. p.
For the Calcutta Series	10 0 0	12 8 0
" each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
" a part of the Calcutta Series purchased separately, *inclusive of postage in India*	...	2 0 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, *inclusive of postage in India*	...	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town. R a. p.	For mofussil. R a. p.
For the Calcutta Series; per copy . .	0 8 9	0 10 0
" each of the Madras, Bombay, and Allahabad Series; per copy	0 5 3	0 5 9
" the Calcutta Series. For the year . .	7 2 6	8 6 3
" each of the Madras, Bombay, and Allahabad Series. For the year . . .	4 4 6	4 11 0

Persons desiring to subscribe for, or purchase, the Report, should apply to—
Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay
The Curator of Government Books, North-Western Provinces and Oudh.
The Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper, of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	*Half page.*	*Quarter page.*
For one issue . . .	R 20	R 14	R 9
" three issues . . .	" 55	" 36	" 24
" six " . . .	" 100	" 68	" 45
" nine " . . .	" 145	" 96	" 64
" twelve " . . .	" 180	" 120	" 80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage. R a. p.	With postage. R a. p.
Bengal Law Reports, for one year . .	20 0 0	22 8 0
Single copies, R. per copy.		
Full Bench Rulings, Parts I and II . .	20 0 0	22 8 3

Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.
Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depôt.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

METEOROLOGICAL PUBLICATIONS FOR SALE.

At the Meteorological Office, No. 5, Russell Street, Calcutta, at the prices specified below :—

Hand-book of Cyclonic Storms in the Bay of Bengal for the use of Sailors, describing the phenomena of Cyclonic Storms and Cyclones in the Bay of Bengal, and giving a brief account of six typical Bay of Bengal Cyclonic Storms. It also gives practical hints to sailors respecting Cyclonic Storms in the Bay. Demy, 212 pages, 29 plates (showing diurnal oscillation of barometer at different Latitudes and Longitudes, mean monthly barometric height, tracks of different Cyclonic Storms, etc., etc.) R5.

Rainfall Map of India in two sheets, scale 64 miles to one inch, showing the annual distribution of rainfall in India (in colours). R3.

Instructions to Observers of the India Meteorological Department, in which are described in detail the various Meteorological instruments in use at the Meteorological observatories, with full instructions how to read them, etc. Demy, 103 pages. R3.

Tables for the Reduction of Meteorological Observations in India. This book contains tables for reducing barometric observations taken at different heights, and for calculating humidity and vapour tension, etc., etc. R2.

Barometer, Wind and Current Charts of the Bay of Bengal and adjacent sea, north of the equator. R5.

Charts of the Bay of Bengal and adjacent sea, north of the equator, showing the specific gravity, temperature, and currents of the sea surface. R1-8.

Barometer, Wind and Current Charts of the Arabian Sea and the adjacent portion of the North Indian Ocean. R5.

Monthly Weather Review of India, giving a summary of the chief features of the weather in India and containing discussions on atmospheric pressure, barometric depressions, temperature of the air, winds, rainfall, etc. It also contains all available information about snowfall in the mountain districts to the north and north-west of India, and an abstract of observations taken at about 200 observatories in India. Published *monthly*. R1 per month or R12 per annum. Postage 1a. 6p. for each copy outside Calcutta.

India Daily Weather Report and Chart, containing observations recorded at 8 A.M. at 147 observatories, with a Chart showing the distribution of atmospheric pressure and rainfall all over India, and a brief summary of the chief features of the weather of the day. Issued *daily* from the Simla Meteorological Office. Monthly subscription R2, and postage annas 8.

JOHN ELIOT,

Meteorological Reporter to the Govt. of India.

FOR SALE.

Reports on the Inspection of Mines in India during 1893-94 and 1894-95. By JAMES GRUNDY, Inspector of Mines in India (1894 and 1896). Price R1 and R2, respectively.

To be had on application to the Registrar, Geological Survey of India, Calcutta.

Ditto. Urdu version. Royal 8vo., stiff boards. 6a.

A Dictionary of the Economic Products of India.

By Dr. Geo. Watt, C.I.E.,

Reporter on Economic Products.

The first five volumes and Volume VI, Parts I, II, III, & IV of the Dictionary are ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, R6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross-references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal 8vo pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L; and Volume V contains the latter half of L to end of O; Vol. VI (which consists of four parts), Part I, contains letters P to R. The whole work completed in nine volumes (including Parts II to IV of Vol. VI), but a tenth volume has been issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index is practically a glossary of the vernacular and European names of the plants, animals, and minerals of India, and, as such, is a work of reference, which, it is hoped, will prove of considerable value.

Index to Do. do. 8vo. R2 (4a.)

Technical Art Series published up to 1896, together with their explanatory Text—

1886-87, 6 Plates with Text. R1-8 a set (4a.)

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

RAILWAY STATISTICS.

RETURNS OF ACCIDENTS ON INDIAN RAILWAYS FOR THE NINE MONTHS ENDING WITH THE 30th SEPTEMBER 1898.

No. 274 R. Stat., dated Simla, the 26th April 1899.

RESOLUTION—By the Government of India, Public Works Department.

Read again—

Government of India order No. 350 R. Stat., dated the 2nd September 1896.
Government of India order No. 132 R. Stat., dated the 6th March 1897.
Government of India order No. 153 R. Stat., dated the 22nd March 1898.

Read also—

The following note by the Director of Railway Traffic, dated the 17th April 1899, with abstract returns of accidents to trains, etc., on the open lines of railway in India for the nine months ending with the 30th September 1898.

I.—Accidents to trains, rolling stock, permanent-way, etc.

Accidents to trains, rolling stock, permanent-way, etc., during the nine months ending with the 30th September 1898, as shown under abstract No. 4 on

A

pages 910 and 911 of the accompanying returns, caused the death of 30 and injury to 99 persons. The table below shows that, while the number of persons both killed and injured was below the average of the corresponding periods of the three previous years, the total number of accidents was considerably above the average.

	Number.			Number of passengers and others.		Number of servants.		Total all classes.	
	Accidents reported to Local Governments under section 83 of the Indian Railways Act (IX of 1890).	Other accidents.	Total.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
Standard gauge.									
Nine months ending with the 30th September 1898	59	2,612	2,671	(a)10	(b)41	11	33	21	74
Average of the corresponding periods of the three previous years . .	78	1,925	2,003	(a)12	(c)58	6	20	18	78
Metre gauge.									
Nine months ending with the 30th September 1898	118	1,482	1,600	(d)1	(e)9	7	14	8	23
Average of the corresponding periods of the three previous years . .	83	1,573	1,656	(f)11	(a)22	4	10	15	32
Special gauges.									
Nine months ending with the 30th September 1898	18	50	68	(d)1	(g)2	...	...	1	2
Average of the corresponding periods of the three previous years . .	14	52	66	...	(d)1	...	2	...	3
Total all gauges for the nine months ending with the 30th September 1898	195	4,144	4,339	(b)12	(h)52	18	47	30	99
Average of the corresponding periods of the three previous years . .	175	3,550	3,725	(b)23	(i)81	10	32	33	113

(a) Out of these, four were not passengers.
(b) Out of these, six were not passengers.
(c) Out of these, five were not passengers.
(d) Not a passenger.
(e) Out of these, one was not a passenger.
(f) Out of these, two were not passengers.
(g) Not passengers.
(h) Out of these, nine were not passengers.
(i) Out of these, ten were not passengers.

2. The following table compares the variations in the mean mileage worked, the train-mileage run and the number of accidents with the average, and shows that, with an increase of 7·85 per cent. in the mean mileage worked and of 8·95 per cent. in the train-mileage run during the nine months ending with the 30th September 1898, the number of accidents increased by 614 or 16·48 per

cent., as compared with the average of the corresponding periods of the three previous years :

	INCREASE OR DECREASE AS COMPARED WITH THE AVERAGE OF THE THREE PREVIOUS YEARS.					
	ACCIDENTS.		MEAN MILEAGE.		TRAIN-MILEAGE.	
	Number.	Per cent.	Miles.	Per cent.	Miles.	Per cent.
Standard	+668	+33·35	+974	+8·52	+3,756,588	+10·70
Metre	—56	—3·38	+498	+6·22	+761,095	+4·88
Special	+2	+3·03	+74	+27·72	+55,030	+15·53
TOTAL	+614	+16·48	+1,546	+7·85	+4,572,713	+8·95

3. The following table shows the principal increases and decreases in the number of accidents of different classes on the standard and metre-gauge lines, as compared with the average of the corresponding periods of the three previous years. No noticeable variations occurred on the special gauge railways.

GAUGE AND CLASSIFICATION.	INCREASE OR DECREASE.			Percentage of increase or decrease.
	Serious.	Minor.	TOTAL.	
Standard gauge.				
Goods trains or parts of goods trains, engines, etc., leaving the rails	—4	+29	+25	+26·60
Trains running over cattle on the line	...	+159	+159	+17·49
The bursting of tubes, etc., of engines	...	+137	+137	+182·67
The failure of machinery, springs, etc., of engines	+1	+115	+116	+43·45
The failure of couplings	—1	+64	+63	+116·67
Under the head "Other accidents"	—1	+152	+151	+124·80
Metre gauge				
Goods trains or parts of goods trains, engines, etc, leaving the rails	+2	—15	—13	—19·70
Trains or engines travelling in the wrong direction through points	...	—16	—16	—36·36
Trains running over cattle on the line	—6	—55	—61	—6·67
The failure of machinery, springs, etc., of engines	+3	—33	—30	—25·64
The flooding of portions of permanent-way	+14	+13	+27	+75·00
Under the head "Other accidents"	+2	+17	+19	+29·69

It will be observed from the foregoing that the increases on the standard gauge lines occurred under "Goods trains or parts of goods trains, engines, etc., leaving the rails," 25 accidents or 26·60 per cent.; under "Trains running over cattle on the line," 159 accidents or 17·49 per cent.; under "The bursting of tubes, etc., of engines," 137 accidents or 182·67 per cent.; under "The failure

of machinery, springs, etc., of engines," 116 accidents or 43·45 per cent.; under "The failure of couplings," 63 accidents or 116·67 per cent.; and under the head "Other accidents," 151 accidents or 124·79 per cent. On the metre gauge railways, the noticeable increases occurred under "The flooding of portions of permanent-way," 27 accidents or 75·00 per cent. and under the head "Other accidents," 19 accidents or 29·69 per cent.

4. Under the head "Goods trains or parts of goods trains, engines, etc., leaving the rails," the largest number, *viz.*, 40, occurred on the North Western State railway, next to that line come the Burma railways (metre gauge) with 19 accidents and the East Indian and Great Indian Peninsula railways with 18 and 17 accidents on each, respectively; under the head "The bursting of tubes, etc., of engines," the largest number, *viz.*, 90, occurred on the Madras railway; next to that line comes the North Western State railway with 73 accidents; under the head "The failure of machinery, springs, etc., of engines," the largest number, *viz.*, 114, occurred on the North Western State railway, next to that line come the East Indian with 77, the Madras with 55 and the Great Indian Peninsula railways with 54 accidents; under the head "The failure of couplings," the largest number, *viz.*, 50, occurred on the Bombay, Baroda and Central India railway; and under the head "Other accidents," the largest number, *viz.*, 125, occurred on the East Indian railway, and next to that line come the North Western State and the Great Indian Peninsula railways with 67 and 37 accidents on each, respectively. Of the increase under the head "The flooding of portions of the permanent-way" on the metre gauge railways, the largest number, *viz.*, 16, occurred on the Burma railways, next to that line comes the Eastern Bengal State railway (metre gauge section) with 13 accidents.

5. The number of cattle accidents was largest on the South Indian railway, *viz.*, 215; next comes the Eastern Bengal State railway (standard gauge section) with 189, then the Southern Mahratta railway with 177 accidents, the East Indian railway with 165, the North Western State railway with 157 and the Madras railway with 136.

In relation to the train-mileage run, the highest proportion was on the Bengal-Dooars railway, which gave an average of 1 accident in 5,345 train-miles run; the Assam-Bengal railway coming next with an average of 1 in 5,362; then the Cooch Behar, the Eastern Bengal (standard gauge section), the East Coast State and the Oodeypore-Chitor railways with averages of 1 in 6,543, 1 in 7,482, 1 in 8,537 and 1 in 8,680, respectively. The lowest proportion was on the Great Indian Peninsula railway, *viz.*, 1 in 338,954 train-miles run, the Bombay, Baroda and Central India railway coming next with 1 in 76,349, then the East Indian railway with 1 in 63,230, the North Western State railway with 1 in 51,735, the Rajputana-Malwa railway with 1 in 41,197 and the Indian Midland railway with 1 in 38,719.

6. Taking the total number of accidents to trains, rolling stock, permanent-way, etc., on each railway as given in table No. 3, the proportion of accidents to train-mileage run was highest on the Cooch Behar railway, on which 1 accident occurred on an average in 1,402 train-miles; next comes the Bengal-Dooars railway with 1 accident in 2,672 train-miles; then the Assam-Bengal, the Dibru-Sadiya, the Rohilkhund and Kumaon (including the Lucknow-Bareilly section) and the East Coast State railways with averages of 1 in 3,300, 1 in 3,533, 1 in 3,813, and 1 in 5,196, respectively. The lowest proportion was on the Great Indian Peninsula railway, *viz.*, 1 in 28,644, the East Indian railway coming next with 1 in 20,659, then the Rajputana-Malwa railway with 1 in 17,230, the Oudh and Rohilkhand State railway with 1 in 15,720, and the North Western State railway with 1 in 15,268.

II.—Accidents from other causes not involving accidents to trains, etc.

7. The casualties to passengers, servants in the employ of railways (or of contractors, and to others, from causes not involving accidents to trains which are detailed in abstract No. 2) are compared separately, for each gauge, with

the average of the corresponding periods of the three previous years in the table below:

Gauges.	Nine months ending with the 30th September 1898.								Average of the corresponding periods of the three previous years.							
	Passengers.		Servants.		Others.		Total.		Passengers.		Servants.		Others.		Total.	
	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
Standard .	38	110	92	192	287	86	417	388	37	103	98	190	305	74	440	367
Metre .	15	45	30	59	124	47	169	151	11	42	31	59	118	46	160	147
Special .	..	1	1	1	3	...	4	2	..		...	4	2	1	2	5
Total .	53	156	123	252	414	133	590	541	48	145	129	253	425	121	602	519

It will be seen from the foregoing table that the number of persons killed and injured, excepting under "Passengers—killed and injured" and "Others—injured," compares favourably with the average of the corresponding periods of the three previous years. The increase is attributable, to some extent, to the opening of new lines.

III.—Accidents in which the movement of vehicles used exclusively upon railways was not concerned.

8. The following table shows, for the several gauges, the number of persons reported to have been killed or injured by accidents, in which the movement of vehicles used exclusively upon railways was not concerned. Comparative average figures of the corresponding periods of the two previous years are also given:

	Nine Months ending with the 30th September 1898.		Average of the corresponding periods of the two previous years.	
	Killed.	Injured	Killed.	Injured.
Standard	30	132	32	114
Metre	10	29	16	36
Special	1	3	...	1
Total .	41	164	48	151

IV.—Statistical results.

9. The following table gives certain statistical results for the period under review, comparing the number of passengers killed and injured by accidents to trains, and from all causes with the number carried and the number of passenger-units carried one mile. Comparative results, based on the average figures of the corresponding periods of the three previous years, are also given :—

PARTICULARS.	NINE MONTHS ENDING WITH THE 30TH SEPTEMBER 1898.				AVERAGE OF THE CORRESPONDING PERIODS OF THE THREE PREVIOUS YEARS.

(a) Excluding the Tezpur-Balipara and Tarakeshwar-Magra railways.

It will be seen that the comparison is generally favourable.

V.—Number of persons killed and injured by accidents to trains, rolling stock, etc., during the third quarter of 1898.

10. The following table gives the number of accidents, as classified in abstract No. 4 of the returns, which resulted in loss of life or injury to persons, and shows the railways on which they occurred :

Railway.	Number of accidents reported during the third quarter of 1898.	Passengers and Others.		Servants.		Total.	
		Killed.	Injured.	Killed.	Injured.	Killed.	Injured.

Average of the three corresponding quarters of 1895, 1896 and 1897	15	11	23	4	10	15	33

11. A brief description of some of the accidents which resulted in loss of life, or injury to persons, is given below :

Eastern Bengal State railway (standard gauge).—On the 29th August 1898, while an up and a down goods train were crossing each other at mile 60—10-12 near Bogoola station on the Eastern section, the engine of the former train, having been derailed owing to the subsidence of the bank, collided with the 6th and 7th vehicles of the latter. One railway servant was killed and three were injured; and the rolling-stock and permanent-way were considerably damaged.

On the 3rd September 1898, a relief train collided with an up goods train standing on the up line at Bogoola station on the Eastern section, owing to the carelessness of the driver of the former train. A crane dummy attached to the relief train was derailed. Three railway servants were injured and the rolling-stock was damaged.

Great Indian Peninsula railway.—On the 29th August 1898, an Indian Midland railway ballast train, while backing out of Itarsi station, collided

with a brakevan and a shunting engine standing foul of a crossing. A railway servant was killed and another injured, and a ballast brakevan and a wagon next to it were derailed.

Bengal and North-Western railway.—On the 14th September 1898, the engine and a tender of a ballast train, while working tender foremost between Motipur and Turki stations, fell through a breach in the bank at mile 77 at the site of a bridge which had been undermined by floods. The driver and two firemen were drowned.

Burma railways.—On the 23rd July 1898, while a down local train was entering Kemmendine station, the points were reversed after the leading engine had passed over them. The two engines and tenders capsized and three coaching vehicles were derailed. The second fireman was killed.

Dibru-Sadiya railway.—On the 27th July 1898, a down goods train ran into a down mixed train at mile 51·9, between Digboi and Tingrai stations. Eight passengers and a fireman were injured.

ORDER.—Ordered that the above note, with the abstract returns, be communicated, for information, to the Local Governments, Administrations, and to the officers noted in the margin.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces, and Oudh, the Punjab and Burma.
The Chief Commissioners of the Central Provinces, Assam and Coorg.
The Resident at Hyderabad.
The Resident in Mysore.
The Agents to the Governor General for Rajputana, Central India and Baluchistan.
The Consulting Engineers to the Government of India for Railways, Calcutta, Lucknow and Assam.
The Managers, North Western State, Oudh and Rohilkhand State, Eastern Bengal State and East Coast State Railways.
The Engineers-in-Chief, Indus Bridge Works, Bezwada-Madras, Hardwar-Dehra and Ghaziabad, Moradabad Railways.

Ordered, also, that copies be forwarded for the information of Her Majesty's Government.

Ordered, further, that the above note, with the abstract returns, be published in the Supplement to the *Gazette of India.*

W. J. McELHINNY, *Captain, R.E.,*
Offg. Under Secy. to the Govt. of India.

Document accompanying.

1. Abstract returns of accidents for the nine months ending with the 30th September 1898

Enclosure to Government of India Order No. 274 R. Stat., dated the 26th April 1899.

ABSTRACT No. 1.

General Total.

Number of persons reported, during the nine months ending with the 30th September 1898, as killed or injured on all railways open for traffic in India, distinguishing between passengers, railway servants and other persons; and distinguishing also, in the case of the two former classes, between accidents caused by accidents to trains, rolling stock, permanent-way, etc., and accidents happening otherwise.

	Standard Gauge Lines.		Metre Gauge Lines.		Special Gauge Lines.		Total all Gauges.

HOME DEPARTMENT.

NOTIFICATIONS.

ESTABLISHMENTS.

Simla, the 11th May, 1899.

No. 326.—The services of Mr. W. M. Hailey, of the Indian Civil Service, are replaced at the disposal of the Government of the Punjab, with effect from the 6th instant.

MEDICAL.

The 6th May, 1899.

No. 784.—Lieutenant-Colonel F. F. Perry, F.R.C.S., I.M.S. (Bengal), Professor of Surgery in the Lahore Medical College, is granted furlough out of India for six months, under Article 340 (*b*) of the Civil Service Regulations.

No. 785.—Major W. R. Clark, M.B., C.M. I.M.S. (Bengal), is appointed to officiate as Professor of Surgery in the Lahore Medical College, during the absence on furlough of Lieutenant-Colonel F. F. Perry, F.R.C.S., I.M S. (Bengal), or until further orders.

The 11th May, 1899.

No. 802—The services of Captain R. W. A. Denne, 19th Madras Infantry, are replaced at the disposal of the Military Department, with effect from the date on which he made over charge of his duties under the Government of Madras.

No. 805.—The services of Captain W. A. Cuppage, 5th Bengal Infantry, are placed temporarily at the disposal of the Government of Bombay for employment on plague duty, with effect from the date on which he assumed charge of his duties under that Government.

No. 807.—The services of the undermentioned officers are placed temporarily at the disposal of

the Government of Bombay for employment on plague duty :

Captain H. E. Pritchard, 22nd Madras Infantry.

Captain H. J. E. Purvis, 3rd Bombay Light Cavalry.

Captain A. P. D. C. Stuart, 25th Bombay Infantry.

The 12th May, 1899.

No. 812.—Captain J. W. Wolfe, M.B , B.Ch., I.M.S. (Bengal), was employed under the Government of the Punjab on plague duty from the 21st March to the 4th May 1899, and his services were replaced at the disposal of the Government of Burma, with effect from the 5th May 1899.

No. 815.—Colonel B. Franklin, C.I.E., I.M.S. (Bengal), was placed on special duty from the 6th January to the 24th January 1899, to accompany the Right Honourable the Earl of Elgin and Kincardine, K.G., P.C., G.C.S.I., G.C.I E., on the return of His Lordship to Europe. On the 25th of January 1899 he was appointed to be Inspector General, Civil Hospitals, North-Western Provinces and Oudh, and was granted privilege leave for three months, with effect from the same date. On the 2nd April he was appointed to be Inspector General of Civil Hospitals in the Punjab and he joined that appointment on the 25th April, on the expiry of his leave.

No. 818.—Colonel G. Hutcheson, M.D., I.M.S. (Bengal), is appointed to be Inspector General of Civil Hospitals, North-Western Provinces and Oudh, with effect from the 2nd April 1899.

No. 821.—Colonel C. W. Carr-Calthrop, M.D., I.M.S. (Bengal), is appointed to be Administrative Medical Officer and Sanitary Commissioner of the Central Provinces, with effect from the 2nd April 1899, but will continue to officiate as Principal Medical Officer and Sanitary Commissioner, Assam, until further orders.

No. 824.—Lieutenant-Colonel S. J. Thomson, C.I.E., I.M.S. (Bengal), Sanitary Commissioner, North-Western Provinces and Oudh, is granted furlough out of India for eighteen months, on medical certificate, under Article 340 (*a*), of the Civil Service Regulations, with effect from the 15th April 1899.

No. 825.—Major W. G. Thorold, I.M.S. (Bengal), Deputy Sanitary Commissioner, North-Western Provinces and Oudh, is appointed to officiate as Sanitary Commissioner, North-Western Provinces and Oudh, during the absence on furlough of Lieutenant-Colonel S. J. Thomson, C.I.E., I.M.S. (Bengal), or until further orders.

No. 827.—The services of Captain W. Selby, D.S.O., I.M.S. (Bengal), are placed temporarily at the disposal of the Government of the North-Western Provinces and Oudh, with effect from the date on which he assumed charge of his duties under that Government.

Harvey, C.B., D.S.O., M.D., F.R.C.P., Indian Medical Service (Bengal), Director-General, Indian Medical Service, and Sanitary Commissioner with the Government of India, is granted privilege leave for three months, with effect from the date on which he avails himself of the leave.

No. 831.—Surgeon-General L. D. Spencer, C.B., M.D., Indian Medical Service (Bengal), Principal Medical Officer, Punjab Command, is appointed to officiate as Director-General, Indian Medical Service, and Sanitary Commissioner with the Government of India, during the absence on privilege leave of Surgeon-General R. Harvey, C.B., D.S.O., M.D., F.R.C.P., Indian Medical Service (Bengal), or until further orders.

SANITARY.

Plague.

The 9th May, 1899.

No. 1636.—In exercise of the powers conferred by section 2, sub-section (*1*), of the Epidemic Diseases Act (III of 1897), the Governor General in Council is pleased to prohibit the bringing of used apparel and bedding (except when used as the personal baggage of travellers), rags and waste paper from the Province of Bengal and the Jullundur and Hoshiarpur Districts of the Punjab into any part of British India.

The 11th May, 1899.

No. 1657.—The following notice of the Board of Trade is published for general information:

(F. & H. 5436.)

Board of Trade (Fisheries and Harbour Department), London, April 6, 1899.

The Board of Trade have received, through the Secretary of State for the Colonies, the following copies of Notices issued by the Governor of Malta, *viz.*:—

No. 85.—Government Notice.

His Excellency the Governor, having heard the opinion of the Board of Health, has been pleased to modify Government Notice No. 2 of the 2nd January, 1899, and to direct that the following Regulations be observed, *viz.*:—

1. Vessels which are not allowed to enter the harbour, but are allowed to communicate in quarantine with the Islands of Comino and Cominotto under such restrictions as the Collector of Customs may direct.

(*a*) Vessels that have on board, or have had during the voyage, cases of cholera, yellow fever or plague, or cases of a disease with symptoms resembling those of cholera, yellow fever, or plague.

(*b*) Vessels with pilgrims from the East.

(*c*) Vessels arriving from Arabian ports in the Red Sea and the Persian Gulf which have not been admitted to free pratique at Suez and Port Said.

2. Vessels which are allowed to enter the Quarantine Harbour to coal and take in provisions under quarantine restrictions.

(*a*) Vessels arriving from Indian ports without a clean bill of health, which have not been admitted to free pratique in a port in the Adriatic or Mediterranean Sea, or which have not, to the satisfaction of the Chief Government Medical Officer, been thoroughly disinfected before being admitted to free pratique at the said port.

(*b*) Vessels arriving from any port without a clean bill of health, which do not fall under any of the preceding regulations.

Vessels without a clean bill of health that carry a doctor may complete a period of ten days' quarantine, reckoned from date of departure, either at sea, or at the anchorage of Comino, before being admitted under the same conditions as arrivals from Bombay.

3. Medical Inspection.

All vessels arriving at Malta shall undergo strict medical inspection.

4. Passengers.

Passengers arriving from Bombay, Kurrachee, and Calcutta shall be landed in one of the quarantine establishments where they will be subjected to strict medical inspection until their clothing and all other articles of personal use, likely to retain infection, shall have been thoroughly disinfected.

5. Goods.

The importation of coffee—beans or ground—coloured with substances injurious to health is prohibited.

The importation of cotton seed from any port subject to quarantine is forbidden.

The importation of rags is prohibited.

The importation is forbidden before disinfection of the following articles, *viz.*, wearing apparel, soiled linen and clothing, bedding materials, feathers, bones, and jute goods.

The importation of hides from any port subject to quarantine, or from any place where cattle disease exists, is prohibited before disinfection.

The importation of vines, vine shoots, and fruit packed in vine leaves is prohibited. The importation of plants or roots from any port of the Mediterranean is prohibited, unless the same are accompanied by a satisfactory certificate that phylloxera is not known to exist at the place of origin.

By command,

G. STRICKLAND,

Chief Secretary to Government.

Palace, Valletta, March 29, 1899.

NOTE.—For previous rules of the Government of Malta see Home Department Notifications No. 326, dated the 5th February 1897, No. 1649, dated the 4th June 1897, No 1775, dated the 2nd July 1897, No. 1906, dated the 6th August 1897, No. 2626, dated the 10th December 1897, and No. 2718, dated the 24th December 1897, (published in the *Gazette of India*, Part I, of 6th February 1897, 5th June 1897, 3rd July 1897, 7th August 1897, 11th December 1897, and 25th December 1897).

The 12th May, 1899.

No. 1664.—It is notified for general information that the Turkish Government has ratified the Venice Sanitary Convention of 1897, subject to the four reservations made by that Government in ratifying the Paris Sanitary Convention of 1894. These four reservations are:

"1. Maintien des dispositions du Règlement de 1867, relatives à la durée quarantenaire jusqu'à ce qu'il soit modifié sur une proposition du Conseil Supérieur de Santé approuvée par le Gouvernement.

"2. Le Comité pour la mise en pratique et la surveillance des mesures concernant le pèlerinage sera exclusivement dans le sein du Conseil Supérieur de Santé.

"3. Le Gouvernement ne croit pas pouvoir adhérer à l'Article V. de la Convention de Paris à la création d'une Commission Consulaire au sujet des pénalités, attendu que le Conseil de Santé contient dans son sein des Représentants des différents États.

"4. Le Gouvernement se considérerait libre de combler le déficit quarantenaire si le Gouvernement Anglais n'obligeaient les pèlerins de justifier de leurs ressources pécuniaires."

PORT BLAIR.

The 12th May, 1899.

No. 277.—Khan Bahadur Muhammad Ashiq Ali Khan, officiating 6th Assistant Superintendent, Port Blair, was granted privilege leave for one month and ten days, with effect from the 28th April 1899.

POLICE.

The 12th May, 1899.

No. 231.—The services of Captain (temporary Major) A. W. Leonard, 5th Infantry, Hyderabad Contingent, are placed at the disposal of the Chief Commissioner of Assam for employment as officiating Commandant of the Naga Hill Military Police Battalion.

No. 234.—The services of Captain E. F. Rainey, 12th Madras Infantry, are placed at the disposal of the Government of Burma for employment in the Burma Military Police.

ECCLESIASTICAL.

The 12th May, 1899.

No. 200.—The Reverend Duncan Arnold Canney has been appointed to be a Chaplain on probation on the Bengal (Lucknow) Ecclesiastical Establishment to fill an existing vacancy.

A. H. L. FRASER,

Offg. Secretary to the Government of India.

DEPARTMENT OF REVENUE AND AGRICULTURE.

NOTIFICATIONS.

GENERAL.

No. 1458—42-20.—The services of Mr. W. M. Hailey, of the Indian Civil Service, Officiating Under-Secretary to the Government of India in the Department of Revenue and Agriculture, are replaced at the disposal of the Home Department, with effect from the forenoon of the 6th May 1899.

FAMINE.

The 10th May, 1899.

No. 930—92-19.—The services of Lieutenant E. N. Heale, 7th Regiment of Bombay Infantry, are placed at the disposal of the Chief Commissioner, Ajmere-Merwara, for Famine duty.

GEOLOGY AND MINERALS.

The 12th May, 1899.

No. 1533—56-2.—Mr. T. H. Holland, Deputy Superintendent, Geological Survey of India, is appointed Curator of the Geological Museum, with effect from the 1st May 1899, in place of Mr. C. S. Middlemiss.

METEOROLOGY.

The 12th May, 1899.

No. 1540—17-6.—In consequence of the transfer of the Madras, Kodaikanal, and Colaba scientific observatories from provincial to imperial control, the following appointments are made, with effect from the 1st April 1899:

Mr. J. Eliot, F.R.S., C.I.E., Meteorological Reporter to the Government of India, to be Meteorological Reporter to the Government of India and Director General of Indian Observatories.

Mr. C. Michie-Smith, Government Astronomer, Madras, to be Director of the Kodaikanal and Madras Observatories.

Mr. N. A. Moos to be sub. *pro tem.* Director of the Colaba Observatory, Bombay.

M. FINUCANE,

Offg. Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 8th May, 1899.

No. 1202-*I.A.*—Mr. A. Williams, of the Indian Civil Service, a Political Agent of the 2nd class, is placed on special duty under the Government of India in the Foreign Department, with effect from the 5th April, 1899.

The 9th May, 1899.

No. 742-*G.*—With the sanction of Her Majesty's Government, the Governor General in Council is pleased to recognise the provisional appointment of Mr. W. T. Fee as Consul for the United States of America at Bombay.

The 10th May, 1899.

No. 747-*G.*—Lieutenant-Colonel J. C. Fullerton, M.B., Indian Medical Service (Bengal), an Agency Surgeon of the 1st class and Agency Surgeon and Administrative Medical Officer in Baluchistan is granted privilege leave for three months, with effect from the 18th May, 1899, or the subsequent date on which he may avail himself of the leave.

No. 748-*G.*—Major W. R. Edwards, M.D., Indian Medical Service (Bengal), an Agency Surgeon of the 1st class and Civil Surgeon of Quetta, is appointed to officiate as Agency Surgeon and Administrative Medical Officer in Baluchistan, in addition to his own duties, with effect from the date of assuming charge and during the absence on privilege leave of Lieutenant-Colonel Fullerton, or until further orders.

The 11th May, 1899.

No. 758-*G.*—Lieutenant-Colonel T. C. Pears, Indian Staff Corps, a Political Agent of the 2nd class, is appointed, on return from furlough, to officiate as a Resident of the 2nd class and Resident at Gwalior, with effect from the date of assuming charge, *vice* Lieutenant-Colonel J. H. Newill, and until further orders.

No. 761-*G.*—Captain L. Impey, Indian Staff Corps, a Political Agent of the 4th class and First Assistant to the Agent to the Governor General in Rajputana and Chief Commissioner of Ajmere-Merwara, is granted furlough for one year, under Article 340 (*b*) (1) of the Civil Service Regulations, with effect from the 15th May, 1899, or the subsequent date on which he may avail himself of the furlough.

The 12th May, 1899.

No. 1245-*I.B.*—In continuation of the Notification of the Government of India in the Foreign Department, No 1892½-I.B., dated the 9th July 1898, and in exercise of the powers referred to therein, the Governor General in Council is pleased to direct that the following further modifications shall be made in the like Notification No. 1811 I.B., dated the 1st July, 1898, namely :

For the words "and those referred to in the Notification of the Government of India in the Foreign Department, No 4564-I., dated 18th November, 1891," where they occur in the parentheses in paragraphs (1) and (7) of Articles XIII and XV, respectively, the words "and those referred to in the Notifications of the Government of India in the Foreign Department, No. 4564-I., dated the 18th November, 1891, and No. 3244-I.B., dated the 26th August, 1897," shall be substituted.

No. 1249-*I.B.*—In exercise of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, 1879 (XXI of 1879), and of all other powers enabling him in this behalf, the Governor General in Council is pleased to apply the provisions of the Indian Factories Act, 1881 (XV of 1881), to the railway lands in the territories of His Highness the Nizam of Hyderabad (other than the railway lands in the Hyderabad Assigned Districts and those referred to in the Notifications of the Government of India in the Foreign Department, No. 4564-I., dated the 18th November, 1891, and No. 3244-I.B., dated the 26th August, 1897) :

Provided that, for the purpose of facilitating the application of the said enactment, any Court in the said railway lands may construe the provisions thereof with such alterations, not affecting the substance, as may be necessary or proper to adapt them to the matter before the Court :

Provided also that references to the Local Government shall be read as referring to the Resident at Hyderabad and references to British India as referring to the said railway lands.

No. 1253-*I.B.*—In exercise of the power conferred on him by the Code of Criminal Procedure, 1898 (Act V of 1898) as applied to the railway lands in the territories of His Highness the Nizam of Hyderabad (other than the railway lands referred to in the Notifications of the Government of India in the Foreign Department, No. 4564-I., dated the 18th November, 1891, and No 3244-I.B., dated the 26th August, 1897), the Governor General in Council is pleased to confer on Mr. F. C. Crawford, Superintendent of Police and Magistrate of the first class within the said lands, excepting those in the Hyderabad Assigned Districts, the following additional powers specified in the fourth schedule to the said Act so applied, namely :

(2) power to require security for good behaviour, section 110 ;

(3) power to make orders as to local nuisances, section 133 ;

(4) power to make orders prohibiting repetitions of nuisances, section 143 ;

(5) power to make orders under section 144 ;

(6) power to hold inquests, section 174 ;

(7) power to issue process against a person within local jurisdiction who has committed an offence outside the local jurisdiction, section 186 ;

(8) power to take cognizance of offences upon complaint, section 190 ;

(9) power to take cognizance of offences upon police reports, section 190 ;

(10) power to take cognizance of offences without complaint, section 190 ;

(13) power to sell property alleged or suspected to have been stolen, etc., section 524 ;

(14) power to order released convicts to notify residence, section 565.

H. S. BARNES,

Offg. Secretary to the Government of India.

FINANCE AND COMMERCE DEPARTMENT.

NOTIFICATIONS.

LATEST TELEGRAMS.

(REUTER'S.)

THE QUEEN'S BIRTHDAY.

CELEBRATIONS IN LONDON.

LONDON, MAY 24.

TOUCHING tributes to the Queen have appeared in the British and Foreign press on the occasion of Her Majesty's birthday. The event will be celebrated on a scale resembling that of the Jubilee. Special services will be held in all the cathedrals, in addition to which military displays and banquets will take place.

PRESIDENT KRUGER'S FRANCHISE REFORMS.

LONDON, MAY 24.

THE Transvaal Volksraad has had President Krüger's franchise reforms under consideration, and the tone of the discussion is unfavourable to them. The proposals put forward by the President are regarded as too liberal, whereas the Uitlanders regard them as absolutely inadequate.

NEW JAPANESE LOAN.

LONDON, MAY 24.

A JAPANESE loan of ten millions sterling, bearing interest at the rate of four per cent, will be issued next week. The issue price is £90.

TENDERS FOR INDIA BILLS.

LONDON, MAY 23.

TENDERS are invited for £2,500,000 India Bills to replace those falling due on the 3rd June. They will be payable in six or twelve months.

Secretary to the Government of India.

No. 1.

No. 129, dated the 5th May 1898.

From—The Government of India,

To—The Secretary of State for India.

With reference to the correspondence noted on the margin, we have the honour to forward copy of the papers entered in the annexed schedule regarding a proposal for the representation of India at the Conference on the sugar bounty question which is to be held at Brussels on the 7th June 1898.

Telegram to the Secretary of State, dated the 8th March 1898.
Telegram from the Secretary of State, dated the 9th March 1898.
Telegram from the Secretary of State, dated the 1st April 1898.
Telegram to the Secretary of State, dated the 9th April 1898.
Telegram from the Secretary of State, dated the 14th April 1898.
Telegram to the Secretary of State, dated the 2nd May 1898.

2. We approve the suggestions of the Bengal Chamber of Commerce that India should be represented at the Conference, if Her Majesty's Government have no objection, and that Mr. E. C. Ozanne, late a member of the Indian Civil Service, Bombay Establishment, should be sent to the Conference to represent India, and we request that arrangements may be made accordingly. Instructions for Mr. Ozanne's guidance will follow.

3. An examination of the statements in the note on the effect on the sugar-cane industry of India of the unrestricted importation of bounty-fed sugar, which forms one of the enclosures of this despatch, leads us to the conclusion that while the competition of imported sugar (of which three-fifths are cane sugar) may have reduced the profits of the refining industry, it does not appear to have materially affected the producer. He relies mainly on the demand for unrefined sugar, which constitutes seven-eighths of the trade, and in respect of these seven-eighths, there seems to be no reason to apprehend that the producer's profits have been lowered by the increased importation of beet sugar.

4. While, therefore, we adhere to the position stated in the Financial Despatches No. 33 of 14th February 1888 and No. 145 of 14th May 1889, and are prepared to press for the abolition of the sugar-bounties, and to join in an International Convention for that purpose, we are not prepared to levy countervailing duties on sugar imported into India as suggested by Messrs. Begg, Dunlop and Co., Turner, Morrison and Co., and Lyall, Marshall and Co., in their letter dated the 23rd February 1898.

No. 303-'98, dated 1st March 1898.

From—W. PARSONS, Esq., Secretary to the Bengal Chamber of Commerce,

To—The Secretary to the Government of India, Finance and Commerce Department.

I am directed by the Committee of the Bengal Chamber of Commerce to enclose copy of a letter, dated 23rd February, from Messrs. Begg, Dunlop & Co., Messrs. Turner, Morrison & Co., and Messrs. Lyall, Marshall & Co., forwarding a note on the effect on the sugar-cane industry of India of the unrestricted importation of bounty-fed sugar which is interfering seriously with the interests of native cultivators, zemindars, and manufacturers in this country, besides causing a loss of revenue to the Government of India.

2. The Committee in passing on this letter desire me to say that they support the suggestion made in the third paragraph that the Government of India should be asked to arrange by telegraph with the Secretary of State for the representation of India at the Conference on the sugar-bounty question which, it is understood, is to be held immediately at Brussels.

Dated 23rd February 1898.

From—MESSRS. BEGG, DUNLOP & CO., TURNER, MORRISON & CO., LYALL, MARSHALL, & CO.,

To—The Secretary to the Bengal Chamber of Commerce.

We send you the enclosed note on the effects of the unrestricted importation of bounty-fed sugar on the sugar-cane industry of India, and would ask you to kindly lay the same before your Committee.

The accompanying note fully sets out how seriously the interests of the native cultivator and zemindar as well as those of the manufacturer are being affected, while the loss of revenue that must follow it the excessive importation of bounty-fed sugars continues, is of vital moment to Government. We trust your Committee will agree with us that the question is of sufficient importance to the country generally to enlist the Chamber's active support.

In the first instance we would request, if your Committee agrees with our views, that the Chamber should forward the note to the Government of India (Finance Department) urging them to arrange by telegraph with the Secretary of State for the representation of India at the Conference on the sugar-bounty question, which we understand is to be held immediately at Brussels, and that the representative should be instructed to press for the abolition of the bounty system and to inform the Conference that failing this the Government of India might in self-protection be compelled to institute countervailing duties.

As the Conference takes place at once, we trust the Chamber can see their way to approach Government without delay.

Note on the effects of the unrestricted importation of Bounty fed Sugar on the Sugar-cane Industry of India.

PREAMBLE.

THE object of this Note is to present to the Government of India, for their consideration, facts and figures relating to the past and present position of the sugar industry in India, and to the effect upon it of European bounties for the protection of beet-sugar.

1. Broadly speaking, the sugar industry has passed through two phases and has entered upon a third. India was a sugar-exporting country at the beginning of the century. It became in the course of years a self-supplying country, more or less stripped of its exports. It is now fast taking the position of an importing country. The causes which led to the restriction of exports are explained in historical accounts already in the possession of the Government of India, and are summed up in State Blue Books and in the Imperial Dictionary of Economic Products. Imports, when this last was written, had already begun to take the place of exports. And "they were drawn," writes the editor, "from the very countries which were formerly the chief consumers of our exports." But at that period—about 1890—the effect on the price of sugar in India and on home consumption had not become alarming. "So far," Dr. Watt remarks, "it may be safely affirmed that the loss of the markets to which India formerly exported sugar and the creation of a foreign supply have not told injuriously upon the production of sugar in India, notwithstanding that already India imports 3 cwts. for every cwt. exported." But the prospects of the future were regarded with great apprehension. "If," continues the article, "the Colonial sugar manufacturers were to produce an article competing in price with even the more expensive qualities of *gur*, the import trade would at once become of graver moment than it has yet assumed." That this critical period has been reached is the main fact which the present note is intended to illustrate.

2. That the foreign bounty system benefits Great Britain is well understood. It assists materially in the provision of a cheap breakfast table, and the whole population gains. But in India, a sugar-producing country, its effects are more complicated and very different. Consumers (of refined sugar) as in Great Britain, are, of course, *pro tanto* equally benefited, but these do not as in Great Britain—and this is an important point—represent the whole community. On the other hand, the State, which does represent the whole community, must, as well as a very large section of the agricultural population, be very injuriously affected. For the importation of cheap sugar from abroad means the diminution of sugar production in India and that means, as will be shewn, the lessening of the ability of the

cultivator to pay rent, of the proprietor to pay land revenue, of the canal system to realise its rightful income, and of the manufacturer to compete against the foreigner. It means, in short, a future necessity to impose fresh taxes as a set-off against the curtailment of land and water revenue, and this seems to be the ultimate calamity which has to be averted.

3. There is no statistical information available to show what percentage of the population is represented by habitual sugar consumers. But it is a well-known fact, which could be easily confirmed by official enquiry, that sugar is not a necessity in the sense that salt is a necessity; that even in the crude form of Goor or Jaggery it is only enjoyed by the poorer classes as a luxury or as an occasional treat, and that it is habitually consumed only by the comparatively well-to-do classes. It is the latter, therefore, who are the chief gainers by the introduction of cheap sugar from abroad, and who, *per contra*, would be the chief losers by a tax upon the imported article. Whether at the expense of the whole community these classes should be benefited seems to be a main issue in this discussion.

4. The importance of cane cultivation in the agricultural scheme of almost every province in India is perhaps hardly appreciated, except by those officials whose duties have brought them into association with the settlement of land revenue. The remark may be found in many a settlement report that in such and such tracts the entire rent, and, therefore, the entire revenue is paid from the cane field. "The peasants say," writes the Settlement Officer of Bareilly, "that sugarcane is to other tillage as the elephant to other beasts." In almost every settlement report and district gazetteer of the Punjab, and of the North-Western Provinces and Oudh, the extremely important position held by sugarcane in maintaining agricultural prosperity is prominently noticed, as the extracts quoted below sufficiently indicate.

PUNJAB.

Delhi—Sugar is the most important and profitable crop of the *kharif* harvest.

Gujranwalla—Is the most valuable crop of all for its acreage.

Ludhiana—The value is almost ten times that of an ordinary dry crop.

NORTH-WESTERN PROVINCES.

Azamgarh—Takes more of the time and labour of the Azamgarh cultivator than any other crop.

Benares—Is the principal agricultural product of the district.

Jaunpur—To which the enterprising cultivator devotes his greatest time, labour and capital.

Mirzapur—The most prized and profitable of crops.

(This list of quotations could be greatly amplified.)

5. Supposing that the assumption could for an instant be made that in our East Indian possessions sugar cultivation were to become as impossible, owing to foreign bounties, as it has become in our West Indian possessions, it is not too much to say that a large portion of our cultivators would be embarrassed or ruined, that many of the land proprietors would suffer the same fate, and that the State Exchequer would be seriously affected by the diminution of land revenue. It seems equally clear that a gradual restriction of the cane area must lead either to a gradual loss of land revenue, or what is from a financial point of view much the same thing, a hindrance to the normal growth of the State income from its land.

6. Statistical evidence indicates that although in recent years the expansion of the cane area has, though material, not been surprisingly large, yet that in canal-irrigated tracts it has been extremely great. It is not improbable, indeed, that the comparative cheapness of canal water has enabled India, as a whole, to struggle as it has against the attack of cheap foreign sugars. But at what cost to the State? Capital raised from the tax-payers and expended on canals has been and is being deprived of the return due to it. It may be true that the cheapness of canal water compared with that of water lifted from wells, has allowed the cultivators to make such large profits that both they and their landlords have been greatly enriched, and that it will enable them even probably to continue to hold their own against the sugar importer. But it is none the less true that their profits will decline as also their ability to pay rent and canal dues on their cane lands, if the price of sugar is permanently lowered.

Dictionary of Economic Products, page 118—20 per cent. in the N.-W. P. in 40 years.

7. While the cultivator, the landlord, the land revenue and the canal revenue will thus be affected, the manufacturing interests of the country will also suffer. These, perhaps, are less important than those already dealt with—but they ought not to be ignored. The manufacture of better classes of sugar is a natural outlet for capital in a sugar-producing country, and is one, among many other investments, which tends to the employment of non-agricultural labour.

8. Nor must the fact be overlooked that the rise in the value of the rupee has been in recent years an important factor in the encouragement of foreign importations. As that rise has been mainly due to State action, so the remedy can only be found in action

by the State. The value of the rupee has, since the closing of the Mints, been enhanced by something like 30 per cent., and the advantage has been to the foreign importer immediate and positive. To the cultivator of cane the advantage has been—if he has gained anything at all—indirect, but, as has often been argued, many years will lapse before the loss involved in a lower rupee price, so far as that lower price is due to an enhanced value of the rupee, will be equalised by lower rupee prices for labour and for household necessities. In the meantime the foreign importer will have had the opportunity to establish a position against him.

NOTE.

CANE CULTIVATION—AREA.

9. The Agricultural Statistics of British India show the area under cane for the official year 1895-96 as ... ... 2,930,583 acres.

The average of the five preceding years was	2,863,803	"
Average for six years ...	2,897,193	"

OUTTURN OF SUGAR.

10. Taking the outturn in "coarse sugar" to average 1 ton per acre,* an unduly low estimate according to Dr. Watt,† this represents an annual production of 2,897,193 tons or roughly ... ... 79,000,000 maunds.

And in addition there is a production from palm trees, given in the Resolution marginally noted above, as 150,000 tons or about	4,100,000	"
Total production of coarse sugar in British India, 3,047,193 tons, or say	83,100,000	"

Messrs. Thomson and Mylne,‡ in a Note to Government, dated 19th May 1883, stated that the total production might probably be estimated at 5,000,000 tons.

Moreover, the Government Statistics exclude Central India and other important areas.

*Government of India Resolution on "The sugar cultivation and production of India," dated 20th March 1889, page 1.

† Dictionary of Economic Products of India, Vol. 6, Part 2, pages 116 and 346.

‡ Dictionary of Economic Products of India, Vol. 6, Part 2, page 120.

CONSUMPTION.

11. The consumption of sugar per head of the population,§ for all India, is put at 14 seers per annum by Dr. Watt, a moderate average, taking into consideration the fact that the Government standard per unit in the North-Western Provinces and Oudh for octroi purposes, has for years past been 33 seers, and that the actuals as regards some of the Municipalities are in excess of this quantity. The smaller factor of 14 seers per head consumption corresponds approximately with the estimated outturn of 1 ton per acre.

§ Ditto, page 119.

12. On the assumption that not more than two-thirds of the outturn enters into consumption as raw sugar, and valuing it at Rs. 3 per maund (the rate current at the moment for standard grades, say, Fyzabad and Azamgarh), this works out about Rs. 20,00,00,000.

13. Taking the remainder to pass through Native refiners' hands and to yield 40 per cent. white crystallised sugar, worth say, Rs. 10 per maund, the value of the production of refined sugar may be reckoned as Rs. 13,00,00,000.

14. Thus it is reasonable to compute that the cultivation of cane and sugar-yielding palms, and the allied industries of the manufacture and refining of sugar in British India, represent an aggregate annual turn over of at least Rs. 33,00,00,000. This estimate exceeds the figures given by Dr. Watt‖ in this connection, as a minimum, *viz*:—£20,000,000.

‖ Dictionary of Economic Products, Vol. 6, Part 2, page 332.

EXPORTS OF SUGAR FROM INDIA.

15. Apart from the demand for internal consumption, India exports considerable quantities of raw sugar. The figures for the past ten years are given below:—

Annual Statements of the Trade and Navigation of British India.

		Value.
	Cwts.	Rs.
1887-88	1,008,565	41,95,899
1888-89	978,955	50,69,771
1889-90	1,309,321	76,80,470
1890-91	795,973	37,91,871
1891-92	940,574	46,13,034
1892-93	798,773	45,42,721
1893-94	1,150,635	69,82,398
1894-95	958,107	47,10,804
1895-96	1,021,832	51,99,939
1896-97	1,097,202	62,22,644
Nine months to 31st December 1897	507,361	21,69,786

16. These shipments are chiefly from Madras, and consist largely of date and other palm sugars. It will be seen that during the above term practically no ground has been gained.

17. Indian refined sugar constituted an export staple of some importance to the country up till 1877-78, the average for the five years ending with that period being 410,367 cwts., valued at Rs. 37,61,369. This trade, however, which might have been developed to high proportions, is now gone beyond recall, even if the sugar bounties in Europe were abolished. The average exports for the five years ending 1896-97 amounted to only 69,897 cwts., valued approximately at Rs. 8,97,364.

IMPORTS OF FOREIGN SUGAR.

18. A certain quantity of refined sugar, chiefly of high grade, has been imported for decades past, but it is only of comparatively recent date, and especially within the last two and the current years that the competition of the bounty-fed beet variety has become a matter calling for serious consideration. The imports for the decennial period ending 1896-97 are as follows:

	BEET.		CANE.	
	Cwts.	Value. Rs.	Cwts.	Value. Rs.
1887-88	12,606	1,49,577	1,702,396	2,06,53,783
1888-89	2,355	40,125	1,448,126	1,73,72,518
1889-90	51,297	6,68,927	1,572,324	2,10,22,120
1890-91	774,969	92,23,609	1,959,522	2,40,44,887
1891-92	280,620	34,03,573	1,788,365	2,17,64,461
1892-93	285,910	41,30,445	1,562,006	2,17,87,715
1893-94	201,408	29,48,116	1,829,846	2,50,32,514
1894-95	282,213	35,54,691	2,013,980	2,48,04,909
1895-96	724,649	88,38,442	1,800,325	2,18,10,913
1896-97	880,375	1,01,47,134	1,802,088	2,09,72,047
9 months to 31st December 1897	1,043,466	1,16,37,053	1,489,702	1,72,36,728

Annual Statements of the Trade and Navigation of British India.

Ditto for nine months ending 31st December 1897.

19. The foregoing shows the enormous stride made by the State-protected commodity, and what makes the case still more striking is the fact that the expansion of beet imports has even in the earlier years been in the face of a steady fall in the gold value of the currency. These remarks are not to be taken as referring to the year 1890-91, which in this connection must be regarded as an exceptional year. It was then the first great rush of beet sugar into the Indian Markets took place; this, as Mr. O'Conor pointed out, being, "the immediate and direct result of the system of sugar bounties, aided by the development of direct steam communication between India and Germany and by the course of exchange." On the 9th April 1890, exchange at Calcutta stood at 1*s*. 5$\frac{3}{32}$*d*., it rose rapidly, and by the 20th August had touched 1*s*. 8$\frac{13}{16}$*d*; at the end of that month the reaction set in, and at the close of the official year it had fallen to 1*s*. 5⅛*d*. The mean for 1890 and 1891 was 1*s*. 5¾*d*., while for 1896-97 it may be taken at 1*s*. 3*d*.

Review of the Trade of India in 1890-91, page 2.

Thus Imports, 1890-91 ... 774,969 cwts. = Rs. 92,23,609 at 1*s*. 5¾*d*.
= £682, 162-14 11⅜ per cwt. = 17*s*. 7½*d*.

Thus Imports, 1896-97 ... 880,375 cwts. = Rs. 1,01,47,134 at 1*s*. 3*d*.
= £634,195-17-6 per cwt. = 14*s*. 5*d*.

facts that amply demonstrate the seriously adverse effect which the bounty system, *plus* any possible further rise in exchange, must have on Indian sugar-cane cultivation.

20. At the present time (January 1898) with exchange at, say, 1*s*. 4*d*., there are sellers of "Beet," forward delivery, Bombay or Calcutta, at Rs. 7-8-0 per maund free of all charges.

21. The following passage which occurs in the 1889 Resolution is significant of the effect of these increasing imports of cane and beet sugars and before these had attained anything like their present dimensions—as regards Bengal; and may be taken to apply equally to other parts of India:—

Government of India Resolution of 20th March 1889.

"These decreasing exports and increasing imports do not seem to augur well for the sugar-refining industry in Bengal, and they apparently confirm the statement made about 18 months ago by one of the leading dealers of Bengal in sugar. He asserted that the sugar export trade of Calcutta was declining; that refinery after refinery in Bengal was being closed."

22. Official returns record the average value of imported refined sugar at the seaports for the past five years, as follows:

	Per cwt. Rs. A. P.	Per maund. Rs. A. P.
1892-93	14 0 5	10 4 3
1893-94	13 12 5	10 1 4
1894-95	12 5 8	9 0 9
1895-96	11 9 7	8 7 10
1896-97	11 9 7	8 7 10
For 9 months ending 31st December 1897	11 6 4	8 5 6

Annual Statements of the Trade and Navigation of British India.

On 4th January 1898, in Calcutta, beet sugar was quoted at Rs. 8-1-0 per maund.

23. The cost of laying down this sugar from either Bombay or Calcutta at a central point in Upper India, say, 700 miles inland, may be taken at between Re. 1 and Re. 1-2-0 per maund, including all charges.

24. Native refined sugar, in an ordinary year, varies in price according to quality from Rs. 7 to Rs. 16 per maund, and Rs. 10 per maund is a safe figure at which to assess the present average cost of its production.

25. The foregoing figures and remarks clearly confirm the conclusion as to the fate that must inevitably overtake the cane-growing industry of India, unless steps are promptly taken to avert it. It is an ascertained fact that at the present moment the season when native refineries, as a rule, are going full swing, but few are being worked, the invariable explanation of the cause of inaction being that there is no profit margin between the cost of raw material and the price that can be obtained for refined sugar.

26. The subsidies granted by the European beet-producing nations to those engaged in the industry range as high as in the case of France, 4*s.* 6*d.* per cwt. or taking the sterling value of the rupee at 1*s.* 4*d.* = Rs. 3-6-0 per cwt. The result being that the Indian cultivator and refiner are practically handicapped to the extent of the bounties paid.

27. It is understood that a Conference on Sugar Bounties instituted by Belgium is to assemble in February or March at Brussels. It would therefore appear to be desirable to urge upon Government the necessity of endeavouring to secure the appointment of a special representative to the Conference to lay before it the facts of the case as regards India, and as the time is now short, Government might be asked to endeavour to arrange this by telegraph with the Secretary of State for India. Should the Conference of the representatives of the powers result in the removal of the State subsidies now paid by the European Continental powers, the necessity for any further action on the part of the Government of India would cease.

But it is felt that the most that can be hoped for is some modification of the subsidies now paid and possibly the adoption of an uniform standard of bounty by Germany, France and the other powers.

28. It seems futile to look for the total repeal of the bounties. Beet-growing is now recognised on the Continent as an almost indispensable factor in agricultural operations—an economic necessity. It forms a regular rotation of crops and offers great advantages apart from the sugar it yields. It provides cheap fodder, the pulp is largely utilised, and the cultivation and manufacture have been so much extended that they give employment to a great portion of the population whom it would be difficult to employ otherwise. It has therefore become a question of national importance to maintain and foster the beet industry as far as may be feasible. Taken in this light it would appear to be practically as dangerous for any Continental nation to discontinue these subsidies as for those interested in India to ignore the pressing necessity of taking immediate steps to neutralise their calamitous effect on a great agrarian industry.

29. In the event of the subsidies not being abolished, it is but just and reasonable that the Indian import duty on beet sugar be raised to a figure that would put an end to such an unnatural state of affairs. Further that the amount of this duty should be determined on the basis of the higher rate paid in France, thus practically adopting "the most favoured nation" clause to meet the needs of the case.

30. In the speech recently made by Mr. Chamberlain at Liverpool, he is reported to have said that he had no objection to countervailing duties on the score that they infringed on freedom of trade:—

"It would be perfectly justifiable to adopt that weapon in order to secure free trade in sugar; but this case of sugar was peculiar because the West Indian trade which we desire to save is a trade of 260,000 tons per annum, while the importation of sugar into this country is 1,500,000 tons per annum, and it does seem rather an awkward and unscientific way of benefiting a trade of 260,000 tons by interfering with a trade of 1,500,000 tons."

This has a distinct bearing on the matter under discussion. In India the position is exactly reversed and therefore it would be logically both seemly and scientific in the interests of the majority, *i.e.*, the cultivator and the consumer of raw sugar to tax the comparatively unimportant but well-to-do minority Mr. Chamberlain proposes to give "a very large grant-in-aid of the West Indies;" it is not known whether he has like intentions in the case of the Mauritius, but it is in the power of the Home Government to give much more effective aid to that Dependency, by allowing India to tax alien sugar to the extent of the bounties granted by the European powers. All the sugar that Mauritius can produce (100,000 tons per annum) if sent to this country would not hurt, provided that the trade was worked on the basis of the cost of production and it cannot exist long on any lower or less sound footing.

31. Were Government to propose to increase the tariff rates in respect of cane sugar, this might be considered objectionable, as detrimental to the interests of English manufacturers, the Mauritius, and other imperial dependencies. But there is no desire to plead for more than a countervailing duty on beet in order that Indian cane sugar growers and refiners may be placed in a position to compete for the sugar supply required by the people

of this country, on the actual basis of the cost of production. Given that this principle be accepted, there is every reason to believe that the industry would not only revive but expand; and that under favourable circumstances the Native methods of treating the cane would steadily improve, there can be no question. The Behea Mill, now familiar in every sugar-producing tract, has accomplished much in this direction; more care and attention to the boiling, filtration, and straining of the juice, has of late become noticeable in many places, a circumstance probably to be accounted for by the felt necessity of economising; while in some districts the use of the hand-centrifugal machine introduced by Messrs. Thomson and Mylne for separating the syrup from the sugar, has already effected an appreciable improvement in the class of sugar produced. In brief, what with natural advantages of climate, the frugal habits of the ryotwari classes who subsist by the cultivation and manufacture of sugar, enhanced as these favourable conditions are by increased irrigation facilities and the continuous opening out of fresh tracts of country to railway communication, it is unquestionable that the capabilities of the country in the production of sugar are, if not unduly handicapped as at present, susceptible of immense expansion. And that the introduction of improved methods and appliances in industrial occupations is becoming generally much more popular, is well exemplified in the rapid development of cotton ginning and cotton pressing by steam power, in the Punjab, the proprietors in the majority of cases being Native produce dealers.

32. It has been admitted that a countervailing duty on beet sugar will increase the cost of the commodity to the consumer. But, apart from the fact that the Indian consumers of refined sugar of like class and quality are mainly the well-to-do classes, the imposition of a tax on a staple of consumption, in the manufacture of which is used an article that in theory is held, alike by the Hindu and Mussulman, to defile anything with which it comes into contact, would be welcomed rather than resented. To repeat our opening argument—in Great Britain, on the bounty question, the interest of the consumers as the great electorate overrides every other consideration—and the sugar-refining industry there is practically dead. In India the position is reversed: the interest of the classes and masses with a stake in or dependent on agriculture and its concomitant industries, is paramount; these not only forming the great majority of the population (61 per cent. are dependent on agriculture alone), but contributing more than one-fourth of the Imperial revenue. And some idea may be formed of the relative economic importance of the mere cultivation of sugar from the fact that there is about as much land under it as under the great crops of indigo, tobacco and tea taken together.

33. "The ruin of the West Indies"—graphically described by Lord Pirbright in an article under this title in the December number of the *National Review*—has, as demonstrated by the report of the West India Commission, already been accomplished, and it is impossible to foretell where the mischievous results of the bounty system may end. As already pointed out, the Native refining industry has this season, to all intents and purposes, ceased in the North-Western Provinces and Oudh. This could hardly be otherwise, seeing that refiners would require to get raw sugar at a price that would not pay the cultivator, in order to compete with the bounty-fed article, superior in appearance to their productions, selling at Rs. 8 a maund. From a certain point of view the sugar-producing Colonies are in a stronger position; their industry is backed by a very large amount of capital, and large sums have been invested in machinery of the most approved modern type, while in India, the average Native refiner works on a very small scale, and with plant, if it can be dignified by such a term, and appliances of the most primitive description.

The following is a quotation from the Resolution on "the Sugar Cultivation and Production of India," dated 20th March 1889:

34. "The Government considers that it may be said in general terms that the sugar industry of India is at the present day in a thriving condition, and that it has not been affected to any appreciable extent, like other sugar-producing countries, by the system of sugar bounties prevailing in Continental Europe. In the despatch of May 1882, the Government of India made the following remarks, which may be taken to apply equally to the present condition of the sugar industry of India:

35. "The increasing import and the decreasing export do not, we consider, indicate the decadence of the industry in India. The area under sugarcane has largely increased in Upper India through the development of canal irrigation and is reported to be extending from the same causes in Bombay. More sugar is produced in India than formerly; but the demand is much greater. Not only has the increasing prosperity of the people increased the average consumption, but sugar is now borne by rail into tracts where the cane is cultivated to a limited extent, and which were formerly very scantily supplied. The profitableness of the industry is seen in the high price which the Indian cultivator can obtain for his produce, and all the evidence before us leads to the belief that the capital invested in sugar cultivation in India is steadily increasing."

36. The rate of bounty has been largely increased by the Continental powers of Europe during the last two years, and on this and other grounds which have been indicated in the early paragraphs of this note, it is submitted that the conditions on which the foregoing Resolutions were based have entirely changed.

37. It cannot be denied that the sugar industry in India is in a state the reverse of thriving, and this as the direct result of the competition of imported bounty-fed sugar.

Foreign imports, which it was held in 1882 did not indicate any decadence of the industry in India, have, as the following statement shows, more than quadrupled since then. Besides the great extent to which Indian manufactured sugar has been thus displaced, the comparative rates at which the imports have been valued, indicate the enormous fall in prices (28¼ per cent.) brought about by the bounty system, with which the Indian producer has had to contend:

			Value.		Value.	
		Cwts.	Rs.		Per cwt.	Per maund.
1882-83	...	669,348	1,08,56,003	=	Rs. 16 3 6	Rs. 11 4 0
1896-97	...	2,682,463	3,11,19,181	=	„ 11 9 7	„ 8 7 10

38. A point is made in the Resolution of the area under sugarcane having largely increased, but from the following figures it will be seen that the cultivation in recent years cannot be held to have extended on anything approaching the scale that might have been expected, in view of the growth of the general population, its more prosperous condition and greater purchasing power, the expansion of railway communication, and increased irrigation facilities:

				Acres.
1888-89 } 1889-90 }	...	...	...	... Figures for Bengal not available.
1890-91	...	...	...	2,758,450
1891-92	...	...	...	3,100,232
1892-93	...	...	...	2,798,637
1893-94	...	...	...	2,897,042
1894-95	...	...	...	2,764,656
1895-96	...	...	...	2,930,583

39. A matter which deserves notice is the income which might be derived from the imposition of a Rs. 3 per maund duty on imported beet sugar. Calculating such duty on the basis of the imports for 1896-97—and allowing the present 5 per cent. import duty to stand as a set-off against the cheaper freight by the subsidised shipping employed to carry sugar to India, and the preferential rates given by Continental railways on goods carried for export—this would represent about 36 lakhs. As a form of indirect taxation it would be little felt, particularly as in its incidence only the well-to-do classes who, as before stated, are the chief consumers of refined sugar, would be touched. On the other hand, if the impost had the desired effect of restricting imports the direct income thus estimated would be, it is hoped, considerably reduced. The real return to the State would be indirect, in the form of increased agricultural prosperity and enhanced returns from water and land revenues.

40. There is nothing radical or new in the proposals made in this note. The attached extracts from the Customs Tariffs now in force in Victoria and the Cape show that the necessity of countervailing duty on sugar manufactured from beet-root has been accepted by the Cape and Australian Colonies, while the satisfactory position of the home sugar-producing industry in these dependencies, in conjunction with the fact that, practically, the whole outturn of the Mauritius, 100,000 tons per annum, is divided between them and India, demonstrates clearly that the system adopted is a practicable, and in Imperial interests, a beneficial, means of counteracting the evil effects of the competition of bounty-fed sugar.

Extract from New Customs Tariff of Victoria, 1897.

The following is a statement of the duties now leviable on sugar imported into the Colony of Victoria:

No.	Articles.	Rate of duty.
...	Sugar not being produce of cane	12s. per cwt.
...	Sugar, produce of sugarcane	6s. „

Extract from New Customs Tariff of Cape Colony, 1897.

An act to amend the Customs Union Tariff Act of 1889, brought into force on the 1st July 1897. The following are the rates of duty to be levied on sugar imported:

SCHEDULE A.

Class I.—Special Rates.

No.	Articles.	Rate.	£. s. d.
30	Sugar: (a) The produce of the cane (*not refined*), golden syrup, molasses, saccharum, and treacle	Per 100 lbs.	0 3 6
	(b) Not cane, and all refined sugars ...	„	0 5 0

41. The customs duty of ½ anna per gallon on kerosine, imposed in 1888 and in 1894 increased to 1 anna per gallon, has not had the effect of crippling the trade. Imports have more than doubled since the former date, as shown in the following statement:

	Gallons.	Value. Rs.
1887-88	30,200,042	1,21,68,173
1888-89	38,285,559	1,76,79,373
1889-90	51,839,400	2,38,66,839
1890-91	52,561,296	2,26,25,291
1891-92	55,508,063	2,20,09,659
1892-93	64,409,305	2,51,58,735
1893-94	83,611,938	3,09,15,261
1894-95	50,364,624	1,94,19,659
1895-96	63,312,422	2,77,97,430
1896-97	64,471,307	2,85,93,562

42. In 1896-97 these yielded to Government a gross revenue of Rs. 40,20,343. In this connection it is not unreasonable to contend that, mineral oils having almost entirely taken the place of Indian vegetable oils for lighting and lubricating purposes, the trade has had a paralysing influence on oil-seed cultivation. In spite of the development of canal irrigation, the increasing prosperity of the people, improved railway facilities, low freights, etc., the area under oil-seeds has remained practically stationary for the past five years, as borne out by by the following figures:

	Acres.
1891-92	12,854,358
1892-93	13,548,192
1893-94	14,815,951
1894-95	13,929,969
1895-96	12,844,062

while no expansion in the export of oil-seeds (although favoured by a low rate of exchange) has taken place that can be put as a set-off against the loss of the internal demand for vegetable oils for lighting, which, previous to the introduction of kerosine oil, was the sole luminant used by the people of the country; the shipments to foreign countries for the past five years being:

	Cwts.
1892-93	16,434,948
1893-94	24,153,353
1894-95	20,793,519
1895-96	13,585,071
1896-97	11,322,544

43. In conclusion, in the event of the Continental subsidies not being done away with, the measure proposed would free India from the injurious effects of a pernicious bounty system which has enabled beet sugar to dominate its markets, and threatens, in the interests of alien agricultural populations, not only to bring disaster and ruin on a large section of our own cultivating and industrial classes, but to add to the existing difficulties of the Government the most dangerous of all problems, an agrarian grievance, calculated to give rise to feelings of distrust and discontent, which once aroused might be difficult to allay.

No. 1490, dated 28th March 1898.

From—The HONOURABLE MR. G. S. FORBES, I.C.S., Acting Secretary to the Government of Madras, Revenue Department,

To—The Secretary to the Government of India, Finance and Commerce Department.

I am directed to forward the accompanying letter which has been forwarded to this Government for transmission to His Excellency the Governor General in Council, by the Chairman, Madras Chamber of Commerce, regarding the representation of India at the Conference to be held at Brussels on the sugar bounties question.

Dated 19th March 1898.

From—The HONOURABLE Mr. G. G ARBUTHNOT, Chairman, Chamber of Commerce, Madras,

To—The Secretary to the Government of India, Finance and Commerce Department.

This Chamber has had the opportunity of perusing a copy of the letter from Messrs. Begg, Dunlop & Co., and other firms in Calcutta on the sugar bounties question which was lately forwarded to the Government of India by the Bengal Chamber of Commerce, and it has the honour to state, in confirmation of its telegram of yesterday's date, that it gives hearty support to the suggestion made in the third paragraph of that letter, namely, that Government should arrange by telegram with the Secretary of State for the representation of India at the Conference on the sugar bounty question which it is understood is to be held immediately at Brussels.

This Chamber, moreover, considers that the representative of India should, in the words of the petitioning firms, " be instructed to press for the abolition of the bounty

system and to inform the Conference that failing this the Government of India might in self-defence be compelled to institute countervailing duties."

In the opinion of this Chamber, such a declaration of policy is imperative under the circumstances. Countervailing duties are India's only weapon of defence, and if her representative at the Conference is not allowed to use it, he will appear there as a mere suppliant for favour or pity—a rôle which is, as it seems to this Chamber, neither dignified nor calculated to facilitate an attainment of the object in view.

No. 503-'98, dated 7th April 1898.

From—W. PARSONS, Esq, Secretary, Bengal Chamber of Commerce,

To—The Secretary to the Government of India, Finance and Commerce Department.

In continuation of my letter No. 303-'98 of 1st March 1898, suggesting that the Government of India should be asked to arrange with the Secretary of State for the representation of India at the Conference on the sugar bounty question which is to be held at Brussels, I am now directed by the Committee of the Bengal Chamber of Commerce to suggest that the name of Mr. E. C. Ozanne, Bombay Civil Service (Retired), and at present residing in Guernsey, should be submitted to the Secretary of State for India for the post referred to. The Committee understand that Mr. Ozanne is a good French scholar which would be a distinct advantage at a Continental Conference, and that he was also deeply interested in the sugar question while in Bombay. As the Committee have been informed that the Conference has now been postponed until May, there will be ample time to communicate with Mr. Ozanne if the Government approve of the suggestion.

Telegram, dated 15th April 1898.

From—The Chairman, Chamber of Commerce, Madras,

To—The Secretary to the Government of India, Finance and Commerce Department.

This Chamber approves nomination of Mr. Ozanne as India's representative at the Brussels Sugar Bounties Conference which it understands has also been approved by Bengal Chamber.

No. 669, dated 7th April 1898.

From—F. STOKER, Esq., Chief Secretary to the Government of the North-Western Provinces and Oudh,

To—The Secretary to the Government of India, Finance and Commerce Department.

I am directed by the Lieutenant-Governor and Chief Commissioner to enclose copy of a letter, dated the 17th March 1898, from the Secretary, Upper India Chamber of Commerce.

2. The Lieutenant-Governor has not otherwise had any reason to believe that the sugar-growing and manufacturing industries in these Provinces have yet been seriously threatened by the importation of bounty-fed foreign sugar. But, in view of the large and important industry connected with the sugar growing in many districts of these Provinces, the matter appears to the Lieutenant-Governor one of sufficient importance to receive the attention of Government, and it will accordingly be kept under observation. In the meantime it appears to His Honour advisable, in the interests of these Provinces, that the country, if possible, be represented at the Conference referred to in the last paragraph of the enclosed letter.

No. 727-B., dated 17th March 1898.

From—W. B. WISHART, Esq, Secretary, Upper India Chamber of Commerce, Cawnpore,

To—The Chief Secretary to the Government of the North-Western Provinces and Oudh.

Under instructions from the Committee of this Chamber I have the honour to submit, for the consideration of His Honour the Lieutenant-Governor of the North-Western Provinces and Chief Commissioner of Oudh, a letter received from the Bengal Chamber of Commerce, No. 372, dated 12th instant, with enclosures, dealing with the effect of the unrestricted importation of bounty-fed sugar on the sugarcane industry of India.

2. That bounty-fed sugar has, in many places in these Provinces, taken, to a serious extent, the place of native made refined sugar (*chini*) is undoubted; to quote alone the case of Cawnpore, which, indeed, is the only northern in land mart in which separate trade statistics are maintained, the sugar imports from Bombay and Calcutta for the past eight years are as follows:

	From	
	Calcutta. Maunds.	*Bombay.* Maunds.
1890	51,400	2,244
1891	58,569	2,418
1892	24,655	203
1893	16,771	6,424
1894	11,027	18,427
1895	1,750	9,126
1896	14,621	16,496
1897	21,612	131,728

Practically all the sugar sent up from the seaports is of foreign production, the bulk being beetroot.

3. The influence of these large imports upon the local industry is evidenced by the fact that the stock of beetroot sugar now in the Cawnpore *bazar* (some 50,000 maunds) is being offered at Rs. 8 per maund of 82 lb 2 oz., whereas previously to the recent augmentation by the European Continental Powers of the rates of bounty, the price of the better classes of native refined sugar ranged from Rs. 11 to Rs. 16 per maund.

4. While the Chamber are not prepared to offer an opinion as to the precise effect which the influx of subsidized foreign sugars is likely to have on the agricultural and revenue interests of these Provinces, feeling that this is a question of which the Local Government is more qualified to judge than are members of the commercial community, they nevertheless are convinced that any material diminution of the cane area would be a serious blow to the cultivating population. The issue is of so great importance that they venture to ask that His Honour the Lieutenant-Governor would permit an opinion to be given to them as to whether it is likely that any equally lucrative crop could be found to take the place of cane in Upper India, so far as beet sugar may supplant cane in the markets for refined sugar.

5 My Committee agree with the Bengal Chamber as to the need for the representation of India at the Conference to be held at Brussels on the sugar bounties question, and trust that His Honour the Lieutenant-Governor of the North-Western Provinces and Chief Commissioner of Oudh may see his way to address the Government of India in support of the representations made.

No. 2. No. 149 (Revenue), dated 25th August 1898.

From—The Secretary of State for India (LORD GEORGE HAMILTON),

To—The Government of India.

Copies of the Parliamentary Papers regarding the Sugar Bounties Conference at Brussels were forwarded by the mails of the 29th July and the 5th August. From those papers Your Excellency's Government will have learnt that the Conference separated without achieving a definite result, that the Belgian Government will probably pursue the matter further, and that possibly the Conference may hereafter be convoked again. Meanwhile entire freedom of action is reserved for Her Majesty's Government in regard to any measures which the development of the sugar question might render necessary.

2. I forward, for the information of your Government, the papers noted in the margin. The letters from Mauritius urge that India should take steps to protect her own sugar and Mauritius cane sugar from the competition of bounty-fed beet sugar. At paragraph 4 of your letter No. 129 (Finance), dated the 5th May 1898, it was stated that you were not prepared to levy countervailing duties on bounty-fed sugar imported into India. I should be glad to receive more fully your views on this proposal, as Her Majesty's Government, now that they are in possession of the views of Foreign Governments, must consider during the next few months the course they should pursue.

Letter from Mr. Ozanne, the Indian Delegate, dated the 15th June 1898.
Reply to ditto, dated the 20th June 1898 (not printed).
Letter from ditto, dated the 18th June 1898.
Letter from ditto, dated the 29th July 1898.
Letter from Colonial Office, dated the 23rd July 1898.
Letter from Governor of Mauritius, dated the 27th May 1898.
Letter from Chamber of Agriculture, Mauritius, dated the 18th May 1898.

Dated 15th June 1898.

Demi-official from—E. C. OZANNE, Esq., Indian Delegate, Brussels,

To—SIR CHARLES BERNARD, K.C.S.I., India Office.

* * * * *

It is clear that, except France, all the countries represented will be willing, if a Convention is arrived at, to abolish bounties. Belgium goes so far as to forego the retention of her system of calculating a legal yield, and to accept the plan of manufacture and refining in bond, a point she refused to concede at the Conference in 1888. The position is simply this, that all attention is directed towards England. We were pressed very hard yesterday to say whether England (and of course India) is really determined to accept a penal clause in the Convention to be arranged. In our declaration we made use of vague expressions stating that England will be obliged to take some definite step to put a stop to the disturbance of the free course of trade and to the injury done to our colonies and refiners by the artificial interference by foreign Powers, but we must go further, and instructions have been asked from Lord Salisbury.

We agree entirely with the view expressed by Lord Lytton in the Secretariat notes forwarded to me on 29th April 1898 that "it is idle to strain at the addition of an exclusive dealing clause. Without such a clause the parties to the combination would be in a worse predicament than ever, etc." We cannot in any way hope for a Convention unless at least

we say now that we are fully prepared to agree to a penal clause, such as Clause VII of the draft Convention of 1888, as an essential element in the Convention. This is, as I am sure you will readily admit, a very different thing from making any declaration in the form of a threat or otherwise that we intend to impose a countervailing duty or to prohibit the import into England or India of bounty-fed sugar. We do not want to make any threat at all, but all the delegates show very unmistakeably their opinion that it is perfectly useless to proceed further till an assurance is given by England that we will be parties to the essential sanction of the Convention. It is on this point that instructions have been solicited, for, by the orders of our deputation, we were not given a free hand. Under my special instructions, based on the Despatch of the Viceroy, No. 145, of the 2nd May 1889, it seems to me that I have a freer hand than the other British Delegates, though of course I am strictly bound by Lord Salisbury's orders in so far as they restrict the orders of the Government of India. India can prohibit bounty-fed sugar under her present Customs regulations, without having recourse to legislation, and though the Government of India is not prepared to impose countervailing duties, it has not forbidden me to assert that it is prepared to prohibit the importation of sugar if such a step is forced on India by the action of foreign Powers. I conceive that, if the British Government allows us to assent to a penal clause, I am free to say that India will follow suit. If I have in any way misinterpreted my instructions, I trust that you will be good enough to tell me so at as early a date as possible.

I may add that the indirect bounties given by France on production have the practical effect of a considerable bounty on exportation, though France has not admitted the fact. I may also add that the penal clause, if adopted, would undoubtedly leave the option of prohibition or countervailing duties, so that the instructions from India will be fully safeguarded.

Dated 18th June 1898.

Demi-official from—E. C. OZANNE, Esq., Indian Delegate, Brussels,

To—SIR CHARLES BERNARD, K.C.S.I., India Office.

* * * * *

It is certain that the Conference will break up at once, if at the next meeting, fixed for the 24th, the British Delegates are not empowered to consent to the insertion in an otherwise satisfactory Convention of a clause binding the States, joining in the Convention, either to prohibit the importation of bounty-fed sugar, or to neutralise the bounty by a countervailing duty.

On the other hand, we have just received an important assurance from the President of the Conference that if England agrees to the penal clause, he will guarantee the accession of Belgium, Germany, Austria, and Holland. It is certain that neither France nor Russia could afford to remain outside, and it is probable that they will readily join.

We have drawn up a paper in which we endeavour to show reasons why England can hardly decline to accept the solution thus offered. I have no copy.

We are satisfied that the price of sugar will not rise above the average price of the last decade, if such an international agreement were arrived at. Nothing is more clear than that the price of sugar has been brought down in recent years by increased production rather than by a continuance of the bounties; though, of course, it is true that the increased production was induced in the first instance by the bounties—but the work of bounties is over. Their continuation can only work mischief, and this appears to be the universal feeling.

The Convention would not tend to cause a fall in production, but, on the other hand, would favour fair competition between cane and beet sugar, so as to supply fully the world's demand at a low price.

I need not discuss the fallacies underlying the popular cry of "cheap sugar," but there are reasons why cheap sugar is not desirable in India, if it is obtained by artificial means. First, refined sugar is not a necessary in India, but, secondly, further cheapening, which must result from failure to secure the desired Convention, will necessarily greatly reduce the profits of cultivation, and the ability of the cultivator to meet canal charges, and ultimately injuriously affect the legitimate return to Government on the capital laid out on irrigation works:

(1) India has lost its position as a sugar-exporting country;

(2) its refining industry is at the point of extinction; and

(3) its power to continue the cultivation of sugarcane is seriously threatened.

The first result was due to the successful cultivation of beet as a sugar-producer, thereby enabling Continental countries to supply their own markets. The second followed the large imports of Mauritius sugar, diverted by the bounty-fed beet from European markets; and the third result arises from the enormous imports of German and Austrian sugar into India.

If the Conference fails to secure a Convention, a war of bounties must follow, sugar will be abnormally lowered in price, and sugar-cane will be driven out of cultivation.

Germany is probably aware that India requires some five million tons of sugar, and, being shut out of the American market by the countervailing duty recently imposed by the United States, will naturally do its utmost to displace local sugar in India.

Beet holds a place in the system of crop rotation in Europe which is analogous to that held up to the present by sugarcane in India. Like beet, the sugarcane possesses great advantages apart from the sugar it yields. I cannot imagine how the irrigated areas in India, watered as they are so largely by the great irrigation works constructed by Government, and the wells dug with the help of taccavi loans from the Government Treasury, can substitute any crop which can profitably take the place of the sugar-cane.

There has been a struggle between Mauritius and German sugar. In 1895-96 the Mauritius seemed still able to hold its place, but more recent figures point to an immense advantage gained by Germany. In paragraph 18 of the note by Messrs. Begg, Dunlop, and other refiners, appended to the Despatch No. 129 of 1898, some figures are given. In *Capital* (19th May 1898) more recent ones appear:

Imports of sugar (value in rupees):

	Rs.
1896	26,72,000
1897	40,65,000
1898	58,16,000

In this paper the remark is made that "bounty-fed sugar continues to pour in in increasing volume," and the danger to local production is strongly forced on the attention of Government.

The cost of production of cane sugar in the form of native refined sugar in India is estimated at Rs. 10 per maund. In January 1898, in Calcutta, beet sugar was quoted at Rs. 8-1. It is not possible that the cost of production in India will diminish in proportion to the falling price of imported sugar, and the only result which is certain is that the profits of sugar-cane culture will continue to fall till displacement on a large scale will have to be faced.

The Government of India has power, by its Customs regulations, either to increase the duty on imported sugar or to prohibit it entirely. In both respects it has an advantage over the United Kingdom. There is no special duty on sugar, and it is not probable that the Government of India will consider the question of imposing such a duty. India has assented to the principle of a Convention stipulating only that it is not prepared to impose countervailing duties. If a Convention is arrived at by the Conference, the alternatives of prohibition and countervailing duties will be provided for, and it appears that the Secretary of State, by supporting the proposal of the British Delegates, which will be the subject of discussion at the Cabinet Council of Tuesday, to assent to a penal clause, will be able to secure a measure which will, not only revive the refining industry in India, but will protect Government and the raiyat from the very serious results of dislocation of the sugarcane crop.

Germany is specially anxious for the Convention, and, if it is arranged, Mauritius and German sugar will compete for the Indian market on equal terms. The desired result will be secured. India will receive from Germany and Mauritius all the sugar it requires at a price which will not be higher than the average price of recent years, and the sugar market will be safeguarded from violent fluctuations and uncertainty.

The British Government has committed itself to do its utmost to effect the abolition of bounties. It is obvious that a Convention can now be secured with all the European Powers, but an essential feature in the Convention, as a security to the contracting States, is the inclusion of a penal clause. Without such a clause no Convention can ever be arrived at for the suppression of bounties. In fact, any Convention without such a clause, as Lord Lytton said in 1889, would put the "parties to the combination in a worse predicament than ever. They would themselves be precluded from fostering their own industry by means of bounties, while they would at the same time be at the mercy of the countries which persevered in giving bounties."

In conclusion I would quote a passage from the refiners' note (paragraph 45), which seems to show well and truly the probable effect of failure of the present Conference:

"In the event of the continental subsidies not being done away with, the measure proposed would free India from the injurious effects of a pernicious bounty system which has enabled beet sugar to dominate its markets, and threatens, in the interests of alien agricultural populations, not only to bring disaster and ruin on a large section of our own cultivating and industrial classes, but to add to the existing difficulties of the Government the most dangerous of all problems, an agrarian grievance, calculated to give rise to feeling of distrust and discontent which, once aroused, might be difficult to allay."

Dated 29th July 1898.

Demi-official from—E. C. OZANNE, Esq., British Delegate, Brussels,

To—SIR CHARLES BERNARD, K. C. S. I., India Office.

I shall, of course, be glad to write a report if you think it is expected of me, or that it would do any good.

But, after all, the only point I could press on the Indian Government is the danger which India runs through an immense increase in the volume of imports of beet-root sugar.

If this goes on, and it must go on if India does nothing, it seems to me clear that the sugar cultivation of India and the Mauritius will be most seriously and unjustly handicapped. If sugarcane profits are reduced, the whole agriculture of India must be upset. I have, in the letters I wrote from Brussels, already urged the importance of this consideration.

The refiners, both in India and England, must be ruined if bounties continue. That is perfectly well known both at home and in India, and I fear that no words which I could use would have any effect.

If you think I should write a report, please let me know, but perhaps it may be better to await the results of the efforts Belgium is making now to bring about a compromise.

Dated 23rd July 1898.

From—SIR EDWARD WINGFIELD, Under-Secretary of State for the Colonies,

To—The Under-Secretary of State for India.

I am directed by the Secretary of State for the Colonies to transmit to you, for the consideration of Lord George Hamilton with reference to the letter from this Department of the 26th of May last, a copy of the Despatch on the subject of the establishment of countervailing duties on bounty-fed sugar imported into India.

No. 161, dated 27th May, 1898.

From—His Excellency the Governor of Mauritius,

To—The Secretary of State for the Colonies.

I have the honour to transmit to you a copy of a letter, with its enclosures, addressed to me by the President of the Chamber of Agriculture, the Honourable Dr. Edwards, communicating to me the following resolutions passed by the Chamber in support of representations made to the Government of India by the Chambers of Commerce of Bengal and Upper India on the question of the importation into India of bounty-fed sugar:

Resolved—

"That this Chamber is of opinion that great prejudice is caused to the staple industry of this Colony by the importation into India, our principal market, of bounty-fed beet-root sugar upon the same terms as our unprotected product:

"That it is of the greatest importance that the admission of bounty-fed beet-root sugar into Indian markets should be discouraged:

"That the most effectual means of excluding bounty-fed sugar from Indian markets and putting an end to an unfair competition would be the imposition of a differential or countervailing duty, equal to the average amount of the bounty, upon all sugars upon which an export bounty has been paid, introduced into India:

"That it is desirable, therefore, to co-operate with the Chambers of Commerce of Bengal and Northern India in urging upon the Imperial Government the immediate relief to the sugar industry of India, as well as that of this Colony, by the imposition of a differential duty, and also the great advantage which would be secured by the direct representations of the Indian Government at the Conference of the Powers convened at Brussels for June next:

"And that His Excellency the Governor be requested to transmit the substance of these resolutions to the Secretary of State for the Colonies by cable."

2. In accordance with the wish of the Chamber of Agriculture, I telegraphed to you the substance of these resolutions on the 21st instant.

3. You will observe from the correspondence that this course was adopted on the suggestion of the Upper India Chamber of Commerce that the representatives of the sugar industry in Mauritius should address the Home authorities by telegram, urging the levy of a countervailing duty on beet-root sugar in India in the event of the Conference to be held in Brussels failing to bring about the total abolition of the Continental bounties.

4. I cannot doubt that the resolutions of the Chamber will receive your favourable consideration.

Dated 18th May, 1898.

From—The HONOURABLE D. W. A. EDWARDS, M. D., President, Chamber of Agriculture.

I have the honour to inform you that at a meeting of the Chamber of Agriculture held on the 17th instant the following resolutions were unanimously carried, on the motion of Mr. Frederick Nash, Vice-President, seconded by the Honourable Sir V. Naz, K. C. M. G.:

(See Resolutions quoted in paragraph 1 of the above letter.)

No. 3.]

No. 23 (Revenue), dated 26th January, 1899.

From—The Secretary of State for India (LORD GEORGE HAMILTON),

To—The Government of India.

In my Despatch No. 149, dated the 25th August 1898, I drew attention to the letters received from the Mauritius, urging that India should take steps to protect her own sugar and Mauritius cane-sugar from the competition of bounty-fed beet sugar. And I asked for a fuller expression of the views of the Government of India on the matter, with reference to a remark in their letter of May 1898, that they were not prepared to impose countervailing duties on bounty-fed sugar imported into India.

2. Further papers received during the past few months do not give ground for anticipating an early result from the discussions at the Brussels Conference of last summer, and there appears little hope that, in present circumstances, France will materially alter her system of sugar bounties Germany and Austria are the countries which chiefly send bounty-fed sugars to India, but nothing has occurred to show that Germany or Austria will abolish sugar bounties so long as France retains them.

3. I have recently received from the Colonial Office copy of a memorial sent by 8,000 Mauritius planters and others to your Government in October 1898, praying that countervailing duties may be imposed on bounty-fed sugars imported into India. I forward copy of these papers.* It will be seen that Mr. Secretary Chamberlain apprehends that, in present circumstances, bounty-fed sugars will drive Mauritius sugar out of the Indian market, and will entail ruin and distress on a Colony where the majority of the population are natives of India or their descendants, and that he requests that the memorial may receive the favourable consideration of Your Excellency's Government.

* Colonial Office letter of the 3rd January 1899.
Mauritius Governor's letter of the 12th November 1898.

4. In this request I concur, and I have no doubt but that you will take steps for dealing with this important matter at an early date. If, on reconsideration, you should see reasons for modifying the views expressed by the Government of India in May last, and for advising the levy of countervailing duties on bounty-fed sugars imported into India, the precise measures you would propose, either legislative or otherwise, should be clearly stated. I forward copy of a paper† which shows how countervailing duties on bounty-fed sugar are practically worked in the United States.

† Circular from the United States, America, Treasury, dated 12th December 1898.

5. Whatever may be your final advice upon the matter, I shall give the fullest consideration to your views and to the grounds on which they may be based. I recognise the fact that the Indian aspect of this question may be different from that which it presents in this country; and I shall be prepared to attach much weight to the opinions held by the people of India regarding a fiscal change, such as has been suggested by the Colonial authorities.

6. Since the foregoing paragraphs were written I have received a further letter from the Colonial Office, discussing the relation of sugar-growing British Colonies to India in the matter of coolie immigration and of the competition of bounty-fed sugars. A copy of that letter is enclosed. Regarding Mr. Secretary Chamberlain's suggestions for facilitating coolie emigration from India, I shall address you hereafter. I commend to your consideration his further remarks on the sugar bounties question. Your Government will doubtless consider the matter, chiefly and primarily, in the interests of the people of India; but, subject to this condition, any benefit which may be likely to accrue to the people of the Mauritius would be an additional argument in favour of the measures proposed.

No. 28407—98, dated 3rd January, 1899.

From—C. P. LUCAS, Esq., Under-Secretary of State for the Colonies,

To—The Under-Secretary of State for India.

I am directed by Mr. Secretary Chamberlain to transmit to you, to be laid before Lord George Hamilton, a copy of a Despatch from the Governor of Mauritius, in which he encloses a petition‡ to the Governor General of India signed by 8,000 planters and others connected with the sugar industry of Mauritius, praying that His Excellency may be pleased to impose a countervailing duty upon bounty-fed sugar imported into India, and to exempt from Customs duty sugar grown and manufactured in Mauritius.

2. Mr. Chamberlain concurs in the apprehension of the memorialists that the continued sale of bounty-fed sugar will drive Mauritian sugar out of the Indian market, and will result in ruin and distress to a Colony the majority of whose population are natives of India or their descendants.

3. He, therefore, trusts that this petition may receive the favourable consideration of Lord George Hamilton and of His Excellency the Governor General of India in Council.

No. 490, dated 12th November, 1898.

From—His Excellency the Governor of Mauritius,

To—The Secretary of State for the Colonies.

With reference to my Despatch No. 399 of even date, transmitting to you a petition addressed to Her Majesty the Queen by nearly 8,000 planters, merchants and others inter-

ested in the sugar industry in Mauritius, I have the honour to transmit to you a petition* addressed by the same petitioners to the Governor General of India in Council, praying that His Excellency in Council may be pleased to grant that sugar duly proved to have been *bonâ fide* grown and manufactured in Mauritius may be exempted from the payment of customs duty on their importation into India.

2. The prayer of the petition is similar to the prayer of a memorial of the Chamber of Agriculture transmitted to the Marquess of Ripon by Mr. King Harman's Despatch No. 158 of the 11th of May 1894. This petition was forwarded to the India Office for transmission to the Government of India for favourable consideration by the Secretary of State. The Officer Administering the Government of Mauritius was informed by your predecessor's Despatch No. 245 of the 26th September 1894 that the Government of India considered that the memorial was not entitled to their "favourable consideration."

3. I venture to express a hope that the Government of India may be willing to reconsider the question which is now supported by new and, as it seems to me, powerful arguments and that in transmitting the enclosed petition you may be able to give it your support. In my Despatch No. 273 of the 24th of August last I pointed out to you the vital and ever growing importance of the Indian market to this colony, and I can conscientiously urge the claims of the petitioners to the most favourable consideration.

Circular No. 199, dated 12th December, 1898.

From—L. J. GAGE, Esq., Secretary, Treasury Department, Washington,
To—The Officers of the Customs and others concerned.

Additional duties on sugar imported from, or the product of countries paying bounties on the export thereof.

Section 5 of the Act of 24th July 1897 provides as follows:

That whenever any country, dependency, or colony shall pay or bestow, directly or indirectly, any bounty or grant upon the exportation of any article or merchandise from such country, dependency, or colony, and such article or merchandise is dutiable under the provisions of this Act, then upon the importation of any such article or merchandise into the United States, whether the same shall be imported directly from the country of production or otherwise, and whether such article or merchandise is imported in the same condition as when exported from the country of production or has been changed in condition by manufacture or otherwise, there shall be levied and paid in all such cases, in addition to the duties otherwise imposed by this Act, an additional duty equal to the net amount of such bounty or grant, however the same be paid or bestowed. The net amount of all such bounties or grants shall be from time to time ascertained, determined, and declared by the Secretary of the Treasury, who shall make all needful regulations for the identification of such articles and merchandise and for the assessment and collection of such additional duties.

In pursuance of these provisions the following amounts of bounties respectively paid or bestowed, directly or indirectly, on the export of sugars by the countries hereinafter named, are hereby declared for the assessment of additional duties on sugars imported from, or the product of, such countries or their dependencies, *viz.*:

ARGENTINE REPUBLIC.

On sugars produced in the country since 20th January 1897, and exported with benefit of drawback, 6 centavos per kilogram.

AUSTRIA-HUNGARY.

On sugar under 93 per cent, and at least 88 per cent polarization, 1·37 florins per 100 kilograms.

On sugar under 99½ per cent, and at least 93 per cent polarization, 1·46 florins per 100 kilograms.

On sugar at least 99½ per cent polarization, 2·10 florins per 100 kilograms.

DENMARK.

On refined sugar, produced wholly from beets grown in Denmark, 1·12 crowns per 100 kilograms.

FRANCE.

Raw sugars of the standard of 65 to 98 per cent for beet-root sugars, or of 65 to 97 per cent for French colonial sugar, per 100 kilograms of refined sugar, 100 per cent, francs 10·82.

Sugarcandies, calculated at their legal equivalent per 100 kilograms, effective weight, francs 11·51.

Refined sugars in loaf or crushed, clear, hard, and dry, per 100 kilograms, effective weight, francs 11·51.

*Petition forwarded in original with the present Despatch.

Raw and refined sugars in grains or crystals, of a minimum standard of 98 per cent, francs 11·17.

The output of refined sugar from raw is calculated by deducting from the polarization of the raw sugar twice the glucose, four times the ashes, and 1½ per cent for loss in refining.

GERMANY.

On raw sugar at least 90 per cent polarization and on refined sugar under 98 per cent, and at least 90 per cent, 2·50 marks per 100 kilograms.

On candy and sugar in white, hard loaves, blocks, crystals, etc., at least 99½ per cent, 3·55 marks per 100 kilograms.

On all other sugar at least 98 per cent, 3 marks per 100 kilograms.

THE NETHERLANDS.

On raw sugar produced in the country from beets, and testing less than 98 per cent, 2·2354 florins per 100 kilograms of hard refined (100 per cent).

On raw beet sugars testing 98 per cent or above, three-fourths of said bounty, *viz.*, 1·7655 florins per 100 kilograms of hard refined.

On refined beet-root sugars, ·2946 florin per 100 kilograms of hard refined (100 per cent) in addition to the above bounties.

On refined sugar from other materials than beet-root raw sugar produced in the country, ·2946 florin per 100 kilograms of hard refined.

The output of refined sugar from raw is computed by deducting from the polarization of the raw sugar twice the glucose, four times the ashes, and 1½ per cent for loss in refining.

RUSSIA.

On sugar testing not less than 99 per cent per pood (36·113 pounds avoirdupois), ·50 rouble.

On sugar testing not less than 88 per cent per pood, ·44 rouble.

On sugar testing not less than 75 per cent per pood, ·38 rouble.

Every invoice of sugar must be accompanied by a certificate of the United States Consular Officer at the port of shipment to the United States, naming place and country where the merchandise was produced, and, in the case of refined sugar, naming also the country of production of the raw sugar, molasses, or sirup used in the refining.

The liquidation of entries of sugar not accompanied by such certificates shall be suspended, and the estimated duties shall include an amount sufficient to cover the additional duty to which such sugar may be apparently liable.

The conversion of the several foreign currencies mentioned above into United States money will be governed by the provisions of section 25 of the Act of 28th August 1894.

The question as to the net amounts of the bounties indirectly bestowed by the Government of Belgium on exported sugars is under consideration. Pending the ascertainment and determination of said amounts, entries of sugars imported from, or the product of, that country will be subject to the provisions of Circular No. 174 of 19th October 1897 (Synopsis 18,481).

No. 667—99, dated 7th January 1899.

From—C. P. LUCAS, Esq., Under Secretary of State for the Colonies,

To—The Under Secretary of State for India.

There are two questions affecting the prosperity of the sugar-growing colonies, on which correspondence has already passed between this office and the India Office, and which Mr. Chamberlain would ask Lord George Hamilton to bring to the special notice of Lord Curzon of Kedleston in order that they may receive his attention at the outset of his term of office.

The first is the subject of coolie emigration. The second is that of bounties and countervailing duties.

* * * * * * * *

7. But it seems not improbable that, however well supplied with East Indian labour the sugar planters may be, their industry may be destroyed if the bounty system continues unchecked, and, in the absence of countervailing duties or penal clauses, it is not easy to see from whence the check will come. On this subject Mr. Chamberlain can only express his own personal views as he has already expressed them in the House of Commons. There is, in his opinion, no valid economic argument against countervailing duties, and the question is purely one of policy and of expediency.

8. At first sight it would seem that it is obviously the duty of the mother country to take the first step in the matter, and that the other provinces of the Empire should follow the lead of the United Kingdom, but on this point the following considerations arise.

Till quite lately the one object of the bounty-giving nations has been to secure the sugar market of the United Kingdom itself. Of the sugar-growing British colonies, the West Indies alone have at any time within the last quarter of a century to any appreciable extent supplied the home market. The West Indies alone were therefore directly affected by the bounty system, though that system no doubt damaged the credit of the sugar industry in all parts of the world.

But, geographically, the natural market for West Indian sugar is not the United Kingdom, but the United States, and for the time being a countervailing duty is being levied on bounty-fed sugar by the Government of the United States, so that at the moment West Indian sugar finds its natural price in its natural market, and would not gain directly—though no doubt the indirect gain might be large—by the imposition of a countervailing duty in this country. To any proposal, therefore, to impose such a duty there was, and still is, an obvious rejoinder to be used with effect by those who, on political or other grounds, view with disfavour the case of the sugar producers.

9. Meanwhile, of late, bounty-fed sugar has found its way into India, and the Mauritius planters to the full, and to some extent the planters of Province Wellesley are feeling, the result of this State-aided competition in what is to them the natural market, and, as Lord George Hamilton is aware, a numerously signed petition on the subject from Mauritius to the Government of India has already been sent on to the India Office.

10. In the case of the United Kingdom it may be argued, and it is argued, that the imposition of a countervailing duty would raise the price of sugar in the interests of a few members of the capitalist class. This argument Mr. Chamberlain does not accept, and, were the West Indian colonies dependent on the British market, he would be at pains to rebut it on their behalf, but in any case such an argument is obviously inapplicable in regard to the relations of Mauritius and India.

In this instance the actual workers are East Indians, and a community in which the East Indian element, as already shown, very largely preponderates, and of whose exports sugar represents about 98 per cent, is being brought within measurable distance of ruin by being undersold in India by bounty-fed beet sugar.

11. Writing on the 3rd of November last, the Acting Governor of the Straits Settlements observes that "the invasion of the Eastern markets by European sugar sold under cost-price threatens to interfere with the best markets for locally-grown sugar, and it is very much to be desired in the interest of this colony and of the Protected Native States, in which considerable capital is being expended in sugar cultivation, that the bounty-system should come to an end at an early date."

That these views are shared in India itself Mr. Chamberlain gathers from the representations which he understands have been made by the Bengal Chamber of Commerce.

12. He does not presume to suggest to the Government of India what course should be taken in the matter, but he would ask that their most earnest attention should be given to it. He has more than once declined to allow colonial policy on commercial questions to be tied by the policy for the time being of the mother country, and if the Indian Government, in the interests of East Indians, were to see fit to penalise or to countervail bounty-fed sugar, or to give preference to the honestly-grown cane-sugar of the British colonies, he would welcome the step as likely to strengthen the opposition to bounties and to hasten the collapse of a mischievous and unsound device for ruining an important British industry.

He would ask that a copy of this letter may be sent to the Governor General in Council, with such support as Lord George Hamilton may see fit to give it.

No. 4.]

No. 27, dated 26th January 1899.

From—The Government of India,

To—The Secretary of State for India.

We have the honour to acknowledge the receipt of your Lordship's Despatch No. 149 (Revenue), dated the 25th August 1898, referring to paragraph 4 of our Financial Despatch No. 129 of 5th May 1898, and requesting to be furnished with a fuller expression of our views in regard to the proposed levy of countervailing duties on bounty-fed sugar imported into India.

2. The total imports of refined or crystallised sugar from Austria-Hungary and Germany into India during the last three years, as given in the Trade and Navigation Accounts, are quoted on the margin. It may be assumed

	1895-96.		1896-97.		1897-98.	
	Tons.	Rs.	Tons.	Rs.	Tons.	Rs.
Austria-Hungary ...	246	63,582	5,777	13,13,792	47,287	1,04,45,039
Germany ...	35,910	87,50,225	37,940	87,57,394	60,165	1,27,88,053

that the imports of sugar from these countries represent bounty-fed beet sugar, which is being diverted to India in consequence of the closing of the American market by countervailing duties. The striking increase in these imports dates only from 1897-98. Simultaneously with these imports from Germany and Austria-Hungary imports from Mauritius have continued on the scale of preceding years, and prices of imported sugars are at present much lower in this country than in the past. They compete in the up-country bazaars not only with the best kinds of native sugars, but also with the commoner kinds of native sugar, produced by a rudimentary system of refining. There is evidence that the profits of native sugar refiners have in consequence been considerably diminished, that they have had difficulty in disposing of their stocks, and that in some places refineries have been closed. How far these effects are likely to be permanent it is impossible to say. Enquiries have been initiated in our Department of Revenue and Agriculture, as the enclosed copy of letter will show, and they will be supplemented by enquiries into the prices of both refined and coarse sugar which will be undertaken by the Director General of Statistics. With these data before us we shall hereafter be in a position to express a final or, at any rate, a more confident opinion on the policy of imposing countervailing duties. Meanwhile, as Her Majesty's Government wish to determine within the next few months what course they should pursue, we indicate the general considerations by which we should be guided in arriving at a decision.

3. We have already said that, owing to low prices, which are popularly connected with the great increase in the imports from abroad, the sugar refining industry in India is at present unprosperous. Among the poorer classes there is a considerable consumption of unrefined sugar, and we are at present without evidence as to what extent, if any, the commoner kinds of refined sugars, whether of native manufacture or imported, are taking the place of unrefined sugar among those classes, or reducing its price. But the probabilities are that, if the imports from foreign countries continue to increase, the demand for, and the price of, unrefined sugar will be affected if it has not already been so. If this movement were carried beyond a certain point, it would result in the abandonment of the cultivation of sugarcane and the substitution of some other crop on those lands on which the cultivation is now conducted least advantageously. It is possible that this might take place to an extent sufficient to affect the security of our land revenue or canal receipts, as lands irrigated from canals rank among those most advantageously situated for the purpose of sugarcane cultivation. On this subject reference may be made to a passage towards the end of Sir John Strachey's Financial Statement for 1877-78.

4. The direct discouragement of the manufacture of refined sugar, whether by European or native firms, would be a serious evil in itself. Within the last twenty years a great impulse has been given to the cultivation of sugarcane by the introduction of improved sugar mills, which enable the cultivators to extract more juice from the canes, and the number of sugar factories has increased greatly. We cannot but view with disapproval any influence which tends to discourage the growth of manufacturing industries in a purely agricultural country, and this is more especially the case when the manufacture works up the produce of a crop which State irrigation has rendered to a great extent independent of seasonal vicissitudes.

No. 15—48-3, dated 31st October, 1898.

From—T. W. HOLDERNESS, Esq., C.S.I., Secretary to the Government of India, Department of Revenue and Agriculture,

To—The Secretary to the Government of Madras.
" " " " Bombay.
" " " " Bengal.
" " " " the North-Western Provinces and Oudh.
" " " " the Punjab.
" " " " Burma.
" Chief Commissioner of the Central Provinces.

" Resident at Hyderabad.

The Government of India are anxious to obtain information as to the effect which the increasing imports of refined sugar from Europe and from Mauritius into India have so far exercised, or are tending to exercise, on the market for, and the price of, Indian sugars, and
